He will also suggest to Congress a proposition for an amendment to proportion representation among the States according to the number of qualified male voters, as prescribed by each State, the amendment to take effect when the census of 1870 shall have been taken.

appointment will effect a change in all the deputy assessors.

The prospects for farmers are not very encouraging for next year's wheat crop. As yet but little wheat has been sown in Southern Indiana, and but little ground made ready for sowing, owing to the long continued wet weather.—*New Albany Ledger*.

CHEERING INTELLIGENCE.—Intelligence from all portions of the district is of the most cheering character for Mr. Purdie. Hundreds of Mr. Orth's former supporters are rallying to the support of Mr. Purdie, while the soldier boys of all parties have determined to vote for the man who contributed more for their support than any other ten men in the district.—*Lafayette Journal*.

The damage by the late flood in White Water river, in Fayette county alone, is set down by the *Connersville Times* at \$100,000. Mr. Caldwell, of Connersville, lost 150 head of fat hogs by drowning; Mr. Petty, of Milton, lost 150 head, and Mr. Beggs, of Laurel, lost 100 head.—Over 4,000 acres of corn were inundated between Cambridge City and Laurel.

The butternut crop in this part of the State is prodigious. An old copperhead climbed a tree recently, and was thus interrogated by a blacksnake.

"Copperhead, copperhead, what do you see?" To which the old "cop" answered, "Butternuts, butternuts, thick as can be."

Not very good poetry, but very sound truth.—*New Albany Ledger*.

CHANGE OF VENUE.—The case of the State vs. Parkinson for the murder of young Guthridge, in Jasper county some months since, has been transferred to the Circuit Court of this county, on a change of venue, and will probably come up at the forthcoming term of said court. Our readers have not forgotten the circumstances of the affair, an account of which we gave at the time. Guthridge was supposed to have seduced Parkinson's daughter, which fact coming to the ears of the latter he deliberately shot the former. The case is one that has attracted considerable interest in Jasper county, and the progress and result of the trial will be watched with interest.—*Lafayette Journal*.

Free Speech at Williamsport.

We have been informed that Colonel Cyrus L. Dunham, after addressing the large crowd at Attica on Tuesday, accepted an invitation to speak to the citizens of Williamsport the same evening. The court-house was obtained for the accommodation of the speaker and his hearers. After he had commenced speaking some gentlemen—no, not gentlemen—kangaroos is hardly a decent name for them—believing that a man entertaining different political opinions had no right to speak and be heard by those who wanted to hear, they proceeded to playfully throw stones at the court-house, thereby endangering the safety of life and limb of those inside the building. We suspect that this is the same party that was going to mob the Williamsport *Republican* office, because the editor of that paper said to say some truthful things about John Purdie. These guardians of freedom but a few years ago were shouting themselves hoarse for free speech, freedom of the Press, &c., but now they would, if they dare, take the life of any person who might choose to differ with them in their political notions. These individuals, knowing that their lease of power is but of short duration, propose to have it all their own way. We see by the *Courier* that General Wagner and Captain Park, both citizens of Williamsport, are stumping the district for Mr. Orth. We think the best thing that these two gentlemen could do would be to turn their attention to their own town. There are some of their neighbors that need to be taught how to behave themselves. There is room for their missionary labors at home. Let the heathens of the 8th District go. The General and the Captain are needed at home. Go home, ye brave soldiers, and learn your neighbors good manners, for God knows they are a kangarooish crew. *An avenger, Kangaroo!*—*Lafayette Journal*.

Let no Conservative fail to be at the polls next Tuesday.

ORTH took care to vote for a law that the Territories of the United States, ten in number, should not deny the right of voting to the negro. But put no prohibition in the statute against the Territories conferring the right of suffrage to those men who possessed property. Under their law the negro could not be disfranchised, but the poor white man might! They thus put the negro before the white man.

THE Radicals propose to force negro suffrage upon the Southern States. In two of these States the negroes outnumber the whites, and in others of them they are nearly as numerous. With negro suffrage they would elect negro members of Congress and negro Senators to sit by the side of the white Representatives from the North. Those who are in favor of such a Congress will vote for Orth, the Radical candidate.

