

MEDICAL

Dr. E. Huntsinger,
Eye Ear and Chronic Catarrh Specialist

UNEQUALLED SUCCESS in curing most difficult cases. No matter who has treated you, and failed. No pain. No danger. No expense. Diseases of the Eyes and all Discharges of Eyes positively cured, also Deafness. Noises in Ears, etc., treated without a particle of pain or danger. A Chronic Discharge is caused by ulcer in ears, which unless cured is liable to extend to the Brain, causing death from inflammation, or abscesses of the brain or blood poison. Granulated Eye cured without the knife or burning the lids with caustic or blue stone. Catarrhs, Cross Eyes, Scams, etc., cured by a New Method without pain or danger. A New, Positive and Painless Treatment for Chronic Catarrh that will cure. A badly treated or neglected Catarrh is a prominent cause of Consumption, also the chief cause of Deafness. Perfectly Cures the Eyes and the Best French Artificial Eyes Very Cheap. Advice free.

Spectacles. I now have the most elegant stock of Perfect-Fitting Spectacles and Eye-Glasses in the state, which, until further notice, I propose to sell at Factory Prices. My Glasses are made and fitted from the Purest, Best and Most Durable Material. The Lenses possess a natural Brilliance and Perfection of Clearness and Refraction. Power in the highest degree that Art, Science and Skill can produce. I take special pains to fit each pair of glasses to the face and eyes of the purchaser so that the center of each spectacle lens sets exactly in front of the pupil of the eye, thus giving the Greatest Ease and Comfort, as well as greatly improving the Personal Appearance of the wearer. Especially are my Glasses of infinite value to eyes that have been injured by ill-fitting, inferior or Poorly-Made Glasses, which are a positive injury.

All persons buying Glasses of me can have the eyes Scientifically Examined by very pleasant methods that readily detect the slightest defect in their vision and Glasses accurately fitted free of charge. You can have your measure taken and spectacle frames made to exactly fit your face and eyes and lenses ground to special order without extra charge. I have all my glasses made in New York by the most accomplished and experienced workmen.

I have Elegant Glasses for \$1.50 a pair. My large experience and success in fitting the most difficult cases enables me to give Positive Satisfaction when glasses are required.

Every pair guaranteed as represented.

REFERENCES: Geo. D. Hurley, attorney at law, son of Frank, a prominent member of the National Society, leaves no doubt that his assassination was brought about by part of a secret political society known as the Clan-na-Gael, a committee of whom had been by ballot deputed to accomplish his removal—to murder him. The question is by what right has such a murderous league as this seems to be to exist in this country? Are they in one sense any better than the Anarchists, a number of whom were hung for murder in Chicago only about 18 months since? Is this Clan society not at war with good government when it for alleged patriotic reasons tolerates and authorizes the taking of human life? We fail to see if it is asserted, this society countenanced the murder of Dr. Cronin, why each and every one member of it should not be indicted for murder. A secret society existed during and after the war among the coal miners of Pennsylvania, known as the "Molly Maguires." What it decreed must be obeyed. It caused the assassination of a number of men inimical to it. Finally the state got after the society and before letting go of it twenty of its members were executed. The "Molly Maguires" have been quite peaceable since then. The Anarchists have been quite civil since they had a good healthy dose of law administered to them in Chicago. This "Clan" society would seem to need looking after at once. These foreigners should learn that while this is a free country it does not tolerate the freedom of assassination or the taking of human life at any time. These are peculiarities that might do in a Monarchical government but not here. This "Clan" can do no greater injury to the cause of Ireland than by such work as is alleged against it in the Dr. Cronin case. It can gain no sympathy nor secure substantial assistance by any such course. A patriotic cause cannot prosper by any such work.

SEQUESTERED TAXABLES

Prosecutor Haywood, of Tippecanoe county, appears to be making it decidedly warm for money lenders, interest grabbers and many of the well-to-do citizens of that county by an investigation of the assessors' books for six or eight years back and ascertaining where they have failed to give in to the assessors large amounts of property upon which they had mortgages. Their failure to report it subjects them to a heavy fine and also to the taxation of the unreported property for every year in which it was omitted from the tax duplicate. The prosecutor is doing just the thing. He has reported the names of several hundred persons that have been direct in the matter of reporting property subject to taxation, and numbers of them have been fined and the amount of the mortgages placed upon the tax duplicate for the years it was omitted. The return of taxes by this work of the prosecutor it is thought will increase over \$1,000,000 in Tippecanoe county. This will make the paying of tax that much lighter to those who honestly report to the assessor what they have on hand. The action of the Tippecanoe county prosecutor may prove contagious. He seems to move ahead regardless of the threats, flattery or cajolery of those affected by his action. Why cannot Prosecutor Anderson get in some judicious work like this? Are there not a number of money lenders and per cent fellows in Montgomery county who yearly fail to report the amount they have on mortgages? We believe he did make a certain individual dance, last year, that failed to report a considerable amount of property for taxation. It may cause the prosecutor to become unpopular, but it will only be with those that have aimed to avoid the burden of taxation by failing to make correct returns. If the taxes of honest people can be reduced by making the dishonest ones pay, then there will be no fault found. The burdens of taxation should be borne equally by everybody subject to it.

