### ANNOUNCEMENT.

Articles of association have been filed with the Recorder and the Secretary of State, incorporating the business of The JOURNAL, with T. H. B. McCain, A. A. McCain and J. A. Greene as stockholders and incorporators. The management and policy will remain practically as heretofore. Improvements will be made from time to time and the best efforts of all will be exerted to keep The Journal in the front rank of Indiana newspapers.

The whites in Louisiana have declared for the lottery. This shows that the negroes are not the "corrupt people" of the South.

SENATOR CULUM has withdrawn from the Presidential race, and announced himself as in favor of President Harrison's re-nomination.

In 1888 the Democratic Presidential candidate was a "Cleveland boy" that horse has changed color and is now a "chestnut"—according to the Cincinnati Commercial Gazette.

FULLY one-fifth of the bright tin plate used in the United States is now made here, and practically all of the roofing tin used. Tell it to the free trade tin plate liars.

The Republican sentiment in favor of the re-nomination of President Harrison is practically unanimous. The Minne- apolis convention promises to be simply a big ratification meeting.

It is now a well known fact that the average of labor wages is decreasing yearly and rapidly in England, despite the efforts of trade organizations to prevent that inevitable result of a poor home market and a declining commerce.

RHODE ISLAND will hold its State election next Wednesday. "Little Rhody" has the eyes of the Republic on her as the result will be of national importance. Republicans are in good shape and are confident that they will sweep the little State.

FIBRES that do not lie show that over \$20,000,000 of value was added to the woolen goods production of this country under the McKinley law during the last ten months of the year 1891, and these woolen goods were never before so low in price as they were during that time and are now.

NEVER in the history of the country, has a president shown more of that quality so much admired by Americans and which is generally termed back bone, as has been shown by President Harrison. Throughout the correspondence between this administration and Italy, Chili and Great Britain, he has shown nerve and ability equal to any emergency. What is better, his course is approved by all, without regard to party affiliations and whatever the result of the present controversy over the seal fisheries Harrison will be sustained by the Senate and the people.

### Jim's Story.

I tell you plain, if I don't try  
To brace myself right firm I'll cry.  
This soft wind and this haze and sun,  
And the gold and red that melt and run,  
And splash the hills and the not here  
To say things about the dying year!  
Didn't I tell you? Oh, I see.  
They called her Nora, but let me  
For she was a delicate lady born,  
And I, well, I was huskin' corn.  
So I loaded her Miss. She was stayin' here  
For the county fair, but she was here  
Sometime she'd sit out under a tree  
And watch the hired man work, that's me!  
But she got so frail-like along in the fall  
That she didn't weigh nothing waps and all.  
And the women folks got me to lend a hand  
Moving her out in the sun to be tanned.  
That's what they said, but she didn't seem  
To care about jokin', just wanted to dream  
And look at the fall, gold and red,  
On the hills, and talk about bein' dead!  
Cheerful? Well, not exactly that.  
But I used to potter around where she sat,  
Just watchin' her sort of under the rim  
Or my hat, an' wishin' she'd call me Jim!  
Ever have that feelin'? Well, I never cared  
For a girl that was well, but if I dared  
I'd tell her how I made me 'brill!  
When I stole a look at her, sittin' so still  
And holdin' the red leaves in her hands,  
Quoth some one about lotus lands.  
Some place where it's always afternoon.  
In a voice that was soft and sweet as a tune,  
And so I just listened from under the rim  
Of my hat, sort of wishin' she'd call me Jim!

### The Nitrate King.

LATEST PORTRAIT OF COLONEL NORTH.  
(From Harper's Weekly.)

Colonel John T. North is known as the "Nitrate King." He is an Englishman, fifty years old, has toiled like a slave for three-fourths of his life and is now reputed to be worth \$100,000,000. All this he acquired by developing the great nitrate deposits of Peru. These belong to the property of Chili as a result of the war between the two countries, and it is not necessary to add that of all men in the world Colonel North had the greatest interest in the maintenance of peace between the United States and Chili. He learned the trade of wheelwright, went to Peru on a venture, got control of the nitrates by shrewdness and is now a multimillionaire.

### Tried the Madstone.

INDIANAPOLIS, Ind., March 31.—Her- man E. Shawer, who was bitten in the arm by a vicious dog Monday, returned from Terre Haute Wednesday, where he went to have the famous madstone, owned by Mrs. Peiffer, applied to the wound. He comes back a firm believer in the efficacy of the treat- ment. When the stone was first applied it remained firmly at- tached to his arm for four hours and forty minutes, when it dropped off. A second application of one hour and a third of thirty minutes was made, but the stone did not take the same hold, having apparently absorbed all the virus. The sensation while the mad stone was absorbing the poison was like that felt when the arm is "asleep." The stone was afterward placed in milk, which extracted the poison from it.

### Non-Union Men Maltreated.

INDIANAPOLIS, Ind., March 31.—The non-union men employed by the street car company during the late strike and now in its service have been sub- jected to frequent insults and Tuesday night two of them were assaulted. The officers say Gillen is one of the most dangerous crooks in the country.
