TUESDAY, MAY 22, 1894.

MANY have been called but few will be chosen on June 2.

New York has a new compulsory educational law, just what every State ought to have.

It will soon be time for another bond issue. The Democracy is running the Government deeper and deeper into debt.

GONEY has been sentenced to twenty days in jail and to pay a fine of \$5. Hereafter he must "keep off the grass."

The candidates are all happy. Each thinks he has a cinch on the nomination for the office he seeks. It is unnecessary to say that there will be some disappointments.

KOKOMO has turned a new leaf in the way of Sunday saloon closing. Hereafter the thirsty tippler must abstain from 11 o'clock on Saturday night until 5 o'clock Sunday morning.

The wind is tempered for the "horn" lamb, that is to say that the delegates to the county convention can listen with equanimity to the plea of the candidate for the reason that it is too wet to play anyhow.

REV. HAYDEN RAYBURN, a pioneer Methodist preacher living at Kokomo, now in his eighty-third year, has solemnized 1,392 marriage ceremonies during his sixty years in the ministry. Elder Vancleave must surrender the championship to Father Rayburn.

The new Public Printer, Mr. Benedict, made a wholesale removal of employees from the Government Printing Office last Saturday. At one fell swoop he sent out 750, most of whom were women, who left the building with tear stained faces. Another 500 are booked to go soon. As an axman Mr. Benedict may be considered a success.

The Republicans of Clinton county will hold their nominating convention on Saturday, June 2. The delegates will be selected on Friday, June 1, the day before the convention. The short time intervening between the time the delegates are selected and the time the convention comes off is a time-saver to the delegates.

The mines of the United States produce in a year 1,500,000 ounces of gold and 60,000,000 ounces of silver. Forty times as much silver is produced as gold. In 1880 the gold mined was 1,700,000; the silver mined was 30,000,000. The rate of silver mined to gold has been steadily increasing; the price of silver has been steadily falling. The bullion value of a silver dollar was 100 cents in 1873, the year of its demonetization. Now it is about 60 cents.

The tariff debate has been on now seven weeks in the Senate and at the rate of progress made during the nearly two months it has been under discussion the end is far from being in sight. It is safe to say, however, that a vote will not be reached before August. No man can foretell the result. It may pass the Senate but it must run the gauntlet of the House and a conference committee, and just what shape it will be in when it reaches the President would be as difficult to say as to predict what would be the Democratic platform in 1896.

A text book on Charities, published by the professor of that subject in the Chicago University, constantly refers for his authorities to the best books obtainable. More than half his references are to the proceedings of the National Conference of Charities and Corrections, showing the esteem in which he holds the papers and discussions of that body, which is composed of practical men and women, officers of State boards as well as of private charities. The twenty-first session of this conference meets at Nashville, Tenn., May 23d to 28th, which is further South than the Conference has ever been before. Membership is open to any person interested, and a specially large attendance is expected from the South.

HUNGRY BEARS.

An Interesting Study in Their Way of Feeding.

The black bear and the grizzly must be closely alike in their manner of feeding, according to the descriptions given by Mr. Roosevelt in his book, "The Wilderness Hunter." He once watched a black bear for half an hour. At first, he says, the fellow was "shuffling along and rooting in the ground, so that he looked like a great pig. Then he began to turn over logs and stones to hunt for insects, small reptiles and the like. A moderate sized stone he would turn over with a single clap of his paw and then, plunging his nose into the hollow to gobble up the small creatures beneath.

"Big logs and rocks he would tug and worry at with both paws. Once, over-exerting his clumsy strength, he lost his grip and rolled clean on his back. Under some of the logs he evidently found mice and chipmunks; then, as soon as the log was overturned, he would be seen jumping about with grotesque agility and making quick dashes here and there, as the scurrying little rodent turned and twisted, until at last he put his paw on it and scooped it into his mouth.

"Sometimes—probably when he smelt the mice underneath—he would cautiously turn the log over with one paw, holding the other lifted and ready to strike."

