THOMAS HESTER ON TRIAL.

Trying to Find Out Who Trespassed When  
Chas. Penn Got Knocked Down.

The trial of Thomas Hester on charge  
of assault and battery with intent to  
kill Chas. Penn, of Brown's Valley,  
took place before the Mayor to-day.  
White & Reeves represented Hester.  
The trouble occurred on June 25 in a  
blacksmith shop. The two principals  
in the affair contradicted each other as  
to how Hester came to go back into the  
shop where Penn got knocked down.  
Penn says Hester followed him in,  
and Hester says Penn invited him in  
to "hear something that he least ex-  
pected." When Hester got in the  
shop he says Penn struck him twice,  
and to further substantiate this he  
took off his coat and showed the  
bruises and scars upon his elbows  
caused by the blows. Yet he did not  
know with what Penn had struck him.  
Hester then says he struck Penn with  
his left hand under the chin, and fol-  
lowed this up with a blow with his  
right hand. This knocked Penn down  
into some scrap iron, and when he was  
gathered up he looked like a Chicago  
rioter. Witnesses were introduced to  
prove the general good character of  
Hester and the case rested. The pro-  
secutor then made a motion to strike  
out that part of the indictment charg-  
ing the defendant with an intent to  
kill Penn. An adjournment was made  
until afternoon, when the lawyers  
poured forth oratory until 5:30. The  
Mayor then fined Hester \$5. But  
an appeal may be taken.

Lake Erie and the Big Four  
At St. Louis.

Special to The Journal.

CHICAGO, July 9.—The Federal troops

essary.

Exaggerated Reports.

Special to The Journal.

CHICAGO, July 9.—The reports sent  
out yesterday that the fire losses on  
Saturday night would reach into the  
millions are greatly exaggerated. The  
actual loss will foot up only \$1,630.

Negroes Threatened.

Special to The Journal.

CHICAGO, July 9.—The Rock Island  
road to-day manned its switching tow-  
ers with negroes. The mob threatened

Indiana north of the Baltimore & Ohio  
Western is practically suspended,  
there being no way to deliver coal by  
rail. This means three-fourths of the  
Indiana output.

Local Effects of the Strike.

Geo. Hummel, cigar maker, is out of  
stock and has laid off his hands.  
The slate for the roof of the Orphans'  
Home has been delayed along the line  
and the plasterers have been delayed  
over a week in commencing on their  
work, on this account.

The Clover Leaf R. R. succeeded in  
moving a freight train last Saturday  
evening.

Our Express Companies are doing a  
land office business, carrying all man-  
ner of freight merchandise.

The Monon will now receive freight  
for points on their system.

The hard work is overstocked  
with stock and the factory may shut  
down until shipments can be made.

Removal Assignment.

The rumor that Alex. Mahorney had  
made an assignment, is found to be in-  
correct. Mr. Mahorney informs us  
that there is a prospect that the mat-  
ter that is pressing him will be adjust-  
ed, and that it is not connected with  
his business here. His attorney could  
not be found, and so the circumstances  
of the case cannot be told, as Mr. Ma-  
horney did not feel disposed to make  
any statement. We are glad to know  
that he has not assigned, and hope  
that he may not be forced to do so.

The New Barn at the Fair Grounds.

The fair association met Saturday at  
the court house. The new barn just  
erected at a cost of \$1,000 was ac-  
cepted and ordered to be paid for. It  
is a fine structure of its kind, the best  
on any fair ground in the State. It  
has twenty-four box stalls 12 feet  
square, which make it a regular place  
for horsemen. The committee on mu-  
sic was appointed consisting of Arch  
Baily, John Wampler and Redden  
Snyder. The committee on attrac-  
tions was also appointed consisting of  
Paul Hughes, George S. Durham,  
Isaac Davis, John S. Brown and D. H.  
Martin.

of 80 pictures which sell for 45 cents.

Illness of Thomas Breaks.

