

HOOD'S SARSAPARILLA.

Take Hood's Sarsaparilla 100 Doses One Dollar

The Chief Reason for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given to this medicine a popularity and sale greater than that of any other sarsaparilla or blood purifier before the public. Hood's Sarsaparilla cures Scrofula, Salt Rheum and all Humors, Dyspepsia, Sick Headache, Biliousness, overcomes That Tired Feeling, creates an Appetite, strengthens the Nerves, builds up the Whole System. Hood's Sarsaparilla is sold by all druggists. \$1; six for \$5. Prepared by C. I. Hood & Co., Apothecaries, Lowell, Mass.

"Ours was a case of democratic incompetency."—Last week's correspondent Journal.

The above appeared in last week's Journal, from here, besides a number of other dirty flings which were out of place and uncalled for.

When Carelon Snyder was removed and A. C. Yount appointed post master here it created quite a little flurry and in fact some were considerably excited over it—republicans as well as democrats. The greatest objections were that the present location was the best in the place, and another was the way and manner in which the change of post masters was made without consulting the people and giving any others a chance for the office. But since the change and as time moved along the people were becoming reconciled and very little was said about it until the Journal correspondent from here (who always puts his foot in it) came out in his flings.

A little over two years ago the daily messenger route between this place and Troutman's station was discontinued. The people united and after hard work succeeded in its reestablishment. Since that time everything connected with this route and office has run along very nicely. The people one and all have taken great interest in their mail facilities and since the change of post masters had come to view the change as a matter of fact, and were ready to abide by it, but when such flings as came out in the Saturday Journal are thrown in their faces then the old feeling comes back and people take sides. We should be very

careful what we say as we do not know what may happen and how soon we may all be called upon to assist in a reestablishment of our daily mail again, and if we were not united what could be accomplished. Our advice to the Journal correspondent is to keep his dirty little charge to himself hereafter or quit writing for the paper. The books as kept by the late p. m. and his assistant will compare with the books of any office in the state, and the charge of incompetency is a malicious charge and rests on the p. m. and his assistant alike. There is many a person who can set a mouse trap to perfection, but not satisfied with such small game, they undertake to trap for bears and gets caught by the bears. Moral: Study your genus and stick to mice.

The folks of this neighborhood are very much interested in talking about things that do not concern them a particle. If they would attend to their own business and quit talking about an innocent person that does not deserve their slanderous talk they would be better off and have plenty to do.

Of late there have been more tramps coming this way than ever before known. Scarcely a day passes but one may see half a dozen of these fifth venders in the neighborhood. They are too lazy to work, preferring the life of a vagabond, and go about the country begging a living and committing depredations under cover of darkness. These worthless characters are a nuisance to any community and deserve more vigorous treatment than the statutes of Indiana provide.

ROUND HILL.

The growing crops look fine since the late rain.

Miss Dora Mitchell is stopping at James Wilson's.

Wm. Alston visited home folks near Elmdale Sunday.

Albert Wilson and family Sundayed at Wm. Pierce's.

Tom Lynch has planted his sod corn the second time.

Hrs. Henderson spent last Friday with Sugar Grove friends.

Lizzie Eshleman spent Sunday with her sister at Balhinch.

Miss Mary Hanna has been sick this week with a bilious attack.

James Pierce and wife visited Mrs. Steele, of Crawfordsville, Friday.

John Utterback and family sold their wool at Yountsville last Friday.

The frost on last Thursday night killed the corn on the low ground.

The baptizing at the Center church was conducted in the old Newlight faith.

The festival at New Richmond was a grand success in every way, shape and form.

Tommie Quillen and family, of Crawfordsville, visited in this vicinity last Sunday.

O. H. Taylor, of Lafayette, returned home on Saturday last, looking hale and hearty.

Rachel Crow, of Crawfordsville, spent last Saturday and Sunday with home folks west of here.

There was a man through here last week fixing up old stoves and making them as good as new.

William Mason, of Sugar Grove, passed through here on Sunday last enroute to Crawfordsville.

Arrangements for children's day at this place are being made, in which it will take place the fourth Sunday in June.

Manoah Brown had the misfortune to lose a valuable mare last Friday, caused by jumping on the fence and killing herself.

The young man of New Richmond who talks so nice to the girls and tries to feed them taffy finds out for himself that they are not so easily blarried.

Mrs. Symms, of this vicinity, died last Friday morning and was buried on Sunday at the Mt. Pleasant cemetery. She leaves a husband and seven children to mourn her loss.

Enos Shields, formerly a Round Hill boy, who has been on a tour of inspection in almost every State in the Union during the past six years, is now in Denver, Col., visiting friends and relatives.

