Milk dealers claim they are making nothing at 3 cents per quart for milk, and it is hardly possible that they do. The object partly in selling it at that rate is perhaps to drown out numerous small dairies who sell from four to six quarts per day and injure the dairy men to that extent.

The horse doctor and his partner caused considerable excitement Saturday evening by much talking and an attempt to fight. The trouble is over the division of the money that had accumulated and the Dr. had it all in his possession. The doctor is none other than "Doc" Pray and he is no spring chicken in having trouble. Doc has been in trouble for the past year to his heart's content and for the first time they settled it by a compromise and the two partners are now as loving as in days of yore.

Saturday W. N. Lake closed his walk and brought a big crowd to the city to see him complete the task. Dr. Blue Mountain Joe's band and the home band furnished the music and the day seemed like a real circus was in town from the way the people crowded around. Terre Haute has a ball club this year that it seems impossible to beat. The Masonic Picnic.

The Masonic picnic in this city Monday in observing the festival of St. John, the Baptist, was one of the best arranged and most pleasant affairs ever held in this city.

In the morning a parade was made through the city under command of chief-marshall James Wright and his assistants Charles Goltra and John Burford.

There was in line the staunch good men of the county, a long procession of men who are a credit to old Montgomery and the order they represent. They were men of credit, influence and the staunch reliable citizens of every township and they made a pretty showing as they passed up Main street headed by the Crawfordsville band.

At the fair ground after dinner Hon. Mortimer Nye, of LaPorte, Past Grand Master delivered a finely written and able address which was attentively listened to, then Rev. S. B. Will H. Thompson left Wednesday for Seattle, W. T., where he will join Paul and Humphries, and together they will make one of the strongest law teams in the country. Mr. Thompson is a working democrat, and a lawyer far above the average. He will leave his family here at present but will return in September and take them with him.

The Board of Equalization which had concluded to raise the assessment of the Dove Tail Body works \$5,000, has upon a remonstrance by the company concluded not to do so. The question then is why not all the rest of the establishments in town whose assessments have been raised likewise remonstrate, and have their extra assessments taken off? It will not do to make fish out of one and fowl of the others.

Sheriff McClaskey took Mrs. Hamifan, the insane woman from Ladoga, to the insane asylum Thursday. At the depot she sang and tore her clothing and when placed on board the train she was determined not to go as she imagined she saw her husband standing on the platform. She tried desperately to get away from the Sheriff and was only kept on the train by force. She was a pitiful sight and there was no one who saw her but shuddered at such a fate.
