

HOOD'S SARSAPARILLA

Take Hood's Sarsaparilla 100 Doses One Dollar

The Chief Reason for the great success of Hood's Sarsaparilla is found in the article itself. It is merit that wins, and the fact that Hood's Sarsaparilla actually accomplishes what is claimed for it, is what has given to this medicine a popularity and sale greater than that of any other sarsaparilla or blood purifier before the public. Hood's Sarsaparilla cures Scrofula, Salt Rheum and all Humors, Dyspepsia, Sick Headache, Biliousness, overcomes That Tired Feeling, creates an Appetite, strengthens the Nerves, builds up the Whole System. Hood's Sarsaparilla is sold by all druggists. \$1; six for \$5. Prepared by C. I. Hood & Co., Apothecaries, Lowell, Mass.

Something new must occur very soon in this neighborhood or the folks will run out of something to talk about. Poor things they now know that their mistatements weighed but very little.

Not for years has Coal Creek tp. been visited by more rain than fell last week. For a time it seemed as though the flood gates had opened and instead of coming down gently the dampness came down like it had been dumped out of a tub.

Linden scribe, we respectfully ask you if you think the Good Templars ever caused one man to stop drinking and stay sober. We have failed to see it and have had considerable experience in that line.

Everyone, it seems like, is subscribing for the Chicago Times, at 50c per year, and if it is subscribers they are after it looks like they would secure plenty at that figure. Over 80 come to this place alone.

Several lawsuits between neighbors have begun here and it looks at this writing as if much ill feeling existed, which will doubtless make the lawyers feel happy, and they will be about the only ones benefited.

Jo Kitter knows how to test the tramps. Jo gives them dry bread to eat when they call on him, and if they eat it with a relish he butters the next piece, and if they refuse the dry bread shows them the door on double quick time. A good test.

It is enough to make a person sick at the stomach to hear the republican party take the name of the honest, moral party. Look at the papers and compare the devilry going on and see the difference between this year and two years ago.

from Linden was seen about 10 a m, but he did not tarry long.

Mr. Smock has a traction engine and hauled four wagon loads of brick at once from Lee's tile kiln a few days ago. They made the round trip in a day, after loading the wagons, which took some time. Why is not steam power cheaper than horse power?

Chas. McClure is corresponding with the railway company to get an excursion train to run from Veedersburg to the gas fields, with a fare of one dollar for the round trip. Should he succeed it will be one of the best excursions in the State, as every one wants to see the gas wells blow off.

The new brick school house, built at a tremendous expense in this township, is in a deplorable condition, with the plastering falling off, the bricks coming apart and several other deficiencies that should make an honest man sick to look at. It will not be long until a new house will have to be built.

New Richmond people welcome every one that comes here, and will treat them royally, but some smart Allicks from other places that come here to blackguard on the streets are requested to stay away or in the future we will put their names in print, so their friends, if they have any, will know just what they are up to.

A certain man of half wit is trying to get off something smart by playing government detective. The fool killer is sadly needed right now at this place and this man is a fit subject for him to begin with. He will run against the wrong man yet, and if he does will get his eyes punched for putting his nose into other people's business.

The nice groves around our village should be used more than they are, but instead people will crowd in the two churches to suffocation and put up with the torment, while if they would only put up seats in the grove they could enjoy the meetings and not be smothered and crowded to death. The leaders should make the change for the hot months.

The item in last week's paper about Dr. Etter and Mr. Henry is like Dr. Washburn, of this place, and his double, Warner Wilhite, of Crawfordsville. Warner says he can't come here without people asking him about medicines and wanting him to give them pills, oil, etc., and the Dr. says when he goes to Crawfordsville everyone asks when that insurance is out and when that mortgage is due. So it is fun on both sides.

Thomas Doren had a dog and that dog, getting tired of Doren's common fare, such as bacon, beef, etc., concluded to take a bite of human flesh and try the change. He commenced his experiments by taking a piece of Mrs. John Perry's arm, and as she had no dog meat to give away in that manner, entered suit before Squire Ebrite for \$500 damages. It remains yet to be seen whether the bite will be considered worth that much by his Honor.

A lady north of here some say is possessed of the devil. What it is no one knows, but it is a mystery. Her last exploit was jumping out of the upstairs window to the ground, a distance of 15 feet, to scare her husband, who it is said is a nice man. She left one night and was found in the hay mow, where she laid all night in company with the rats. She is now visiting in a distant part of the State, where it is hoped she will stay as the people here do not care for such cranks.

At the front again the Excelsior No. 8, steel binder carries off the prize in a field contest on the Pacific coast on the following points, ease of management, lightness of draft, simplicity, general construction, in fact, the most complete harvester on the market.