The prospects for wheat in this vicinity are very good. Mrs. Mattie Wallace, who has been quite ill, is improving.

Mr. Smock has bought a new traction engine that is a daisy.

The Christian church ladies are to form a society for church enterprise.

Frank Perkins went to Lafayette last Monday and purchased goods for his store.

These good Harrison times make republicans here sick when you mention it to them.

A great many from here will go to Lafayette on the 4th of July to see the natural gas blow-out.

Ira Stout has his bowling alley in good shape and the balls are ready for those who like the game.

Rumors of a postoffice change are afloat and we would not be at all surprised to see another change.

L. W. King, who went from this county to Missouri a few years ago, has returned and will stay in Indiana.

Fishermen that used to fish in Coal Creek are disappointed this year, as the dry weather has spoiled the fishing.

The ice cream and strawberry festival at the M. E. church, last Saturday was not as well attended as was expected.

The railroad is working night and day, graveling the road bed and it will soon have one of the best tracks in the west.

E. C. Campbell has a fine lot of sweet potato plants, and gardening in New Richmond is a new, but doubtless successful, experiment.

The railroad men say they are going to bring 200 dagoes or Italians to camp here. Look out for fun if they do, for the working man waxeth hot.

Ben Swank and son passed through here last Sunday. Ben stopped long enough to tell an excellent tale on the Wingate scribe. All had to laugh.

The faith cure denomination is in possession of the church at last accounts, and it looks as if Ben Swank had secured for them what he started to do.

Our town contains a man so lazy that it is said he scares the little birds from the trees for fear they might wake him up too early in the morning.

The tailoring firm is getting more work than it can do and gilt edged orders are refused daily on account of it. People know a good thing when they see it.

The fine display of stable horses here on last Saturday was quite a sight and there was quite

a crowd to see them, and each owner thought he had the best horse.

The new boxes for the postoffice have come and you can carry a key and look for mail every hour if you like. Only 25c per quarter is what Uncle Sam asks for the privilege.

Some young chaps that wore diapers not very long since should be looked after by their parents. They are beginning to think themselves men and trouble only will stop them.

The parties who christened the tile kiln, a part of whom hailed from Corwin, had better look a little out, or their names may appear in the Review. Our village is no dumping place.

Jack Gerrat, Dr. Detchon, John Detchon and Chas. Smith went to Black Rock fishing last week and after buying 40 lbs. of fish returned home. Jack says the Dr. can swim like a turtle on the bottom.

Ensminger and Brothers went through here on their way to Wingate last Sunday. They did not tarry long, as our place is one that needs no officers to preserve quiet, or the home authorities are sufficient.

Dad Smock is putting in time on the public roads and working hands under the old 10-hour system. Some are kicking and say they will not work but 8 hours, as the late law specifies and will stand a law suit first.

A knock down between Jo Beal and Irvey Blie was one of the features last Sunday. After each of them had kissed mother earth twice they concluded to withdraw for repairs. Blue eyes and black eyes are what they are now exhibiting.

A Mr. Taylor, from Lafayette, will start a lumber and coal yard here if he can get some other parties to stop business. New Richmond needs a lumber yard and is bound to have one, come what will, the sooner the better for all concerned.

Some of the people who by their actions last winter said to the world that they were tired of sin had better go a little slow, as some people might take them for escaped convicts. It is hard to tell by their actions which crowd they belong to.

The bird law is a farce so far as it concerns the little birds. Men will openly shoot them and boys gather their eggs by the bushel and kill the young ones, and yet no one has been made to pay for the violation. A poor law poor, ly executed.

If people don't want little birds to disturb them they should not plant trees to entice them, and if the people who destroy the nests had half sense they could see the advantage of keeping them. But that is where the needful comes in; they have no brains.

John Stevens, north of here, killed a mad dog last Wednesday. It was a narrow escape for John, as the dog made several attempts to bite him, but he finally succeeded in killing the animal, which looked terrific. People had better look out for perhaps the dog has bitten some others.

Thomas Smith has accepted an agency for the National building association, Indianapolis, and those who want to build should take hold of it, as it would be an easy matter to build a house and get easy payments on it. It is just the thing for the poor people that have no homes and many will accept the benefits which it offers.

To the Linden scribe we will say that when you reckon the New Richmond scribe wants to sell fire water you are entirely off of your base. Now, scribe, these people that make such a fuss concerning fire water, one half of them take it behind the door. The greater part of the other half do things that are a great deal worse than selling or drinking fire water. One thing is in making themselves too fresh with other men's affairs, and the less said the better for some we know of.
