A TALE OF HORROR.

To-day we give space to a communication from William L. Shular, lately released from parole from the northern penitentiary, in which he gives a description of the methods of that prison, rivaling in interest, the Siberian articles of Kennan. If the last part of what he says be true, the State of Indiana through her officers and Legislature should accomplish a quick complete reform. There should be an end of white washing committees and Mr. Shular's offer to assist in the next investigation should be accepted.

There is quite a wave of sentiment passing over the country, not confined to any political party, favoring the election of Senators by the people instead of by the legislature as the constitution provides. Amending the constitution is a tedious and difficult process and it is not likely that the friends of this idea will be able to accomplish their purpose this year. But in effect the plan of the Democrats in Illinois is the same as a direct election of Senators by the people. At the Democratic State convention Gen. Palmer was named as their choice for Senator and the party pledged to elect him if they had a majority of the legislature. Gen. Palmer made a canvass of the State in his own interest and being elected the effect was the same as if the people had chosen him directly.

GEN. H. B. CARRINGTON contributes a two-column article to the Boston *Traveler* in which he reviews the recent article of Captain Godfrey and General Fry in the *Century Magazine*, and in which the injustice done in those articles to Colonel Hughes and Major Reno is emphasized. General Carrington is in possession of all the facts of the case, and his article must be regarded as authoritative. It is evidently a valuable contribution to the history of the famous last battle of the gallant Custer.

It is estimated that the prohibition of American pork by foreign nations entailed a loss of \$26,000,000 per year upon the farmers of this country (forten years, or a total of \$260,000,000; and they will now proceed to make it back, thanks to the Republican administration that has secured the removal of said discrimination.

Dr. CUNNINGHAM'S ideas in connection with the late wreck as he expressed them at his congregation last Sunday evening are worthy the thoughtful consideration of every good citizen. They appear in this paper to-day.

DEAFNESS CAN'T BE CURED.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness cured by catarrh that we cannot cure by taking Hall's Catarrh Cure. Send for circulars free.

STATE NEWS.

Interesting Occurrences in Many Indiana Towns.

Declares It a Fraud.

INDIANAPOLIS, Ind., Jan. 19.-The state auditor's office, through Mr. Duke, chief of the insurance department, has given out that the "Indiana Farmers' Insurance Company of Elwood" is a fraud of great proportions.

Several weeks ago Auditor Henderson began receiving letters of inquiry about the company. An investigation was made, which resulted in the company being black-listed, and the prosecutor of Madison county was instructed to bring proceedings against the officers of the company. The latter part of last week Mr. Duke received word from the Madison county prosecutor that the company had no offices at Elwood, and that he was unable to get any trace of the men who were practicing the fraud. Further investigation by Mr. Duke showed that the company had never been incorporated under the laws of Indiana, and that some one outside the state was evidently working the concern. On Monday Mr. Duke was put in possession of information which shows that the men who are operating the fraud reside in Chicago. The names of the swindlers were obtained, and a government post office inspector will be asked to arrest the men on the charge of using the mails for fraudulent purposes. The company has been doing a large business among the farmers of Indiana and Michigan.

Found a Box Full of Money.

INDIANAPOLIS, Ind., Jan. 19.-Considerable excitement has been occasioned near Bedford, this state, by the finding of \$4,000 in greenbacks at the roots of a tree in which Stephen Clark was hanged by a mob several years ago. It was supposed that Clark had hidden large sums of money, and the boys in the neighborhood have from time to time been searching for it. Sunday night Clark's widow was awakened by the light of a lantern under a tree in the yard and discovered some boys at work with a pick. They dug about 2 feet in the ground and secured broken pieces of a wooden box. Continuing their labors they dug down to old coal, and after unrolling it found a revolver, some counterfeiting molds and \$4,000 in greenbacks. Clark was hanged on the same tree for murder, and after his death the remains of five men and one woman were found in a cave near his house, believed to have been murdered by him.

Asks \$10,000 for Malpractice.

BRAZIL, Ind., Jan. 19.-The circuit court here was convened yesterday, Monday to hear the case in which Dr. Priehard and Mulliken, prominent physicians of Putnam county, were charged with malpractice. The plaintiff claims \$10,000 damages.

She was an active church worker, being at original member of the Presbyterian church.
