TUESDAY, OCT. 11, 1892.

REPUBLICAN TICKET.
NATIONAL.
For President,
BENJAMIN HARRISON, of Indiana.
For Vice-President,
WHITELAW REID, of New York.

This Date in History—Oct. 11.

1492—Columbus struck a current in which the sea-eagles were floating from east to west and few birds were seen, whereas the crew again grew discontented.
1852—Dr. Kane arrived at New York from his Arctic expedition.
1860—The Prince of Wales reached New York from Canada and received official welcome and a popular ovation.
1861—The Confederate ram Manassas tried to break the blockade at New Orleans.
1865—The so-called "Jordan boats" began at Morant bay, Jamaica; 16 whites were killed and 18 wounded, for which some 500 negroes were slaughtered in the "hunt" and several hanged, among them George William Gordon, who was a fair, excited, much-discussed Englishman. By order of President Johnson all the Confederates in Fort Warren, including Vice President Stephens, were released, leaving Jefferson Davis the only prisoner of the late war.
1870—Tolerably uniform Democratic gains in all the state elections, that party gaining several members of congress. General La Marmora took possession of Rome in the name of King Victor Emmanuel, thus completing the unification of Italy. Cardinal Antonelli issued a protest against it as a violent and sacrilegious usurpation.

BEET SUGAR FROM NEBRASKA.
Mr. J. Y. Hall, of Brown township, has been on a visit to the vicinity of Norfolk, Nebraska, where one of that State's great sugar beet factories is located. He brought home some specimens of the product, as fine sugar as ever came out of a grocery. The factory is in successful operation, and its owners have no doubt that the production of beet sugar in this country is an assured enterprise. The soil in which the beets for this factory are grown is a black, sandy loam, just like thousands of acres in Montgomery county. Mr. Hall brought home with him some specimens of the soil to show that it is precisely like much soil we have here. The factory is now turning out thirty tons of granulated sugar per day, and will continue at this rate for the next sixty days. A farmer near the factory informed Mr. Hall that he and his two sons had cultivated 30 acres of beets this year, for which the factory had offered him \$1,800 in the field, but that he and his sons would gather them and sell them by the ton for \$2,500.

THE JOURNAL publishes today the endorsement of G. W. Switzer by the official board of the Methodist church over which Mr. Switzer has presided for three past five years. It is the voluntary tribute of gentlemen who have known him thoroughly, have been cognizant of his in goings and out comings and who never for moment have doubted his Christianity, his candor and absolute honesty of purpose.

The Democratic party is a representative of the old wild-cat banking system. Their speakers pass current about like the old bank notes. Hill passes in parts of New York, our own Isaac is good in some counties of Indiana, Adair passes in the south, while Grover is at a discount everywhere.

It is quite true, as the New York Sun says, that "The tariff is about the finest thing for Democrats to let alone this year that the campaign affords," but they are not wise enough to appreciate the fact.

The population of Ohio is over 1,000,000 larger than Indiana, yet Indiana will this year pay \$130,694.04 more taxes for state purposes than our sister state.

Salisbury Admits Failure of Free Trade.
We cannot look abroad into the territories occupied by the great industries of this country without a feeling of sorrow and misgiving. I earnestly desire that such a state of labor could be established as would give to the laborer sufficient maintenance and comfort. * * * If you intend in this country you must be prepared, if need be, to inflict upon the nations which injure you the penalty which is in your hands—that of refusing them access to your markets. (Loud and prolonged cheers and a voice, "Common sense at last.")—Lord Salisbury, May 18.

WITHIN OUR BORDERS.

The Hoosier State Furnishes Interesting Bits of News.

Solving a Murder Mystery.

