A false rumor was current on the streets last night to the effect that Miss May Wasson had been drowned under the ice while skating at the dam. There were no facts whatever on which to base the rumor and what motive any one could have had in starting such a report is past finding out.

The city's incandescent dynamo burned out Friday night at 7:30 o'clock leaving those business rooms which depend on the plant for illumination in total darkness. The loss, something like \$2,000, fell upon the city, or more properly speaking, the taxpayers. It will be several weeks ere the dynamo can be replaced. Republican management comes high but we must have it.

A Monon Wreck.

"The southbound passenger train on the Monon was wrecked on the Salt Creek bridge, near Bedford at 4:30 p. m., Jan. 7. The cold weather caused the truck on the forward end of the baggage car to break, and they dropped, lodging between the bridge timber in such a manner that the trucks on all the other cars were pulled from their fastenings. The momentum of the train was sufficient to slide all the coaches over the broken trucks. All the coaches except the chair car cleared the bridge and rolled down the embankment, where they caught fire. The flames were extinguished before any great damage had been done by fire, and the work of rescuing the passengers began. Strange as it may seem only four persons were seriously injured. Miss Adams, of Nashville, was so badly hurt that life was despaired of, and another woman and her daughter were very seriously injured. James Osgood, a traveling man from Chicago, had both legs broken and was injured internally. James Jennings, conductor, was slightly injured as were a score or more of passengers. The engine also left the track, but engineer Muir and his fireman escaped by jumping. The chair car, which contained eighteen passengers, was thrown upon its side, one end projecting over the broken bridge. All the floor timbers of the bridge were displaced. The bridge is badly wrecked, and the top of it will have to be entirely rebuilt."—Indianapolis News.

An Awful Death.

A very peculiar death occurred at the home of George Crane, on south Grant avenue, last Thursday night. Mr. Crane is a laboring man and the father of several children, the youngest of the number being a bright lad named Harry. Thursday morning the children were eating some boiled ham when Harry suddenly became choked. The mother quickly ran to his assistance and made several futile attempts to relieve the suffering child. The father and Dr. Keegan were hastily summoned. An emetic was given without result and the child continued to suffer and grow worse until Thursday night at 9 o'clock when death mercifully relieved him. The parents are wild with grief over the tragic death of their dear little child. The funeral will occur from the family residence this afternoon.

John Cox, a well known boot black about town, was detected in the act of stealing a deck of cards from the book store of Robinson & Wallace, last Monday and run in. This is not the lad's first offense, having been caught in several previous escapades, but each time allowed to go free on account of the respectability of his parents. Now it is his parents as well as the authorities who wish that he be sent to the Reform School at Plainfield which will undoubtedly be done.

C. L. Thomas vs. Mary Royalty. Plaintiff awarded \$103.30.

Too True, Too True.
There is trouble of a serious nature brewing in the republican ranks, trouble the bosses can't subdue. There appears to be a disposition among a half dozen or more of the faithful to wear the crown that usually sets gracefully on the brow of the Chairman of the county central committee. There is only one crown, but six or seven eager brows are clamorous to climb under it, hence the trouble. The party seems to be divided up in factions each striving for supremacy. For the past ten days every precinct in the county has held meetings with a view to making a selection but the end flits nimbly further and further into the golden hence with each gathering. The first trouble arose between the city and county politicians. The members in the county claim the honor has never been placed among them, that each former chairman has been controlled by certain city factions who totally ignored the interests of the country men, but this year they have declared themselves. They want a man chosen from their ranks who will stand uncompromised to any faction and threaten disaster to their party if their wishes are now gratified. There are five factions in the city, each defiant and threatening. C. N. Williams, the old chairman, heads one faction, and is pressing his claim to the position on the strength of his former good work in the capacity of chairman. W. E. Nicholson is the ideal of another wing, and cites as an evidence of his hustling qualities his race for city treasurer last year. Another element is grooming Frank Dice, a dark horse and is reasonably sure of capturing the persimmon, Henry Clements, the intemperate, has an aching void under his vest which his friends will try and satisfy, and last, but not least, bobs up James O'Shaunessy Hamilton, the great Irish Gladiator and promoter of republican interests. Jas. places great stress upon his ability as a wire puller and organizer and claims to carry the entire Irish vote in his vest pocket. James is possibly the most aggressive of any of the candidates and stands like the giant oak under whose wide spreading branches are sheltered the emerald wings of the party. All in all it is a pretty kettle of fish, the rads have gotten into but as it is in the other fellow's pasture we will let them look after their own swine.

Death of Abe Bischof.

Abraham Bischof died at Cameron Spring, in Fountain county, last Thursday morning at the age of 45 years. Mr. Bischof has been in ill health for many months and on Monday last, in company with his brother, John, went to the springs in the hope of regaining his health. The trip proved a tedious one and he grew worse instantly upon his arrival until he finally passed peacefully away on Thursday morning. The deceased has been a resident here for many years, being actively engaged in business with his brother, Louis Bischof. He carried life insurance to the amount of \$50,000 which amount he willed equally among his parents, brothers and sisters. The remains were shipped to Terre Haute, at which place the funeral will take place according to the Hebrew ceremony on to-morrow. Several from this city will attend.

Judge Harney is again able to be around after a hard tussel with the grip.

The Sham and the Real.

Every good thing has its imitators, every genuine article its counterfeits. The Ammonia and Alum Baking Powders sold over the counters are no more like Dr. Price's Cream Baking Powder, than the paste is like the real diamond, or a counterfeit is like one of the old master's genuine paintings.

When greedy and merciless manufacturers claim their adulterated and harmful baking powders are as good as Dr. Price's, they know they are not telling the truth. These people know they are destroying the stomachs and the complexions of the consumers, and there are many grocers recommending such powders over their counters—knowing same to be injurious and worthless—simply to make a large profit.

Dr. Price, a conscientious physician, has spent a lifetime in perfecting and popularizing his Cream Baking Powder, the only Pure Cream Tartar Powder now to be obtained.

Multitudes of imitators all over the land have sprung up, not to imitate the purity of Price's Cream Baking Powder, but to see how cheap they could make their counterfeits and hoodwink the public.

Some use Ammonia and others Alum, but all these shams cry in chorus, "Buy this, its just as good as Dr. Price's and much cheaper."

Price's Cream Baking Powder is the standard for purity and perfection the world over, and is beyond comparison.

Dr. Price stands for Pure Food and a foe to all shams.
