Gone "Lunny."

Bill Stein, who was jailed last Saturday, night for indulging in a street brawl with Wesley Foster, was taken to the insane asylum at Indianapolis Thursday by Grant Agnew and Grimes. The day following his incarceration he showed signs of an unbalanced mind, and by Monday was a raving maniac. He tore every shred of clothing from his body and made several efforts to dash out his brains against the iron bars around his cell. He imagines he is the richest man in the world and will soon succeed Harrison as President, after which he will turn the government over into the hands of the women for an even one hundred years and let them run it. There are men running at large to-day who have ideas equally absurd as this poor unfortunate wretch.

We are pleased to note that notwithstanding extraordinary solicitations to support other candidates, Representative Brookshire remained true to Roger Q. Mills, and the cause he represents. No act of Mr. Brookshire's public life will be received with more commendation by his constituents. We can safely say that he represented their wishes almost unanimously.—Rockville Tribune.

The African Methodist church of this city is threatening to leave the conference because their pastor, Rev. Tucker Wilson, a sleek young minister who they have groomed and fattened this fall, has been called (?) to preside over the church at Evansville. The Evansville charge pays more money than the one in this city and of course Rev. Wilson lost no time in accepting it. His move was sanctioned by Bishop Brown and the church here is left without a minister. The congregation has declared that unless their pastor is returned to them they will leave the conference.

False in One,

False in All.

THE ENGLISH OF A LATIN PROVERB APPLIED TO A CONCERN WHICH IS NOW IN BUSINESS.

A Business started upon shame, must resort to shams, or retire.

The Royal Baking Powder Company garbled official documents to give it standing.

For this it was publicly branded.

The Food and Dairy Commissioner of Ohio caught the Royal Baking Powder Company in the act of misquoting his report, to make its goods appear unadulterated.

The same Company stole the livery of the Board of Health of the State of New York and went on dress parade in the garment.

The Board exposed this. When the apparel was removed, of course the deformity was left alone.

Then the Royal Baking Powder Company resorted to constructing a speaking machine.

It called this machine "A Government Chemist." When it mouthed its words to order, the Royal Company quoted the same and passed them around. These words represented the Royal Baking Powder as pure, etc.

"Government" is a stately word. Like everything good, it is abused by unscrupulous tricksters.

MAKE A NOTE.

There is no such office as that of Government Chemist.

A THOUGHT.

If a concern garbles official state papers, misquotes Boards of Health and Creates Official Mouth-pieces, for its own purposes, what will it do in adulterating its goods?

Dr. Price stands a foe to impure goods and tricky methods of advertising.

Dr. Price's Cream Baking Powder is the only Pure Cream Tartar Baking Powder now to be obtained, and the thinking public are finding it out.