SECRET POLITICAL SOCIETY.

The investigation into the cause of the death of Dr. Cronin, of Chicago, a prominent member of the National Society, leaves no doubt that his assassination was brought about by part of a secret political society known as the Clan-na-Gael, a committee of whom had been by ballot deputed to accomplish his removal—to murder him. The question is by what right has such a murderous league as this seems to be to exist in this country? Are they in one sense any better than the Anarchists, a number of whom were hung for murder in Chicago only about 18 months since? Is this Clan society not at war with good government when it for alleged patriotic reasons tolerates and authorizes the taking of human life? We fail to see if it is asserted, this society countenanced the murder of Dr. Cronin, why each and every one member of it should not be indicted for murder. A secret society existed during and after the war among the coal miners of Pennsylvania, known as the "Molly Maguires." What it decreed must be obeyed. It caused the assassination of a number of men inimical to it. Finally the state got after the society and before letting go of it twenty of its members were executed. The "Molly Maguires" have been quite peaceable since then. The Anarchists have been quite civil since they had a good healthy dose of law administered to them in Chicago. This "Clan" society would seem to need looking after at once. These foreigners should learn that while this is a free country it does not tolerate the freedom of assassination or the taking of human life at any time. These are peculiarities that might do in a Monarchical government but not here. This "Clan" can do no greater injury to the cause of Ireland than by such work as is alleged against it in the Dr. Cronin case. It can gain no sympathy nor secure substantial assistance by any such course. A patriotic cause cannot prosper by any such work.

NO MORE FOR INDIANA.

Ever since the election of Harrison about every third republican politician in this State, and almost all those that knew him in his own ward in Indianapolis, to be upon speaking terms with him have been hoping for and expecting an office. It would be difficult to find in Indianapolis any person at all intimate with Harrison who has not thought that he would be remembered with some fat position. But all this it seems has about vanished into thin air. A correspondent reports that a republican representative called upon Harrison the other day in the interest of some office-seeker, and the President to his importunities is reported to have said: "Indiana has now more appointments than any other State. I have concluded that she can have no more. It might as well be understood now as at any time that she will get no more. I have appointed all the Indianaans that I intend to. It will be useless for any others to apply. I can not nor will not appoint any more Indianaans to places outside the State."

THE NEW GAME AND FISH LAW.

Full Text of the Measure Passed by the Recent Legislature.

An act conferring powers of constables on road supervisors in certain cases, and describing the same and affixing penalty for failure to discharge said duties.—Approved, March 11, 1889.

Section 1. Be it enacted by the general assembly of the State of Indiana, that it shall be the duty of the road supervisors to arrest or cause to be arrested and to prosecute or cause to be prosecuted any or all persons violating any of the provisions of the acts or any law heretofore or hereafter to be enacted for the protection of game or fish. And said supervisors shall be allowed a fee of five dollars (\$5) to be taxed as cost against each person convicted of violating any of the provisions of said laws.

Sec. 2 Any road supervisor who shall fail or refuse to discharge the duties of constable as aforesaid, and make or cause to be made said arrests, and prosecute or cause to be prosecuted all cases coming to his knowledge of violations of the game or fish laws of the State of Indiana, shall upon conviction be fined in any sum not less than five nor more than twenty-five dollars.

THE CROWNING DISASTER.

The crowning disaster of the century in this country occurred at Johnstown, Penn., and other adjacent villages, on Friday evening last, the 31st. The town or city contains about 25,000 inhabitants and is some 40 miles southeast of Pittsburgh on the Pennsylvania railway. Some 18 miles northeast of the city is an immense body of water known as a reservoir. It was three miles long, over a mile or more wide and in many places over 100 feet deep. The great rains of last week caused this to overflow and the dam holding it to give way. It rushed rapidly on to Johnstown. The entire city and the towns north of it were soon submerged and hundreds of people drowned. The loss of life and property is terrible to contemplate. The first loss of life was estimated at 15,000 persons, and while probably not this great, it will number several thousand. The dam had been examined each month for several years, was very substantially built, and no ordinary pressure of water could burst it. The sadness, mourning and sorrow that pervades the city of Johnstown and towns near it must indeed be awful to contemplate. The terrible disaster was one of those unforeseen calamities, it would seem, that could not have been expected, and the suddenness with which it came renders its contemplation that much more horrible.