If you want negroes at the ballot box, negroes in the parlor, negroes to marry your daughters, vote for Orth and the Disunion-Abolition State Ticket.

BRICK POMEROY, of the La Crosse Democrat, in his issue of the 24th gives the following pen sketches of our city:

"Crawfordsville is a beautiful place. There are here about twenty-five hundred people, two newspapers, a large and prosperous college with an average of two hundred and fifty pupils in attendance, a good court house and county office buildings, three good hotels, nine churches, one extensive brewery, owned and managed by Henry Lorenz, a prosperous German who makes the best Lager in the State, two good halls for concerts &c. Montgomery county is a fine one for agricultural purposes, land being worth from \$50 to \$100 per acre. A great abundance of choice fruit is raised here for home use and market. Wash College is located in a natural grove of twenty-five acres, one of the most beautiful spots of ground we ever saw. The beach, hickory, walnut, butternut and maple trees grow large and thrifty, the soil is thick and luxuriant—the ground is broken just enough to make romantic trysting places for lovers, or secluded spots for students. The College buildings are large and well planned. We were by Professor Hovey kindly shown through the buildings and elegant grounds. The cabinet of Minerals here is the finest we have seen out of the Smithsonian Institute at Washington, and is a credit to the college. The Library is also worth especial mention, as it contains some of the rarest old volumes, scarce and valuable. In company with Mr. Bowen, editor of the *Review*, General Manson and the Professor named, we spent a pleasant and profitable hour here, only regretting that time would not permit us to remain longer. Wash College is an institution of learning not only Crawfordsville, but the State of Indiana may well feel proud of it, for it is thorough, extensive and complete.

The Crawfordsville *Review*, C. H. Bowen, editor and proprietor, is one of the sharpest papers in the State, and the office was the best country printing office we found in the State. Mr. Bowen deserves great credit for the skill, pains, industry and interest in all that pertains to the best interests of his country. His paper has a circulation above the average, and his work is hard to beat. Such editors deserve a liberal support, for they are the men who bring a place into notice and add to its prosperity.

We found many most noble friends here, all gentlemen and patriots. Brave, earnest, determined Democrats, lovers of their country and lovers of liberal dealing. We shall always look back to our pleasant visit at Crawfordsville with pleasure, for it gave us an opportunity of seeing a beautiful portion of the State, and learning that there was but one genuine, pater-fained ignoramus in a town of that size. He was of so little account that we have forgotten his name, but think it is Snyder, or Rynders, or Ryder, or some such name, of no notoriety or consequence. The city is forty-five miles west from Indianapolis, on the Louisville, New Albany & Chicago Railroad. We had a splendid dinner, as the guest of General Manson, and a ride all about the city in the afternoon with Dr. Dorsey, with whom and his unusually interesting family we past the night, resting sweetly after the labors of a few weeks, and the night before on the stage having a social talk with a hall packed with ladies and gentlemen on the political topics and duties of the hour.

There is more refinement and good taste observable in Crawfordsville than in many other cities of its size. Riding or walking we could but notice beautiful residences, rich shrubbery, plenty of fruit and an abundance of flowers marking the happy home so plenty here. Surely the people must be lovers of Union, and liberal in their kindness toward all men, especially those with whom they once warred—now unarmed supplicants for peace to come again that they too may once more make their homes be fruitful.

A DISPATCH from Terre Haute, October 2d, says: "Oil was struck this morning, at the depth of about 1,300 feet, in the Artesian well being sunk here by Mr. Chauncy P. Pose, of this city. It flows at the rate of about forty or fifty barrels per day, with tubing only extending ten or twenty feet below the surface. It is estimated that it would produce one hundred barrels per day, if properly tubed. The oil is of good quality. This has been visited to-day by hundreds. This is considered the more important, as this is the only oil as yet found in this part of the country in paying quantities."

