THE SINGER SEWING MACHINE.

Our LETTER A FAMILY SEWING MACHINE
is fast gaining a world-wide reputation. It is be-
yond doubt the best, cheapest and most beautiful
Family Sewing Machine yet offered to the public.
No other Family Sewing Machine has so many use-
ful appliances for Hemming, Binding, Felling, Tack-
ing, Gathering, Gauging, Braiding, Cording and so
forth. No other Machine has so much capacity for a
great variety of work. It will sew all kinds of cloth,
and with all kinds of thread. Great and recent im-
provements make this Machine reliable, durable,
and most certain in action at all rates of speed. It
makes the interlocked stitch, which is the best stitch
known. Any one of ordinary capacity, with a
glance, how to use our letter A Machine.

The Folding Case of this Machine is a piece of
cunning workmanship of the most useful kind. It
protects the machine when not in use, and when
about to be operated may be opened as a spacious
and substantial table to sustain the work. While
some of the Cases made of the choicest woods, are
finished in the simplest manner possible, others are
adorned and embellished in the most costly and su-
perb manner.

It is absolutely necessary to see the Family Ma-
chine in operation, to judge of its great capacity and
beauty.

It is fast becoming as popular for family sewing
as our Manufacturing machines are for manufactur-
ing purposes.

MACHINES FOR MANUFACTU- RING PURPOSES.

Our Nos. 1 and 2 Machines are of great capacity
and application for manufacturing purposes—tailor-
ing, shoe fitting, and so forth.

Our No. 3 Machine (with Vibrating Presser, which
is indispensable for heavy patent leather work) are
especially adapted to all kinds of light and heavy
Leather Work, in Carriage Trimming, Boot and Shoe
Making, Harness Making, etc., etc. They are of ex-
tra size, with an arm long enough to take under it
and stitch the largest sized carriage dashes. There
is scarcely any part of a Trimmer's stitching that
can be better done by hand than by hand; so,
too, the saving of time and labor is very great. The
table of these Machines is 24 inches long, and the
shuttle will hold six times as much thread as the
shuttle of those used for tailoring purposes. The
large machines work as fast as small ones.

The public have been swindled by spurious ma-
chines made in imitation of ours. The metal in
them, from the iron casting to the smallest piece is
of poor quality. It is only by doing a great business,
and having extensive manufacturing establishments,
that good machines can be made at moderate prices.

The best designed Machines, BADLY MADE, are
always liable to get out of order, and are sure to cost
considerable trouble and money to keep them in re-
pair.

The qualities to be looked for in a machine are:
certainty of correct action at all rates of speed,
simplicity of construction, great durability, and
rapidity of operation, with the least labor.

Machines, to combine these essential qualities, must
be made of the best metal and finished to perfection.
We have the ways and means, on a grand scale, to do
this.

The purchasers of Machines, whose daily bread it
may concern will find that those having the above
qualities not only work well at rapid as well as slow
rates of speed, but last longest in the finest possible
working order. Our Machines, AS MADE BY US, will
earn more money with less labor than any others,
whether in imitation of ours or not. In fact they are
cheaper than any other Machines as a gift.

All genuine Singer Machines will be repaired
(though it seldom happens that they require it) at
the offices of our agents.

The Branch Offices are well supplied with silk,
twist, thread, needles, oil, &c., of the very best
quality.

Send for a PAMPHLET.

The Singer Manufacturing Company,
400 Broadway, N. Y. City.

48 E. Washington St. Indianapolis,
50 Clark St., Chicago.

STEAM WORKS!

Washington Street.

CRAWFORDSVILLE, IND.

JOHN KINKEADE,

HAVING bought the entire interest in the above
business, would respectfully inform the public of
Crawfordsville and surrounding country, that he
keeps on hand and manufactures to order all articles
in the line of

CABINET FURNITURE.

He also manufactures "split," or bark-bottom

CHAIRS

On an extensive scale; and to which branch he wishes
to call the special attention of dealers throughout
the country; as he believes he can make it to your in-
terest to give him a call. Having supplied himself
with Lathes, propelled by steam, he is also prepared
to do all kinds of

TURNING

On short notice, and on the most reasonable terms.—
He manufactures his own wares, and can therefore
most certainly sell at low prices.

FAVORABLE TERMS

As those engaged in the trade who buy abroad,
Remember my place of business—Washington
street, opposite Centre Church,