Thomas Breaks is very ill with cry-  
sipelas. Some four weeks ago he re-  
ceived a shock from lightning, and  
seemed to recover from its effects.  
Last week, however, he was taken  
down with a form of erysipelas, and is  
seriously ill.

for dues will please see W. W. Morgan  
not later than Wednesday evening.  
He desires to make up his report on  
Thursday to be submitted on that  
evening.

Picnic at Quicks Grove.

There was an immense crowd at the  
I. O. O. F. picnic at Quicks Grove, nine  
miles northwest of the city, yesterday  
afternoon. A large crowd being in at-  
tendance from here, Bays, Tucker, Trotter and Ap-  
pleby made addresses.

Robbed of Tobacco.

Frank Fisher's grocery near the Van-  
dalla station was robbed of a quantity  
of tobacco and cigars last night. The  
thieves have not yet been apprehended  
but they are supposed to be small boys.

## FRANKLIN TOWNSHIP REPUBLICANS.

They Place a Ticket in the Field Last  
Saturday—First Class Material.

The Republicans of Franklin town-  
ship met in convention at Campbell's  
hall Saturday, July 7, for the purpose  
of nominating candidates for the  
various township offices. The conven-  
tion was called to order by S. S. Mar-  
tin, the township chairman. W. H. H.  
Smith was chosen chairman of the  
convention and C. E. Butler secretary,  
after which the following ticket was  
put in the field:

Trustee—Daniel Lewis.  
Assessor—Wm. T. Coleman.  
Justices—Wm. Armstrong, D. V.  
Pittman and J. H. Stewart.  
Constable—S. A. Miller. Charlie  
Cook and W. J. Hooper.

But one ballot was taken, and that  
for assessor, there being three candi-  
dates; 109 ballots were cast and Cole-  
man received a majority on first bal-  
lot. The ticket is a good one and will  
undoubtedly be elected. The conven-  
tion was harmonious from start to  
finish and the crowd in attendance  
showed the Republicans to be in to  
win. Yet from now until the last vote  
is in the box let every Republican stay  
in the harness and remember that we  
are not to have a walk away but only  
by hard work can we expect the vic-  
tory.

FUNERAL OF WM. A. VANARSALL.

A Large Turn-Out of City Officials and Cit-  
izens—The Masses Attended  
in a Body.

The funeral of Wm. A. Vanarsdall  
was held yesterday afternoon at the  
family residence on south Washington  
street. Promptly at the hour the band  
came up the street heading a process-  
ion of police, city officials, fire de-  
partment, citizens and 100 Masons.  
When a halt was made they gathered  
about the house and yard. After a  
song, Rev. H. A. Tucker read a portion  
of Scripture and gave a short account  
of the life work of the deceased. Rev.  
J. W. Greene offered prayer and Rev.  
G. W. Stafford made a few remarks.  
Those desiring then took a parting  
look at the deceased, and the process-  
ion was formed for the march to Oak  
Hill. The pallbearers were T. J. West,  
T. D. Brown, Chas. Goltra, E. C. Snyder,  
J. C. McKinley and J. H. Wasson.  
There were several beautiful floral de-  
signs, the most prominent being a  
broken wheel sent by the city officials.  
At the grave the Masonic order took  
charge under the guidance of L. A.  
Foote, and the impressive funeral ser-  
vice of that order was gone through  
with. Thus has been laid away one  
of our oldest citizens, respected by all,  
and one who was faithful to his word  
and work.

Tom McCoy's Horse.

Tom McCoy's horse, "Rensselaer  
Wilkes," won the 235 trot at Indian-  
apolis the other day in three straight  
heats. The News says of him:

The 235 trot developed a great horse  
in Rensselaer Wilkes. Judged by his  
breeding, he ought to be a good horse.  
He is by Alentara, a son of George  
Wilkes, and the great mare, Alma  
Mason, and his dam was by Nutwood,  
another son of the great George Wilkes.  
He has the speed and bottom that de-  
notes both branches of the Wilkes fam-  
ily which he represents. Rensselaer  
Wilkes reduced his record from 2:28,  
made at this track, to 2:18.4. He  
showed ability to trot better than 2:15,  
and he was excellently driven by Pad-  
gett.