The perpetuity and future existence of the Great Republic hangs upon the decision made by the people on next Tuesday. If the Radicals triumph, farewell to the American Union. It will be the darkest hour that ever eclipsed human liberty. It will set the clock of self government and republican institutions back a thousand years. Shall the hands of the dial go back? In God's name we answer no! Men of Montgomery county, as you value free institutions and hate despotism, rally as one man to the polls on Tuesday morning, and defeat the minions of tyranny who seek to engulf us in anarchy.

Next Tuesday is the election. We want to see every Democrat and Conservative man at his post early, and victory will be sure to crown our efforts.

Vote early and see that your neighbor does the same.

Rich Radical Pickings.

General W. Patton, a former associate of John W. Forney, the present Secretary of the United States Senate, and a leading Radical, has addressed a letter through the Philadelphia Sunday *Transcript*, to that person, in which he exposes some of the corrupt practices that prevail within the precincts of Congress. We give a sample of the letter, where it is shown how Forney made ten thousand dollars by one transaction. Congress, it is well known, has been in the habit of voting valuable books to its members, which are furnished to the members of the House by the clerk of that body, and to the members of the Senate by its Secretary. With this preliminary, we will let General Patton tell how Forney made \$10,000. He says:

"Soon after you were elected Clerk of the House of Representatives, Mr. Morrison of the firm of W. M. Morrison & Co., booksellers, on Pennsylvania avenue in Washington, city, said to me one day: 'General Patton, you and Colonel Forney seem to be on intimate terms, and I want you to do me the favor to negotiate with him to give us the contract for supplying members of Congress with the books, which they are entitled. As he will probably expect a bonus for it you may tell him that we will give him 5,000 for it. I said I would do it with pleasure. I informed you of his request and the amount of bonus he offered; but you said he must do better than that—you must have \$10,000 for it. Said I, Colonel, that seems to be pulling it up pretty steep, and I doubt whether they can afford to give it. Well, you said, I don't care whether they can or not; there are other parties competing for it, and I can get it. I reported to Mr. Morrison what you had said, and he said that the bonus was larger than he expected to pay, but that he would risk it. You gave them the contract, and they gave you the \$10,000 in cash. Now, Colonel, as the only injunction of secrecy imposed upon me in this matter was not to let P. Barry Hays, your chief clerk, know about it, and as he has gone to that bourne from whence no traveler returns, I do not, therefore, consider this disclosure a breach of confidence."

That was a very nice transaction, and it is only one of several ways in which the Radical officials of Congress feather their nests. No wonder Forney labors so perseveringly to keep Southern Senators and Representative out of Congress. His nice pickings might be interfered with in case the Radicals should be defeated.

THE COMING ELECTION.

To the Democracy of the Eighth Congressional District of Indiana.

The undersigned desires to address to you a few words of counsel and caution. The election is near at hand. For the high, responsible, and, at this time, very important position of Congressman for this district, two candidates are presented: Hon. G. S. Orth and John Purdie, Esq. These gentlemen are both well known to you. Mr. Orth is the present Radical member from this district. He has been a life-long opponent to the Democratic party. He has been the constant enemy of the Union, and was at one time the chief officer of the Know Nothing organization in this State. He is in favor of negro suffrage, as is evidenced by his vote to confer the right of suffrage upon the negroes of the District of Columbia, that being the only time in his life when he had an opportunity to vote strictly upon this question. He practically holds the doctrine that secession was a success, and that the war to prevent it was a failure—that ten States are dead, and the Union dissolved, as is evidenced by his advocacy of the pending Constitutional Amendment.

Mr. Purdie has always been conservative in his views. He is not the candidate of any party, but stands squarely upon the declaration of principle adopted by the National Union party on the 14th of August, 1866, at Philadelphia.

One of these gentlemen will be elected to Congress. It is too late to think of a third candidate. Mr. Orth and his friends are seeking to mislead Democrats and Conservative Republicans by reporting that our party will place a regular Democrat on the ticket on the day of election. This report is absolutely false. We earnestly exhort Democrats to vote for John Purdie for Congress, and no one else. If you see tickets with the name of a Democrat for Congress, you may be certain that it is a base and wicked fraud, designed to secure the election of Orth.

