MONDAY, OCT. 17, 1892.

NATIONAL.
For President,
BENJAMIN HARRISON, of Indiana.
For Vice-President,
WHITELAW REID, of New York.

This Date in History—Oct. 17.

1492—Columbus noted in his journal that
great flocks of birds of various colors,
"some of them such as sing in fields," flew
about the ships, all maintaining a general
course toward the southwest; others were
heard flying by in the night, so the sailors
were once more persuaded that land was
not far away.

1777—General surrender of General Burgoyne
and the British and Hessian army of 5,783
men to General Gates among the prisoners
were 6 members of parliament.

1861—President Lincoln issued a call for 300,000
volunteers; the rapidity with which
most of the states filled their quota showed
that the people generally were confident of
an early termination of the war.

1872—Hon. Sylvester Mowry, of Arizona, died
in London.

you wish to vote a mixed ticket, stamp

wish to vote for, and nowhere else.

Facts to be Remembered.

The Republican party, by its representa-
tives in Congress, removed the tariff
from Sugar.

THE DEMOCRATS IN CONGRESS
VOTED UNANIMOUSLY AGAINST
REPEALING THE TARIFF ON SUGAR.

The Mills tariff bill which the Democrats
formulated and passed through the
House PITTSBURGH, 25 CENTS
PER POUND ON SUGAR.

This is in accordance with the recommen-
dation of Mr. Cleveland's Secretary
of the Treasury, who said, in his official
report of 1890: "Our sugar crop is
very small a part of the total amount of
sugar we consume that sugar ranks
next to articles actually produced abroad
like tea and coffee in suitability for
tariff taxation, on the ground that its
consumption is universal, that the tax
is easily and cheaply collected, that the
increase price paid by the consumer is
an unconsidered trifle," etc.

The "unconsidered trifle" of a tax on sugar
as Mr. Manning shows in the next para-
graph of his report is nearly fifty-two
millions of dollars yearly; and this is
mostly paid by the poor people for
NINETEEN HUNDRED EIGHTH OF
THOSE WHO USE SUGAR ARE
POOR.

President Cleveland sent this recommendation
to his Secretary of the Treasury
Henry Watterson, who had more than all
others to secure the adoption of the
free trade plank in the Chicago Demo-
cratic platform said in his paper of
Aug. 6th, 1892: "WE WILL
ESTABLISH THE TARIFF ON SUGAR
YIELDING ABOUT \$50,000,000
ANNUALLY TO THE TREASURY."

Let every poor man ponder these facts and
if he wants to be taxed just as much
as the rich man, let him vote for Brook-
shire, and Mr. Watterson's "revenue
tariff on sugar."

But if he wants sugar to remain free, let
him vote the Republican ticket.

CONDENSED MILK.

A gentleman in this city who uses a
considerable amount of condensed milk
has been making his purchases at a cer-
tain house in town, and until recently
the price paid was six cents of one pound
each for \$1. When he made the last
purchase he only received five cents.
When the merchant was asked the cause
of the increased price he replied that the
McKinley law had increased the duty
on condensed milk and he was compelled
to raise the price. The patron was in-
credulous and made inquiry of one of
his fellow workmen who had in his pos-
session a copy of the tariff law both of
1883 and 1890. Turning to the item of
condensed milk he showed him that the
law of 1883 placed a duty of 20 per
cent. on the article, while the law of
1890 reduced it to three cents a pound.
Under the old law even if the tariff was
added to the price the duty was 20
cents. Under the new law the duty
on six cans would have been only 18
cents, and on the five cans which he re-
ceived on account of the "McKinley law"
it is only 15 cents. This patron could
have been deceived in 1890 but in 1892
the same tactics will not work. This
purchaser of condensed milk will here-
after buy elsewhere. He will buy where
the dealer will not attempt to com-
pound his politics and business with the
same pestle and mortar.

The new election law requires man-
ufacturers and other employers of labor
to suspend operations for four hours on
election day, in order to give their em-
ployees opportunity to vote. Anyone

who violates this provision of the law
will be subject to a fine of not less than
\$50 nor more than \$500.

FREE TRADE FACTS.

Mr. James Moon's Experience Buying
Stuff for Traders.

Here is a free trade item that will in-
terest the venerable James Moon, who
has retired from his farm near Lake-
ville and lives in the suburbs of South
Bend. On Jan. 19, 1890, in those good
old Democratic days when Buchanan
was president and there was no "Re-
publican robber tariff," Mr. Moon came
to South Bend from his Union township
farm and bought material for a pair of
pants. All wool goods were then so
high priced that he bought satinnet, a
cloth made of cotton warp and woolen
filling, which is rarely sold in these days
of low priced all wool goods.

