 From their holes come out.
 And Mice and Rats,
 In spite of cats,
 Gaily skip about."

1866.

INCREASE OF RATS.—The Farmer's Gazette.
 (English) asserts and proves by figures that one pair
 of RATS will have a progeny and descendants no
 less than 551,050 in three years. Now, unless this
 immense family can be kept down, they would con-
 sume more food than would sustain 55,000 human be-
 ings.

1866.

RATS versus BIRDS.—Whoever engages in shoot-
 ing small birds is a cruel man; whoever aids in ex-
 terminating RATS is a benefactor. We should like
 some one to give us the benefit of their experience
 in driving out these pests. We need something be-
 sides dogs, cats, and traps for this business.—SCIENTI-
 FIC AMERICAN, N. Y.

1866.

"COSTAR'S" RAT EXTERMINATOR is simple,
 safe, and sure—the most perfect RAT-killer meet-
 ing we have ever attended. Every Rat that can get
 it, properly prepared, will eat it, and every one that
 eats it will die, generally at some place as distant as
 possible from where it was taken.—LAKESIDE SHOOK
 (Mich.) Mirror.

1866.

A VOICE FROM THE FAR WEST.—Speaking of
 "Costar's" Rat, Roach, Ant, &c. Exterminator—
 "more grain and provisions are destroyed annually in
 Grant County by vermin than would pay for tons of
 this Rat and Insect Killer"—Lancaster Wis. Herald.

1866.

HOUSEKEEPERS troubled with vermin need be
 no longer, if they use "COSTAR'S" Exterminator.
 We have used it to our satisfaction, and it is a box
 cost \$5, we would have it. We have tried poisons,
 but they effected nothing. But "Costar's" article
 knocks the breath out of Rats, Mice, Roaches, Ants,
 and Bed-Bugs, quicker than we can write it. It is in
 great demand all over the country.—Medina, Ohio,
 Gazette.

 IMPROVED SELF-ACTING
 Hand Loom!**

This Loom embraces all the valuable modern Im-
 provements applied either to Power or Hand Looms,
 reduced, simplified and perfected, so that by the
 simple turning of a crank, a boy or girl of 15 years

CAN OPERATE IT WITH EASE,

making from 15 to 40 yards of cloth per day. Its sim-
 plicity, ease of operation, and the rapidity and fault-
 less manner in which it does its work, justly entitles
 it to a name at the head of the catalog of valuable
 machinery; and while the Farmer and Laboring
 Classes will at once acknowledge the necessity of
 its use, it may justly be termed one of the most prac-
 tical

 The Loom is manufactured at Terre Haute, and
 can be seen in operation in this city 2 doors east of
 the Post Office.
