At least 10,000 negroes voted at the recent Louisiana election.

The Washington Republican is authorized by Mr. McPherson, Clerk of the House, to say definitely that he will not enroll any members who have been in the rebel army.

The mysterious disappearance of Hon. Preston King, Collector of New York, has caused the most painful excitement in that city. It is feared and generally believed that he committed suicide by jumping from a ferry boat, while laboring under aberration of the mind. Mr. King had been very low-spirited for some time, and the last trace of him was on the Hoboken boat, where a hat was found which has been recognized as belonging to him. Mr. King was formerly a very prominent politician of the Whig and Free Soil school, and occupied a seat in the U. S. Senate for one term. Recently he has not taken a very active part in politics, although a devoted personal friend to President Johnson. It was supposed at the time he accepted the position of Collector of New York he did it to oblige the President, who, in self defence was compelled to remove Mr. Draper. Mr. King was a bachelor.

## The Change.

The Quincy (Ill.) Republican is making progress in the direction its party has been traveling the past four years. It says the current idea in this country, that sovereignty resides in the people, is "a grave mistake." It contends that sovereignty is inherently with the Government, and not with the people. The Republican doubles speaks in reference to the changed character of our Government. There is a great difference between a government of consent and one of force. In the former, sovereignty resides with the people, in the latter, with the government. As ours has been changed from a government of consent to one of force, the Republican may not be far wrong in declaring that the current idea in this country, that sovereignty resides in the people, is a grave mistake. It will do to think about any more.

## New Grocery and Provision Store.

Mr. R. E. BRYANT has opened a new grocery and provision store in room No. 4, Commercial Block, Green street. His stock of groceries are arriving daily, and comprise a large and splendid assortment of everything for family use. Go there if you wish to purchase good groceries and at cheap prices. Mr. A. RAMEY, long and favorably known to our citizens, will be in attendance to supply customers with everything in the grocery and provision line.

## The Mammoth in Full Blast.

Read GRAHAM's great advertisement on fourth page of this week's issue. It will richly repay anybody to take a look at the immense piles of goods at this colossal establishment.

## The policy adopted by Messrs. CAMPBELL, GALEY & HARTER is evidently a wise one.

They have a mercantile friend in New York who watches the market closely for bargains, and on his own judgment purchases goods every week, so that they are continually receiving something new.

**Madam Ferrard.**  
This celebrated female physician, now stopping at the Gracie House, has already performed some wonderful cures, and her numerous patients daily attest her scientific skill. Madam FERRARD would reform those afflicted with any disease to Mr. R. R. LOOZE, a soldier in the 12th Indiana Cavalry and who at present is residing on Green street, opposite CAMPBELL, GALEY & HARTER'S store. Mr. R. returned home a few weeks ago a mere skeleton, so emaciated was his case that little hope was entertained by his family or friends of his recovery. Receiving no help from the best medical skill in the hospital at Nashville or from physicians at home, he was induced to send for Madam FERRARD, who in the short space of ten days has so far relieved his sufferings that he is now entirely relieved from pain and able to walk out on our streets and there is every indication that he will soon be restored to vigorous health. Persons desirous of acquiring themselves with the facts concerning this wonderful cure are invited to call and see Mr. R. LOOZE at his residence.

## Honest Dan Mace.

The Lafayette people are already talking of honest Dan Mace as a compromise candidate, in case the Republican district convention becomes inharmonious over the claims of Orth, Wilson and that "crazy" man Harper.

The case of LORENZO BREWER, charged with the murder of his cousin, LUTHER BREWER, on application of his counsel, has been continued to the March term.

**Goody for December.**—Goody for the coming month has been received. It is a magnificent number. Every lady in Montgomery county should become a subscriber for Goody.

They are getting another lot of new goods at CAMPBELL, GALEY & HARTER'S. In fact it keeps one man busy purchasing to keep the assortment good, so great is the rush of customers at this house.

**NEW BLACKSMITH SHOP.**—Mr. JOHN CONWAY & Co., have opened a new blacksmith shop on Green street.

## Terrible Earthquake in California.

The Sacramento Union gives the following graphic description of the terrible earthquake that occurred in California on the 8th of last month:

The most violent earthquake ever experienced in Sacramento since the foundation of the city, occurred yesterday at about twelve minutes before one o'clock P. M. This shock was felt by almost all our residents who were in doors, and especially by those who occupied second or third stories. Of those who were on the streets, and particularly those who were walking, very few were conscious that anything unusual had occurred. All unite in describing the shock as being of a compound character. After several violent vibrations, and of two or three times more violent than at first. Nearly all say the vibration was east and west, but a few with whom we have conversed feel confident that the points were from southwest to northeast. In many instances men and women ran from the buildings into the streets, and especially were they inclined to vacate in haste the rooms of upper stories. In the third story of the Union office the cases rattled against each other, the gas fixtures swung to and fro, the ink in the inkstands enacted a tempest in a teapot, and everybody experienced a sensation of dizziness. Demonstrations of a kindred character were witnessed throughout the city. Doors and windows were shaken, a large number of clocks were stopped, chandeliers and pendant gas burners were swung backward and forward, crockery on shelves was set in motion, buckets and basins filled with water were relieved of portions of their contents, cow-bells and door-bells in hard-ware stores commenced ringing, picture frames and mirrors were rattled against the walls, and all things moveable were moved by the unknown power. The feelings and sensations experienced were almost as varied as the number of those who were affected by the phenomenon. Generally a feeling of alarm was created where the shock was most fully experienced. The feeling of dizziness produced caused some to suppose they were bilious; some that they were nervous; some that a rush of blood to the head was approaching; and others grew actually sick and were relieved only by vomiting. In many instances, where men had drank lager or brandy at drinking saloons, they were astonished that so little liquor should make veteran drinkers so rapidly drunk; and in some cases they sat down in silence for the purpose of disguising their condition from their friends. Such men, on rising again in few seconds, equally astonished and bewildered to find themselves perfectly sober. One gentleman, who was engaged in instructing a class of young ladies at Sunday School, conscious that he was a temperance man and not drunk, concluded that he had experienced a slight attack of vertigo. He preserved silence for a short time, but the very next verse of Scripture which he read treated on the subject of "earthquakes." He could no longer refrain from stating that he thought he had just encountered one in school. Every one of his class pleaded guilty the same experience. Each had previously attributed the sensation to dizziness in the head. Another young lady who felt the shock thought it was produced by "the spirits." Spiritualists say that the waving and rocking motions of chairs and table, caused by the earthquake, was much like that produced by spirits in the presence of a "medium." The sensation of mind and brain they also describe as that which is experienced by the members of "the circle" in the presence of "manifestations." Fortunately for the city, we can truthfully say that no damage whatever was done to property or life, which is quite remarkable considering the severity of the shock.

## Democratic Speech.

We have no space to give a review of the able speech made by the Hon. JAMES WILSON at the Court House last Monday night. We shall take occasion to speak of it at some length in our next week's issue.

## The Governor's Message.

We are surprised and gratified at the suggestion in the message of Governor MORTON, that the Southern States should be admitted to Union, without reference to negro suffrage.

## PERSONAL.

We were pleased to see that sterling Democratic statesman, DANIEL W. VOORHEES, in our midst. His commanding presence, and intelligent face, riveted the attention of all who saw him.

We are informed, by Col. S. C. WILSON, that the company in which the Colonel is a large stockholder, organized for the purpose of boring well, has succeeded in obtaining a fine salt well. The Colonel is jubilant over the result. This gentleman always forward and liberal in any enterprise that will be beneficial to his fellow citizens, and does his whole duty in promoting public improvements even to the sacrifice of his personal interests.

## No. 1, Commercial Block.

VANCE of Commercial Row, No. 1, Corner of Green and Market streets, is receiving a fine stock of Furs, at prices ranging from \$8 to \$25. This is as good, if not the best stock of Furs in the city, being about fifty sets of different kinds. Go and see them.

He is also receiving other goods, among which are hats, full stock of all wool cassimere, prints, ticking, bleached and brown muslins, jeans, notions, &c., &c. n18w2.

## A Grand German Ball on Christmas Eve.

Initiative steps are being taken by some of our German citizens to give a grand ball at McClelland's Hall on Christmas Eve. No pains or expense will be spared to make it the most brilliant affair of the season.

We understand that Mr. EXOS COPE is in a terrible dilemma since listening to the speech of the Hon. JAMES WILSON on last Monday night. Exos doesn't know what to think.

MANY of the Republicans in town are sorely vexed over the speech delivered by the Hon. JAMES WILSON, at the Court House, on last Monday night. The bolder ones, those who have no fears of kicking out of the traces, denounce it as a Democratic speech, and declare that WILSON is no better than a rebel sympathizer.

We understand that the reports circulated by the Indianapolis State Journal, that HANPER, of the Williamsport Republican, is insane, is untrue. Mr. HARPER is an honest Republican, he goes for negro suffrage, and does not believe in the leaders of his party lying to the people.

## Attempted Assassination of Edward Farnestock.

We are informed by Sheriff McCONNELL that within the last two weeks several attempts have been made to assassinate EDWARD FARNESTOCK, confined in jail at this place, by firing pistol shots at night through the grating of the window.

## The Evansville Daily Courier.

We take pleasure in adding to our exchange list this excellent paper, which for elegant typography, appearance and high toned literary merit is second to none in the State. Its politics are of the Democratic school. When the railroad is completed from Evansville to our city we shall speak for the Courier's patronage from the sterling democracy of Montgomery county.

## The Indianapolis Herald.

This paper, the organ of the Indiana Democracy, has been enlarged and is now one of the finest papers in the northwest. Judge PERKINS, who presides over its editorial columns, launches his thunderbolts of unanswerable logic and searching scrutiny into the ranks of that foul and infamous party—Black Republicanism with the unerring aim of a Parthian Bowman. Every Democrat in Montgomery county should take the Herald.