LA PORTE, Ind., Oct. 11.—The mystery shrouding the murder of Mrs. Michael Cook, of New Durham township, has been partially solved by the coroner's inquest, which adjourned after a brief session to await further developments. Some damaging evidence against the husband of the murdered woman was disclosed. He claims to have been absent at work on the Lake Shore road at the time of the tragedy. He was seen near his home the night of the murder. Cook had been quite attentive to a widow in the neighborhood, which caused his wife to be intensely jealous. However, the widow's jealousy had been so far from the truth that she had published two of the three necessary times in the Polish church, but before the third week Cook paid her a visit and the match is reported to have been declared off. Shortly after this visit Mrs. Cook was murdered, and now the widow is said to be missing. On the strength of the circumstantial evidence developed the sheriff decided to place Cook under arrest, but on going to his house he could not be found. Shortly before the officers arrived Cook had returned from Michigan City with a coffin for his wife, but learning in some way of his probable arrest he disappeared. Every effort is being made to find and bring him back to answer for the crime.

Poisoned by Impure Milk.
INDIANAPOLIS, Ind., Oct. 11.—Saturday last a large quantity of milk was purchased by the officials of the deaf and dumb institute, and the cooks used it in making potato soup. The soup was served at dinner and thirty-five of the inmates ate of it, more or less heartily. Within an hour afterward they were all taken with violent nausea and purging, and for awhile it was thought that some of them would die. Prompt medical attention carried them all beyond the danger point, but several are still quite sick from the effects of the meal. It was at first supposed that the poison was occasioned by the fact that Paris green had been used to kill the bugs on the plants, but an examination of the milk developed the fact it was impure, and the physicians now attribute the sickness to it. Only a small quantity of the milk could be obtained for analysis, but this was enough to demonstrate that it was impure and poisonous to the system.

Killed His Rival.
HUNTINGTON, Ind., Oct. 11.—A fatal shooting affray occurred at the residence of Mrs. Jackson, a widow living in Warren township, Sunday evening. Mrs. Jackson has a daughter who was receiving the attention of two young men—Frank Shultz, a farmer, and Charles Berkeimer, a railroad man. Shultz drove to the house Sunday evening and was met at the fence by Berkeimer, who forbade the latter to hitch his horse. Shultz refused to obey, when Berkeimer assaulted him. Shultz fired his revolver at Berkeimer, the ball striking the latter in the side. Shultz then went to the house and accompanied the Jackson girl to church. Berkeimer managed to reach a neighbor's, at whose house he died. Shultz has been arrested.

Deny the Charges.
COLUMBUS, Oct. 11.—Suit for \$10,000 damages was instituted Monday by Joseph Carter and wife against Messrs. Dippore & Locke, editors and proprietors of the Columbus Herald, the democratic organ of Bartholomew county. Suit has also been filed against them for criminal libel and warrants for their arrest have been issued, but owing to their absence from the city have not been served. The Herald in a recent issue charged Carter and wife with stuffing a ballot box in 1885.

Human Skeletons Unearthed.
COLUMBUS, Ind., Oct. 11.—A gravel pit was opened Saturday on the farm of Newton Hanks, in the eastern part of the county, and while workmen were engaged in hauling the gravel away a square space was struck, from which eight human skeletons were taken. The skeletons were in an erect position. The skull bones do not indicate that they are those of Indians.

Minister Hirsch Resigns.
WASHINGTON, Oct. 11.—Solomon Hirsch, who has represented this country as minister at Constantinople since the spring of 1889, has resigned. He handed his resignation Monday to Secretary John W. Foster, who accepted it with reluctance.

SICKLES STILL DEFIANT.

He Shakes Grover Vigorously at the General Sicknesses still "has it in" for Mr. Cleveland.

Addressing his old comrades of the gallant Third corps in Washington he defended the pension system, which recognizes in a practical way the services which the soldiers of the Union armies had rendered their country in its hour of peril. But he said more, and these are some of his words:

"You are going home now, and there is something I want you to take home with you. Ponder it; teach it to your children; tell it to your neighbors. It is this truth: That the people of the United States will see that no man is ever elected to an office of profit and trust in this country who opposes the payment of pensions to the soldiers of the Union."

That was a sally thrust at Mr. Cleveland, who was never so merry as when hunting for half a reason to veto a widow's pension. The report continues: "The general leaned on his crutches as he spoke these words, and the sharp, idiomatic, merciless sentence, clean cut as a paragraph of constitutional law, cut through the air like the slash of a cavalry saber. He rammed the words home hard, as Captain Bigelow did the last charge of the Massachusetts battery of the Third corps, and the effect was as instantaneous as when Captain Bigelow pulled the lockstring. In a moment what was left of the old Third corps spoke with its old cheering ring its opinion of the man whose only joke was cut at the expense of disabled veterans. 'Three cheers for the man who made that speech,' cried Comrade General Carr, springing to his feet, and again the cheering cry of the old Third corps rang out into the night of Grand Army place and rolled up to the White House."