Fine Music.

The musical program at St. John's  
church last evening amply fulfilled all  
that its announcement on Saturday led  
us to expect. Messrs. Ramsbrook and  
Brown in their rendering of the  
Beethoven numbers gave all who at-  
tended a veritable treat by their pre-  
cise and careful reading of these  
charming motives. The Gounod num-  
ber—the final movement from the  
overture to "Faust"—was a delightful  
surprise, while the "Lamson" minuet,  
in its bold and doric grandeur, was  
handled by them with a firmness and  
freedom quite refreshing. We hope it  
will not be long ere they again give us  
such another programme.

The Philadelphia Fair Grounds.

The fair association met Saturday at  
the court house. The new barn just  
erected at a cost of \$1,000 was ac-  
cepted and ordered to be paid for. It  
is a fine structure of its kind, the best  
on any fair ground in the State. It  
has twenty-four box stalls 12 feet  
square, which make it a regular place  
for horsemen. The committee on mu-  
sic was appointed consisting of Arch

Snyder. The committee on attrac-  
tions was also appointed consisting of  
Paul Hughes, George S. Durham,  
Isaac Davis, John S. Brown and D. H.  
Martin.

Where the Loss Falls.

The loss will fall upon the Colum-  
bian Exposition Salvage company, to  
which the buildings were sold by the  
exposition company May 5 last. The  
price paid was \$80,000, and all the  
buildings were included but the Con-  
gress hall.

Shortage of Food Supplies.

CHICAGO, July 8.—Food supplies are  
becoming very scarce, the only sources  
being points reached by lake vessels.

JEALOUSY ENDS IN MURDER.

Anton Schaefer Shot and Killed by Col.  
James M. Vanhook.

JEFFERSONVILLE, Ind., July 7.—An-  
ton Schaefer and Col. James M. Van-  
hook became engaged in an encounter  
at Charlestown, and the former was  
shot and almost instantly killed. The  
difficulty was the outgrowth of jeal-  
ousy on the part of Schaefer. Some  
months ago he became enamored of  
Mrs. Jennie Young Bean, widow of  
the late Edwin Bean, who died in Chi-  
cago, where he and his wife resided some  
two years ago. Col. Vanhook was Mrs.  
Bean's accepted suitor. He arrived  
at Charlestown from Fort Mead,  
Pa., ten days ago, and delivered an  
address before the Keely  
league at the fair grounds.  
Since Vanhook's arrival in Charlestown  
Schaefer has made repeated  
threats to take his life. Vanhook went  
before a magistrate and asked that a  
peace warrant be issued against  
Schaefer. The official declined to  
issue one on the grounds that Vanhook  
was a non-resident. After the address  
Col. Vanhook and Mrs. Bean left the  
fair grounds together. Schaefer was  
closely in the rear and watched

## REDUCED TO ASHES.

Noble World's Fair Structures a  
Prey to Flames.

A CONFLAGRATION AT JACKSON PARK.

Starting in the Terminal Station, the Fire  
Sweeps Away Every Building in the  
Court of Honor—Incendiarism  
Is Strongly Suspected.

A WASTE OF RUINS.

CHICAGO, July 6.—A year ago the  
Court of Honor of the fair "White  
City" stood in unrivaled splendor upon  
the shore of Lake Michigan, and thou-  
sands revelled in its beauty. Thursday  
night it paid a new law in fire, splendor  
and thousands mourned its fall. This  
morning nothing but smoking ruins  
mark where on Thursday the Adminis-  
tration building, Machinery hall, the  
Agricultural building and the Manu-  
factures building stood outland against  
the sky.

The fire broke out shortly after 6  
o'clock and though speculation is rife  
as to its origin nothing is definitely  
known, but it is supposed to have been  
incendiarism. It was first discovered in  
the southwest corner of the Terminal  
station, whence it spread rapidly. It  
seemed as though everything con-  
spired to help along the work of de-  
struction. The buildings were like  
tinder, there was a scarcity of water,  
and confusion reigned supreme.

