WILD CAT MONEY.

The Indianapolis *Sentinel* makes the most absurd efforts that were ever heard of to get away from that noted resolution in the Democratic platform which "recommends" the repeal of the ten per cent. tax on State bank bills. It says, in substance, that this resolution aims only to restore State banks in which the State shall have an interest, like the old Indiana State bank, and that the repeal of the ten per cent. tax will not result in the restoration of "wild cat" banks, such as we once had. The law which imposes the ten per cent. tax on State bank bills is all that follows:

Every person, firm, association, other than National Bank Associations, and every corporation, State bank or State banking associations, shall pay a tax of ten per cent. on the amount of their own notes used for circulation and paid out by them.

It will be seen that the tax is imposed on the bills of all State banking associations, and that it is the only obstruction to "wild cat" money. With this tax removed there would be nothing to prevent any State Legislature from again authorizing wild cat banks. The *Sentinel* admits the deplorable financial conditions that prevailed before this ten per cent. tax was imposed, and its mere opinion that such banks would not again be organized, will have but little weight in this controversy. Undoubtedly it was the purpose of those who put the resolution in the platform to re-establish the "wild cat" system again, and if the barrier is thrown down no one can tell what will or what will not be done. We are now on the safe side and we had better stay there.

AN OBJECT LESSON.

The plate glass for the front of the new JOURNAL building has arrived and will soon be placed in position. Fifteen years when General Mansfield and Governor Hendricks and the Democratic Legislature petitioned Congress for an increase of tariff on plate glass this glass would have cost \$305. With an increase of the duty asked for by these gentlemen the price of plate glass has steadily decreased until now when the same kind of glass or better can be bought for \$85 on board the cars at Crawfordsville. And yet these same gentlemen howl "the tariff is a tax."

Wants a Divorce.

Mrs. Rosie Nixon has filed suit at New Albany, for divorce from Harry Nixon. They were married in this city November 15, 1887. She has been compelled to leave him several times on account of his cruel treatment and failure to provide. They have two children, Freeman aged three and a half years, now with his grandmother, Mrs. Daggett, here, and Goldie, aged one year with its aunt in Lafayette. Mrs. Retta Huffman, of whom she asks the custody. Mrs. Nixon has been employed in the New Albany woolen mills since the 5th of last March, when she left Crawfordsville.

A REWARDED sense of vigor, health and ease follows the use of Irish Herb Tea. Children like it. 25c. at all drug stores.

BY THEIR RECORDS JUDGE YE THEM.
