## AGRICULTURAL MEETING.

On last Saturday the third meeting of the Agricultural Society of this county was held for the purpose of making some definite arrangements about our county fair, and we are informed that it was well attended and gave evidence that the farmers of our county had taken hold of it in earnest with the determination of making it succeed, and we have no doubt but that our first county fair will compare favorably with any of our neighboring counties, many of whom have had for years organized societies.

We have not been furnished with the official proceedings but have learned that the list and rate of premiums was adopted, embracing nearly all of the industrial pursuits, articles and products, both agricultural and mechanical, and the rate of the premiums though not large, are such as to show the financial concerns of the society to be in a flourishing condition, the largest being \$10,000 and ranging from that on down to suit the degree and importance of the article premiated.

We understand that the list of manufactured articles are confined to such as are made in the county, and that to all who are members of the society the premiums are open without any other charge than their members fee, and all others who desire to present articles for exhibition, can do so by paying to the Treasurer of the society, the fee of \$1,000, being the amount required of each member for one year. It is infinitely better for all who wish to compete for premiums to become members, as they then secure all the benefits of the society for one year for what it will cost to enter for the premiums, and we shall be glad to see all of our farmers and the mechanics take an active part in this matter. The fair is to be held on the last Wednesday of September, so that we can show our hand before the state fair. The Prudential committee will meet on Saturday the 20th inst, to select judges &c.

**THE NEW LIQUOR LAW EXPLODED.** It is currently reported through our exchanges, that the Supreme Court has decided the Liquor Law of this State unconstitutional. If this be the case, liquor sellers have only to procure license as heretofore, and continue to sell without hindrance.

**NEW ARRANGEMENT.**—We understand that arrangements have been made, and the Covington stage hereafter will run in connection (tri-weekly) with the cars from this place to Indianapolis. The stage from Covington will arrive here in time to take the cars for Indianapolis every Monday, Wednesday and Friday mornings, leaving on the same days in the evening immediately after the arrival of the cars from Indianapolis.

We neglected to mention in our last weeks issue that at a meeting of the Directors of the Crawfordsville and Logansport Rail Road Company, at Logansport, it was resolved to change the name and style of said company to the Crawfordsville, Logansport and Northern Indiana Rail Road Company, and they have filed their papers in the Recorder's office at this place.

The latest news from New Orleans, by way of New York, represents that the yellow fever is prevailing to an awful extent—that the number of deaths in proportion to the population, is much greater than in 1847.

By reference to our advertising columns it will be seen that Mr. J. Wixx, is paying the highest prices for grain, &c.

The body of Andrew Herman, one of the unfortunate beings who perished by being carried over the Falls of Niagara lately, was found below the Falls, on Tuesday, the 2d inst. It was horribly mangled, his head badly cut and bruised, and a sharp stone had pierced through his body, either in descending the precipice or as he was dashed into the abyss below.

The Lafayette Courier, says some three or four drunken women were perambulating the streets in that place a few days ago. Pious town, that Lafayette.

## THE MORMONS.

The Mormons are again beginning to attract considerable attention. It seems that Brigham Young—the great Apostle of Polygamy—finds time, notwithstanding his numerous and wide social relations, to equip and drill a fine company of belligerent Mormons. Amidst the blandishments of peace he prepares for war, and like a wary general as he is, he does not permit his immense marital obligations to tempt him into inglorious ease. So, in the name of Smith and the other Saints, he is raising a regiment, the ostensible purpose of which is to protect Utah from the Indians. As the red gentlemen have never shown any disposition to trouble this interesting territory, the more knowing shrewdly suspect that the white gentlemen at Washington are rather the object of St. Brigham's alarm; and that he is preparing to resist any unwarrantable interference on the part of the government, with the onward progress and full growth development of the latter-day mysteries. For all we know, he may be attempting an independent Mormon Commonwealth, in which all men shall be declared, not only to be free and equal, but also to be endowed by nature with the right to have as many wives as they see fit. To this it must finally come, or else the Mormons must again emigrate.

**A SON KILLED BY HIS FATHER.**—The Clinton Republican, published at Wilmington, Ohio, records the murder of a son by the hands of his father, in Wilson township in that county. The father's name is Reuben Mills, and his son was forty years old and blind. The father is nearly seventy years old. The wretched father struck his son with his fist, knocking him from his chair on the floor, and breaking his neck. The old man was arrested the next day, and held to answer at the next term of court, in the sum of \$500, and in default of which he was committed to jail.

**HOBBLE.**—The Racine Democrat says, a Mrs. Bratton, formerly of Milwaukee, who had been sick for some time, died in a horrible state. The whole family were drunk at the time, and for some days before, and the deceased lay on the floor in a state of nudity for several days. Her husband, when drunk, knocked his idiot child senseless, and it was proved on the coroner's jury that he had been guilty of incest with his eldest daughter. He is also suspected of murdering his wife, but a post mortem examination showed no signs of violence.

