ENLARGED FACILITIES!
Reduction of Expenses!!

J. S. MILLER & CO'S.

Carriage Manufactory,

Market St., North of Court House Square.

CRAWFORDSVILLE, IND.

Having recently purchased, enlarged and improved the premises we occupy, thereby saving expense of rent, and giving increased facilities for manufacturing

CARRIAGES,

Buggies, Sulkeys, Spring

Wagons, Sleighs &c.

We would respectfully announce to our friends and the public generally that we are now in a position to defy all competition in our line in this State as regards

PRICES, STYLES AND WORKMANSHIP.

and invite an inspection of our Carriages, Buggies, &c., a fine assortment of which we keep constantly on hand. Being all practical workmen and employing only the most skillful, and using the VERY BEST OF MATERIAL, together with our long acquaintance with the wants of this section of country, we cannot be giving satisfaction, as we confidently assert that our work and prices cannot be excelled by any other establishment in Indiana. Old Buggies taken in exchange. All our work warranted one year. Repairs, Blacksmithing, Trimming, Painting, done with neatness and despatch.

AP. 15, 1866. Feb. 2, '61.

THE SINGER SEWING MACHINE.

Our LETTER A FAMILY SEWING MACHINE is fast gaining a world-wide reputation. It is beyond doubt the best, cheapest and most beautiful Family Sewing Machine yet offered to the public. No other Family Sewing Machine has so many useful appliances for Hemming, Binding, Felling, Tackling, Gathering, Ganging, Braiding, Cording and so forth. No other Machine has so much capacity for a great variety of work. It will sew all kinds of cloth, and with all kinds of thread. Great and recent improvements make this Machine reliable, durable, and most certain in action at all rates of speed. It makes the interlocked stitch, which is the best stitch known. Any one of ordinary capacity, can see, at the Folding Case of this Machine, a piece of cunning workmanship of the most useful kind. It protects the machine when not in use, and when about to be operated may be opened as a spacious and substantial table to sustain the work. While some of the Cases made of the choicest woods, are finished in the simplest manner possible, others are adorned and embellished in the most costly and superb manner.

It is absolutely necessary to see the Family Machine in operation, to judge of its great capacity and beauty.

It is fast becoming as popular for family sewing as our Manufacturing machines are for manufacturing purposes.

MACHINES FOR MANUFACTURING PURPOSES.

Our Nos. 1 and 2 Machines are of great capacity and application for manufacturing purposes—tailoring, shoe fitting, and so forth.

Our No. 3 Machine (with Vibrating Presser, which is indispensable for heavy patent leather work) are especially adapted to all kinds of light and heavy Leather Work, in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized carriage dashes. There is scarcely any part of a Trimmer's stitching that cannot be better done by them than by hand; so, too, the saving of time and labor is very great. The table of these Machines is 24 inches long, and the shuttle will hold six times as much thread as the shuttle of those used for tailoring purposes. The large machines work as fast as small ones.

The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece of poor quality. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed Machines, BADLY MADE, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a machine are: certainty of correct action at all rates of speed, simplicity of construction, great durability, and rapidity of operation, with the least labor.

Machines, to combine these essential qualities, must be made of the best metal and finished to perfection. We have the ways and means, on a grand scale, to do this.

The purchasers of Machines, whose daily bread it may concern will find that those having the above qualities not only work well but rapid as well as slow rates of speed, but last longest in the finest possible working order. Our Machines, AS MADE BY US, will earn more money with less labor than any others, whether in imitation of ours or not. In fact they are cheaper than any other Machines as a gift.

All genuine Singer Machines will be repaired (though it seldom happens that they require it) at the offices of our agents.

The Branch Offices are well supplied with silk, twist, thread, needles, oil, &c., of the very best quality.

Send for a PAMPHLET.
