The popularity of Col. John Lee at his own home where people know him best was aptly expressed at the township convention last Saturday in the ready and hearty endorsement he received as candidate for the nomination of Secretary of State. Col. Lee is a democrat of the old type, intelligent, fearless, upright and honest and worthy of any honor his party might bestow.

Union Township Convention.

The democracy of Union township met at the court house on Saturday afternoon for the purpose of electing delegates to the state and county conventions. After selecting 16 persons, one from each precinct of the township, who selected a chairman to act as a state committee man, Chas. Johnson was selected by ballot to select the delegates. The business was long, tedious, and in the hot room of the court house very exhausting, and near two hours were consumed before the work was accomplished. For the state convention the following persons were chosen: Dr. Gott, Red Snyder, Judge Davidson, Wm. Hulett, Con Cunningham, J. M. Thompson and Mike Carroll.

## The Natural Gas Company.

If there is a prospect of any outside company piping gas into Crawfordsville then the home organization should step aside out of the way and give it a chance, as it is quite evident that the home company will do nothing. It might do something if it saw a chance to make from \$3 to 50 per cent. on the investment, otherwise not. If an outside company will pipe and furnish gas to citizens at rates as heretofore published, then let it go on at once if it desires to. It is quite evident that the home company organized here is going to do nothing, have done nothing heretofore, and do not at this late date expect to, and the foreign company should be asked to take hold.

## Captured by Bloodhounds.

John Harvill, the murder of McMillan, in Lincoln County, Ark., was captured near his father's residence in Cleveland county. The officers reached the place late in the day and shadowed the house until about 2 o'clock in the morning, when the father swung open the cottage door and stepped gently to the ground and turned his footfall toward what he thought to be his son's liberty, but instead he proved to be his captivity. After giving him a fair start the officials turned the bloodhounds on his trail and soon captured the murderer.

## A Marshall of Haughville.

Andrew Dillon, the marshal of Haughville, a suburb in the west part of Indianapolis, who was shot by an unknown negro, died of his wound Saturday. He had contended that he would recover, but early Saturday morning he became very restless and complained of great pain. He sank rapidly and died within two hours after the change in his condition became apparent. The people of the suburb have offered a reward for the apprehension of the murderer, but the police and detective forces seem to be at sea in the matter.

## Walnut Township Convention.

Convention convened at 2 o'clock p. m. David Clark in the chair. The meeting proceeded to select the following committee men: Dis. No. 1 not selected; Dis. No. 2, David A. Sparks; Dis. No. 3, Harve Morris. Delegate State convention, James H. Robbins. Alternate David Sparks. Delegate Congressional convention, Dr. C. T. Bronaugh, Alternate, W. C. Loop.

The amount of money to be distributed by the dependent pension bill is variously estimated at \$30,000,000 to \$100,000,000 per year. Mr. Morrill placed the estimate at \$36,000,000 but it is thought it will run up to \$50,000,000 the first year.

## His Wife Suffered from Erysipelas.

Mr. John O. Rogers, of Dana, Illinois, writes as follows under the date of March 27, 1890: "My wife was for years an invalid from a blood trouble, and suffered terribly at times from Erysipelas. She tried many remedies advertised as blood purifiers, but received no benefit. A few bottles of Swift's Specific (S. S. S.) cured her of Erysipelas and other blood troubles. From the first her appetite increased, and her general health increased in every way. She considers S. S. S. the best blood purifier and tonic she ever saw, and is willing for any one suffering as she was to be referred to her.

## The Great Benefit.

Which people in run down state of health derive from Hood's Sarsaparilla, conclusively proves that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength, but Hood's Sarsaparilla binds up in a perfectly natural way all the weakened parts, purifies the blood, and assists to healthy action all those important organs the kidneys and liver.

D. A. Jones who died some time ago at Chicago, would \$10,000 to the Rockville Presbyterian church.

## Deformity From Bright's Disease.

S. D. VanBuskirk, of Demarest, N. J., says Aug. 20, 1888: "Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y., has cured our daughter of Bright's disease, after all other means had failed. She was so swollen that she measured 45 inches around the waist, and 18 inches below the knee. To say that we feel thankful for such a boon as Favorite Remedy is but a poor expression of the feelings of grateful parents.

J. F. Merrill, superintendent of the Lafayette city schools has refused to longer serve in that capacity. Mr. Merrill has served longer than any other Superintendent in the state and must have been efficient and very popular to so long retain so responsible a position.

## Pitcher's Castoria.

No one ever tried Simmons Regulator without being satisfied with the effect.

## "Tired All the Time."

Say many poor men and women, who seem over-worked, or are debilitated by change of season, climate or life. If you could read the hundreds of letters praising Hood's Sarsaparilla which comes from people whom it has restored to health, you would be convinced of its merits. As this is impossible, why not try Hood's Sarsaparilla yourself and thus realize its benefit? It will tone and build up your system, give you a good appetite, overcome that tired feeling and make you feel, as one woman expresses it, "like a new creature."
