

# WHY COUGH,

WHEN a few doses of Ayer's Cherry Pectoral will relieve you? Try it. Keep it in the house. You are liable to have a cough at any time, and no other remedy is so effective as this world-renowned preparation. No household, with young children, should be without it. Scores of lives are saved every year by its timely use.

Amanda B. Jenner, Northampton, Mass., writes: "Common gratitude impels me to acknowledge the great benefits I have derived for my children from the use of Ayer's most excellent Cherry Pectoral. I had lost two dear children from croup and consumption, and had the greatest fear of losing my only remaining daughter and son, as they were delicate. Happily, I had that by giving them Ayer's Cherry Pectoral, on the first symptoms of throat or lung trouble, they are relieved from danger, and are becoming robust, healthy children."

"In the winter of 1885 I took a bad cold, which, in spite of every known remedy, grew worse, so that the family physician considered me incurable, supposing me to be in consumption. As a last resort I tried Ayer's Cherry Pectoral, and, in a short time, the cure was complete. Since then I have never been without this medicine. I am fifty years of age, weigh over 180 pounds, and attribute my good health to the use of Ayer's Cherry Pectoral."—G. W. Youker, Salem, N. J.

"Last winter I contracted a severe cold, which by repeated exposure, became quite obstinate. I was much troubled with hoarseness and bronchial irritation. After trying various medicines, without relief, I at last procured a bottle of Ayer's Cherry Pectoral. On taking this medicine, my cough ceased almost immediately, and I have been well ever since."—Rev. Thos. B. Russell, Secretary Holston Conference and F. E. of the Greenville District, M. E. C., Jonesboro, Tenn.

### WHAT IS DEMOCRACY?

Thomas Jefferson was the third president of these United States. He was the author of the Declaration of Independence and was a democrat. In reply to the question, "What is Democracy?" he wrote:

1. The people the only source of legitimate power.
2. The absolute and lasting severance of church and state.
3. The freedom, sovereignty and independence of the respective states.
4. The Union: a Confederacy, a compact, neither a consolidation nor a centralization.
5. The Constitution of the Union, a special written grant of powers, limited and definite.
6. The civil power paramount to the military power.
7. The representative to obey the instructions of his constituents.
8. Elections free and suffrage universal.
9. No hereditary office, nor order, nor title.
10. No taxation beyond the public wants.
11. No national debt, if possible.
12. No costly splendor of administration.
13. No proscription of opinion nor of public discussion.
14. No unnecessary interference with individual conduct, property or speech.
15. No favored classes and no monopolies.
16. No public moneys expended, except by warrant of special appropriation.
17. No mysteries of government inaccessible to the public eye.
18. Public compensation for public services; salaries moderate and providing economy.

### SELFISH TO THE LAST.

The actions of many wealthy men in their life time does not desert them even when they have to lay down their gold, bonds, securities, etc., to enter the realities of an unknown world. It is selfish from first to last, and a desire is shown to part with little or nothing. John B. Astor, who died in New York the other day, owned and controlled more property of his own than any man that has lived in America, and the largest fortune probably of any individual on earth. It is figured as amounting to \$300,000,000. Yet in his will as published he left less than a million of dollars for the public benefit or in charity. It is wonderful, considering this immense wealth, the selfish disposition exhibited in his will that he left even a few dollars which could be considered even a donation. But what a vast amount of good for the benefit of his fellow man could an individual of liberal and generous instincts do with that much of wealth at his disposal, and yet leave great quantities of it for his ancestors. Yet he did little of anything for the welfare of the human race. How much misery and suffering among the toiling thousands of his own city could he have alleviated, and yet retained more than enough for home and kin. But little or nothing of this is recorded of him. Few rise up to call him blessed. He goes down to his grave with little of great honor and benevolence to be chanted in his praise. A son intrusts his lands, money and bonds, and all to carry the name down to the future and to show that he was a rich man, selfish, unknown to deeds of charity, a man for himself only, and that the world will not mourn nor miss his absence from among the living.

THE Indianapolis Journal, after doing all it could to bring the new election law into disrepute, now comes out in favor of it, and from this it may be inferred that the supreme court will not be called upon to condemn it. The Journal now says:

If it is not now perfect, and that is not to be expected, it is a step in the right direction, and in some respects a great improvement on the present law. Some of the provisions are excellent, and will be permanently continued. Others it may be found advisable to change. The Journal will oppose any attack on the law for the purpose of breaking it down as a whole, or of weakening its effectiveness as a reform measure, but we have no doubt that one or two of its provisions are unconstitutional, and will so be held by the supreme court if ever brought to the test. This is notably true of some parts of the section relating to registration.

