WEDNESDAY, OCT. 5, 1892.

REPUBLICAN TICKET.

NATIONAL.
For President,
BENJAMIN HARRISON, of Indiana.
For Vice-President,
WHITELAW REID, of New York.

This Date in History—Oct. 5.

1492—Columbus in great perplexity and some peril the morning light proved Pinzon to have been mistaken, as no land was in sight; with some difficulty the disappointed sailors were encouraged and the fleet continued westward, the wind favorable and the sea remarkably smooth.
1811—Battle of the Thames. Tecumseh, the great Shawnee chief; General W. H. Harrison commanded the Americans and General Proctor the British.
1856—Burning of the Crystal Palace in New York; loss in materials, \$500,000, and the building, which cost \$633,000.
1887—Tom King, ex-governor and long the chief champion of England, died.
1891—Treaty of peace between France and the king of Dahomey; France to have the principal part of a tract of territory and protection over Porto Novo; the king broke the treaty, and now there is war again.

COST OF SUPERVISORS.

The Review in speaking of the election supervisors says:
The cost of this service is enormous, and when taken in the country at large, it foots into millions of dollars. These supervisors serve two days, and are allowed \$5 a day when there are funds in the treasury available. There are over 3,000 election precincts in the State, which at \$20 for each precinct, would make over \$60,000.

The Review's statement is entirely erroneous. Section 2,031, of the United States laws which provide for the appointment of election supervisors, reads as follows:

"* * * And there shall be allowed and paid to each supervisor of election * * * compensation at the rate of five dollars per day for each day he is actually on duty, not exceeding ten days; but no compensation shall be allowed, in any case, to supervisors of election, except to those appointed in cities or towns of twenty thousand or more inhabitants."

It will be seen therefore that the election supervisors will not cost Montgomery county a farthing. Crawfordsville not being a town of 20,000 inhabitants no compensation will be allowed to supervisors for this city, as E. E. Ballard and C. W. Wright, who were Democratic supervisors in 1888, will testify.

A PREPOSTEROUS CLAIM.

The claim put forth by the Democrats that three or four thousand Indiana Republicans will follow Judge Greenham into the Democratic party is to assert that there are three or four thousand Republicans in Indiana who have no minds of their own, and have to depend on somebody else to show them how to vote. If Judge Greenham can assign any good reason for going over to the Democracy just now, his reason may influence others; but to say that Republicans will follow him without any reason therefor except that he saw fit to abandon the Republican party, is preposterous. Republicans have minds of their own, and vote from principle. They do not follow men. They are not man-worshippers; and if Gen. Harrison himself were to go over to the Democracy under the influence of some imaginary or real grievance, we doubt if a dozen Republicans in all the United States would follow him. Judge Greenham may have reasons that will satisfy him in leaving the Republican party, but he has not given them to the public, and until he does his going over to the camp of the enemy will have no more weight than any other man's changing from one party to another.

That bankruptcy of the United States Treasury which the Democrats have been talking about for several years still refuses to materialize. On the contrary, the Treasury statement shows that after meeting all proper demands during the past month there has been an increase of \$2,000,000, in the amount of available cash on hand, since the first day of September. Wonder if there is a single Democrat who would object to

personally going through that sort of bankruptcy? The Democratic calamity waiters now so numerous on the stump will find it convenient to say nothing about this little matter; they are not over fond of the truth any way, as those who have listened to them have long ago ascertained.

THIRTY-ONE new members were admitted to the Morton Club last evening, three of them being life long Democrats. The ranks are filling up.

BROWN and Bonnell's spies were out in force last night.

FARMERS' DISCOVERY

THEY LOOK UPON THE PEOPLE'S PARTY AS ASSISTANT DEMOCRATS.

Unwilling to Vote with the Third Party When Such a Vote Will Help Put Cleveland in the White House—Bitter Recollections of Sparks' War on Homesteaders

[Special Correspondence.]
CHICAGO, Sept. 26.—The assistant Democratic party, called by courtesy the People's party, is finding its efforts to capture Republican votes in the west and northwest far from a success. Word comes from all the western states where the Democrats are attempting to hoodwink the Republican voters by getting them to vote for the third party ticket, that the effort is proving unsuccessful. Those who have heretofore been Republicans are beginning to see that the Democrats are merely making a cat's paw of them by secretly pushing the third party movement among them. They find, not only that every Alliance man in congress was an assistant Democrat, but that a vote for Alliance candidates means a vote to put Grover Cleveland in the White House and the Democrats in control of the house and senate. The Third Party Merely a Democratic Assistant.

They are seeing that the third party cannot expect to accomplish anything more in the election than to weaken the Republicans and strengthen the Democrats. They see that if the third party carries any of the western states for its electoral ticket it will merely take that many votes away from the Republican candidate and not improve the situation in the slightest degree. They are beginning to realize that by casting their votes for third party electors they will help put into the White House a man much more hostile to silver coinage than is Mr. Harrison; a man much more hostile to the old soldiers who saved the country a quarter of a century ago; a man more hostile to reciprocity, which has opened new markets for our farm products to the extent of many millions during the past year; a man absolutely hostile to the protective system under which the wonderful prosperity of the past two years has been brought about; a man and a party pledged to the re-establishment of a wildcat currency under which the farmers suffered losses amounting to millions of dollars, and a man under whose former administration and by whose consent thousands upon thousands of honest homesteaders were branded as dishonest and their homes taken from them by unjust and arbitrary methods.

