

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can SCROFULA Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofulous sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLILE, Nauright, N. J.

COUNTY EDUCATIONAL NOTES.

Addie Harding is in Union township. Ida Graves is teaching in Union township. A teacher's mission is to serve not to rule. Clarence Fink is teaching in Ripley township. W. J. Sanford is teaching in Boone county. Nannie Harris has returned to No. 4 in Walnut.

Jennie Clahan is teaching in Walnut township. As the body requires food daily so does the mind.

Howard Grist is training young America in Union.

Samuel Gilkey is the primary teacher at Alamo.

Mrs. W. T. Sharpe is doing good work at Garfield.

What work on educational method are you reading?

Nina Michael is teaching her first school in Madison.

A. W. Dazey is again welding the birch in Coal Creek.

Mayme Whitte has resumed work at the Soap Factory school.

There is no study so fascinating as the study of educational methods.

The fault of a pupil is often the reflection of the fault of the teacher.

Fred Kincald is doing excellent work at No. 13, Coal Creek township.

Autumn is the best time in the whole year for effective school work.

Henry Lamb has returned to Boone county to resume his school work.

W. S. Fowler is at the head of the Pond Grove school in Wayne township.

Ida Kelley, a teacher in Putnam county, was a visitor at the Whitesville schools last week.

If a teacher is made unhappy by his work, it is a sure evidence that he is not fitted for the work.

Scholars should be encouraged to apply themselves, not so much to please the teacher and recite well as for their own good.

If you have never taught before this September you will probably spoil many children before you learn how to manage others. It is a fact that we learn how to teach by teaching, not by theory.

If you were to hang all the old rascals in the world, new ones would soon grow to fill their places unless means were taken to dig up the roots of evil. Primary teachers if they do their duty will be cutting at the roots of evil.

Distributing Sample Ballots.

The election commissioners of Indiana have ordered that a sample ballot shall be prepared for distribution over the state as an aid to voters balloting under the new law. The sample will be printed on canary colored paper and its dimensions will be 25x38 inches. The canary colored posters will contain only the state tickets of the parties. The election commissioners recommend to the county officers that posters containing the county ticket shall be printed on green paper. The commissioners have also chosen devices for the eagle, rooster, and the rising sun which are to head the republican, democratic and prohibition tickets. The stamp which will be used by the voters in indicating their choice of names on the ballot is to be star shape. Every party which polled as much as 1 per cent. of the total vote of the state in 1888 will be entitled to have its ticket printed upon the ballots upon the certification of the chairman and secretary of the party's state convention that the ticket is the proper one. Any party which did not poll 1 per cent. of the total in 1888 can get its ticket printed on the state ballots only upon the presentation to the state election board of a petition signed by 500 persons. These provisions will allow the Republican, Democratic and Prohibition parties to have their tickets on the ballots upon certificates from the officers of their state conventions, but any other parties which nominated state tickets will be required to present petitions. This latter provision may make trouble for the Farmers' Alliance and People's Industrial parties where they have placed tickets in the field.

Who Is John Hutton?

We have been somewhat surprised of late by hearing the above question. While he should be one of the best known men in Montgomery county it appears that some do not know him and for their benefit we print the following: "John Hutton is the next treasurers of Montgomery county. He was born on a farm two miles northeast of Crawfordsville 42 years ago. The first 23 years of his life were spent upon the farm. He then came to the city and obtained a position with C. M. Crawford, then a dry goods merchant, for whom he worked for thirteen years, resigning his position to accept a deputyship under Sheriff Harper where he served four years, or the limit of Mr. Harper's reign. He was a candidate four years ago before the democratic nominating convention for the office of auditor but was defeated by Mr. Gobben, and no man ever swung into line and worked harder for the latter gentleman than did Mr. Hutton. He is a democrat from both sides of the family, and the pure Jackson faith was instilled into him from infancy. He is comparatively a poor man and needs the office which he seeks. He is at present employed at the bazaar of D. W. Roundtree, but is at present occupying all the time he can spare in looking up his political fences. A vote for John Hutton is a vote you will never regret."

Wants \$50,000 Damages.

A Courier reporter was this afternoon informed by one of Mrs. Elma C. Whitehead's counsel that in a short time she proposed to bring suit for \$50,000 damages against several of her malicious pursuers living in Lafayette and at Shawnee Mound. It is understood that not long ago some one wrote to where she is visiting in California, warning the chief of police of her presence, and that the letter was published in the papers there.—Lafayette Courier.

The Event.
Miss Julia Marlowe, the celebrated American actress, appears as Viola in Shakespeare's Twelfth Night at Music Hall Tuesday, October 7.

Miss Marlowe is represented as possessing the most charming personality, graceful in figure, expressive eyes and regular features. A great number of newspaper writers have frequently asserted that she bears a striking resemblance to that great favorite, Miss Adelaide Neilson. Miss Marlowe's friends, however, do not claim that she is beautiful in the sense of being a stage beauty, but that she is beautiful in a far better sense, having large expressive eyes, reminding one of Neilson, as through those eyes her bright intelligence illuminates her face until it becomes beautiful in the extreme, much as Ellen Terry and Sarah Bernhart are made beautiful by expression.

Her art is said to be wonderful, but towering above and beyond all that careful cultivation and tutoring has accomplished, there is said to be something about her acting that can not be acquired by human treatment, and which sheds its gentle glory for everything. It has been said of her that in her acting there is heart and soul, at the sight and sound of which cold respect melts into reverence. It is said that it shines in her face and rings in her voice, and is altogether a stage vision which this generation and perhaps many more to come may never see.

After A Dead Man's Estate.

The administrator of the estate of David Roudybush seems likely to be compelled to part with considerable of the property before final settlement is made. In his lifetime Roudybush was an industrious, economical man, close in his dealings but honest, it is said, so far as known, with everybody. Being a bachelor with no one to look to him for support he saved money rapidly. This he loaned out at interest, and yearly he continued to increase his possessions. For ten years he had given in his property at about \$12,000 and upon this amount he had paid both city and county tax. Since his death the administrator ascertains that the value of his possessions consisting of money, notes, etc. will amount to about \$24,000, and has been worth that for some years. The county treasurer will undertake to collect all back taxes on property not scheduled. If successful the city treasurer will pursue a similar course. The prosecutor has already entered suit against the estate for taxes due. If David were alive he would, no doubt, object to such proceedings.

THE NEW PENSION LAW

Provides a pension of not less than \$6 nor more than \$12 per month to old soldiers or sailors who served 90 days during the last war, and were honorably discharged from service, who are in any way disabled.

This pension is granted without any reference to when or how the disability was incurred either in or out of the service, if not the result of his own vicious habits.

Provides also \$8 per month for the widow of every soldier or sailor who served 90 days, without regard to the time or cause of her husband's death, if she is dependent on her labor for her support. Also \$2 additional for each child under 16 years of age, and the child's pension is to continue if it is insane, imbecile, or entirely helpless although the mother remarries or should die.

Provides also that any soldier's parent who is without other means of support than his or her own manual labor, if the soldier died in the service, if he is dependent on his or her manual labor, if the soldier died in the service, pension at the rate of \$12 per month.

Applying for or accepting pension under this law does not prevent the claimant from prosecuting a claim under the old law. Pensions under the new law commences the time the application is filed.

If an application is made under this law the claimant can select any attorney he desires without reference to his old claim, and if a soldier is now drawing less than \$6 per month he can be increased under this law.

The attorney's fee is limited to \$10 in each case. We are now prepared with necessary blanks to prosecute all claims under the new law. Address or call on the Old Reliable Claim Agency of
