TOWNSHIP MEETING.

The democracy of Coal Creek township will meet at the usual place of holding elections, on Saturday the 31st day of March, for the purpose of nominating candidates to fill the several offices. Public speaking may be expected, and a general attendance is requested. By order of the

TOWNSHIP COMMITTEE.

Bill Poole, a notorious prize fighter and bully, died in New York city a few days since, from the effect of injuries received in a drunken brawl in a coffee house. Being a member of the Know-Nothing fraternity, he was buried with great honors, the entire wigwam turning out. It seems that Poole had rendered great service during the late elections, by breaking the heads of adopted citizens who had the temerity to go to the polls. From the feeling expressed by the brethren, we think they will erect a monument, surmounted with a pair of huge brass-knuckles to perpetuate his fame and renown. We think the president, vice president, and corresponding secretary of the Crawfordsville wigwam, should bestir themselves in taking up collections to aid in the work. The corresponding secretary with his *exhortation* powers could do a great deal. Bugum Bagpills should have prayers said for the benefit of the great prize fighter's soul, whose last words were—"I think I'm a *goner*," a fate which is fast befalling the entire tribe of midnight Hindoos throughout the length and breadth of the land.

The Whig and Democratic vote in Rochester, N. Y., combined, exceeded that of the Know-Nothings 1300.

LONDON QUARTERLY REVIEW.

The January number of this excellent Review is now upon our table. We cannot urge too strongly upon our citizens the propriety of subscribing for these British periodicals, which are promptly issued by Leonard Scott & Co., 54 Gold St., New York. The terms of subscription are as follows:—

One Review or Blackwood, \$3 a year. Blackwood and one Review—or any two Reviews, \$5. The four Reviews and Blackwood, \$10. Four copies to one address, \$30. The present is a favorable time for new subscribers to begin. The following are the contents of the London quarterly:

- 1. Fires and Fire Insurance.
- 2. Life of Dalton. Atomic Chemistry.
- 3. Pictures of Life and Character.
- 4. Psychological Inquiries.
- 5. Clerical Economics.
- 6. The Open Fire-place.
- 7. Provident Institutions.
- 8. Campaign in the Crimea.
- 9. Corsica.
- 10. The Conduct of the War.

We notice that Graham & Bro., are having their corner fitted up for Spring business. Henry Winton has just completed a sign for the firm, which for elegance and workmanship will compare with any thing of the kind seen in our large cities. We suggest that the merchants who design occupying the new Commercial Block have similar ones. They would not only look much better than the old dilapidated ones now in use, but would be ornamental and give the block a finer appearance.

At the present period, Crawfordsville is one of the hardest places for a poor man to live of any in the habitable globe. Every article of consumption is selling at New York and London prices. Notwithstanding flour is only worth \$7.50 in Chicago and \$8.50@\$9.00 in New York, it still sells in the little town of Crawfordsville for \$9. House rent is exorbitantly high. Old dilapidated rookeries whose every crevice teems with vermin, rents for prices that would astonish a New York landlord. Unless things change, Crawfordsville need never look for an increase in her population.

COUNTERFEIT DOUBLE EAGLES.—The Buffalo Democracy cautions the public against counterfeit \$20 pieces. They are of precisely the same circumference as the genuine coin, but not as thick. Being composed chiefly of gold, they are heavy, weighing about \$13 or \$14. Detection is easy, as, for some reason, the makers have placed the word "sold," in small, raised letters, at the lower edge of the head of Liberty.

PERSONAL.—LEW. FALLEY, one of our heaviest and most enterprising merchants, arrived home from the east a few days since. He has been absent for some time, making his spring and summer purchases. His stock which is now looked for daily, will be the largest and most complete of any ever brought to Crawfordsville.

ELECTION TICKETS.

Five dollars per thousand will be charged for Election Tickets, to be paid for invariably in advance.

SHOW ADVERTISEMENTS.

Two dollars per square will be charged for advertisements of this character, for first insertion—each additional insertion, \$1.

HORSE AND JACK BILLS.

For single Horse Bill \$2—each additional Horse on bill, \$1.

PARTICULAR NOTICE.

The payment for all Patent Medicine advertisements must be satisfactorily secured before inserted, by an accepted order, or by cash.

LATER FROM CUBA.

A letter to the N. Y. Herald from Havana dated the 27th ult., informs us that the Captain General is resorting to the most summary measures to man his ships of war. A few days before the boatmen in the harbor of Havana were summoned before an officer, who, after making a register of their several names, ages, places of birth, &c., authoritatively told them, "You twenty are appointed to serve on board such a ship; you thirty on board such a one for four years, at six dollars per month," until they were all subdivided amongst the different Spanish ships of war upon the station. A few found means to present memorials of respectful remonstrance, but they were answered, "If you grumble at being told to serve the Queen for four years, you shall be made to serve eight years instead;" so the poor fellows had to submit in silence, fearful, if they did not, that some further punishment would be inflicted upon them.

"What makes this more cruel, senior," said one of the boatmen, in narrating the foregoing facts, "is that we are called volunteers!"

