On next Saturday the 3d. of September there will be held at the Court House a Township Convention,

for the purpose of selecting candidates for county Auditor, Clerk and Commissioner. Let every Old Line Democrat in the township be in attendance and express his choice.

The following are the names of the several candidates:

FOR AUDITOR—Morgan Snook, John Wason, Henry Nicholson, John Britton and C. H. R. Anderson & W. B. McComas.

FOR CLERK—William C. Vance.

FOR COMMISSIONER—John Corben.

OUR NEW DAILY.

The material for our new Daily has all been received. Merchants and business men in general will send up their advertisements. It will make its appearance the latter part of next week. It will be furnished to subscribers at 10 cents a week.

IT IS SETTLED.

The Republican wire-workers of town have settled the matter as to who shall receive the nomination for Auditor. The happy man is none other than Thomas Powell. All other aspirants may as well "hang their (one strung) harps on the willow trees," for the child's name is Thomas. Judge Holloway & Co., will decide on the candidate for Clerk at their next meeting in the Auditor's office. Time of meeting—midnight.

HE IS COMING.

Hon. Thos. A. Hendricks will be present on the occasion of our County Convention, on the 10th of next month. Let the Old Line Democracy of Montgomery County turn out en masse and hear him. He will make a glorious old-fashioned Democratic speech.

LADIES AMERICAN MAGAZINE.—This elegant magazine for September has been received. It is published monthly in New York by Henry White, No. 7 Beckman-st., at \$2 a year. Everybody should subscribe for it.

We call the attention of our readers to a communication on our outside page, from the pen of Prof. CALEB MILLS. The article is a vigorous elucidation of our school system under the workings of the present Constitution of our State.

Detchon & Co. are now in receipt of a splendid stock of New Goods. It is the place to buy cheap. Every one should visit their establishment.

D. Harter, of the firm of Campbell, Galey & Harter, returned from the East a few evenings since, where he has been engaged in buying Goods for the fall and winter trade. The goods are now being received.

HARPER FOR SEPTEMBER.—Frank Heater has just received the September number of Harper. Among its many choice articles is one from Senator Douglas entitled "The dividing line between Federal and Local authority—Popular Sovereignty in the Territories." Everybody should read it. It is a masterly production.

We would call the attention of our readers to the advertisement of CLARK'S PHILADELPHIA GIFT BOOK ESTABLISHMENT, found in another column of to-day's paper. The references given by this concern are of the highest order, and warrant the belief that business is done by this house on the principle of integrity and honor. See the advertisement and send for a catalogue, which will be mailed free to any address.

The New York Sunday papers are shameless. One of them dares to assert that Henry Ward Beecher intends backing Heenan, if he can arrange a fight with the English champion, Tom Sayers.

"One more unto the breach, dear friends, once more!"

GENERAL NEWS SUMMARY.

John D. Walbridge, who recently died in Cincinnati, bequeathed by will the greater part of his estate, amounting to about \$50,000, to the Cincinnati Protestant Orphan Asylum and the Widow's Home. About \$1000 was all he bequeathed to his relatives.

Wm. McCarty, a Sergeant Major in the 4th Regiment, U. S. A., stationed at Fort Ridgely, attempted to commit suicide at St. Paul's, on Monday last, by cutting his throat. He was discovered before he died to death but it is doubtful whether he can recover.

In illustration of the rigid manner in which the English copyright law is executed in that country, it is stated that Mr. Gould's "Abridgement of Alison's History of Europe," every paragraph of which was re-written by him, has been confiscated whenever found.

The Cass County Mich., Republican says that since the Indiana Regulators have ceased their administration of justice against horse thieves, burglars and makers of bogus coin, the practical scoundrels have come out of their dens and swamps, and the frontier counties are suffering from their depredations.

A shrewd operation to evade the liquor law has been carried on for some time past, a few miles from West Killingly, on the borders of Connecticut and Rhode Island. There has been built a shop, one side resting on Connecticut soil, and the other part in Rhode Island. When the officers of Connecticut approach, the contraband article is moved across the shop, which makes it rest in Rhode Island and vice versa.

The Oskaloosa, Iowa, Herald says that a thousand bushels of black berries have been bought in that place this season at an average price of \$2 per bushel.

The Nautilus, now lying in the Hudson river, is fitting for the avowed purpose of taking a party to Central America to dig gold and skeletons from the graves of the ancient Chiriquis. She is a rakish looking craft, looking as though she could perform service of any character; and it has been intimated that the character of her outfit, etc., justifies the suspicion that she is to be employed in the slave trade.

Humboldt, in an Essay on Meteors, remarks that they are apt to occur at periodic times, among which Aug. 10, Nov. 12 to 14, and 21, to 26. The recent "meteoric explosion" near Troy, says the Albany Journal, was on the 11th of August.

A letter from Nangasaki, Japan, of the 21st of April, says: The new Emperor becomes every day more and more liberal to the Europeans; and the Mandarins of the provinces, instead of subjecting them, as heretofore, to all sorts of ill treatment, display great regard for them.

The Emperor of Russia has authorized the Jews to raise a fund, the interest of which is to be employed as prizes for the best literary works in the Hebrew language which shall be presented to the Academy of Science. His Majesty has also founded five scholarships at the Technological Institute in favor of young Jews.

An Independence, Mo., correspondent of the St. Louis Republican says that the miners who had gone away disappointed from Pike's Peak, were assembling in considerable numbers in Santa Fe, and it was surmised that an expedition by them into Mexico might not be far distant.

A most curious book, entitled "Les mystères du Desert," has just been published at Paris. Its author is an old African traveler, M. du Courte, who in order to pursue his explorations with more facility turned Mahomedan many years ago, and still remains faithful to his creed, although he has been living now for some time in France.

The Kansas Indians have appealed to the U. S. Government to protect them against the intrusion of squatters on their lands.

A Homeopathic Medical College is to be established at St. Louis. It will be opened on the first day of October.

The largest iron beam ever rolled in one piece, was made some time since at the works of the Trenton Iron Company; it is forty feet four inches in length, and nine inches thick. Last week this beam was tested, when it showed great strength. The span tested was thirty feet, the pressure being in the centre. The pressure was gradually increased to 9,250 pounds, when the bar showed a deflection of 2-86 inches.

The Rev. E. H. Chapin is to preach the sermon before the U. S. Convention of Universalists, which meets in Rochester on the 20th of September next.
