## This Date in History—March 31.

1547—Henry II proclaimed king of France.  
1621—Philip IV king of Spain.  
1723—Birth of Francis Joseph Haydn, musical  
composer, died 1809.  
1757—Expulsion of Jesuits from Spain.  
1774—Boston port bill annulled.  
1814—Alexander of Russia and Frederick William  
III entered Paris with their victorious armies.  
1867—Death of Beethoven, musical composer;  
born 1770.  
1891—Boles defeated the Russians at Wawa; after  
two days' hard fighting all the Russian posi-  
tions were carried by storm, and they re-  
treated with the loss of 12,000.  
1892—Death of John C. Calhoun, American states-  
man; born 1782.  
1895—Death of Charlotte Brontë (Mrs. Nichol),  
novelist; born 1816.  
1897—Sturgeon's great Baptist tabernacle opened  
in England.  
1901—Indecent battle at White Oak Road, Va.;  
Union lost 1,500, Confederate 1,200.  
1872—Death of Mrs. James Gordon Bennett in  
Saxony.  
1885—The town of Battleford was pillaged and  
burned by Indians during the Red rebellion in  
Asinwall to escape capture by government  
troops.

It is about time for more candidates  
to blossom out.

We still have a few muddy crossings.  
The Board of Public Improvements  
should make a tour of inspection on foot.

The Republican primaries are to be  
held Wednesday evening, April 15. It  
is every Republican's duty to attend.  
The man who does not attend should be  
the last to criticize the candidate selected.

It is order to have a vote at the coming  
city election, you must live in your pre-  
cinct for at least thirty days prior to the  
5th day of May. Republicans, do not  
move out of your precinct after April  
5. If you do, you will lose your vote.

During the last fiscal year the United  
States sold to the United Kingdom of  
Great Britain and Ireland goods worth  
\$144,459,000, while we bought of her  
only \$186,488,956. And yet the free  
trader says "if we do not buy we cannot  
sell."

We do not see why farming can not  
be made to pay when the run of prices  
in the markets shows that for what  
farmers sell they get about the same  
now as they got thirty years ago, while  
for what they buy they pay twenty-five  
per cent. less.

The last Legislature reduced the tax  
on sleeping car companies 80 per cent., on  
telephone companies 50 per cent., and  
on express companies 50 per cent., while  
the taxes on farmers were increased 100  
per cent. Is this the relief the farmers  
asked for during last campaign?

We call attention to Mayor Carr's  
proclamation in regard to building and  
repairing houses. The law providing  
that no building shall be erected with-  
out a permit from the City Clerk has  
been very loosely enforced heretofore.  
The proclamation comes in good time,  
just before the Spring building begins.  
What is the law for if not to be observ-  
ed, and what is the Mayor for if not to  
enforce the law.

The late lamented Democratic Legis-  
lature had a very warm side for cor-  
porations. By the act of 1889 sleeping car  
companies doing business in this State  
were required to pay 10 per cent. of  
their gross receipts into the State  
treasury. This was reduced to 2 per  
cent. The telephone companies were  
required to pay 1 per cent. The new  
law reduces this to one-fourth of one  
per cent. No reduction, however, was  
made on the land-owner, but on the  
other hand his taxes will be more than  
doubled. Great is a Reform Democratic  
Legislature.

The Shafer farm of 520 acres, eight  
miles east of town, is now appraised at  
\$35 an acre, making an appraisement of  
\$18,200. The State tax has been 12  
cents, which made the taxes \$218.40.  
Under the new law this land must be  
appraised at its full, true cash value  
which is at least \$50 an acre, making  
the appraisement \$26,000. The State  
levy is 18 cents. This would make the  
taxes on that farm amount to \$468—  
more than double. How does the  
proprietor of this farm like a Democratic  
Legislature?

## The Treasury's Watchdog.

The cut here given of the late Francis  
E. Spinner, for many years treasurer of  
the United States, is copied from one  
given in Scribner's Monthly in 1878, and  
shows the treasury's watchdog receiving  
rural visitors.

Child and Mother.  
O, Mother My Love, if you'll give me your hand,  
And go where I ask you to wander,  
I will lead you away to a beautiful land,  
The dreamland that's waiting out yonder.  
We'll walk in a sweet path garden out there,  
Where moonlight and starlight are streaming,  
And the flowers and the birds are filling the air  
With the fragrance and music of dreaming.

