Facts to be Remembered.

The Republican party, by its representatives in Congress, removed the tariff from sugar.

THE DEMOCRATS IN CONGRESS VOTED UNANIMOUSLY AGAINST REPEALING THE TARIFF ON SUGAR.

The Mills tariff bill which the Democrats formulated and passed through the House PUT A TARIFF OF 34 CENTS PER POUND ON SUGAR.

This was in accordance with the recommendation of Mr. Cleveland's Secretary of the Treasury, who said, in his official Report of 1886: "Our own sugar crop is so very small a part of the total amount of sugar we consume that sugar ranks next to articles which are produced abroad like tea and coffee in suitability for tariff taxation, on the ground that its consumption is universal, that the tax is easily and cheaply collected, that the increase price paid by the consumer is an unconsidered trifle," etc.

The "unconsidered trifle" of a tax on sugar as Mr. Manning says in the next paragraph of his report is nearly fifty-two millions of dollars yearly; and this is mostly paid by the poor people for SUGAR IN THE COFFEES OF THOSE WHO USE SUGAR ARE POOR.

President Cleveland sent this recommendation of his Secretary of the Treasury to Congress with his approval.

Henry Watterson, who did more than all others to secure the adoption of the free trade plank in the Chicago Democratic platform said, in his paper of Aug. 6th, 1892: "WILL RE-ESTABLISH THE TARIFF ON SUGAR YIELDING ABOUT \$5,000,000 ANNUALLY TO THE TREASURY."

Let every poor man ponder these facts and if he wants to be taxed just as much as the rich man, let him vote for Brookshire and Mr. Watterson's "revenue tariff on sugar."

But if he wants sugar to remain free, let him vote the Republican ticket.

STAMP but once, and stamp with care, and stamp within the eagle square.

If the tariff does not benefit the farmer, would wheat bring a higher price under free trade.

If free trade would advance the price of wheat, corn, etc., would not free trade increase the price of manufactures?

The Rt. Hon. Joseph Chamberlain, who was for many years Mayor of Birmingham, England, which is perhaps the best-governed city in the world, makes a comparison in his article in the November Forum between the government of Birmingham and the government of Boston to show that Boston's government costs five times as much as Birmingham's. There is a table of expendi-

tures for the government of each city with the items put side by side. Americans have not yet solved the problem of municipal government, but from the amount of agitation the subject is receiving they no doubt soon will.

GETTING THEIR EYES OPENED.

Yesterday The JOURNAL printed a card from John H. Downs, announcing the fact that he had severed his connection with the Democratic party, and that henceforth, he would act and vote with the Republicans. Mr. Downs is but one of scores of others who have made similar declarations, many of whom have enrolled their names on the membership of the Morton Club. There is no denying the fact that the trend of public sentiment is all in Republican direction. Many honest Democrats can see and realize for themselves that the McKinley law instead of a curse was predicted two years ago has proven a blessing in increasing the number and variety of our manufacturing industries, and advancing wages without increasing the cost of any production to the consumer. The reciprocity feature of the law has enlarged the market of the farmer and created a prosperity for the country unequalled in its history. These facts, together with the declaration of the Democratic party in favor of the repeal of the 10 per cent. tax on State bank issues thus opening the way for a return to wild cat money have opened the eyes of a good many thinking Democrats like John Downs.

The New York Bank Note List and Counterfeit Detector of October 2, 1892, shows the condition of the money afloat in Indiana at that date. The genuine money of all the banks was subject to a discount and in many cases worthless, while the counterfeit was one of the fixed industries among a certain class of people. Even the State Bank of Indiana which was considered the best in the State was quoted at one and one-half per cent. discount. Besides twenty-two different counterfeiters are described on this institution. Do the people of Indiana want the 10 per cent. tax repealed on this kind of money in order that it may be introduced as their circulating medium? The law authorizing this kind of money stands unrevoked on our statute books, and to repeal the 10 per cent. tax would in effect revive the financial days prior to the war.

DEMOCRATIC "HARMONY."

General Sikes on the Management of the Democratic Campaign.

General Sikes is still sarcastic and evidently still not "placated." Somebody asked him in New York the other day if he was going on the stump. He replied sarcastically: "Why should I? I belong to the Hill crowd and the Hill crowd don't amount to anything. That was the theory on which Cleveland was nominated. Why should we Hill men worry about the election?"

"Cleveland is all right, of course, without New York. He doesn't need New York. Mr. Vilas is going to carry Wisconsin. Mr. Dickinson is going to carry Michigan. Mr. Harrity is going to carry Pennsylvania, and Mr. Russell is going to carry Massachusetts. There is no necessity for New York, with all these states going for Cleveland, and, of course, the Hill men are not necessary to his success. This being so, why should I or any of Mr. Hill's friends get excited over the election? They said we amounted to nothing at Chicago. Why should we amount to any more now?"

"How many of the soldier boys who were in the parade do you think will vote for Cleveland?" the general was asked.

"Very few," answered the commander of the old Third corps, with a shake of his head, "very few."

PALMER'S PRAYER.

The Grand Army's Sympathy with President Harrison.

On learning that President Harrison would be unable to attend the G. A. R. encampment at Washington, owing to the serious illness of Mrs. Harrison, Commander-in-chief Palmer issued the following:

The painful circumstance which prevents the president from attending the great reunion of the veterans in Washington is deeply regretted by all his comrades in arms, regardless of party.

He was a participant in the grand review of the arms in 1865, and has taken a deep interest in the coming encampment, and it was expected that he would not only participate in the march, which promises to be the great culmination of the great gatherings of the Union veterans, but in all the festivities of the week.

The critical illness of his beloved wife has compelled him to remain by her bedside. Speaking out of the depths of my heart, and voicing the feelings of all his comrades, we pray that He who ruleth armies and nations give our president strength and fortitude to bear his great affliction, and that the partner of his life may be restored to health.

Eruption of the Skin Cured.

Ed Venney, Brockville, Ontario, Canada, says: "I have used Brandreth's Pills for the past fifteen years, and think them the best cathartic and antibilious remedy known. For some five years I suffered with an eruption of the skin that gave me great pain and annoyance. I tried different blood remedies, but, although gaining strength the itching was unrelieved. I finally concluded to take a thorough course of Brandreth's Pills. I took six each night for four nights, then five, four, three, two, lessening each time by one, and then for one month took one every night, with the happy result that now my skin is perfectly clear and has been so ever since."