Farmers "Getting On" the Democratic Scheme.

All this the Democrats are scheming to bring about through the operations of the assistant Democrats—the People's party. And the farmers of the northwest are beginning to get thoroughly "onto" this feature of the situation. They are thoroughly understanding the game which the Democrats are attempting to play. They see clearly that there is no ghost of a show for the election of the candidate of the People's party, and that by voting for their electors they are simply reducing the chances of Republican success, and thereby increasing the prospect of a return to power of the man whose administration at a single blow attacked the title to over 40,000 homes and went out of office leaving literally hundreds of thousands of honest homesteaders unable to complete the title to the homes they had been struggling for years to make their own.

Bitter Recollections of the Cleveland Administration.

They are contrasting the experience during the past three years with those of the four years under the Cleveland administration. They remember with bitterness how Mr. Cleveland's administration of the land office by arbitrary and outrageously unjust methods destroyed the titles to thousands of homes which had been fairly and honestly earned by homesteaders. They remember that Commissioner Sparks in a single order suspended all entries of public lands in Kansas, Nebraska, Colorado, Dakota, Idaho, Utah, Washington, Nevada, Montana, Wyoming, Nevada and Minnesota, throwing them all into the "fraud division," even where they had already been "proved up" for patents before the officers of the land office. This single order affected more than 40,000 homes, and during the entire period of the Cleveland administration titles for homesteads and pre-emption titles were doled out at the rate of only 2,000 or 3,000 a month, while under the present administration they have been issued at the rate of over 10,000 per month.

They Don't Want Their Homes Again Endangered.

These people, who remember the anxiety and sufferings of those long years when the titles to their homes were being unjustly attacked and rendered valueless for at least present use, are not willing to return to that condition of affairs. And they are recognizing the fact that a vote with the People's party is merely an indirect vote to put Grover Cleveland again in the White House and his methods of obstruction again in control of thousands—yes, hundreds of thousands—of homes. And they are not willing to do it.

Assistant Democrats Always.

They have been studying the record of the representatives of the assistant Democratic party—the People's party in congress—and find that they have in every instance co-operated with the Democrats, and that by electing People's party congressmen or electors they are simply strengthening the hands of the Democracy and paving the way to another attack upon the titles to hundreds of thousands of homes through the northwest.

During the eleven years the Republicans had a majority in the house of representatives they reduced taxation \$360,000,000, and during the eleven years the Democrats have had the house they only reduced taxation about \$6,000,000.

THE HOOSIER STATE.

Its Town Furnish an Interesting Budget of News.

Will Not Consider It Now.

INDIANAPOLIS, Ind., Oct. 5.—The Indiana supreme court has refused to advance the suits to test the ferry-mander acts of 1885 and 1891 without further consideration. In the trial below the acts were decided unconstitutional. When the case came before the court Tuesday morning among the papers filed was a petition by Morgan Chandler, joint senator from Hancock and Rush counties, asking that he be made a party to the suits. He cited that he was elected under the apportionment of 1889 and held that he was entitled to a seat in the coming legislature, having been duly elected under an act of the legislature. Tuesday afternoon the case was returned with an order postponing the consideration of the motion to advance. Mr. Chandler's petition to be admitted to the case was granted. The court also ordered that the case be heard on the first day of great importance to the people of the entire state the attorney general should appear in their behalf. The action in postponing the hearing of the motion to advance is taken by the politicians to mean that the case will not be decided before election.

Thousands at a Barbecue.

PLYMOUTH, Ind., Oct. 5.—One of the latest political demonstrations ever held in Marshall county, a stronghold of democracy, was the barbecue at Argos, 8 miles from here Tuesday. The attendance was between 10,000 and 15,000 people. In the afternoon ex-Gov. Isaac P. Gray and Claude Matthews, candidate for governor, spoke. Ex-Gov. Gray confined his remarks to the tariff and the force bill. Matthews spoke on the state issues. Among the other speakers were Mortimer Nye, candidate for lieutenant governor, and Sydney Moon, candidate for reporter of the supreme court. In the evening a torchlight procession was followed by speeches delivered by Congressman Shively and Col. C. G. Conn, candidate for congress in the Thirteenth district. At the grove the crowd was well supplied with barbecued meat and all the usual accompaniments and every one was highly pleased with the treatment accorded them by the democrats of Argos. Among other prominent men present were Timothy E. Howard and James McCabe, both aspirants for supreme court honors.

Depositors Getting Their Money.

VINCENNES, Ind., Oct. 5.—Receiver Thomas R. Paxton, of the Vincennes national bank, opened the doors of the institution Tuesday and paid a dividend of 30 per cent. Other assessments will be made until the full shortage has been paid. The depositors will not lose anything.