General Sickles was evidently right when he waved his crutch in the Chicago convention and declared that Grover Cleveland would never receive the votes of the men who fought to preserve the Union.

SYRUP OF FIGS

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

Healthful, Agreeable, Cleansing.
Cures Chapped Hands, Wounds, Burns, Etc. Removes and Prevents Dandruff.
AMERICAN FAMILY SOAP.
Best for General Household Use.

PERTINENT QUERIES.

Some Knotty Questions for Democrats to Answer.

If foreigners do not pay the duties, why should they remove their factories to the United States?

If the United States is not producing tin plate in commercial quantities, why are sixty Welsh tin plate works idle?

If the McKinley wool duties did not protect American wool prices, why has the price of wool fallen in the London market over 21 per cent. since January, 1890, while in the same time the fall in the price of American wool has been only 7 per cent?

Why should Democratic Labor Commissioner Peck's report, showing how the McKinley law has increased wages and given life to industry, cause such great sorrow in the free trade camp?

If the tariff has caused strikes, why were there 1,747 fewer strikes in New York state in 1891 than there were in 1890?

Is the example of Grover Cleveland, who immediately before his first nomination for the presidency confessed that he "didn't know a thing about the tariff" and who wrote his tariff message at the dictation of southern free traders, a better one for Democrats to follow than that of Jefferson, Madison, Jackson, Benton and Randall?

With cost of living lower and farm prices higher than two years ago, as admitted by Democratic Senators Carlisle and Harris, would not the farmer be foolish indeed were he to vote against protection, the farmer's policy?

Are the free traders who attempted to nullify the constitution in 1832 and rebelled against it in 1861 better judges of its provisions than the protectionists who fought and bled for it during five long years of war?—American Economist.

You are going home now, and there is something I want you to take home with you. Ponder it; teach it to your children; tell it to your neighbors. It is this truth: That the people of the United States will see that no man is ever elected to an office of profit and trust in this country who opposes the payment of pensions to the soldiers of the rebellion.—General Sickles at G. A. R. Reunion Sept. 21.

The Canadian farmer pays fifteen cents duty for taking his barley across the line into the United States. How can it be in this case be said that the consumer pays the duty? It comes out of the pockets of the Canadian farmers.—Sir John A. Macdonald.

NOTICE OF Proposed Street Improvement.

Office of City Clerk, Crawfordsville, Ind.
Notice is hereby given that the Common Council of the city of Crawfordsville, pursuant to the provisions of the General Assembly, approved March 8, 1889, providing the mode and manner of making street improvements, enforcing the payment of the costs thereof, and issuing street improvement bonds, as therein provided, etc., having duly passed the following resolution, to-wit:

Resolved, by the Common Council of the city of Crawfordsville, that it is deemed necessary to improve Haw street from Main street east to the Louisville, New Albany & Chicago railroad, by graveling with good river washed or bank gravel to be placed upon the street 20 feet wide, 10 inches deep in the center and 8 inches deep on the sides in accordance with specifications on file in the office of the City Civil Engineer. The total cost of said improvement shall be assessed per lineal front foot upon real estate abutting upon said Haw street except the proportion thereof occupied by street and alley crossings, which shall be assessed against the city of Crawfordsville, Ind. Said assessments, if deferred, to be paid in ten annual installments. A bond, or bonds, shall be issued in anticipation of the collection of said assessments, unless the property owners pay said assessments before said bond or bonds are issued. All as provided for in an act of the General Assembly of Indiana, approved March 8, 1889.

Notice is further hereby given, to the owners of all property along the line of said proposed improvement, to appear at the office of the Mayor of said city, on the 24th day of October, 1892, at 10 o'clock a. m., and there make their objections, if any they have, to the necessity for said proposed improvement.
C. M. SCOTT,
City Clerk.
