**THOUGHTS THAT BREATHE**  
Gen. Harrison has been noted for saying something when he speaks to the public. A most beautiful and appropriate thought for the occasion is embodied in his little speech at Indianapolis yesterday, at the exhibition of the old Liberty Bell, now on its way to the World's Fair. He said:

This old bell was made in England, but it had to be recast in America (enthusiastic cheers) before it was assumed to produce the right of self government and the equal rights of men. And therein it was a type of what our institutions have been doing for that great teeming throng of immigrants from all lands, who heard its voice over the great waters, and came here, subjects to be recast into free American citizens.

Nearly all of our institutions were first made in England—the Common Law, the grandest structure ever erected by man, was first made in England; but it has been recast in America and generally improved. Like the old bell, its tone is better and finer, and more in harmony with genuine human liberty and justice. Like the bell, the material of English liberty and justice has been melted in the white heat of American discussion and recast into a more noble and enduring fabric. All this, as indicated by Ex-President Harrison's little speech, is typified by the old bell, the sight of which at the World's Fair, will stir the patriotic hearts of millions of lovers of liberty from all nations.

The Review turns over John E. Lamb in a way that that gentleman will despise. It says:

It counts for little what may be the future success or defeat of Brookshire for Congress. It is certain that Lamb under any circumstances cannot ever be elected from this district. The Democracy do not like him, and they demonstrated this in 1888 when he was defeated by 1,200 majority in this Democratic district. They will do so again if opportunity offers in a like race, as Lamb has not improved with age. Socially, morally, and in many respects politically he is abhorred by hundreds of men in his own party, and in Montgomery county alone there are 500 Democrats who would scratch his name at the polls.

Just why Mr. Lamb is worse socially, morally and in many respects politically than Senator Voorhees the Review fails to say. Socially Mr. Lamb is a very clever fellow, morally, he is the superior of Voorhees, while politically he is his equal. So, altogether, Lamb is the better man of the two. But it's not our fight.

There's scarcely a cellar in the city but has been filled with water by the recent heavy and continuous rains. This fact alone makes the people more anxious for sewerage. The sentiment is almost unanimous in favor of the City Council taking some action looking to a system of drainage that will carry away this surplus water and at the same time be used to dispose of the household wastes of whatever kind. The opinion is almost unanimous that the sewerage should go down before brick paving is done.

There promises to be the biggest kind of a suit at law at Indianapolis over the recent street car deals. The fight will be between the old company on one side and the city and the new company on the other. What puzzles an outsider is that both sides seem to be well healed and each apparently knows what it wants to do. The situation is interesting to say the least.

As John G. Shanklin has about made up his mind that the ninety per cent. are not in it in Indiana and that the ten per cent. occupy all the stools at the lunch counter, he contemplates embarking in a newspaper venture at Indianapolis. He proposes to establish an afternoon paper and to be thoroughly Democratic. The venture is to have a backing of \$240,000 capital.

It is important that the Morton Cook should hold a meeting and select delegates to attend the national convention of Republican Leagues to be held at Louisville on May 10 and 11. That convention promises to equal in interest a national convention for the selection of a candidate for President. Montgomery county and the Eighth district should be well represented.

The Terre Haute electric street car line has been sold to an eastern syndicate for a half million dollars. Leslie D. Thomas, a Wabash College boy, owns a one-third interest in the line and his share in the profit of the sale after a two years' ownership will be over \$65,000.

The sugar bounty will cost the tax-payers in round numbers, for the fiscal year, near \$10,000,000.—Frankfort Crescent.

While the McKinley law placed a bounty on the sugar produced in the United States it at the same time removed the tariff which saved \$60,000,000 to the people—a net gain of \$50,000,000.

The grand total of taxes of all kinds for all purposes to be collected this year in Indiana is \$18,037,759.51. Who says the Democracy is not a tax?

## INDIANA.

Interesting Information from a Number of Towns.

**Wedding Spotted by a Judge.**  
LOGANSPORT, Ind., April 29.—Harrison Reed, a farmer living north of this city, was to have been married last Tuesday evening to a woman living in the southern part of this county. While passing through Logansport Tuesday to the home of the prospective bride he was met by a deputy sheriff and summoned as a juror. Reed immediately reported in the circuit court room and after taking a seat in the jury box told Judge McConnell that he would like to be excused, as he was going to a wedding. The judge refused to release him and Reed remained on the jury three days. After the trial of the case Reed proceeded to the woman's home but was denied admission. The bride denounced him as a scoundrel and said she would have nothing more to do with him. Reed was here Friday very angry and is hunting an attorney to bring suit against Judge McConnell for damages.

