The Vandalia has promised us a new depot if the citizens will buy a lot on Harrison street. The money is nearly all subscribed and we will have a fit place for the traveling public to stay in. It will be a block south of where the present one is.

An Indian lectured two nights in the church last week and told how the missionaries came to them from this country and how some of them acted. He said they bought whisky and got the Indians drunk and then cheat them out of their robes and furs, and in short, instead of doing good they did them great harm. Perhaps this is but an instance in a hundred where the missionary money that is given here to help Christianize the heathen has been used to make them drunk. He said a great deal about the way the whites abused them and tried to make them give up their homes and the trouble they had with land sharks when Presidents Arthur and Hayes were in power, but says when the present administration came in the sharks were given thirty days' notice to move their cattle and they moved.

The protracted meeting here closed on Sunday night. The meetings have been going on for two weeks with one accession to the church. There seems to have been some things said by the minister in his sermons that would have been better for the good of the church to have been left unsaid. Comments on the situation are unnecessary as it is not our funeral.

The Journal correspondent from this place seems to have been eating sand, and comes back at us in last week's Journal in fine style. We are glad to see this, as the plucky purp generally makes a good dog. Sometime ago we felt very much discouraged in regard to his case but now we feel better, and we think if he keeps on improving he will be able, if he lives long enough, to soon emit as much gas as himself and be a perfect gusher. Our advice to him is to put his socks on wrong side out as often as he can so as to bring him all the good luck possible. Come again, Tom Tit.

The young folks of this place attended the opera Saturday night and report a grand time.

The Darlington quill shaver must have been intoxicated when he wrote the Jersey cow butter story.

A chilly combination calling themselves a show company struck this town Tuesday night and presented a new play called Uncle Tom's Cabin. There was nothing in their acting. They were rank from beginning to end. They had one woman who played all the parts in a fine double. The town may need to be

punished but we hope it is not so wicked that such a curse, as this will ever be put upon it again.

It is strange how some people will try to injure a worthy young man, as has been the custom with a few gossipers since Harry Trenary the gentlemanly young agent of the O. I. & W. came to this place. Mr. T. is an excellent young man and those who have known him know that such reports are untrue as they would try to have the people believe they are. He is a good railroad man, of good habits, and the backbiting of such hypocrites will not injure him in the estimation of the people.