The grizzly, too, Mr. Roosevelt says, is at most times "a grubber in the ground, an eater of insects, roots, nuts and berries. Its dangerous fore claws are nominally used to overturn stones and knock rotten logs to pieces, that it may lap up the small tribes of darkness which swarm under the one and in the other.

"It digs up the camas roots, wild onions and an occasional luckless woodchuck or gopher. When food is plentiful bears are lazy, but commonly they are obliged to be very industrious, since it is no light task to gather enough ants, beetles, crickets, tumblebugs, roots and nuts to satisfy the cravings of so huge a bulk.

"The true time of plenty for bears is the berry season. Then they feast ravenously on huckleberries, blueberries, kinikinnie berries, buffalo berries, wild plums, elderberries and scores of other fruits. They often smash all the bushes in a berry patch, gathering the fruit with half-luxurious, half-laborious greed, sitting on their haunches and sweeping the berries into their mouths with dexterous paws.

"He absorbed do they become in their feasts that they grow reckless and feed in broad daylight, while in some of the thickets, especially those of the mountain haws, they make so much noise in smashing the branches that it is a comparatively easy matter to approach them unheard."

A Dairyman's Opinion.
There is nothing I have ever used for muscular rheumatism that gives me as much relief as Chamberlain's Pain Balm does. I have been using it for about two years—four bottles in all—as occasion required, and always keep a bottle of it in my home. I believe I know a good thing when I get hold of it, and Pain Balm is the best. I have ever met with. W. B. Denny, dairyman, New Lexington, Ohio. 50 cent bottles for sale by Nye & Booe, 111 Washington street, opposite court house.

The Puzzle Solved.
Perhaps no local disease has puzzled and baffled the medical profession more than nasal catarrh. While not immediately fatal it is among the most numerous ills the flesh is heir to, and the records show very few or no cases of radical cure of chronic catarrh by any of the many modes of treatment until the introduction of Ely's Cream Balm a few years ago. The success of this preparation has been most gratifying and surprising. No druggist is without it.

Relief in Six Hours.
Distressing Kidney and Bladder diseases relieved in six hours by the "New Great South American Kidney Cure." This remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by Cotton & Rife and Moffett & Morgan.

Two Lives Saved.
Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had Consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching Consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at COTTON & RIFE'S Drug Store. Regular size 50c and \$1.

THE best investment

in real estate is to keep buildings well painted. Paint protects the house and saves repairs. You sometimes want to sell—many a good house has remained unsold for want of paint. The rule should be, though, "the best paint or none." That means

Strictly Pure White Lead

You cannot afford to use cheap paints. To be sure of getting Strictly Pure White Lead, look at the brand; any of these are safe:

"Anchor," "Southern,"
"Eckstein," "Red Seal,"
"Kentucky," "Collier."

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of Strictly Pure White Lead the desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the handiest form to tint Strictly Pure White Lead.

A good many thousand dollars have been saved property-owners by having our book on painting and color-card. Send us a postal card and get both free.

A NARROW ESCAPE!

How it Happened.

The following remarkable event in a lady's life will interest the reader: "For a long time I had a terrible pain in my heart, which flattered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I couldn't sweep a room without sitting down and resting, and thank God, by the help of New Heart Cure all that is past and I feel like another woman. Before using the New Heart Cure I had taken different so-called remedies and been treated by doctors without any benefit. I was both discouraged and disgusted. My husband bought me a bottle of Dr. Miles' New Heart Cure, and am happy to say I never regretted it, as I now have a splendid appetite and sleep well. I weighed 125 pounds when I began taking the remedy, and now I weigh 129 lbs. I feel in my case has been truly marvelous. It far surpasses any other medicine I have ever taken or any benefit I ever received from physicians."—Mrs. Harry Starr, Puttville, Pa.

Dr. Miles' New Heart Cure is sold on a positive guarantee by all druggists, or by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles \$5, express prepaid in feet packages, contains neither opiates nor dangerous drugs.

Sold by all druggists.
