SENT TO ST. JAMES.

Hon. Thomas F. Bayard Made Ambassador to Great Britain.

HIS NOMINATION IS CONFIRMED.

President Cleveland Makes a Number of Other Important Appointments—Postmaster Heads Falling Thick and Fast.

A PLACE FOR BAYARD.

WASHINGTON, March 31.—Thursday was notable in the diplomatic history of the government because of the appointment of the first ambassador from the United States to a foreign post since continental days. Hitherto, though empowered to appoint ambassadors under section two of the constitution, every president has confined himself to the lower rank of ministers, but the last congress provided that whenever any foreign nation raised the rank of its representatives at Washington to that of ambassador the president should recognize the courtesy by a similar appointment. Great Britain was the first to promote its minister at Washington, Sir Julian Pauncefote.

SENATOR MITCHELL (Ore.), a member of the committee on privileges and elections, spoke for nearly three hours in opposition to the majority report of the committee—which favors admission—and in defense of the minority report, which denies the right of state governors to appoint senators under such circumstances.

New Postmasters.

WASHINGTON, March 31.—Fourth Assistant Postmaster General Maxwell has appointed 188 fourth-class postmasters, and of this number 55 were to fill vacancies caused by removals. The largest number appointed from any one state was 45 in Indiana, which involved eleven removals. In Kentucky there were twenty-four appointments and six removals. In Vermont there were twenty appointments and ten removals, in West Virginia fourteen appointments and eleven removals, and in Wisconsin ten appointments and five removals.

CHILI'S NEW MINISTER.

Minister Egan has cabled the department of state that the president of Chili had appointed Domingo Gano envoy extraordinary and minister plenipotentiary to the United States. Mr. Gano will also act as arbitrator for Chili on the commission provided for by the recent treaty to settle the claims of citizens of either country against the government of the other.

May Cut Down the Force.

The president is quoted as saying he had information which led him to believe that the force of clerks in the pension office could be reduced by about 400 or 500 to the benefit of the government.

FRENCH CABINET OUT.

Resignation of the Ribot Ministry—Crises Brought About by the Chamber Voting to Repeal the Liquor Law Amendment Bill as a Part of the Budget.

PARIS, March 31.—The government has been defeated by a narrow margin in the chamber of deputies, and another cabinet crisis is the result. By a vote of 247 to 342 the chamber decided to retain the liquor law amendment bill as part of the budget, although the ministry has expressed itself as firmly opposed to the amendment.

When the vote of the chamber was announced Premier Ribot adjourned the session until 9 o'clock p. m. in order to give him and his fellow ministers time to consider their position and whether they should regard the vote of the chamber as a sign of want of confidence in the ministry.

After a lengthy consultation in a committee room the ministers proceeded to the Elysee and tendered their resignations to President Carnot. The president had a long interview with the members of the cabinet and urged them to reconsider their determination. His arguments were in vain, however, and the ministers insisted that their resignations must be accepted. It is rumored that M. Deville, minister of foreign affairs in the Ribot cabinet, will be asked by President Carnot to form a ministry.

UNDER ARREST.

San Domingo's President Gets into Trouble Through Breaking into a French Bank.

NEW YORK, March 31.—The Clyde line steamer Saginaw arrived from San Domingo Thursday morning. The passengers bring news of the arrest of the president of San Domingo by French naval officers in San Domingo City. The president had taken \$60,000 from a French bank.

The president's sudden descent upon the bank was the outcome of a legal suit between him and some of the French residents, involving the payment of money. The case was sent to a higher court for judgment, but this was delayed too long to suit the president. So he ordered out his militia, with instructions to seize whatever French gold they could find.

The soldiers proceeded to the bank March 14, broke down the doors, blew open the vaults, and carried off \$82,000 in cash.

The French commander on the cruiser was apprised of the outrage and sent an armed force ashore, who captured the president as he was about to proceed to Monte Cristo. The president was held in custody and sent to France regarding the affair.

Confirmed.

The senate has confirmed these nominations:

Thomas F. Bayard, ambassador to Great Britain; William T. Gaynor, of Georgia, of the United States southern district of Georgia; Joseph S. James, of Georgia, attorney of the United States northern district of Georgia; George J. Dennis, of California, attorney of the United States northern district of California; Thomas J. Allison, of North Carolina; Frank Leverett, of Georgia, marshal of the United States southern district of Georgia.

Senate Will Soon Adjourn.

WASHINGTON, March 31.—It is believed that the extra session of the senate will adjourn sine die about a week from next Monday, April 10. There will be five or six more days of the debate upon the question of seating the appointed senators from Montana, Wyoming and Washington, and then a vote is expected to give all of them their seats. It is believed also that the resolutions to elect a secretary, sergeant-at-arms and chaplain of the

senate will, after a little brush upon the part of the democrats, go over till the senate comes together next winter. The programme is to refer the resolutions proposing an investigation into the characters of Senators Roach (dem.) of North Dakota and Power (rep.) of Montana to the committee on privileges and elections for consideration, with the understanding that they will not be reported. When these steps have been taken the senate will be ready to finally adjourn.

The Debate in the Senate.

WASHINGTON, March 31.—The session of the senate Thursday was devoted almost wholly to the debate on the question of the admission of the senators appointed by the governors of the states of Montana, Wyoming and Washington after the legislatures of those states had adjourned without making regular elections.

Senator Mitchell (Ore.), a member of the committee on privileges and elections, spoke for nearly three hours in opposition to the majority report of the committee—which favors admission—and in defense of the minority report, which denies the right of state governors to appoint senators under such circumstances.

Private Enterprises.

But the World's Columbian exposition promised to be such a great affair from the time of its inception that there were attracted to it numerous private enterprises which in themselves are of a costly and almost magnificent character. They are known as concessions, and with two exceptions they have been located on the Midway piazzette, a strip of land 1 mile long and about 600 feet wide. It runs directly west from the north end of Jackson park. While it is a portion of the exposition grounds it is devoted wholly to side exhibits. Still the visitor may pass through this strip of land without cost and see the beautiful buildings which have been erected as characteristic of half a score of foreign nations. One of these is the German village, on which may be passed through the various buildings that have cost the exposition company nearly \$18,000,000, including the preparation of the ground, the construction of the buildings, in which space is devoted to the world's fair.