**Sentenced for Life.**  
INDIANAPOLIS, Ind., April 29.—Jennie Carr was convicted in the criminal court Friday of poisoning her babe and was sentenced to the female reformatory for life. The child was but 2 months old and was murdered by putting morphine in its milk. This was the second child that had died, and it is now believed that the first infant was also murdered. When the verdict was announced the prisoner broke down and cried violently, the first emotion that she showed during the trial.

**Consul Morse Given a Banquet.**  
FORT WAYNE, Ind., April 29.—Samuel E. Morse, recently appointed consul to Paris, was tendered a banquet Friday evening by the Wayne club at its clubhouse. Covers were laid in the main dining-room for sixty guests. B. C. Bell presided as toastmaster, and speeches were made by Mr. Morse, Judge John Morris, W. S. Oppenheimer of Chicago, Mayor Zollinger, Prof. N. R. Leonard and others.

**Arrested on a Charge of Perjury.**  
GOSHEN, Ind., April 29.—A big sensation was sprung Friday by the arrest of William H. Hunt, Elmer Carlin and Joseph W. Long on a charge of perjury. The arrests are the result of the noted Peterson suit for damages against the Lake Shore Railway company, in which the above were prominent witnesses for the plaintiff. A judgment for \$5,000 was rendered against the railway company chiefly on the testimony given by these men.

**Reached an Agreement.**  
BRAZIL, Ind., April 29.—The block coal operators and miners of this district succeeded in reaching an agreement Friday on the scale of mining for a year. The operators agreed to 75 cents per ton from May, 1893, to September 1, 1893, and 80 cents a ton from September 1, 1893, to May, 1894. These prices were satisfactory to the miners and the meeting closed harmoniously.

**Charged with Embezzlement.**  
PORTLAND, Ind., April 29.—James Orcutt, a timber buyer, was arrested at Dunkirk Friday charged with embezzlement. He obtained money from timber dealers in this place, presumably to make purchases with, and in this way obtained nearly \$4,000. He obtained \$700 from his own mother. Two warrants are already out for him.

**Mrs. Payne on Trial for Murder.**  
FOWLER, Ind., April 29.—The trial of Mrs. Nellie C. Payne for attempting to kill her husband February 11 began Friday. Prosecuting Attorney Brown made the opening speech, citing instances of Mrs. Payne's infidelity. His speech was extremely obscene. The courtroom was packed and great excitement prevails.

**Gang of Thieves Broken Up.**  
SOUTH BEND, Ind., April 29.—A quintet of thieves belonging to an organized gang, whose systematic robberies have baffled the police, were finally arrested Friday morning, and all proved to be members of respectable families. Much valuable machinery has been stolen by the gang from the Economist plow factory.

**Farmers' Convention Ended.**  
VALPARAISO, Ind., April 29.—The annual session of the Porter County Farmers' institute closed Thursday night with a large attendance. Several interesting papers were read during the session. Dr. Manley Miles, of Lansing, Mich., delivered an able address.

**Successful Dash for Liberty.**  
LEBANON, Ind., April 29.—Lon Larimer and William Werts, prisoners charged with larceny, broke jail here Friday. They called for a bucket of water and the women help at the jail, who were alone, unlocked the door to hand in the water. The men made a dash for liberty, ran through the residence part of the building and escaped.

**Taken Back to Answer.**  
BEDFORD, Ind., April 29.—Perry Gilbert, who four years ago killed Granville Cook in a quarrel at Mitchell, was brought here Friday evening from Ottawa, Ill., by Detective John Hudson and placed in jail. Ever since he left Mitchell Gilbert has been in Ottawa, where he has accumulated considerable property.