OCCASIONALLY, in spite of himself, Gov. Hoy

gets in a word at the right time and place. At a meeting of the State board of education the other day, at which bids were being received for furnishing school books for the State, that suspicious firm known as VanAntwerp, Bragg & Co., of Cincinnati, sent a letter, which was read, saying that no responsible firm could furnish school books at the prices stipulated. After it was read the Governor remarked "If we want any advice from VanAntwerp, Bragg & Co. we will let them know." A firm that in season and out is constantly aiming to force itself and its high-priced books upon the people of the State should be regarded with strong suspicion, in fact should not be permitted to put in any bids for the books whatever. They have exhibited entirely too much interest in the matter. It has heretofore with them been a choice plume to furnish three fourths of the school books used in the State. They grieve to be compelled to let go. "Away with any competition," think they. It was a wise move to permit the school books to be furnished by competitive bids, and although at first the operation of the new law regarding them may be somewhat cumbersome, eventually it will prove all right, and be of great advantage to the people.

THE NEW YORK DEMOCRACY.

The New York democracy are very united when it comes to a grand feast, where "grub" is to be consumed, but after nominating a candidate for President generally disintegrate. Their talk openly is very patriotic but actions generally very sneaking in political matters and almost always to the advantage of the republican party. We have little faith in the professions of such characters. We have seen and heard too much of the democracy of that State to take much stock in their utterances, especially the Tammany wing. If a candidate from their State suits them a part of them support him, the others clandestinely aid the republicans. The democracy of the next national convention will, we believe, do a very unwise act if they choose a standard bearer from New York.

A GENEROUS DONATION.

Senator D. W. Voorhees, writing from Hot Springs, Ark., enclosed \$20 for the relief of the striking miners at Brazil. Referring to the strike as against an unjust reduction of wages he pictures the want of the miners and adds: "This condition of things, occurring under the highest protective tariff ever known in American history, and repeated more than a hundred times over in every state in the Union, makes its own conclusive argument to every intelligent working man and working woman. If others will give as I have done according to their means, the miners and their wives and children will not suffer."

The first loss of life was estimated at 15,000 persons, and while probably not this great, it will number several thousand. The dam had been examined each month for several years, was very substantially built, and no ordinary pressure of water could burst it. The sadness, mourning and sorrow that pervades the city of Johnstown and towns near it must indeed be awful to contemplate. The terrible disaster was one of those unforeseen calamities, it would seem, that could not have been expected, and the suddenness with which it came renders its contemplation that much more horrible.

OCCASIONALLY, in spite of himself, Gov. Hoy

gets in a word at the right time and place. At a meeting of the State board of education the other day, at which bids were being received for furnishing school books for the State, that suspicious firm known as VanAntwerp, Bragg & Co., of Cincinnati, sent a letter, which was read, saying that no responsible firm could furnish school books at the prices stipulated. After it was read the Governor remarked "If we want any advice from VanAntwerp, Bragg & Co. we will let them know." A firm that in season and out is constantly aiming to force itself and its high-priced books upon the people of the State should be regarded with strong suspicion, in fact should not be permitted to put in any bids for the books whatever. They have exhibited entirely too much interest in the matter. It has heretofore with them been a choice plume to furnish three fourths of the school books used in the State. They grieve to be compelled to let go. "Away with any competition," think they. It was a wise move to permit the school books to be furnished by competitive bids, and although at first the operation of the new law regarding them may be somewhat cumbersome, eventually it will prove all right, and be of great advantage to the people.

THE NEW YORK DEMOCRACY.

The New York democracy are very united when it comes to a grand feast, where "grub" is to be consumed, but after nominating a candidate for President generally disintegrate. Their talk openly is very patriotic but actions generally very sneaking in political matters and almost always to the advantage of the republican party. We have little faith in the professions of such characters. We have seen and heard too much of the democracy of that State to take much stock in their utterances, especially the Tammany wing. If a candidate from their State suits them a part of them support him, the others clandestinely aid the republicans. The democracy of the next national convention will, we believe, do a very unwise act if they choose a standard bearer from New York.

A GENEROUS DONATION.

Senator D. W. Voorhees, writing from Hot Springs, Ark., enclosed \$20 for the relief of the striking miners at Brazil. Referring to the strike as against an unjust reduction of wages he pictures the want of the miners and adds: "This condition of things, occurring under the highest protective tariff ever known in American history, and repeated more than a hundred times over in every state in the Union, makes its own conclusive argument to every intelligent working man and working woman. If others will give as I have done according to their means, the miners and their wives and children will not suffer."