As darkness crept on the scene grew  
wild and more beautiful. The fire  
has swept to the Electrical building,  
to the Mines and Mining, to the Manu-  
factures building, and then going back  
upon its tracks had taken the Agricul-  
tural building and Machinery hall.  
As walls went crashing down shouts  
rose from the people.

Rapid Spread of the Flames.

The fire was discovered by several  
boys at 6:15 o'clock in the southwest  
corner of the first floor of the Terminal  
station. When first seen it was but  
an incipient blaze, and the boys en-  
deavored to stamp it out for several  
minutes. They were unsuccessful,  
however, as the fierce gale which was  
then blowing from the southwest  
fanned the fire, and before an alarm  
could be turned in the fire had reached  
the second story of the building.

Administration Blame.

By the time the first detachment of  
engines was fully at work the Ter-  
minal station was a mass of flames  
and the fire leaped across to the Ad-  
ministration building. In twenty min-  
utes the dome of this beautiful struc-  
ture fell with a terrible roar, and  
sparks and blazing brands were car-  
ried by the wind north and northeast  
to the Mines, Electricity and Agricul-  
tural buildings. The Electricity  
building was the first to take fire. In  
a few minutes it was enveloped in  
flames, and at 7:10 o'clock the glass  
roof collapsed and the iron framework  
of the structure fell in.

Firemen Fly for Their Lives.

At 7:15 o'clock the east end of the  
Mines and Mining building fell in and  
the flames became so fierce that the  
engine companies stationed between  
the Electrical and Mines and Mining  
building had to fly for their lives. En-  
gine Company No. 18 were forced  
to abandon their engine and had  
scarcely time to cut the horses from  
the traces. One of the animals suc-  
ceeded in getting away, but the hard  
work, however, the firemen succeeded  
in saving the greater part of the  
Transportation building, but the other  
two buildings were soon enveloped in  
flames and by 9:15 o'clock the last of  
the framework of each to withstand  
the fire had fallen in.

When the firemen first reached the  
spot an engine company was detailed  
to prevent the fire in the Terminal  
building from communicating with  
Machinery hall. For some time the  
effort was successful, but with the  
four immense structures, the Ter-  
minal building, the Electricity and  
the Mines and Mining building and  
the Administration building, all on fire  
at the same time, the heat became so  
intense that Machinery hall was ig-  
nited also. The direction of the wind,  
however, being away from the build-  
ing enabled the firemen to save part  
of the structure.

The Philadelphia Fair building, just  
west of the Mines and Mining build-  
ing, was also destroyed. It was pur-  
chased at a short time ago for \$50,000  
by E. C. Neiderhiser and the stored with  
\$400 worth of furniture, all of which  
was destroyed. Mr. McGlenahan also  
lost \$8,000 in booths, which were stored  
in the Manufactures building.  
The movable show-stands were also  
destroyed. In the Electricity build-  
ing was stored thirty pieces of statuary  
taken from various buildings and 1,000  
pieces of cornice, and these were de-  
stroyed.

The buildings saved are the Horti-  
cultural building, the Woman's build-  
ing, the Art Palace, the Machinery  
building and the United States Gov-  
ernment building.

Heavy Fire Loss Near Paris.

PARIS, July 7.—Twelve thousand  
square meters of workshops connected  
with Charpentier's awning factory at  
Saint-Ouen-sur-Seine, France, have  
been destroyed by fire. The damage  
amounts to several million francs.

Struck Out of Sympathy.

SPRINGFIELD, Mo., July 7.—At a meet-  
ing of the shop men employed in the  
shops of the Kansas City, Fort Scott &  
Springfield railroad, it was decided to  
strike in sympathy with the Pullman  
boycott. About 600 men went out.

Tariff Bill Is Referred.

WASHINGTON, July 7.—The tariff bill  
has been taken from the speaker's  
table and referred to a committee on  
ways and means, which will meet  
promptly and report back a recommen-  
dation for a disengagement.