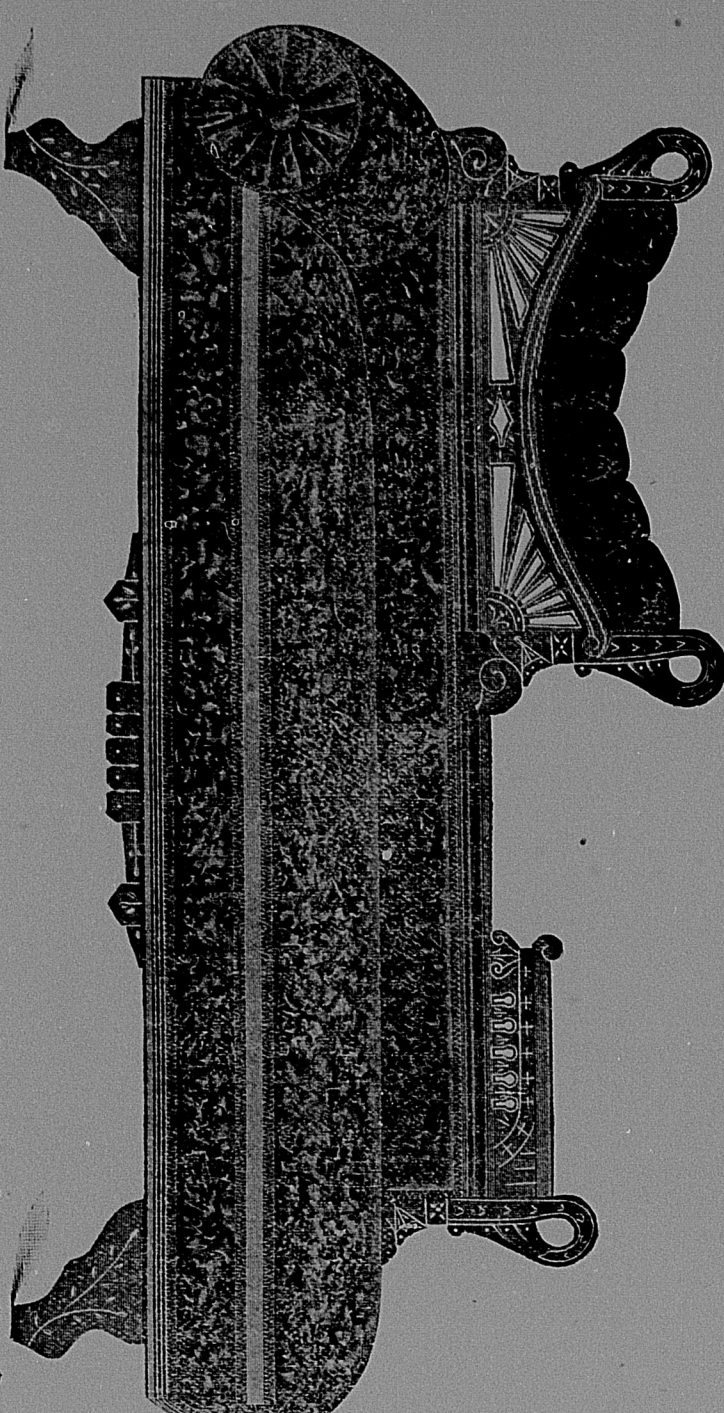

**Child Mangled by a Dog.**  
SOUTH BEND, Ind., April 29.—A 2-year-old child of Mr. Barr was attacked by a savage dog Thursday and frighted. The animal sprang upon the child without apparent cause and buried its teeth in the little one's face.

**Furious Halliorm.**  
LAFAYETTE, Ind., April 29.—Much damage to blossoming fruit and window glass was done Friday evening by a fearful halliorm, the most furious ever seen here. It lasted a quarter of an hour.

**Inventor of the Telantograph.**  
Professor Elisha Gray, inventor of the telantograph, has long been famous in scientific circles and has taken out over 60 patents, 30 of them in connection with the telephone. Yet it is only his latest invention which has greatly interested the general public. He was born in Barnesville, O., Aug. 2, 1835, and apprenticed to a blacksmith, but educated himself as an electrician. By his telantograph a figure drawn on a piece of paper with a pen is reproduced at the other end of the line just as the voice is in a telephone. This a written message is reproduced in the exact handwriting of the sender, and a diagram or pen portrait is equally well reproduced, so Professor Gray and the experts testify.

Don't forget that Dr. Walker will be at the Nutt Hotel until Monday.

**The How of It.**  
How poor, how rich, how abject, how august, how complicated, how wonderful, is man; and it might be added, how "more so" is woman. With her peculiarly delicate and intense organization, she is the superlative degree of man. Even in diseases she excels him, having many that he has not. She has, however, found out a grand remedial agent, for the cure of her diseases, in Dr. Pierce's Favorite Prescription, a medicine suited to her nature, made for the express cure of those diseases which affect her. It is especially effective in all weaknesses incident to motherhood, while it is also a potent restorative tonic for the feeble and debilitated generally.

**The Explosion of a Bomb**  
startles all within hearing. So the pains which arise from derangements of the liver, stomach and bowels, quickly alarm those who experience them. Dr. Pierce's Pleasant Pellets afford a speedy and inexpensive cure. Sick headache, bilious headache, constipation, indigestion, bilious attacks yield like magic to this wonderful specific. Only tiny, sugar-coated Pellets for a laxative dose. Purely vegetable and perfectly harmless. The action is prompt and pleasant. Absolutely the best liver pill made. Your money given back if they do not give entire satisfaction. The only pill possessed of such merit as to warrant their being sold on trial!
