

A Fact

WORTH knowing is that blood diseases which all other remedies fail to cure, yield to Ayer's Sarsaparilla.

Fresh confirmation of this statement comes to hand daily. Even such deep-seated and stubborn complaints as Rheumatism, Rheumatic Gout, and the like, are thoroughly eradicated by the use of this wonderful alterative.

Mrs. R. Irving Dodge, 110 West 12th street, New York, certifies—

"About two years ago, after suffering for nearly two years from rheumatic gout, being to walk only with great difficulty, and being tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months. I am pleased to say that it effected a complete cure, and that I have since had no return of the disease."

Mrs. L. A. Stark, Nashua, N. H., writes: "One year ago I was taken ill with rheumatism, being unable to leave house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced to use Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."

"I have taken a great deal of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. I feel its beneficial effects before I had quite finished one bottle, and I can freely testify of its being the best blood-medicine I know of."—L. W. Ward, Sr., Woodland, Texas.

SOME TARIFF QUESTIONS.

The republican advocates of a high tariff are respectfully requested to answer these questions propounded by a close observer:

Why republicans in 1872 favored putting salt and lumber on the free trade list?

Why have they changed their minds?

Why in 1884 the republicans favored reducing tariff taxes?

Why have they changed their minds?

Why the republicans placed hides on the free list in 1872?

Why the tanning industry was not ruined thereby?

Why no pauper made leather or shoes of Europe came over?

Why the leather industry prospered more than ever before?

Why more workmen were employed?

Why they got better wages?

Why, in short, the republican theory didn't work?

Why the price of wool was steadily declined under a protective tariff?

Why the reduction of duty on wool in 1883 was followed by an advance in price instead of a decline?

Why the lowest point in the price of wool was reached under the highest tariff?

Why the sheep have decreased in numbers right along for seven years under a protective tariff?

Why the sheep of Ohio decreased over 200,000 in numbers during one year—1881—when the highest wool tariff existed?

Why the price of wheat has declined right along under a protective tariff?

Why the price of corn has declined under a protective tariff?

Why strikes and large, bitter conflicts between employers and employees have been common under a protective tariff?

Why the workingmen of this country have lost more by ten fold in strikes and lock-outs caused by attempts to reduce their wages under a protective tariff than they could have gotten out of the tariff tax if they had received every cent of it?

OF INTEREST TO TEACHERS.

JUDGE W. T. FRIEDLEY of Madison, has just decided a case of great importance to the teachers of Indiana. In 1889 the General Assembly passed an act forever exempting from further examination for license all teachers who had taught six consecutive school years and been successful in securing two or three-year licenses, and one of which licenses was in force. The county school superintendents afterwards held a meeting and decided that the law would not exempt teachers unless they secured an exemption certificate from the county superintendent at some period during the time for which the license was originally granted. Acting upon the resolution, the county school superintendent notified the city school trustees that a number of city teachers had no authority to teach, their license in force when the law passed having expired, and that they had failed, while it existed, to procure from the superintendent an exemption certificate. As other teachers in their section outside of the city of Madison were also interested in the matter, they engaged the services of Hon. Marcus R. Sulzer to bring a test case in the Jefferson circuit court, which he did, and which ended last week. He would make a fair republican judge, that is if the litigant seeking justice happened to be on his side of the fence in politics. But really, does it not look like their party was short in great men when a man of Wood's red-headed political cast should be selected for the important position of U. S. Judge?

REMEMBER the speech of Hon. Jos. E. McLean at the court house on next Saturday. Mr. McLean is known to every democrat in Montgomery county, having resided here for many years previous to his removal to Indianapolis. He is known to be honest, to be reliable in any statement he may make regarding matters of a political nature. Let him have a large attendance of the people to hear him. This is the last speech of the campaign, and Mr. McLean should and will, we believe, be greeted with a large number of his old acquaintances and friends.
