

MEDICAL

D. E. Huntsinger,
Eye Ear and Chronic Cataract Specialist
UNEQUALED SUCCESS in curing most difficult cases. No matter who has treated you and failed. No pain. No danger. No experiments. Diseases of the Eyes and all Discharges of Eyes possess the brain, causing death from inflammation, or abscesses of the brain or blood poison. Granulated Eyes or Granulated Lids, causing the lids with caustic or blue stone, blisters, ulcers, Eyes, scabs, etc., cured by a New Method without pain or danger. A New Positive and Painless Treatment for Chronic Cataract that will cure. A badly treated or neglected Cataract is a prominent blemish, causing the eye to be a constant source of Deafness. Perfect Fitting Glasses very cheap. Advice free.

Spectacles, I now have the most elegant stock of Perfect Fitting spectacles and Eye-Glasses in the state, which, until for her notice, I propose to sell at Factory Prices. My Glasses are made and sold from the best materials. The best Material. The Lenses possess a natural Transparency and Perfection of Clearness and Refractive Power in the highest degree that Art, Science and Skill can produce. I take special pains to find the best and most favorable time for the purchase so that the cost of spectacles, etc., lens sits exactly in front of the pupil of the eye, thus giving the Greatest Ease and Comfort, as well as greatly improving the Personal Appearance. The cost will be very specially, and the glasses of value to every one have been tested by the Fitter, Inferior to Poorly-Made Glasses, which are a positive injury.

All persons buying Glasses of me can have the eyes scientifically examined by very pleasant methods that will tell them the slightest defect in the vision, which is a great saving of charge. You can buy or have your spectacles and spectacle frames made to exactly fit your face and eyes and then ground to special order without extra charge. I have all my glasses made in New York at the most accomplished and exacting work room.

I have Electrodes for \$1.25 a pair.

My large experience and success in fitting the most difficult eyes is a small sum to give Positive Satisfaction when glasses are required.

Every pair guaranteed as represented.

REFERENCES: Geo. D. Angier, attorney at law, son Frank, discharge from ears and deafness; John R. Courtney, lawyer, son, bad eyes and ears; C. L. Mills, deaf 35, etc., 20 years; Samuel G. W. Moore, 20 years, 10 months in dark room with violent eye disease causing total blindness. Is a Pitt. man, total blindness from cataract; Miss A. A. Alston, violent cataract of eyeball; E. B. Smith, wife, eye disease, 20 years, 10 months; Dr. James Thompson, deafness, son of Crawfordsville; Hon. Silas Peter Son, wife, bad case deafness, Potash Creek; Frank Powell, banker, Colfax, chronic cataract; Congressman W. D. Owen, congenital deafness, eyes and deafness; Judge Waugh, Lipton, surgeon, Marion on eye that restored sight; Judge Terhune, Lebanon, Ind., deafness; Ex-Senator Kent, Frankfort, cataract and deafness; J. W. Linn, congenital deafness, eyes and numerous others in this vicinity equally bad.

Will be at Drs. Galey Bros. Dental Office in Crawfordsville, THURSDAY, February 21, and every two weeks thereafter on Thursday.

THE REVIEW.

THE BOODLE ARISTOCRATS.

A member of the Canadian parliament in an address one day last week at Ottawa, in that country, said:

"America's alleged aristocracy lives only for boodle."