Tippecanoe County—John Pettit, L. B. Stockton, Thos. B. Ward, E. T. Jenks, E. M. Weaver.

Carroll County—James Odell, J. C. Applegate, William Crooks, M. R. Graham, A. Garrett, John B. Milroy.

Fountain County—Joseph Ristine, James King, E. M. McDonald, Harris Reynolds, J. W. Newman, William H. Layman, John McManowing.

Boone County—E. D. Herrod, L. C. Dougherty, R. C. Kise, A. J. Boone, J. C. Daily, Henry Lucas, Henry M. Marvin.

Montgomery County—Samuel C. Wilson, James F. Harney, William C. Vance, J. P. Watson, Jackson Snyder, William K. Wallace, M. D. Manson.

Warren County—Lucas Haines, James McCabe, E. F. Lucas.

Clinton County—N. T. Catterlin, Henry McClurg, David P. Barner, Leander J. Layman.

If you wish to avert another civil war, vote the National Union Democratic ticket.

FREEDMEN'S BUREAU agents are taking a colored census of Norfolk, with a view of finding out the number of necessitous negroes.—*N. Y. World*.

No such process is going on with respect to soldiers' families in the North. No Freedmen's Bureau looks after them. They can starve for all that Congress cares!

If you are opposed to negro equality, vote the National Union Democratic ticket.

More of the Impatchment and Civil War.

Hon. John A. Bingham, of the Sixteenth Ohio District, says the Cincinnati *Enquirer*, a radical of the first water, and who has been re-nominated for Congress, in a recent speech at St. Clairsville said that if the people would reflect him this fall, "So help me God, I will neither give sleep to my eyelids, until I shall have drawn bills of impeachment against Andrew Johnson."

Bingham has the courage to toe the Radical mark publicly and above board. He tells what he knows the Radicals intend to do next winter, and he promises to initiate the movement, if the people will re-elect him. Boutwell, of Massachusetts, one of the Committee of Fifteen, declares that "articles of impeachment will be offered and carried by the House at the next session." Jack Hamilton, at Cleveland, declared such to be the intention of the Radicals next winter; and went on to tell how civil war would follow. But it all depends on one thing, as in Bingham's case—if the people elect Radicals this fall. If the people vote down the Radicals, there will be no impeachment and no civil war. Horace Greely, in the *Tribune*, says if the Radicals are defeated at the coming elections, they will submit, and allow the President's policy to prevail without any further opposition. That we were satisfied of before he told us. It is only in case they get encouragement from the people that they will resort to extreme and violent measures. Vote them down, and peace, union and prosperity will follow.

THE LARGEST CHEESE EVER MADE.

The Schenectady Union of the 13th inst. mentions the arrival at that place on that day, by Central Railroad, of a mammoth cheese from the Ingersoll Cheese Company, C. W. Its destination was the State Fair at Saratoga. It was made from one milking of seven thousand cows—embracing all the cows within a circuit of many miles. The cheese is six feet, ten inches in diameter, three feet thick and weighs seven thousand pounds. In pressing it four large jack screws were employed. The cheese was encased in the original pressing hoop, and placed on a truck manufactured specially for the occasion. The owners have been offered \$100 per day, for five days, for an exhibition of it at the Toronto Provincial Fair. It was expected that enough would be made at the Saratoga Fair to pay the expenses of transportation and other contingencies.

Let no Democrat fail to attend the Election next Tuesday.

It is a noteworthy fact that every Treasury thief and rascal in the country are enlisted on the side of the Radicals. They are like the vultures that smell the carcass from afar. They know that civil war will follow the triumph of the Radicals this fall, and civil war will be their carcass, upon which they expect to feed and grow fat.

The soldiers who fought three years to retain ten States in the Union are given by Congress \$100 bounty. For two years' service in keeping the same States out of the Union, Congress votes their members \$4,000 bounty!

If the Radicals are successful in the coming elections, they will impeach the President and plunge the country in a civil war. The only way to avoid a reign of terror and of blood is to vote down Radicals.

Those who are in favor of Congress legislating entirely for the negro, and never for the white men, will vote the Radical ticket.