Mr. Moon bought 3½ yards of satinnet
at 75 cents a yard; 1½ yards of drilling
at 12½ cents a yard, 14 buttons for 14
cents and a skein of linen thread at 5
cents; total, \$3. He then had to pay
for having the pants made by a tailor,
or get them made at home. Today
under a protective tariff, he can buy
satinnet at 50 cents a yard and less. He
can buy a pair of ready made satinnet
pants from \$1.25 to \$2.

The Tribune has not trusted to Mr.
Moon's memory for these prices, but
taken them right from the merchant's
daybook where they were charged at
the time he made the purchase.—South
Bend (Ind.) Tribune. (Extract from day-
book of country store in 1890.)

This mad crusade against American
shops, the bitter epithets applied to Ameri-
can manufacturers, the persistent dis-
belief of every report of the opening of a
tin plate mill or of an increase of our
foreign trade by reciprocity are as sur-
prising as they are discreditable.—Harris-
son's Letter of Acceptance.

OVERCOME BY FOUL AIR.

Two Men Meet Death in a Well on a
Farm Near Fort Scott, Kan.
FORT SCOTT, Kan., Oct. 17.—Henry
Humphrey, a farmer of Bourbon coun-
ty, was Saturday overcome by foul air
while digging in a well on his farm. A
neighbor named Joe Carter, who was
manning the bucket, saw him fall to
the bottom of the hole and con-
sented to go down in the bucket to his
rescue. He also was prostrated. A
brother of Humphrey called for help
and was let down to rescue both. He
succeeded in getting them out, but
Humphrey was dead and Carter died
later. The third man was also affect-
ed, but will recover.

End of a Strike.

MILWAUKEE, Oct. 17.—After a useless
struggle of nine months the strike of
the tannery employes in this city is at
an end and the men are at liberty to
secure work if they can. But while
they have been on a strike their places
were filled and now not more than one-
tenth of the men can find work. Dur-
ing the strike the men were supported
mainly by contributions from Chicago,
and received from that source over
\$75,000.

Union College Succeeds.

NEW YORK, Oct. 17.—The differences
between Prof. Briggs, of the Union
Theological seminary and those who
are opposed to his theological views
and teachings, have caused fresh
trouble at the seminary, the managers
having decided to sever the relations
existing between the institution and the
general assembly, thus indorsing
Dr. Briggs.

Millionaire Bell Killed.

SAN FRANCISCO, Oct. 17.—Thomas
Bell met death Sunday morning by
plunging headlong down a stairway.
His fortune of \$1,000,000 will go to his
widow and six children. He came here
in 1850 by way of Valparaiso and went
into banking and rapidly acquired
wealth. He was one of the incorpora-
tors of the Bank of California.

Dismissed the Case.

CHICAGO, Oct. 17.—The case of John
Cudaby and A. M. Wright, who were

Briggs, charged with conspiracy to con-
trol the market in short ribs, was on
hearing in Justice Glennon's court Sat-
urday afternoon, and resulted in the
discharge of the defendants.

portant astronomical phenomenon of

it will be visible throughout the whole
of North America.

Collapse of an Elevator.

CHICAGO, Oct. 17.—The Illinois grain
elevator, just north of Madison street
on the west branch of the river, col-
lapsed Saturday afternoon. One hun-
dred and thirty thousand bushels of
grain were scattered over the
railroad tracks and dumped into the
river. What caused the collapse can
only be conjectured. The structure
was erected twenty-seven years ago,
and has passed every inspection, the
last being but three months ago. The
loss will not exceed \$20,000, as part of
the grain can be saved. The employees
were warned in time and all escaped
in safety.

Fatal to Both Men.

DIXON, Ky., Oct. 17.—Thursday night
Edward Heron waylaid and mortally
wounded John Winston. Heron at-
tempted to escape, and was shot while
resisting arrest. They had previously
quarrelled about a misunderstanding
between their brokers.

Broke Up in a General Row.

BLOOMINGTON, Ind., Oct. 17.—The
first game of football on the Indiana
university grounds was played Sat-
urday afternoon, with the Indiana uni-
versity team against the Butler uni-
versity. The game ended in a general row
over the decision of Referee Waitz. In-
diana university claimed to have kicked
the goal, but Referee Waitz decided
not, thus giving the game to Butler.
Score 10 to 6.

Shot While Breaking Into a House.

LOGANSPORT, Ind., Oct. 17.—David
Humphrey shot and killed Shorty