These fellows on the outside frequently say some very plain and truthful things about this country, however unpalatable they may be. There is certainly very much of truth in the above assertion. Since the domination of the republicans in this country an aristocracy has certainly been created that has arisen on boodle and lives only for it. The party, to use a homely expression, has played into the hands of the aristocrats. The laws have been manipulated and created in their interest and they have piled up immense fortunes in consequence. If you can buy up legislatures and Congressmen they will form laws to suit the most pressing demands of boodle aristocrats. Take the railroad and manufacturing interests of this country. Everything has been made yield to their interests. They have rarely asked, when beseeching a republican Congress, for anything that has not been granted. Consequently we see men like C. P. Huntington, worth \$40,000; Jay Gould, worth \$75,000,000; Carnegie, worth \$40,000; Wanamaker, worth \$10,000,000; and many more, embracing a vast portion of the wealth of this country, all republicans and all contributing to its support. They are boodle aristocrats, have little or no interest in common with the vast majority of the people of this country, and desire only that its laws may be so constructed as to add to their great wealth. They give little or nothing of their possessions to aid in promoting the happiness of the human race and have no tastes cultivated aside from the art of money getting. But in the meantime while the republican party has built up a boodle aristocracy, what has been the condition of the other classes of the American people. Is there a state in which there have not been strikes among the poor mechanics on account of reduction of wages? Is there any county in any of the western states east of the Rocky mountains in which from one-fourth to two-thirds of the farms are not mortgaged for debt? Is there any locality in which tramps, and also men hunting for work, can not be found? And is there any wonder that, under such a state of circumstances such riotous and blood-thirsty organizations as Anarchists and Communists should be created? That organization, the republican party, for twenty years past has sown the wind to reap the whirlwind, has created an aristocracy at the expense, misery and degradation of many, many thousands of people, and the effects of it are every day to be seen. The country needs but a few years more of the triumph of such an organization to witness a complete change in the laws of the government from that intended by its founders, and a monied aristocracy to rule it entire.

SALARY OF U. S. SENATORS.

A number of the present Senators of this Congress are growling at their salaries of \$5,000 a year not being enough to live comfortably and in style in Washington City, and propose to try to increase it to \$10,000 a year if a sufficient number of Congressmen can be induced to vote that way. Five thousand dollars a year is enough for any decent, sensible citizen to live up in any city of the United States and while the present condition of things exists should not be increased. If Congressmen give a thousand dollar supper every three months it is perhaps not enough; if they have a \$2,000 dollar equipage with liveried coachmen to run through the streets of Washington every day it will no doubt count heavily against their salaries; if they ape the manners of the English lords in their extravagance it is not enough by any means, but, as stated, a decent, respectable citizen can live honorably and comfortably in any locality in America on \$5,000 per year, and many thousands of good people, as any Congressman get along on very much less. Compare the sum of \$5,000 a year with that received by thousands of honorable professional and laboring men all over the country and how few of the vast army receive any such sum. For the service rendered \$5,000 to a Congressman is pay enough. The law making machinery is expensive enough in this country now, without increasing it. If it be disgraceful to live economically and prudently instead of aping the manners of millionaires, in Washington City, then the American people will say let the disgrace be borne. The millions, it is observed, generally make very poor Senators. Their minds are upon matters of self interest too much to think of the country's needs. The Congressman going to Washington City to try to labor for his constituents' benefit does not expect to give high priced suppers, grand receptions, etc. He is not there for that purpose, but by common sense executive power can live very comfortably on \$5,000 a year. This country, with its large, interest-bearing debt is not able to increase the salaries of its officials, but should retrench and economize wherever possible.

CORPORAL TANNER, who campaigned it for Harrison last year has at last received his reward in the appointment of Commissioner of Pensions. He is said to be anything but capable for the place, and several republican leaders quietly urged that it was one else of ability be appointed, but it availed nothing. But where was our Jim Johnston of the 8th Ind. district when the lights went out, and where are the long petitions with the hundreds of citizens who recommended him for the place?

ONE of those rare and assuredly sad scenes, the execution of a woman, is announced to occur in Pennsylvania next month, the board of pardons of that state having refused to change the sentence of the court. The victim's name is Whiting, and her crime, if we remember aright, was the administering of poison, resulting in death to a relative. Women are rarely executed in any state of the Union, public sentiment revolting against it, and this is a rare instance for Pennsylvania.

GEN. JOSEPH E. JOHNSTON, ex-Confederate, has been for four years a railroad commissioner under the government. Gen. Sherman, to whom he surrendered his command in 1865, has asked that he be retained. But as Johnston is not a republican he will be bounced, and some good Union-serving man like Longstreet, Motley or Malone will be appointed. The sins of prominent ex-Confederates are easily washed away if they will become members of the republican party.

IT may be that in the great strike last year of the engineers employed on the Burlington system that capital triumphed over labor, the engineers after a year finally yielding, but it was certainly one of the most expensive triumphs known to railroad history. The annual report of the C. B. & Q. railway, made a few days since, shows a deficit of \$4,331,000. The directors charge it to the strike, and no doubt are correct. Bull-headedness is very expensive at times.