**MARRIAGE REGULATIONS.**—Archbishop Kendrick was holding the metropolitan archiepiscopal see of Baltimore in the Roman Catholic Church and has published a pastoral letter, relating chiefly to the ceremonials of marriage. It provides that hereafter no marriage shall be solemnized by Catholic authority without the previous publication of the bans; recommends the solemnization of the marriage in church at an early hour in the morning, so that it may be followed by mass; and cautions Catholics against marriage with those not belonging to the faith.

**DECISION IN A LIQUOR CASE.**—Judge Manchester, of Providence, (R. I.) has given an important decision in a liquor case, in which the witness who swore to the sale testified that he purchased the liquor for the purpose of having the defendant convicted. The Judge decided that upon the uncorroborated testimony of a man who would go upon the stand and swear exultingly that he had induced the defendant to commit the crime for the purpose of having an opportunity to swear against him—that it took away the safeguard which the law had thrown around the citizen for his protection, and the security of a fair and impartial trial when accused of crime. He judged the defendant not guilty, and ordered him to be discharged. This decision is, we believe, without a precedent.

The political platform of the whig party, appears now to be reduced to three planks. Abolitionism, a high protective tariff, and the Main Liquor Law. The proceedings will be entered into, and an attempt made by-and-by to gather up a party upon this platform. These planks are a good beginning for "the higher law" platform of 1856. The land reform will be taken up at the meeting of Congress, and that will be four. Let the whigs reorganize.

If you are in need of a saddle, or any thing in that line of business, call in at the shop of J. & J. Gehring, they have the reputation of being good workmen, and all orders of work in their line will be filled in the best style of workmanship, and at the shortest notice. Orren North, the individual who murdered Horace Miller, Capt. of a canal-boat, in Lafayette, after a hearing before Justice Graham, was committed to jail to await his trial before the Circuit Court which convenes on Monday next.

The mackerel crop of the Isle of Shoals is said to be unusually large this season, and of good quality.

## OUR NEW YORK CORRESPONDENCE.

New York, August 6, 1855.

**MR. ERROR.**—During the past week the weather has been cloudy and rainy which has imparted an unusual degree of dullness to the appearance of this metropolis. This morning the floodgates seem to have been opened I should judge from the quantity of rain, which continues to fall unceasingly. Our city is still in the same state of quietude as it has been for some time past, every one who can possibly leave has gone out of town. The improvements in building, however go at the same speed as heretofore. The club house of the Unicorn club now being erected on the Fifth avenue, is progressing finely, and will be when finished one of the most elegant and costly structures in that part of the city. Our politicians are now engaged in dividing the city into sixty districts in accordance with the requirements of the new charter which says that one board shall consist of sixty councilors. I have no doubt that there will be some Gerrymandering perpetrated and our city enjoys a fair field for such kind of party tactics.

Mr. Buchanan leaves to-day in the Atlantic, on his mission to the Court of St. James, accompanied by his Secretary Mr. Seckles.

The difficulties in the party still continue although the discontents are not quite so noisy as they have been for some time past. The feud which exists between the factions, does not appear to cool any and no opportunity is ever lost to assail or gond an opponent; verily these family jars are more invertebrate and bitter as they grow old, for instead of forgetting and forgiving, each seems to be "nursing his wrath to keep it warm." It is a consummation devoutly to be wished for, the time when these differences shall cease, and again go forth to the battle united, conquering and to conquer.

Last evening Mr. Soule was serenaded by some of his Cuban friends at the New York Hotel where he is staying. Mr. Soule appeared on the balcony and made a short address.

From Washington we learn that the postal arrangements between Breman and the United States, are completed and will go out in the next steamer.

A large committee of printers waited on the President yesterday to remonstrate against the appointment of Mr. Seaman as Superintendent of public printing, on the ground of incompetency. The President has not yet decided.

We learn from Boston that a challenge has been sent by Mr. Trainor, chairman of the Meagher Festival, held there on Wednesday last to Mr. O'Donohue, the Irish patriot who has just escaped from Van Diemens Land, growing out of some misunderstanding which occurred at the festival. One of the parties has been arrested.

Resolved, That as an humble token of the deep sorrow we have in our Brother's death, and as an expression of our warm admiration for his many manly virtues, that we wear the usual badge of mourning for the world, "thus forming a noble and state-like pillow in our Temple." Therefore,

**Resolved.** That while we deeply lament the loss that his heartstricken friends are made to sustain, and while we much need and highly appreciate his active co-operation and unfailing ardor in promoting the cause of "Truth, Love, Purity and Fidelity" in our midst, yet we will humbly acquiesce in this solemn dispensation of an allwise, but inscrutable Providence.

**Resolved.** That while we deeply sympathize with the friends of the departed Bro. Yet we can only command to Him who hath a "balm for every wound" and who hath promised "that as thy day, so shall thy strength be."

