

Kabo never works up or down or breaks. If it does in a year, you shall have your money back from the store where you bought your corset.

The steels may break—the best of steels have their limits of strength. But Kabo has no breaking-limit; it doesn't break at all.

And the Kabo corset is perfect in form.

The store has a primer on Corsets for you.

MONEY IN IT.

Are people who spin out their brains in books and newspapers for the public reading so wretchedly paid as is claimed? It may be that the pay is often as good as the writing, in these days of words and loose, scattering writing, and thus after all those who pay the writers manage to "make the punishment fit the crime." Writers ought to be made to understand that in this, the day of blanket newspapers, when the public are wearing out their eyesight trying to keep up with current events, two words used when one would have answered the purpose is a crime and nothing short.

There is, however, at least one man in America who has a handsome income out of literary work. His name is not heralded to the world by the trumpet of fame. No savage reviewer drives him mad by a spiteful dissection of his best sentences. In fact hardly anybody knows his name at all, so modest and unassuming he is. Yet his writing is read by more people than perhaps any other literary work except the Bible ever was. It is under the eye of the public every day, and they read it always with renewed interest. It is good writing, too, model for journalists, brief, terse, not a word too much, yet it says all that is necessary. It is crystal clear as to its meaning. This man who writes can discern the meaning of current events and put it before his readers better than almost any leading editorial writer in America.

He is said to earn \$35,000 to \$40,000 every year by his pen. He is the writer of advertisements for a number of the largest business firms in the country.

WHILE England proclaims in favor of free trade in a manner which would indicate that she collected no revenue whatever from customs duties, or in fact not very much from any source, the truth is she to-day levies and collects annually nearly \$100,000,000 from customs' duties, and what is still worse, these duties are levied in the main and almost exclusively on the necessities, and not the luxuries, of life. In 1888 her customs duties were \$97,879,380, and over \$23,000,000 of which amount was levied on the single article of tea, nearly \$1,000,000 on coffee, \$1,587,553 on currants, \$355,000 on chicory, \$883,000 on rations, \$14,707 on cocoas, \$25,750 on prunes, and \$146,220 on figs. But aside from this the poorer classes in England are ground to powder by taxation. Everybody is taxed. The humble householder, the tradesman, professional man, public officer, deaths, legacies, wills, probates, etc. Those who prefer the English free trade tariff to the American protective tariff should emigrate.

A colossal combination has been made among the mower and reaper manufacturers of America. Cyrus H. McCormick is its president. Binding twine is an essential attendant on harvesting, therefore the cordage factories have been invited to join the combination, and many of them have accepted. The syndicate declares on its word of honor that it will supply farmers with harvesting machinery and binding twine cheaper than they have ever had it before.

On the soldiers whose names were on the pension rolls at Indianapolis 419 died during November. The old boys are rapidly passing away.

The State Treasurer of Arkansas is short in his accounts \$67,000. It is unnecessary to say he is a Democrat.

Lillian Lewis.
Miss Lillian Lewis will appear at Music Hall to-night in her new play, "Credit Lorraine." The Baltimore Sun says: The presentation of "Credit Lorraine" at the Holiday Street Theater last evening was a splendid dramatic triumph. It proved in every sense a perfect and gratifying realization of all that the audience expected. Miss Lewis, and in fact the entire company, received repeated and enthusiastic encores at the termination of every scene. "Credit Lorraine" is a pronounced success and cannot fail to merit popular appreciation. The play is grandly staged and the supporting company, which includes W. A. Whitecar and Archibald Cowper, is excellent. The gorgeous costumes of Miss Lewis are superbly magnificent. She is undoubtedly the most beautifully dressed artiste of the present age. In her grand impersonation of Lenora Di Castiglione she loses self and is a living exemplification of the character she assumes. "Credit Lorraine" is replete with intense interest. The plot is ingenious, deep and natural. In a word, the entire production is faultless.

Haywood is Satisfied.

Prosecutor Haywood is well satisfied with the allowance of \$1,500 made to himself and Colonel Wilson by Judge Snyder at Crawfordsville yesterday, for their labors in the prosecution of Pettit for murder. To a Lafayette Courier reporter he said: "I think Judge Snyder treated me very kindly indeed. He could have made no allowance that would have compensated me. I am out of pocket considerably more than I expected to recover. Since the trial began I have had to pay Mr. Wood for attending business here. Then I have lost several thousand dollars in not being able to look after the tax case." Mr. Haywood further stated that Mr. Anderson would come in for an equal share of the allowance. "I would be a pig," he continued, "not to share with him. He did lots of good work in the case."
