#### INDIAN BATTLES.

The Minnesota Democrat gives an account of a bloody battle between the Sioux and a war party of the Chippewas, on the plains above the Yellow Medicine river, on the 3d inst. The Sioux it is said were victorious. They claim to have killed twenty eight Chippewas, without losing a single man, though several were severely wounded. They surprised the Chippewas by laying in wait in the tall grass on the bank of a stream, and after about half had got across they commenced the attack. Twelve or fifteen Chippewas fell at the first fire. The survivors, numbering some one hundred and fifty attempted to make a stand, but they fought to a great disadvantage and were soon obliged to seek safety in flight. It appears that the Chippewas had unaccountably allowed some of their women and children to accompany the expedition and many of these fell easy victims to the enemy.

A beautiful young squaw was taken captive by a young brave, who it is said, has been captivated by her. The excitement and exultation over this victory is said to be intense among the Sioux's all along the Upper Minnesota.

SINGULAR.—An Irishman was engaged in digging a well in Hamburg Erie Co. New York, and after having reached the depth of twenty feet he came to a layer of slate through which he struck his pick, when all at once, and with a loud noise like thunder, sufficiently loud to be distinctly heard all over the neighborhood, a stream of mingled gas and water burst through the fissure, constantly killing the unfortunate man, and filling the well to the depth of ten or twelve feet with water. Gas still escapes profusely, and the water is in constant and violent motion, resembling a large cauldron of boiling fluid.

EX-PRESIDENT FILLMORE, who has been absent since the death of his daughter returned to his residence in Buffalo, on Thursday last, accompanied by his son. He has suffered extremely under the affliction of his successive bereavements. First his wife, then his only daughter, next his brother, taken from him in rapid succession seemed to destroy almost every bond of union in his family, and left him in doubt about his future domestic arrangements, but he could feel satisfied nowhere but at home and he has returned with his son to his house in Buffalo.—*Buffalo Commercial.*

The Buffalo Express says that the receipts of flour and grain at that port, during the present season, are far in advance of last year. The largest amount yet delivered in one day is 400,000 bushels.

Wheat is selling in the Cincinnati market at \$1.40 and \$1.45 per bushel—Hay has advanced—quoted at \$12.00 per ton for prime baled.

The Hon. W. H. English was re-nominated for Congress, by the Democratic District Convention, at New Albany.

Not long since, an Eastern man, while on his way to Boston, was stopped on the highway by a robber, and requested to hand over his money, or have his brains blown out. "Oh," said the traveler, quietly, "blow away! blow away! it's better to go to Boston without brains than without money."

MESSRS. BOWEN & STOVER.—Please announce the name of M. D. WILSON as an independent candidate for the office of District Attorney, for the Court of Common Pleas for the counties of Montgomery and Boone, and who will oblige

#### HOME AND FOREIGN MARKETS.

REVIEW OFFICE,  
Sect. 2, 1854.

It will be noticed by our subjoined quotations that there is a material advance in the price of Wheat and Flour. There is a brisk inquiry for Wheat by our dealers at the figures quoted and we credibly informed that private contracts are being daily made at higher figures. The general impression is that Wheat will range high throughout the year, and but few sales of any magnitude have yet been made. The extreme drought has rendered it certain that the corn crop will not be near an average one. The consequence of this is that but few of our farmers are disposed to throw any of their old corn into market at any price, none of them will sell at present prices. Fresh Butter is almost out of the question. There is not half the amount offered that is required for consumption by our citizens. All the Potatoes in market are shipped from the north, and meet with ready sale. Our merchants are now receiving their fall stock of groceries and dry goods preparatory for a heavy trade.

Their purchases have been made with special regard to the wants of the trade, as to styles, qualities, and prices—and we can assure our friends that we can sell a large portion of our stock at less prices than we have been able to heretofore.

Our motto is to be undersold by none, and we will strictly adhere to it.

We are firmly of the opinion that the trade of Indiana would not only promote their interest and ours, but the interest of the community by patronizing us in preference to going to other cities where there is an effort making to break down our currency.