**Resolved.** That as an humble token of the deep sorrow we have in our Brother's death, and as an expression of our warm admiration for his many manly virtues, that we wear the usual badge of mourning for the world, "thus forming a noble and state-like pillow in our Temple." Therefore,

**Resolved.** That a copy of these resolutions be forwarded to the friends of the deceased, and also to the Editor's of each of the papers of this place, with the request to publish them. WM. VAN SLYKE, W. R. T. D. Brown, w. c. t.

**THE WHIGS.**—The report that President Pierce would visit New Hampshire, is incorrect.—He has no intention of leaving Washington this summer.

**ISAAC SMITH.**—Isaac Smith, of Indianapolis, has been appointed route agent on the Madison and Terre-Haute railroad. We have a slight acquaintance with Mr. S. and know him to be a perfect gentleman in every respect, and will discharge the duties of the office satisfactorily to all.

**THE WEATHER.**—The weather during the past week has been exceedingly hot and very dry. On Thursday last, the thermometer stood at 93 in a cool place.

**MAJ. JOHN B. SEMANS.**—We are sorry to hear that Maj. John B. Semans, of Lafayette, is laying at the point of death. The Major is one amongst the first settlers of that place.

**THE WHIGS.**—We had a delightful shower, this Friday morning, which was much needed at this particular time.

**THE APPLES.**—The best and largest apples of the season sold yesterday at 12 cts. per bushel.

**MISSOURI.**—The St. Louis Republican of Saturday says reports yesterday left very little room to doubt the election of Lindley. Assuming that Jackson is defeated, the delegation from Missouri in the next Congress will stand:

In the Senate—one Whig and one Democrat, Geyer and Atchison.

In the House—four Whigs, Miller, Cather, Oliver, and Lindley—two Democrats, Phelps and Lamb, and one Benton man—Benton himself.

**SETTLING UP WHIG ACCOUNTS.**—According to recent developments, says the New York Herald, if the late Whig party had continued in possession of the Federal Government another term, the Secretary of the Treasury would have been driven in another year or so, to the necessity of asking a loan of Congress to balance outstanding deficiencies. In addition to the alleged unpaid balances due the Government from two of the late collectors of San Francisco, amounting to half a million, more or less, submerged in quartz mining and other speculations, we have some new disclosures, of a defalcation or two almost every week.

The arrival of the Niagara at Halifax, we have advices up to July 23. The news is important. From appearances, the Eastern question is in a fair way of settlement. The allied powers are awaiting the consent of the Emperor of Russia to the last proposition, of which result there seems to be no doubt. Thus ends this stupendous farce. After urging the Sultan to pursue the course which he did, and to rely on their assistance in case of an eruption into his dominions, the allied powers permitting all this to be done without making an effort

to prevent it, are now engaged in patching up an arrangement with the Sultan's reluctant assent, by which the Czar from appearances never intends to withdraw his troops from the provinces, although he may pretend to, for he is now assured that the whole of the combined powers are unable to compel him to do it. In England every thing seems to move along quietly. It is reported that there are to be some changes in the Ministry, Palmerston to be Foreign Secretary and Clarendon the Home department.

The execution of Thomas Conner for the murder of Capt. Hutchinson took place to-day. The culprit was taken on to the gallows at 11 o'clock, perfectly composed and firm. The bolt was immediately drawn, when the rope broke, and the unfortunate fell to the ground, a distance of twenty-five feet. He was taken up insensible. Preparations were then made for another trial—the rope was tested with a 1,000 pounds weight and again broke. Finally at twenty minutes past 12 o'clock Conner was launched into eternity.

The gallows was erected above the jail wall, affording a full view to the multitude assembled outside. There could not have been less than thirty thousand persons within sight of the gallows.

The whig State convention met at San Francisco and with great unanimity nominated Wm. Waldo for Governor.

**UNEXPECTED FORTUNE.**—The New Haven Palladium states that "the Emperor of Hayti caused, through an agent, an advertisement to be inserted in a New York paper, inquiring for the whereabouts of a colored man whose name was given, setting forth that he would hear something to his advantage on making himself known. The person has been found, and proves to be a very intelligent man, and a capital barber in Bridgeport, where he has been for some years, doing a good business. He appears to be the second cousin of the Emperor, who wishes the barber to reside in Hayti, and accept a dukedom, or some other high office in the realm. It is said that the fortunate individual is so much of a Yankee that he doubts whether he shall accept the offer. Nevertheless, he intends to make a voyage to Hayti, and see how things look there."

**A BEAUTIFUL THOUGHT.**—The most beautiful flowers are those which are double, such as double pinks, double roses and double dahlias. What an argument is this against the chilling deformity of single blessedness? "Go marry," is written on every thing beautiful that the eye rests upon—beginning with birds of paradise, and leaving off with apple blossoms.

**FOURTH OF JULY DIALOGUE.**—"Why, Jegggs, what are you sitting in the middle of the street for, with your legs down that cuter? You must certainly be—"

"A-hic-hush, will you? Don't tell me I'm drunk. Just let me find it out myself, and you'll see—hic—how 'stonished I'll be. Can't believe such a thing possible."