## Brain and String Land.

Mr. F. SWITZER, one of the finest musicians in the country, has organized in our city a brass and string band. Many of the members being old musicians, we may anticipate about Christmas bearing some splendid music.

## Among the many improvements projected for next year, we learn that Mr. SAMUEL TAPP designs erecting a large brick store room, immediately south of the National Bank, on Washington street. The work will be commenced on the opening of spring, and on its completion will be occupied by McCLELLAN & FAY.

## BURGALARY.

The back door of J. JOEL'S clothing store was forced in on last Monday night, and a small quantity of goods stolen. An attempt was made on the same night to enter the store of WM. BOWERS.

This Lafayette Journal publishes a communication from our city in which the writer who signs himself L., charges that some of our citizens have visited church in a state of intoxication. This certainly must be a mistake, as our citizens are all church members and "sobriety" is evidently an ever-dropping so graphically described some weeks since in the Montgomery Journal.

## Honest Dan Mace.

The Lafayette people are already talking of honest Dan Mace as a compromise candidate, in case the Republican district convention becomes inharmonious over the claims of Orth, Wilson and that "crazy" man Harper.

The case of LORENZO BREWER, charged with the murder of his cousin, LUTHER BREWER, on application of his counsel, has been continued to the March term.

**Goody for December.**—Goody for the coming month has been received. It is a magnificent number. Every lady in Montgomery county should become a subscriber for Goody.

## Four Republican Propositions.

1. Every people has a right to institute its own form of government.—Declaration of Independence.

2. We will compel the Southern States to change their governments so as to make negroes voters.—Present Republican Platform.

3. We will keep up an army of 180,000 men to enforce submission on the part of the South, to our dictation on this point.

4. We will tax the people to pay the bills. All the tax and revenue laws.

## Synopsis of Legislative Proceedings.

After the reading of the minutes, a petition was presented to change the law authorizing and granting of licenses to sell liquor, which was referred to the Committee on Temperance.

A petition was presented for the repeal of "Act for the relief of the families of goldiers, seamen, marines," etc., approved March 4, 1864, and asking for the passage of a law providing that all moneys collected be placed in the hands of County Treasurers, to be and remain a portion of the General County Fund, and to be disposed of as any other revenue. Referred.

The Select Committee on Stationary made a report in favor of allowing each member \$50 worth of stationery, which report was concurred in.

A resolution was offered calling upon the President to bring Jeff Davis to a speedy trial, before the proper civil tribunal, for alleged treason; and that if convicted he be made to suffer the penalty prescribed by law.

The introduction of this resolution caused a lengthy debate, in which various members took part, so as to place themselves "right on the record."

In the House yesterday, various petitions were presented on the subject of Temperance and for the repeal of the Act for the Relief of Soldier's Families.

Fifteen thousand copies of the Governor's Message were ordered to be printed.

The Doorkeeper was instructed to contract with the proprietors of the Daily Herald, Journal and Telegraph, for three copies for each member, and a subsequent instruction was given him to include the elective officers of the House in the furnishing thereof.

Several bills were introduced; and others introduced at the regular session, taken up and properly referred.

In the afternoon session, the House resolved itself into Committee of the Whole for the consideration of the Governor's Message. It was taken up and appropriately referred to different Committees, after which the Committee rose and was discharged.

The question as to the amount of stationery to be furnished each member was referred to a special Committee.

The use of the train was rendered, on motion to Hon. George W. Julian, on Friday evening next, with the understanding that Mr. Julian shall so express himself that his views may be understood without ambiguity or after explanation!

A joint resolution on the subject of a ship canal around Niagara Falls introduced.

House bill No. 50 was taken up and passed by a vote of 38 to 10.

After the transaction of other business the Senate adjourned until 2 o'clock this afternoon.

A joint resolution was offered calling for the speedy trial of Jefferson Davis; and, upon conviction, his speedy punishment, which, under the terms of the act, decided it must go to the Committee on Federal Relations.

Several bills were taken up on second reading and properly disposed of.

The Doorkeeper's contract with the daily papers not meeting the views of a majority of members, was rejected, after which the House adjourned.

At the recent State election in Massachusetts, the Republican vote fell off 63,000 below that of 1864, and the Democratic vote 20,000.

## THERE was sleighing at Montreal Canada last Thursday.

Let those who have doubted the virtues of Bull's Cedron Bitters, if any such there be, read the following certificates from gentlemen well known in this community, and doubt no more.

Its general introduction into the army will save the lives of thousands of our soldiers.

We, the undersigned, have seen the good effects produced by the use of Dr. John Bull's Cedron Bitters in cases of general debility and prostration of the system, and believe its general use would prevent disease and relieve much suffering. Among our soldiers, particularly would this be the case, especially those who are exposed to malarial influences in the Southern climate.