From the time Michener sent his circulars to the Indiana postmasters there has been a manifestation of weakness on the part of the opponents of the new election law. Michener wants an educational campaign since bundle methods can no longer be successfully practiced. The good results of the new law are thus being manifested already.

### CHICAGO ENERGY.

Chicago has secured the World's Fair in 1892. The location of it there after a strong contest from three other cities is a fitting instance of what energy and determination will do. This same energy was exhibited in the re-building of their city after one of the most disastrous fires known to history. They generally succeed in obtaining what they start after in Chicago. This was again shown by obtaining several national political conventions in the face of strong opposition from other cities. The reason is plain. They put forth the strongest of efforts, are willing to contribute liberally of their means, and will know no such word as fail. That city has a big undertaking on its hands to make the fair a success, as an exhibit and financial undertaking, but the same energy will be put forth without question that has heretofore distinguished its citizens, which in itself is a guarantee of success. The fair is to open in April, 1892, and continue until October of that year, which will give visitors from all parts of the globe ample opportunity to witness the exhibition.

A SCHOOL superintendent of LaGrange county has been detected in working for the old Van Antwerp school book, reserving it is stated, 30 per cent. on the sales made of the old ring's school publications. A trial of the case is to soon be heard when all the facts will be brought out. There appears on the surface of things no doubt that those persons opposing the Indiana school books do so almost solely from pecuniary considerations, and this superintendent is only obeying his masters.

Still drilling for gas Worthington.

THE fact that there are more candidates very generally in most of the counties in the state for positions this year exists without question from the prevalent belief among most of them that the expense of the candidate will not hereafter be near so great as formerly. They believe that the new election law will do away with most of the cost heretofore entailed upon candidates, and the dead-beats who have heretofore made it a custom to "bleed" them so extensively will find their occupation to a great extent gone. We trust that the future will show their opinions to be correct. Each candidate of all the political parties should make it a part of his business to see that the violation of the election law will not be tolerated, and that those daring to do so, are on proper proof, promptly punished. It is certainly something greatly to be desired—fair elections—and the way to uphold a good law is to see that its provisions are promptly enforced.

A MAN named Holman, an unknown name to the republicans of Indiana, living at Rochester, has been appointed Bank Examiner of the State. The salary is \$3,000 per year. Like the Pension Agent Insley no one ever heard of him until he was appointed. What makes the republican ring of Indiana politicians decidedly out of humor is to have Harrison appoint somebody that they do not know or control, as he has done in so many instances.

The spoils, which is the adhesive power of the republican party in Indiana, are getting scarce with this administration, and about all the offices have been handed out that can be in Indiana, consequently the party is becoming more and more dissatisfied with Benny Harrison.

### Primary of Clark.

A REVIEW representative went down to Ladoga last Saturday afternoon to report the primary. The meeting was held in the town hall and the room was so full that a man could not turn around. The turnout was an indication of a joyful victory in the fall, for never have we seen so much interest taken in contests of this kind as was shown on Saturday last. Meeting was presided over by D. C. Stover, who acknowledged his selection in a neat speech. Andy Henry was chosen secretary; D. B. Nicholson, inspector, and Urban Ford, clerk. Trustees, two justices and two constables were chosen as follows: S. W. Foster, J. Otterman, Harvey Miller, J. G. McDonald, and Wm. Courtney. E. D. Stringer was then selected to run for assessor. Two hundred and ninety-one votes were cast for trustee. Delegates to the nominating convention to be held on the 19th of April are as follows: S. F. Kyle, Nate Hulett, J. G. Davis, W. Barnes, Perry Mahorney, Wm. McCameron, Dr. A. J. Kissenger, W. E. Harshbarger, Dr. Bateman, James Kent, Joe Taylor, Josephus Graybill, B. F. Clark, J. E. Talbot. Alternates: Chas. A. Clark, Joel Harshbarger, S. F. Ashby, Pres. Hicks, Chas. Disber, J. N. Sliener, W. H. Caplinger, Jas. Nucheltree, W. M. Rhoades, Joe Click, Geo. Davis, Alex Brookshire, Jas. Tobin, J. T. Anderson. The appointing committee consisted of Geo. Dean, John Harshbarger and J. Talbot. The meeting was an enthusiastic one in every respect. Good feeling prevailed among the rival candidates and everything seems to point to a big democratic majority in the fall.

### Will Revises The Premium List.

The superintendents of the various departments of the Montgomery County Agricultural Association met at the small court room Saturday evening for the purpose of revising the premium list. A motion was made and carried that pedigrees be required at the time of the exhibition. No stalls are to be assigned this year until paid for and then only for the purpose shown on the entry books. The entries for the speed ring will close August 10. There will be a cold race this year. Animals entered must be owned by the person entering them at least five days before the opening of the fair. Jasper N. Davidson, J. J. Insley and W. W. Morgan were appointed a committee to prepare the program.