Another correspondent of the Herald writes from Havana under the same date as follows:

The palmiest days of inquisitorial cruelty are being surpassed by the practice adopted with the prisoners which have been made by the government, under the pretence of plotting the assassination of General Concha, which I continue to believe an invention of malignity, for the most sinister and cruel purposes, but which has been demonstrated to the mind of the Captain General as a veritable matter, so perfect has been the deception and cunning of the counter miners.

Ramon Pinto is confined in a dungeon of the Moro—"easement" cell, near the entrance—under the constant surveillance of the guard. His room is close, damp, and without light—one window closed with batons of wood, and the other with a blanket, over which is fastened a piece of old sail cloth, so that his only chance for a breath of putrid prison air is when the wicket is turned to place within his reach the scant fare and jug of water permitted him. Of course he is not permitted intercourse with his family or friends. I am also informed, from the most reliable sources, that iron and wooden cages are constructed and are in process of construction for the prisoners who have been ordered to the old British hulk Rodney, which has been devoted for several years to quarantining purposes as a hospital. The size of these moveable cells, which can be placed below or on deck, are about seven feet by three and a half or four, Spanish measure, consisting in dimensions with Spanish mercy and humanity. Whether prisoners are to be exposed on the deck to noon-day sun, and lowered below at night, I am not advised; but report says that the object is torture of those against whom no evidence can be found to convict them of unfaithfulness or of the purposed assassination; the various attorneys of the Queen having so far failed in eliciting any testimony that would justify the presentation of a bill for the judgment of the honorable "military commission" with invitation of sentence for the garrote.

CHICAGO ON THE SEABOARD.

We have been accustomed to look on Chicago as an inland town, indeed quite away from the briny ocean. But this is likely to turn out a misapprehension, and Chicago is really on the seaboard. Vessels are to commence their voyage across the Atlantic at Liverpool and terminate it at Chicago without breaking bulk. The subjoined extract shows that such an arrangement is about to be carried out, and that Chicago, in point of freighting expense, is to be nearer to Liverpool than New York. Of course a great drawback upon this seaward communication will be found in the fact that the St. Lawrence is frozen over about seven months in the year, but even five months direct communication between Chicago and transatlantic ports, may work great revolutions in trade and in the course of transportation. What effect will a movement of this kind have upon our canals and railroads, is an interesting question suggested by such a movement. We will not enter the wild field for speculation and discussion which this subject opens. We will merely add that we do regard it as clear that, all things considered, the closing of the St. Lawrence by ice—the immense commercial marine plying between New York and foreign ports—the tendency of commerce to pass through its great emporium on this continent, &c., &c.—transportation between Chicago and Europe, by way of the St. Lawrence, will be found in the long run more economical than by the way of New York.—*Albany Argus.*

A SAD MISTAKE ABOUT PRINTERS.—The public have a funny notion about printers. They think it costs nothing to print, advertise, &c. And thus one and another will sponge an extra paper, a puff, or some benevolent advertisement. They forget that a high price is paid for every type set—They forget that it is this business that makes their business known to the world. They forget that it is the printer's ink that makes nine-tenths of their immense fortunes. They forget that it takes money to pay compositors—to buy paper, ink, and type—and lastly, they forget to even thank you for working for nothing, by gratuitously puffing their business.

AID FROM THE SLAVES OF THE SOUTH.—The N. Y. *Journal of Commerce* announces the receipt of \$2000 contribution from the slaves of Columbus, Miss., to relieve the distresses of the colored population in New York. Here is a nut for the Abolitionists to crack.

50 POUNDS FRESH PORK, 40 POUNDS SALT PORK, 1 BUSHEL ONIONS, 5 POUNDS PEPPER, 1/2 BARRELS FLOUR, AND 50 GALLONS RED WINE.

A SINGULAR POUND OF FLAXEN THREAD.—Intended for the finest specimens of French lace, is valued at \$600, and the length is about two hundred and twenty-six miles. One pound of the thread is more valuable than two pounds of gold.

TOWNSHIP CONVENTION.

Agreeable to previous notice the Democracy of Union township, met in convention, at the Court House, March 10th, 1855.

On motion, Stephen Fields was called to the Chair, and John Lee appointed Secretary.

Captain Manson being called upon, stated the object of the meeting and the business that would naturally be before the convention, and continued in a scathing speech in opposition to Know-Nothingism and Fusionism in general.

The following persons were proposed to the convention and unanimously nominated as their candidates:

For Justice of the Peace for the town of Crawfordsville—JOHN W. BURK.

For Justices of Union township—DANIEL S. JONES and GEORGE W. WILSON.

For Township Trustee—S. R. HUGHES.

For Clerk—JAS. LYNN.

For Treasurer—W. C. VANCE.

For Constables—A. J. PORTER, DANIEL MCINTIRE, DAVID THOMPSON and WILLIAM SIMPSON.

On motion, the following resolutions were unanimously adopted:

Resolved, That we will unite as citizens and patriots in opposition to all secret political combinations, and use all honorable means to defeat every such organization.

Resolved, That we will use due diligence and every necessary exertion to secure the election of our ticket.

On motion, the convention adjourned to meet at the polls on the first Monday in April; and requested that the proceedings of the convention be published in the *Review*.

STEPHEN FIELDS, *Pres.*

JOHN LEE, *Secretary.*
