SATURDAY, FEB. 11, 1893.

To the Public.
The daily papers of Crawfordsville have entered into the following agreement.

1. Reading notices of church, society and other entertainments from which a revenue is to be derived (except one announcement which the editor may give as matter of news) will be charged for at the rate of five cents a line each insertion, half the regular rate.

2. One notice calling lodge or society meeting, secret or public, will be published free. All succeeding notices will be charged for at the rate of five cents a line each insertion.

3. Sunday church announcements free.

The above agreement is to be in force after Feb. 1, 1893.

It an S and a T and an U,
With an R at the end spell "Su."
And an e and a g and an s spell "U."
Pray, what is a speller to do?
There is nothing left for a speller to do
But to go and commit "Soutepiece" &

The Crawfordsville electric light plant was operated at a net loss to the city for the month of January of \$289.10.—Frankfort Crescent.

In other words our 143 street lights cost \$289.10, or \$2.02 each, which is at the rate of \$24.24 per year for each light. Does Frankfort get its street lighting done for three times this amount? We think not.

ALAMO.

Skating has been fine for a week or more.

Wheat is entirely ruined in this section by ice and sleet.

Prof. Cunningham excuses all scholars who want to go skating.

Miss Nell Rountree will attend school at Crawfordsville this spring.

There is much talk of having a K. of P. lodge installed at this place.

Mrs. Anna Smith, of this place, died Friday, Feb. 10, of consumption. She had many friends who deeply mourn her death.

The Literary at this place is one of the best institutions ever started here. The two papers "The Humbug" and "The Bumble Bee," that are supposed to be published by the society, depict as true as life the doings of the members. The success of these three papers is due to the ability of Miss Anna Wirt.

Dr. G. B. McCLELLAN

Gives to the Public Few Testimonials from Grateful Friends.

THE KING IS KNOWN BY ITS FRUIT.

Not many specialists who visit this section of Indiana are as widely known as Dr. G. B. McClellan, who under the sobriquet of "Diamond Dick," has acquaintances and warm endorsers in any and every State in the Union, to say nothing of his foreign friends and patients. For some five years past he has made his headquarters at Leavenworth, Kansas, where he has established an infirmary for the cure of chronic cases. The press and public both bear witness to his almost miraculous cures, as is evidenced by the almost innumerable endorsements of both daily and weekly papers, and some 30,000 personal letters from grateful patients who were benefited or cured by his treatments.

Of course there is a certain prejudice existing against all doctors who travel or advertise, but Dr. McClellan is fortified in that respect. Among his trunkful of letters from persons he has restored to health he can almost certainly find one from a party you know, because they come from every State in the Union and from almost every county in every State.

Diamond Dick is almost too well known all over the country to need any introduction to the people. His fame is widespread and has too much stability. For sixteen years he has been known and admired, envied by the regular practitioners and adored by the people whom he has saved from life long misery. He really needs no endorsement. His work speaks for itself. People from all parts of the United States follow him in order to complete their course of treatment. He has already bettered the condition of quite a number of Crawfordsville people and in most of the cases will eventually effect a permanent cure.

\$100 Reward \$100.

The reader of this paper will be pleased to learn that there is, at least one, dreaded disease that science has been unable to cure in all the states, and that is Catarrh. Hall's Catarrh Cure is the only specific known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken externally, acting directly upon the blood and mucous surfaces of the system, and thus destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that fails to cure. Send for list of testimonials. Address, F. J. CURRY & CO., Toledo, O.

E. W. REAM, dentist, fills teeth without pain by the use of "Dr. Hale's Painless Method," for which he has secured the exclusive right of Crawfordsville and Montgomery county. Office over Barnhill, Hornaday & Pickett's. 47-7 w4 25

Dr. G. B. McClellan, "Diamond Dick," comes to Crawfordsville well recommended. Chronic diseases a specialty if not standing more than twelve years, Dr. G. B. McClellan will treat successfully. Examination and consultation free.

Old Dobbin.

I see old Dobbin through the fence. How weak he looks, and old!
His hair is falling off in spots; he feels the damp and cold;
He has lost his head; his step is slow; 'tis plain enough to see
His thirty years are more to him than fifty are to me.
He shall not work another job—not that he would complain;
But from this hour he ne'er shall know the touch of whip or rein.
Of all the horses on the farm he's been the best,
I should have thought of it before, but now he shall have rest.

I call to my mind the colt he was, and how I broke him in.
When he was a colt he kicked and pranced and plunged; 'twas doubtful which would win, But I was young as well as he and would not be denied, And since he's been as safe a nag as man would wish to ride.

Then in my happy courting days he knew the very right.

That I was a young stable door and great him with delight. He knew the girl I loved was waiting far away and fair.

He seemed to say, "I'll not be long before I take you there."