HON. JAMES N. TYNER, late of Peru, Ind., a perpetual office-holder when he was not an office-seeker, has again been rewarded, having last week received a position in the postal department of the government. He was holding a similar position when Tom Brady was swimming the government through the "Star Route" swindles, but somehow escaped suspicion of wrong doing. They should not forget Brady in the division of the spoils.

"COL." FRED GRANT has been appointed Minister to Austria by the Harrison administration. He was appointed simply because he is a son of Gen. Grant—nothing more. He has given no evidence of any business ability, and measured by what he actually amounts to, a position as postmaster of a country village would about fit him.

A NEW gravel road is likely to be constructed soon in this county. In work heretofore done of that kind here there has been a remarkable amount of dissatisfaction. Charges of swindling on the part of contractors and officials engaged in the work, etc. Experience should be worth something in the new proposed work, and no man should be paid a cent who fails to do his exact duty in the premises. If for instance the surveyor is paid \$4.00 per day for superintending the work he should remain all day—not a half hour—if he is to be paid for a day's work. If a contractor agrees to gravel a road he should put down gravel—not clay and dirt—and should be paid only for what he contracts to do. If those who are wanting this road built will exhibit some watchfulness and business tact they can without doubt receive the worth of their money in a good thoroughfare, and which will be a permanent benefit to their property—if not they may be swindled like scores of others have been here and elsewhere by shoddy contractors doing inferior work. Contractors should not agree to do work below the point where there is no profit, and farmers along the line of any newly gravelled road should not be compelled to pay for work done according to contract.

EXPESE EASILY BORNE.

The chief complaint apparently of republican officials and newspapers of this state regarding the new election law passed by the last legislature is that it is expensive and cumbersome. People very generally have to pay for a good thing and it generally pays to do so. Dear goods are generally the best. While it may be more expensive hereafter to hold an election it will satisfy the people with honest results. It has been expensive to thousands of honest voters heretofore the way elections have been managed and vast numbers of men put into office by them have proved expensive, too, in the way of defalcation in office, bribing voters, and other disgraceful matters. The honest taxpayers of Indiana will be willing to bear the additional expense, without question, if honest elections are hereafter to be the rule.

BINDER TWINE TRUST.

A trust having been formed among the manufacturers of binder twine and the prices more than doubled, farmers in many localities in the west are preparing to make a vigorous contest against it. Some of them will not use the twine binding machines this year, but will cut with the reaper and bind with the hand, while others will use wire, or anything to beat the trust. The plan farmers are taking is just the way to defeat the firms that seek to shut out all competition by uniting on prices and raising the price from 10 and 12 cents per pound to 25 and 30 cents. The trust cannot long stand this kind of war and will soon go to pieces.

THE INDUSTRY OF BINDER TWINE.

The Indiana colony of office seekers has hung on faithfully at Washington since the inauguration and are said to be as persistent as ever in their demands for office, notwithstanding the fact that the offices must generally be distributed to other sections. Porter and New Haven have been rewarded and the rest of the Hoosier crowd cannot expect any very important positions. The offices of Public Printer and Commissioner of Pensions are both sought after by the Hoosiers, but it would seem very probable that they will be located elsewhere, as they should be.

Wm. Roberts, M. D., physician to the Manchester, Eng., Infirmary and Lunatic Hospital, professor of medicine in Owen's College, says: "Gradual failure of strength, increased pallor or sallowness, and disinclination for exercise is one of the prominent symptoms of kidney disease." Warner's safe cure remedy is the only remedy that is guaranteed to cure kidney disease.

Dr. Nathan Hazen, Marshall, Ill., is 90 years old. Served in the battle of Lake Erie on Perry's flagship.

J. M. Loose Red Clover Co., Detroit, Mich.—Gentlemen: My wife has for some time been afflicted with something like scrofulous disease and found no relief until she gave your Extract of Red Clover trial. I am happy to say that she has experienced great relief. This is but a slight testimonial of my appreciation of your efforts in behalf of humanity, which you are welcome to use for their benefit.

I am, very truly, H. ARES.

And many others.

Gen. Wade Hampton returned two flags captured by Carolina troops during the war, to the original Pennsylvania owners.