Most of the labor along the line of what is known as the Clover Leaf railroad through this, Fountain and Clinton counties is done by cheap Italians, Dagos as they are termed, although numbers of poor American white laborers would be pleased to get the work to do at anything like fair living wages. It is the same road also, we believe, that just prior to the last election caused many of its employees likely to vote the democratic ticket, to be moved to other points on the road out of the State by which they would lose their votes. That corporation is undoubtedly in favor of protection until it comes to employing foreign labor when it would favor free trade.

A NUMBER of newspapers of the republican persuasion have found fault with the new election law of Indiana because it will be so much more expensive than heretofore to hold elections. This is all right. It will necessitate the establishing of three times more precincts than heretofore and three times the number of election officials what matters it. The people can and should pay for having honest elections. It is a great privilege to have them. The extra expense will be sufficient incentive to honest voters to see that they are conducted fairly. While the dead beats and vote buyers may find their occupation gone the honest class of the community will rejoice.

MURAT HALSTEAD, editor of the Cincinnati Gazette and would-be minister to Germany, has gone to Germany. He went, though, at his own expense. The government did not pay it, and he went as a private citizen. He would like to go as Minister from this country, with a salary of \$17,500 per year, but his republican brethren would not have it. He used that pen in slandering them; he lied about them in his newspaper. They bided their time and evened up very nicely with him. This only proves the words of the poet, when he says: "Time, at last, sets all things even." His punishment and humiliation in this instance is opportune and well deserved.

A THEATRICAL company in Pittsburgh, on Sunday, proposed to give an entertainment for the benefit of the homeless and distressed of Johnstown, Penn. An exclusively moral organization, known as "The Law and order league," prevented it by threatening to arrest them for giving an entertainment on the Sabbath day. That organization is too moral, too Godly to live long; in fact it should die, and its members embalmed as the leading fools of the age.

FROM the number of persons of both parties on Monday, advising with the trustees as to whom they should select for county superintendent it would appear that these people considered the trustees incompetent to perform their duties in the premises. We do not think this. The trustees generally speaking, are of the best men of each party and probably know their duty much better than those so free with their advice.

It has been discovered that Beverly Tucker, one of Harrison's appointees of the Haytian commission, was tried with Surrat as a co-conspirator in the assassination of Lincoln. But what of it? He is a good republican now, and so is Longstreet, Mosby, Mahone and many others of the "loyal" fellows, whose sins have been washed away by joining the republican party.

OFFICE-SEEKERS are so anxious in their demands that they even write to Mrs. Harrison soliciting her aid with her husband to get them places. They should wait until the Harrisons are through supplying their cousins, brothers-in-law and great grand children first with official positions. After that time it may do if there are any places vacant.

As an evidence of the immense loss of property in the late terrible fall of rain and bursting of a dam holding a large reservoir of water in Pennsylvania it is said that in a space of 18 miles 15,000 houses were torn down and washed away by the water.

It is thought that much of what is known as the Parnell fund, belonging to various Irish organizations, the embezzlement of which has led to the assassination of Dr. Cronin, of Chicago, was used in the campaign of 1884 to help elect Blaine.

ALTHOUGH republican postal clerks pretty generally have the swing now the public fail to see any improvement in the least over that of a year ago. Letters and papers are just as much delayed now as then.

"The Old Oaken Bucket"

The Iron-bound Bucket

The Moss-covered Bucket."

is a very likely the one that has conveyed poisons to your system from some old well, whose waters have become contaminated from sewers, vaults, or percolation from the soil. To eradicate these poisons from the system and save yourself a spell of malarial, typhoid or bilious fever, and to keep the liver, kidneys and lungs in a healthy and vigorous condition, use Dr. Pierce's Golden Discovery, the greatest blood-purifier of the age.

A. T. Stewart made his start as a school teacher.

LOST.—"I don't know where, I can't tell when, I don't see how—something of great value to me, and for the return of which I shall be truly thankful, viz.: a good appetite."

FOUND.—"Health and strength, pure blood an appetite like that of a wolf, regular digestion, all by taking that popular and peculiar medicine, Hood's sarsaparilla. I want every body to try it this season." It is sold by all druggists. 100 doses \$1.

Jim Keene drove a milk-wagon in a California town.

Speer's N. J. Wine.

It is said to be the most reliable wine in the market. Physicians prescribe it as superior in the cases of debility, languor, and prostration of strength. It is also an excellent restorative for indigestion. Numerous letters have been written by lawyers, lecturers, and distinguished divines speaking in high terms of approbation of the healthy blood making and invigorating properties of Speer's wine especially the Port.—Republican. It is sold by druggists.

Life-Long Results.

"A man girl, by using Zoa-Phora (Woman's Friend) at the opening period of womanhood, might be saved from life-long suffering and expense. Sold by Lew Fisher. A-27-41"