Then on my wedding day he stood with others at the church. I was a young stable door and great him in the church. One face, one form, that day of days, was all that I could see. I did not think of Dobbin then, whate'er he thought of me.

And when the years had brought their grief, and I learned joy's reverse, He drags me from one and me behind the gloomy house.

I cannot say that he divined how lonely was my lot, But since he has not been the same; I know that I have not!

And so through gladness and through grief old Dobbin has been near.

No wonder that he looks so old when I have grown so well.

I know full well that fifty years is youth to man.

It is not the years, but that my heart has reached threescore and ten!

So while I live his falling life shall naught but comfort know.

Old Dobbin, as I said at first, shall never feel rain or blow.

The best, the sweetest, the field to toil to.

Shall all be his—a poor return for all he's been to me!

—William L. Keese.

Governor Lewelling's Daughter.

The new governor of Kansas, Lorenzo O. Lewelling, is a plain man of Populist politics, and does not want many social or fashionable "frills" about the executive mansion, but he has been twice married, and his eldest daughter and the present Mrs. Lewelling are both handsome and stylish, so a few "frills" will certainly be there. Miss Jessie Lewelling, chosen for her father's executive clerk, is well educated and bright, and the governor's other three daughters are attractive in their several ways. He has no son. At the time of his election he was a grocer and commission merchant in Wichita.

CROWN AND SCEPTER.

The German emperor has had a piano forte constructed for him made entirely of bits of stag's horns.

Margaret, duchess of Austria and government of the Netherlands, had a large, wiry, stiff beard, of which she was very proud.

The young Duke of Orleans holds the memory of his great-grandfather in profoundest veneration. He explained to him that he never eats beans because they never did.

Duke Ernest has some very fine estates in Germany and is in receipt of a pension of \$80,000 a year from the Prussian government as compensation for the renunciation by his father of his claim to the sovereignty of the duchies of Schleswig and Holstein.

Grand Duke Nicholas Alexandrovich, czarowitch of Russia, no longer bears any resemblance to the pictures of him which are now in the country. He has grown a full beard and a very heavy, dark brown mustache, which give him a much older appearance than his real age.

The Empress Josephine was said to have been a chiarovivo. Napoleon constantly consulted his "book of fate" and placed implicit faith in astrologers, soothsayers, fortune tellers and other frauds. Josephine was said to have presaged Napoleon's defeat at Waterloo because of the breaking of a vase.

A Request.

Illustration of a man in a doorway, looking out, with a woman standing behind him.

Maiden (whispering)—Is that you, George?

Servanader (who has been blowing love music for the last half hour)—Ahi! At last, my darling, 'tis you! Yes, 'tis your own George.

Maiden (still whispering)—Well, George, won't you go away? Charlie Bonds is in here and is about to propose, and I'm afraid your music disconcerts him.—Life.

Ask the Saviour.
Ask the Saviour for a blessing;
Leave to him then all the rest;
Ask it in your faith, believing
That he death all things best.
Ask for help your sins to conquer,
Ask it only in his name;
Leave it all just with the Saviour,
Do your part, though, just the same.
Ask for help to do your duty,
Ask for blessings manifold,
Ask for heavenly joys and comforts,
More than o'er your cup can hold.
Ask for help to bear your sorrows,
Ask for guidance day by day,
Ask for rest, for health, for healing,
He will keep you in his ways.

He Evades His Own Instructions.
F. Marion Crawford says that he thinks there is a richer field for the novelist in the United States than in Europe. And yet Mr. Crawford confined his attention largely to Italy and neglects the "original characters" of America, whom he so much admires.—Rochester Herald.

A Retort on Black Friday.

On that historic day in Wall street following the memorable Black Friday Gould's old partner, shaking his finger in the millionaire's face, shouted:

"I'll live to see the day, sir, when you'll have to earn a living by going around this street with a hand organ and a monkey."

"Maybe you will, Henry; maybe you will," was the retort. "And when I want a monkey, Henry, I'll send for you."—Exchange.

Eye, ear and throat diseases only, Dr. Greene, Joel Block. Fitting of glasses a specialty.

What they are good for.

Brundt's Pills are the best medicine known.

1—They are purely vegetable, in fact a

2—The same dose always produces the same effect—other purgatives require increased doses and finally cease acting.

3—They purify the blood.

4—They invigorate the digestion and cleanse the stomach.

5—They stimulate the liver and carry off viscera and other depraved secretions.

The first two or three doses tell the story.

The skin becomes clear, the eye bright, the mind active, digestion is restored, constipation removed, the vigor is recruited and all decay arrested.

Brundt's Pills are sold in every drug and medicine store, either plain or sugar coated.

Deserving Protection.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's Pain Cure, Dr. Hale's Pills, Buckle's Arnica Salve and Electro Bitters, and have never handled any nostrum which we believe to have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. Neve & Boos Druggists.