Poison the fountain and the system is impure; poison the blood and its taint is carried through the entire system—those innumerable veins and arteries carry disease and death instead of life and vitality. As a result, you have headache, scrofula, dyspepsia, kidney disease, liver complaint and general debility. An inactive liver means poisoned blood; constipation means poisoned blood; kidney disorder means poisoned blood. The great antidote for impure blood is Dr. Pierce's golden medical discovery. Acting directly upon the effected organs, restores them to their normal condition. "A word to the wise is sufficient."

Postmaster-general Wanamaker manages his Philadelphia store same as usual. Has a telegraph wire direct from his department to store.

The Brompton Hospital for consumptives, London, Eng., published a statement that 52 per cent. of the patients in that institution had unsuspected kidney disease. Every drop of blood in the system passes thousands of times through the lungs in each 24 hours. The same blood passes through the kidneys for purification. If the kidneys are not in a healthy condition or able to expel the poisonous or waste matter the acid returns to the delicate tissues of the lungs and produce irritation, which results in the symptoms of what is known as consumption. This explains why 52 per cent. of the consumptive patients have unsuspected kidney disorder. Warner's Safe Cure put the kidneys in a healthy condition taking the blood which vitiate the lungs and cause consumption.

The members of a Baltimore jury, trying a man for murder, were taken to the scene of the crime and each in turn looked through a keyhole, through which one of the witnesses claimed to have seen the act committed.

Mother, Wife, Daughter.

These dull fixed look and unpleasant feelings speak volumes. Dr. Kilmer's female remedy builds quickly a run-down constitution and brings back youthful beauty. Price \$1. pamphlet free. Binghamton, N. Y. Sold recommended and guaranteed by Lew Fisher druggist.

A strange illness is reported from Hungary. A young girl had a fit of sneezing which lasted twenty-four hours.

To Cure Heart Disease.

Use "Dr. Kilmer's Ocean-Week Heart Remedy." It regulates, corrects and relieves the most distressing cases. Price 50c. and \$1. pamphlet free. Binghamton, N. Y. Sold recommended and guaranteed by Lew Fisher druggist.

REPUBLICAN papers in this state are boasting of the wonderful nerve displayed by Gen. Hoyt in thwarting the plans of the democrats of the last state legislature. A bull in a china store would exhibit just about as much sense as Hoyt has. He is without question a self-opinioned old fool, who has much less sense and judgment than any man occupying the state executive chair for 20 years past.

WHITLAW REID, editor of the New York Tribune, has been appointed U. S. Minister to France. He is an able man; respectable and dignified in his deportment towards the people, and the appointment is considered a very good one. The salary is \$17,500 per year, but to put on the style and flunkism required will probably consume all this, and aside from the honor there will be nothing left.

It was stated that John C. New of the Indianapolis Journal, and discoverer of Ben Harrison, could be appointed Minister to Australia, and again that he was to be Council General to England, either of which would suit him. It may depend very much on what brand of whisky they keep in those countries to make the location satisfactory to New. Some office seekers are peculiar in their tastes.

MRS. LUCY PARSONS, the female anarchist, in a speech at Chicago, Saturday, said:

"We want a revolution; whether peaceful or bloody, no difference; a revolution must surely come."

It is quite evident that Lucy is panting for martyrdom and the sooner she receives a sentence of eight or ten years in the penitentiary the better.

JOHN C. NEW, the founder of Ben Harrison, seems to have been allowed his pick among the fat offices of the administration and to choose the best so far as the money is concerned. His office, Council General to England with the salary is worth \$35,000, and he has surely been well rewarded for his advocacy of the nomination of Harrison.

The bad effects of imprudence in eating and drinking are speedily removed, and the depression following eating is quickly banished by the use of Laxador. Price 25 cents a package.

Texas rangers and Mexican outlaws had a fight near Rio Grande City, Tex. Two Mexicans killed.

"Can't eat a thing," Hood's sarsaparilla is a wonderful medicine for creating an appetite, regulating digestion, and giving strength.

Said that ex-Congressman W. H. Calkins, Indianapolis, will be made commissioner of the land office.

Wm. Roberts, M. D., physician to the Manchester, Eng., Infirmary and Lunatic Hospital, professor of medicine in Owen's College, says: "Gradual failure of strength, increased pallor or sallowness, and disinclination for exercise is one of the prominent symptoms of kidney disease." Warner's safe cure remedy is the only remedy that is guaranteed to cure kidney disease.