There'll be no little tired out boy to undress,  
No questions or cares to perplex you;  
There'll be no little troubles or bumps to caress,  
Nor patching of stockings to vex you;  
For I'll rock you away on a silver dew stream  
And sing to you sleep when you're weary,  
And no one shall know of our beautiful dream,  
But you and your own little dreamy.

And when I am tired I'll nestle my head  
In the bosom that's soothed me so often,  
And the wide awake stars shall sing, in my stead,  
A song which our dreamland has given;  
So, Mother My Love, let me take your dear hand,  
And away through the starlight we'll wander,  
Away through the mist to the beautiful land,  
The dreamland that's waiting out yonder.

## THE WAYS OF NATURE.

GREAT crevasses in Cuba are said to  
foreshadow its speedy breaking in two  
and sinking.

The average width of the path of de-  
struction with tornadoes is said to be  
little more than one thousand feet.

In Boise City, Idaho, the water com-  
pany has sunk an artesian well one  
hundred and twelve feet deep, from  
which flows a sulphurous water with a  
temperature of 115 degrees.

A ST. JOSEPH (Mo.) weather prophet  
says that from May 1, 1891, to May 1,  
1892, will be an era of general destruc-  
tion throughout the United States.  
Earthquakes and volcanoes all over the  
world will be very active.

In a recent game the anemometers on  
the top of the Eiffel tower registered  
six hundred and thirty miles an hour.  
Had this velocity occurred at the level  
of the city every chimney would have  
been leveled to the ground.

OBSERVATIONS seem to show that a  
decrease in the earth's latitude is in  
progress, implying an alteration in the  
direction of the earth's axis. The fluc-  
tuation is thought to be due to a mi-  
nute oscillation caused by some changes  
in internal wars of the earth.

## A LITTLE VARIETY.

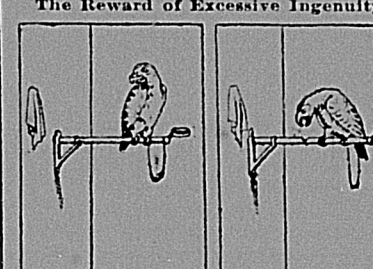

VERMONT has organized a fish and  
game league.

"Why do they call them 'foam-  
pans'?" "Oh! I suppose because they  
are forever overflowing."

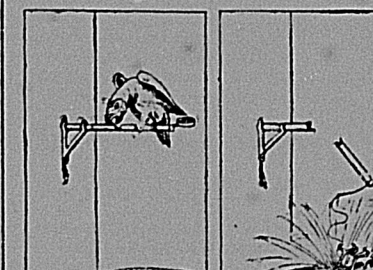

For troublesome weeds and for grass  
in sidewalks, driveways, etc., apply a  
dressing of coarse salt; this will kill all  
growth. Be careful not to put it on any-  
thing that should not be destroyed, however.

CHARLES KING, of Danvers, Mass.,  
claims to be one hundred and ten years  
old, and when he is seated on a soap  
box in the corner grocery he defies all  
the boys to prove that he isn't a genu-  
ine antique.

## The Reward of Excessive Ingenuity.

I. "I wish I could get off this  
foundered old perch."  
II. "Ha, ha! I have  
a great scheme."

III. "I'll soon be off  
my base!"  
IV. "I'll soon be off  
my base!"

A Column of Fresh Intelligence  
from Indiana Towns.

## Bowen Heirs Must Pay.

DELPHI, Ind., March 31.—The work  
of attempting to collect back taxes  
from the wealthy Bowen heirs who fled  
the state with their personal posses-  
sions Thursday night goes on. The  
flight of these millionaires was precipi-  
tated by the filing of a statement  
with the auditor asking that \$2,000,000  
be placed on the tax duplicate  
against the estate of the late Abner H.  
Bowen. This has been supplemented  
by two others, one against the banking  
firm of A. H. & A. T. Bowen, for \$1-  
800,000, the other against Abner T.  
Bowen for \$2,000,000. The sum total  
the auditor will be asked to place on  
the duplicate is \$5,600,000. A. T.  
Bowen, who was in the banking busi-  
ness with his father, is immensely  
wealthy in his own right. As a tax-  
dodger he eclipses his illustri-  
ous parent, as an examination  
of the duplicate shows that  
last year he returned the sum  
total of the value of his possessions at  
\$40. Additional complications are  
likely to arise by reason of the fact that  
Congressman-elect Husey of Illinois has  
taken out letters of administration on  
the estate of the elder Bowen in Illi-  
nois, and he has served notice on the  
debtors in this state that he is author-  
ized to collect all debts due the estate,  
and urging them to make immediate  
settlement. The attorneys for the ad-  
ministrator appointed by the court  
threaten to call Col. Bussey to answer in  
the United States court.