### Quieting Title.

The supreme court has affirmed the decision of the Montgomery circuit court in the case of Nathaniel Hamilton against Norman S. Byram to quiet a title to some land. The court says: (1) In a suit to quiet a title, the defendants have a right to show, under a general denial, that a deed under which the plaintiff claims title is in reality a mortgage. (2) After a judgment lien has attached to real estate, a conveyance by the judgment debtor, which is in fact a mortgage, cannot effect the rights of the judgment holders, and they are entitled subject to the mortgage, to proceed against the property.

### Coal Creek's Financial Standing.

Statement of condition of township when received from former trustee, F. T. McGree: Overdraft on township fund, \$1 484 33  
Outstanding orders, 1 334 21  
Amount due teachers, 361 95

Total, \$3 180 52

Making a nice little sum of \$3,180.52 for the incoming trustee to settle up. The claims have all been paid and reduced the overdraft to \$88.68 from \$1,484.33, and running seven months the present year.

J. W. UTTERRACK, Trustee.

### Township Contest.

About two hundred were present at the M. E. church at New Richmond on Saturday evening, March 1, to witness the township contest of the common schools for a representative to the county oratorical. First place among the boys was awarded to Loma Goben, grade 8; second to William Utterback, grade 87. First place among the girls was given to Miss Flora Temple, of Wingate, grade 95; second, Maude McClamrock, grade 92. All the speakers spoke with more than ordinary credit, to themselves, and democratic Coal Creek will certainly be well represented in the county contest.

### Harvey C. Barnes for Sheriff.

In this issue of the REVIEW Clark township presents the name of Harvey C. Barnes as a candidate for sheriff of Montgomery county, subject to the decision of the democratic nominating convention. Mr. Barnes is a gentleman of fine personal appearance, is 45 years of age, a farmer by occupation, a thorough democrat by principle and a man well qualified for the position he seeks, and should he receive the nomination will run a race that will reflect credit on himself and his friends.

The Best in the World.  
Senator Henry C. Nelson, of New York, writes:

"SENATOR CHAMBER, ALBANY, N. Y., April 4, 1885.  
On the 27th of February, 1885, I was taken with a violent pain in the region of the kidneys. I suffered such agony that I could hardly stand up. As soon as possible I applied two Alcock's Porous Plasters, one over each kidney, and laid down. In an hour, to my surprise and delight, the pain had vanished and I was well. I wore the plasters for a day or two as a precaution, and then removed them. I have been using Alcock's Porous Plasters in my family for the last ten years, and have always found them the quickest and best external remedy for colds, strains and rheumatic affections. From my experience I believe they are the best plasters in the world."

Alcock's Porous Plasters are purely vegetable. They are mild but effective, sure and quick in their action, and absolutely harmless.

Beware of imitations, and do not be deceived by misrepresentation. Alcock's and let no solicitation or explanation induce you to accept a substitute.

### Can Scirrhus Cancer be Cured.

This is a hard question to answer. Swift's Specific has cured thousands of cases of skin cancer, and there have been many cases of Scirrhus cancer reported cured by it. We do say that SSS is worth a trial in any case of cancer. We append a statement from Miss Green, of Tallapoosa, Ga.:

In 1884 I had a small lump in my left breast, which proved to be a cancer. The first remedy I tried was to have it burned off. This did not cure it, for shortly afterwards it broke out and in much worse form. I then consulted our druggist, who advised me to try Swift's Specific (SSS), and after taking about one dozen bottles, was completely cured, and my general health was greatly improved. This has been over six years ago, and my cancer has never appeared since, nor has it troubled me in any way. I can cheerfully recommend Swift's Specific (SSS) to any one suffering with cancer.

### Now, Give Attention

To the purification of your blood, for at no season is the body so susceptible to the benefits to be derived from a good medicine, as in March, April and May. Hood's sarsaparilla is the people's favorite spring medicine. It stands unequalled for purifying the blood, curing scrofula, salt rheum, etc., regulating the kidneys and liver, repairing nerve tissues, strengthening and invigorating the whole body, as well as checking the progress of acute and chronic disease, and restoring the afflicted parts to the natural healthy condition. If you have never tried Hood's Sarsaparilla for your "spring medicine," do so this season.

### Everybody Knows

That at this season the blood is filled with impurities, the accumulation of months of close confinement in poorly ventilated stores, workshops and tenements. All these impurities and every trace of scrofula, salt rheum, or other disease may be expelled by taking Hood's sarsaparilla, the best blood purifier ever produced. It is the only medicine of which "100 doses one dollar" is true.
