

Some women imagine that nothing will stand the peculiar breaking strain of their forms on corset "bones."

They don't know Kabo, which neither breaks or kinks.

If Kabo breaks or kinks in a year, go back to the store at which you bought your corset and get your money again, every cent of it.

If the corset doesn't suit you, after wearing a week or two or three, go back for your money.

There's a primer on Corsets for you at the store.

TOBACCO TAXES.

To the Editor of the Journal.

Can't every one who wants to sell cigars and tobacco without having to pay license after January 1, 1891?

M. L. B.

WAVELAND, Dec. 1, 1890.

Section 26 of the McKinley act provides that on and after the first day of May, 1891, all special taxes imposed by the laws now in force upon dealers in leaf tobacco, dealers in tobacco, manufacturers of tobacco, manufacturers of cigars, and peddlers of tobacco are hereby repealed. Every such dealer shall, however, register with the collector of the district his name, place of residence, trade or business, and the place where such business is to be carried on, the same as though the tax had not been repealed, and a failure to register shall subject such person to a penalty of \$50.

Section 27 removes all restrictions placed upon farmers and growers of tobacco in regard to the sale of their leaf tobacco and repeals the tax on account of such sales. Every person who proposes to deal in tobacco in any form should procure a copy of the law and familiarize himself with its provisions. While there are no taxes to be paid yet there are certain things he must do the violation of which subjects him to a heavy penalty.

EVERYTHING points to the selection of Grover Cleveland as the standard bearer of the Democracy in the next presidential campaign, and everything points to his slaughter when selected. Such is the expressed judgment of the best political philosopher at Washington. In arriving at these conclusion he says, not so much account is taken of the Republicans of the Democratic situation, Cleveland, he adds, may have strength with the Democratic masses but he has neither the friendship or sympathy of the men, who so far as his own party is concerned, make and unmake presidents. The man who is the brains of his clan as a political manager, Arthur Gorman, is against him, the man who rules the roost in New York, David B. Hill, is anxious to supplant him, and the man who raises the money to cover the election expenses, Calvin Brice has not forgotten the slights heaped upon him by Cleveland because President Harrison was elected. It will, says the political prophet, be Cleveland or nobody, with the chances largely against the first named when the final issue comes.

THE AMERICAN HARVESTER COMPANY, protected 45 per cent, by the McKinley bill, is a combination of all the farm machinery manufacturers of the country, with a capital of \$35,000,000, organized for the sole purpose of making the farmers pay more for their machinery.

—American Pioneer.

There is not a word, sentence or paragraph in the McKinley act placing a tariff of 45 per cent, or any other per cent, ad valorem or specific, directly or indirectly, on farm machinery of any kind. As the election is over isn't it about time to quit lying about the McKinley tariff act. Either the Pioneer is densely ignorant or woefully dishonest.

TIN has gone down 10 per cent, since the McKinley bill went in force, October 6th. It is now time for some of the Democrats to tell us the tariff on block tin don't go into force until in 1892. Oh, ye, and you knew it when you were lying about tinware a month or two ago, did you?
