FUN AHEAD—McWILLIAMS & WHITE COMING.

The celebrated Theatrical Troupe of McWilliams & White will be here to-day. Their performance here last summer is well known to our citizens, who were pleased and delighted with their elegant and chaste representations. They will probably open the dramatic season at McClelland's Hall on next Monday night, which has been thoroughly fitted up for the occasion.

THE GUARDS will leave here, for Indianapolis, on the morning of the 21st, so as to be present at the ball on that night. The Lafayette papers state that the Lafayette Artillery will salute them on their arrival in that city.

MR. COREY, the inimitable genius of the Wabash Valley, is now engaged in manufacturing a pipe, (same as used by John Brown at Harper's Ferry,) which can be seen at our office sometime next week; also a *fac simile* of the war club with which Capt. Cook was slain many years ago by a band of blood-thirsty savages. Call up and examine these curious reliques.

STUDENT AND SCHOOLMATE.—We have received a number of this elegant Magazine for February. It is published monthly by Robinson, Green & Co., Boston, price, \$1 a year. The Magazine is designed expressly for youth, and we recommend every parent to subscribe for it.

OUR neighbor desires to know if we concur in opinion with Senator Toombs, who recently declared "that it would be better to tear away the pillars of the National Capitol, and let all beneath its roof perish, than Senator Seward to be elected President of the United States."

We regard Toombs in the same light as Seward, both avowed disunionists, and traitors to their country.

Will the editor of the *Review* fractions and vote with avowed disunionists?

We will never support or sympathize with any party that nullifies and repudiates the decisions of our courts and the Constitution of our country. We certainly have no idea of acting with the Black Republican party of the North, or the fire-eaters of the South.

The politest man in Massachusetts is Mr. Chase, treasurer of the Pemberton Mills, who, in passing out from the falling building through a door that was at that instant forced open by the pressure, affably paused, and allowed another person to precede him.

PHENIX INSURANCE COMPANY. Read the statement in another column of this old reliable company. It is the only foreign company in the State that is really sound and reliable. Those of our citizens who design insuring their property should by all means patronize the Phenix, a company that promptly pays its losses without regard to every dodge and shift to avoid payment, or when the losses are unusually heavy, manage to break. George Hough is the agent for this company, in Lafayette, at the Republican Convention on last Saturday, to whitewash their god Sambo, but which was firmly and successfully resisted by the Timbrel and Pass-a-way tribes of that party, who swore in their wrath that the child was born black, and to that color it should remain. The conservatives are indignant, they now see to set with the Republican party, they must embrace in full, the odious and abominable doctrine of Abolitionism. The Lafayette Journal, (Republican,) utters the following protest:

In the name of God, we ask, has it come to this, that the soundness of a man's republicanism is to be tested by the color of his children? How long will it be, at this rate, before a man must get a nigger's affidavit to substantiate his republicanism, and to prove that he has had no connection with anything blacker?

THE REASON WHY.

It is well known that the Emperor of Russia, Alexander II, is in favor of emancipating the twenty-five millions of Russian serfs, who are owned by the nobles.—The reason of this policy is not altogether philanthropical upon the part of the Emperor. The power of the nobles is too great with this absolute command of so large a portion of the Russian people.—

The nobles, backed by their serfs, have destroyed several Russian Emperors whose governments they did not like. To weaken their power is the object of the Emperor Alexander II. The nobles understand the object, and are desperately opposed to it.

THE REPUBLICAN CONVENTION.

The Republican Convention at the Court House on last Saturday was a rich affair. About one half of the audience present were Democrats, who enjoyed the performance hugely. The show was entirely under the management of Col. Lane, whose aspirations for honors at Chicago are well known. The following is one of their resolutions:

Resolved, (like all Abolitionists,) That slavery is a great social, moral and political evil, sanctioned by the laws of the slave States, contrary to the laws of nature.

It was the teachings of just such doctrines that led John Brown to invade Virginia. He believed that to hold Africans in bondage was "contrary to the laws of nature," as established by God, and to carry out God's law by freeing the slaves from bondage, was no wrong. Nearly the precise words of this resolution can be found in the celebrated proclamation, establishing the "Republican Provincial Government." The resolution denouncing John Brown was of course a dodge. They were compelled to do it in order to keep up their organization in the county. Helper's Impending Crisis, however, was allowed to pass without condemnation threats having been made that if the book was denounced, the Convention would break up in a row. Every Republican who was suspected of being weak in the knees was appointed a delegate to the State Convention.

Resolved, That American slavery is a sin against God; at war with every ennobling sentiment of humanity; a withering blight upon our prosperity; a curse to the white man and to the black; its continuance is a living disgrace to our age and nation, and the day of its utter extinction will be

the day when the power of the nobles, or

the power of the slaves, will be overthrown.