## Indianapolis Labor Troubles.

INDIANAPOLIS, Ind., March 31.—The  
backbone of the building trades  
troubles was broken Saturday when  
the General Contractors' association  
and the Carpenters' union arrived at a  
compromise brought about through the  
efforts of National Secretary McGuire.  
The agreement provides for a perma-  
nent arbitration committee; eight hours  
a day's work; overtime to be paid for  
at time and a half; Sunday and holiday  
work as double time; wages of journeymen  
shall in no case be less than 27 1/2  
cents per hour; stair-builders, 35 cents  
per hour. The carpenters agree to  
work with non-union men in other  
trades. The contractors agree not to  
discriminate against union men. It is  
expected the plasterers, painters and  
plumbers will immediately arbitrate  
their differences.

## That Monk Was a Fraud.

INDIANAPOLIS, Ind., March 31.—In-  
vestigation shows that Henry C. Berg,  
the alleged Franciscan monk, who was  
baptized into the Christian church Fri-  
day night, is a fraud from Louisville,  
Ky., who has been doing a thriving  
business as an "apostate," being quite  
impartial as between denominations in  
bestowing his faith. He has probably  
been baptized in more different styles  
than any other man in America.

## Notre Dame's New Building.

NOTRE DAME, Ind., March 31.—The  
building recently erected for the use of  
the school of mechanical engineering of  
Notre Dame university is now ready  
for occupancy. It is a three-story  
structure, of pressed brick, 150x40 feet,  
and built in the modern Greek style of  
architecture. To harmonize with the  
other college buildings, Prof. A. F.  
Zahn, recently of Cornell, is to have  
charge of this department.

## North Indiana Conference.

HUNTINGTON, Ind., March 31.—The  
north Indiana Methodist Episcopal con-  
ference is in session at the Methodist  
Episcopal church in this city and will  
continue through the week. The at-  
tendance will be large, as the district  
includes all the counties in northeast-  
ern Indiana. A number of eminent  
ministers have promised to be here.  
Almost every city and town in the dis-  
trict will be represented.

## Fort Wayne Factories Idle.

FORT WAYNE, Ind., March 31.—The  
Olds wheel works of this city, which  
belong to the American wheel trust,  
has received orders from the general  
office at Chicago to close down for an  
indefinite period. This will throw 300  
men out of employment. The Pitts-  
burgh, Fort Wayne & Chicago railroad  
has discharged 100 men employed in the  
shops in this city.

## Died from His Injuries.

WABASH, Ind., March 31.—Fireman  
Charles Dickson, of Andrews, died  
Saturday from injuries received in a  
railway accident at Kellers, October 19,  
1889. William Marquis, who was  
convicted of displacing a switch by which  
the train was wrecked, has just been  
released after a year's imprisonment  
for the crime.

## Nickel Plate Shops to Be Moved.

FORT WAYNE, Ind., March 31.—It is  
said the shops of the Nickel Plate road  
at Conneaut, O., and at Stony Island,  
Ill., will be removed to Fort Wayne  
this summer. It is said that a party of  
officials of the road have selected a  
sixty-acre tract in the eastern part of  
this city on which to erect extensive  
shops and sidings.

## Ten Years for Murder.

PORTLAND, Ind., March 31.—The jury  
in the case of Joseph Shearer for  
killing George Miller sentenced him to  
the penitentiary for ten years.

## Fatally Hurt by a Premature Blast.

JEFFERSONVILLE, Ind., March 31.—  
Louis Monday and William Hall were  
fatally injured by a premature blast at  
Green's quarry Saturday morning.

## Fire in Peru.

PERU, Ind., March 31.—The stables  
attached to the brewery of J. O. Cole  
at this place were destroyed by fire  
Saturday evening. The loss is about  
\$5,000; covered by insurance.

## Missionary Schooner Lost.

SAN FRANCISCO, March 31.—Ad-  
vices have been received here that the mis-  
sionary schooner Chapman was lost on  
the west coast of Tahiti, November 30,  
1890. She was bound from Honolulu to  
Pitcairn Island. The crew, numbering  
sixteen, were drowned.
