The recommendation of "Anchor," "Southern," "Eckstein," "Red Seal," "Kentucky," "Collier," to you by your merchant is an evidence of his reliability, as he can sell you cheap ready-mixed paints and bogus White Lead and make a larger profit. Many short-sighted dealers do so.

THE MAGAZINES.

The complete novel in the April number of *Lippincott's* is "The Flying Halcyon," by Colonel Richard Henry Savage, author of "My Official Wife." It deals with treasure-hunting and the rescue of a political prisoner in Sonora, and has three dashing naval heroes, with heroines to match.

Dr. Parkhurst, the story of his life and his remarkable work against the official protection of vice and crime in New York City, will be the subject of an authoritative article in *Nature's Magazine* for April. The article will be illustrated with several portraits of Dr. Parkhurst.

The hard-money men may find satisfaction in reading a paper by Munroe Smith, which will appear in the April *Century*. He calls timely attention to the fact that Goethe, in the second part of "Faust," makes the father of all evil the original creator of fiat money.

The Closing Attraction.

There are a great many artists in the theatrical life as indeed a great many people in other channels, who have achieved that indelible something which touches a responsive chord in the human heart. There is no brighter example among those possessing this potent gift than Modjeska, who will appear at Music Hall on the 27th, in a magnificent production of Macbeth.

Modesty and womanliness find a perfect blend in her. Her cultivated mental, and ready pen has ever found expression in the leading periodicals of the world. In addition to her histrionic ability she possesses proficiency in the use of the brush and palette which she has utilized to give tangible expression to her historic knowledge in the designing of all the costumes and scenery used in her plays.

Prendergast Receives the News of Stay of Execution Sullenly—Powder Works Blown Up.

Special to The Journal.

CHICAGO, March 23.—Thomas Higgins, the murderer of Peter McCooly, was hanged at the county jail in this city today shortly after noon.

Prendergast, Carter Harrison's assassin, received the news of the stay of execution in his case sullenly. Judge Chetlain's decision that he be tried for sanity by jury he called "mere justice."

Powder Mills Blown Up.

Special to The Journal.

BLACKS RUN, Pa., March 23.—The Acme Powder Works, near this place, exploded this morning, killing five people and damaged much property in adjoining towns.

CLEAN UP.

We Have Escaped Small Pox and Should Prepare Against Cholera.

For the first time in a year past there isn't a single case of smallpox in Indiana. The State Health Board has been informed that the plague has been wiped out at South Bend and Crown Point, and news even more gratifying has been received to the effect that the Chicago health authorities have instituted a house-to-house canvass in order to uproot the disease there. This was done at the suggestion of the Indiana Health Board. Prior to the institution of this order the health laws were very lax in the windy city, the Indiana Board claiming that in one instance the authorities allowed a woman afflicted with smallpox to escape before an ambulance could be summoned.

The board is preparing an order which will be sent shortly to every health board in the State, demanding a general "clean up" preparatory to battling any cholera invasion that may occur. The board is very well pleased with the sanitary condition at present.

However, "The board is probably never as little sickness in Indiana before at this time of the year," said Prof. Berg, of the Board, Wednesday, "and we want the cities and towns to clean up merely as a preventive measure. There is scarcely a remote probability that cholera will come over this year, but we want to be prepared for the worst."

Crawfordsville's Talent.

The following from this morning's Indianapolis *Sentinel* concerns three young colored men of this place:

Potrolmen Kimble and Johnson arrested three suspicious looking negroes near the Union depot last night. The officers searched them and found a complete outfit of burglar's tools in their possession, among other things being a saw, skeleton keys and a "bummy." One of these men had a mask, a dangerous looking billy and a revolver. They were sent to the police station where the charge of having burglar's tools in their possession was placed against them. They gave the names of Fred Myer, Richard Hyatt and Fred Smith, and letters found in their possession showed that they had recently been in Bloomington and Crawfordsville. The officers believe that Kimble and Johnson have made a good catch.

Just from Chicago.

Chester Britton returned this afternoon from Chicago where he has just completed a two years' course in the Chicago Veterinary College. He graduated with honors in a class of seventy-five, and will now turn his entire attention to his profession. He is also a graduate of Wabash College and starts out in life well equipped.

The Y. M. C. A. nine of Washington, D. C., defeated the Yale University nine yesterday by a score of 6 to 2.

The base ball diamond has been scraped and graded and when finished its appearance will be very presentable.

Some of the professors have instituted a spy system during examination and it is looked on with no favorable eye by the students.

Prof. Chapman left today for Cincinnati. The many calls which Prof. Chapman has for platform engagements attest his great popularity. He will give an entertainment in Brazil next May.

The Phi Kaps say that they have not or will not accept the resignation of the Dowdall boys. The rumpus which the matter has caused among the fraternities is by no means ended yet and further developments are awaited.

The Freshman class has been released from probation but the Sophs are still in chains and will not be permitted to enter oratorical or athletic contests until they apologize for their behavior on the 21st of last February.

The Dowdall boys were last night initiated by Beta Theta Pi. This denouncement following so closely upon their resignation from Phi Kappa Psi is strongly suggestive of a "lift."

"Lifting" is a practice which always has obtained at Wabash and probably always will.

The base ball nine is arranged as follows, subject to change: Allen, catcher; Hammond, pitcher; Huffer, short stop; Todd, 1st; Gooding, 2d; Johns, 3d; Lardner, left; Fry, center; Higgins, right. The second nine is composed of: Wood, catcher; Herdman, pitcher; Little, short stop; Deere, 1st; Kenyon, 2d; Sidener, 3d; Miller, left; Peterson, center; Cooper, right.

Don't fail to attend the grand opening of Easter novelties in Millinery at Levinson's on Thursday and Friday of this week.

"PUT YOU IN JOINT."

The Lord Made You Perfect to Do His Will—Sin and God's High Moral Standard.

Yesterday afternoon Evangelist Ostrom took for his text, "The Lord made you perfect to do his will." He said the first clause might be read, "put you in joint." The trouble with sinful man is that he is out of joint with God. We need to get in joint. An arm out of joint is not put in joint without some pain. So getting in joint with God may cause us a momentary pain but in the end it is the saving from greater pain. Chloroform may deaden the pain of the operation on the arm. In the spiritual sense the thought of Calvary is the chloroform. The remembrance of Calvary enables us to suffer for him who suffered for us.

At the evening service Rev. Ostrom preached on "Sin and God's High Moral Standard." It was the most powerful sermon we have yet heard from the evangelist. He testified that God's law was man's best protection from sin of others. He thanked God that His high standard had never been let down and that God had never given man permission to degenerate; that all degeneration was against and resulted from the disobedience of God's law.

After the sermon Mr. Maxwell sang "Shall I be saved to-night?" Mr. Ostrom then asked if anyone wished to make a sinner's effort to be saved by raising their hand. No one responded and he immediately adjourned the meeting. It surprised the audience that the meeting was closed so abruptly, but it accomplished his purpose of sending everyone home with the solemn exhortation fixed in their hearts.
