HILL ON DECK.
Senator David Hill is making a canvass in behalf of the national ticket and spoke at Buffalo, N. Y. on Saturday. Republican newspapers have all along seemed to have felt sure that Hill would do nothing in the way of aiding Cleveland, but no public man of the party is doing more. Here is a portion of his remarks: "I am here tonight to aid in the promotion of democratic principles and to advocate the election of Grover Cleveland and Adlai Stevenson. No apology or explanation is needed for my course. For over ten years it has been my custom at each annual election to appear before my fellow citizens and contribute my share toward the discussion of the political questions of the hour. You did not believe that this campaign would prove an exception to the general rule, and you are not disappointed. Among honorable men the loyal discharge of political duty outweighs any minor considerations."
"The republican position is that the Government should use its powers of taxation to build up private industries by placing tariff rates so high that they will absolutely prohibit foreign importations or prevent any serious competition with any such industries. The republicans believe that the question of revenue should be a minor consideration in the forming of the tariff bill, and that the fostering of some industries should be the primary one. They shut their eyes to the fact they are unnecessarily interfering with the natural laws of trade. They ignore the value of foreign trade, or assume to believe that foreign countries will trade with us, although we purchase nothing from them. They forget that reciprocity cannot be one-sided. They appeal to the selfishness of the people and to their natural jealousies and animosities against foreign countries."

Mr. Peck, of New York, heretofore a democrat, seems to have been purchased body, soul and breeches, by the republicans of that State for campaign purposes. He is a sort of chief of bureau of statistics of that State, and has been furnishing figures to the republicans to show the increase of wages under the McKinley tariff law. Such figures and documents that were against this he destroyed, burned. Mr. Peck has been arrested, and will find he is not even a good fourth of a bushel.

The cholera scare has directed attention very closely to foreign emigration and the class of emigrants that are coming to this country from Europe. They are very generally the riffraff and refuse from Russia, Poland, Italy and other kingdoms. We don't need them and if not another emigrant came to this country in the next ten years, it would be all the better for it.

THE APPORTIONMENT QUESTION.
If the apportionment law of 1885 will not stand, then the law of 1879 will not. If the '85 law is a jerry-mander so is that of 1879. If the last enacted law is unconstitutional so is the first. Under such circumstances what is to be done? The declaring of the law of '85 inoperative cannot by all right and equity render another similar to it constitutional. Judge Bundy, of Henry county, who heard and decided on the points involved in the apportionment law of 1885 will not by his decision better the condition of things.
He objects that Adams, Jay and Blackford, with 13,027 votes have one senator, and Fountain and Warren, with 8,173, have one. Under his law they are the same.
He objects that Putnam and Montgomery, with 13,494 votes, have one senator and Cass, with 8,449, has one. Under his gerrymender Cass has the same and Montgomery alone, with only 8,001 votes has one.
It is unconstitutional that Boone and Hamilton with 13,114 have one senator while Dubois and Perry with 8,483 have one, and yet he makes it constitutional for Boone and Clinton with 14,325 to have one senator, while Dubois and Perry have the same.
The democratic party in Indiana will proceed in the ensuing election under the apportionment law of 1885—the republicans probably under that of 1879. A mixed state of affairs will result under this question which the republicans have sprung upon the voters of the State, and before they are through they will greatly desire that they had allowed matters to move along in the regular channel in which they had been running.

THE PARSON'S PROFANITY.
Governor Chase is learning that the violent and intemperate character of his assaults on democrats is disgusting sensible people of all parties. One of his speeches that is attracting special attention at present was made on April 21, 1892, at Union City before the republican congressional convention. In his speech he is stated, by persons who heard him, to have used the following language:
"Democrats areimps of hell. If I had a mind to swear I'd say God damn them to hell. They ought to be dead and mouldering in the dust of the dust of the earth, and the dust be scattered to the four winds of heaven that they might be completely obliterated from the memory of man."
This language is so extraordinary that it might readily be considered a campaign invention, but it is so certified by contemporary republican authority that there is no room left for questioning it. Union City is the county seat of Randolph county, one of the strongest republican counties in the state. It is the home of Theodore Shockney, present republican candidate for lieutenant-governor, who at the time of the convention was a rival of Governor Chase for the nomination for governor. Mr. Chase attended the convention under rather unusual circumstances, and made this very extraordinary speech.

NOTWITHSTANDING the assertions of republican papers that Senator Hill, of New York, was "sour" and was still sulking in his tent, on account of the nomination of Cleveland, his speech in Brooklyn, last week proves this to be false. In presence of the thousands gathered there he made an able speech, closing it with a strong appeal for the support of Cleveland and Stevenson. New York is daily getting into better shape for the democracy and there appears little doubt that that State will cast its vote by a good majority for the democratic nominees.

In a republican county with a republican for judge, and both plaintiff and defendants republicans, the present apportionment laws of Indiana, relating to congressional and legislative districts, has been declared unconstitutional. The farce will be continued by an appeal to the republican Supreme Court, where the show will terminate by an elaborate display of blue and red lights. The show will prove quite expensive and unprofitable to its managers before the final close of the season.

GEN. WEAVER, the People's Party candidate for President, was egged in Georgia last week just as he was beginning an address to an audience. Had he been a republican there would at once have been a demand from that party for the passage of the Force bill; as it is Weaver can temporarily pose as a martyr to the cause of the People's party.

SEVERAL of the stock-holders of the Elwood tin plate factory have been anxious to dispose of their stock in that establishment, and during the late republican blow-out in that town one of them did dispose of \$1,500 in stock for \$1,250 a loss to him of \$250. For an "infant industry" it does not seem that the Elwood infant could survive without much more nursing.

The Big Four it is stated is soon to own the Midland-Crawford's road. It would seem to have been in need of some owner for many years, and the people along the line will be glad to know that responsible parties are to control it.

TWO IN ONE FAMILY.
Very Interesting History of Husband and Wife.
Both Have Had a Very Sad and Serious Experience.
But all is Joy and Brightness in Their Home Now.

Never to our knowledge has the old adage of a silver lining to every cloud been so wonderfully exemplified as in the home of Mr. James Meehan and his excellent wife Mary.
The facts in the case are so remarkable that we shall give the whole matter in the exact words of the persons interested. It seems that Mr. Meehan, who resides at 57 Granite St., Quincy, Mass., was the first to be suddenly taken sick—"I was taken sick with liver disease and ulceration of the bowels," he says. "My heart was also affected. I was confined to my bed three months."
"A consultation of physicians was held and I was pronounced incurable."

"After that I stopped taking their remedies and began the use of Dr. Greene's Nervura blood and nerve remedy."
"Previous to this I could not sleep, my nerves were excitable and spasmodic, my stomach would not bear food, vomiting almost constantly. Soon after beginning this remedy I slept better, and my stomach would bear light food."
"I continued to gain until I could get out. I now work all the time, and feel that Dr. Greene's Nervura blood and nerve remedy saved my life."

It is needless to say that his faithful wife Mary Meehan was profoundly thankful for the unexpected recovery of her husband to health and strength through the wonderful curative virtues of this great medicine, but even in the midst of her great joy, she herself was prostrated by an alarming attack of rheumatism.
"It is only just, and may be of great service to the afflicted," she says, "that I should state publicly my serious trouble and how I was cured."

"I was sorely afflicted with rheumatism for more than six months, and it seemed to effect my whole system, pains and stiffness of muscles and joints to which was added the more acute pains of sciatica."
"It was with the greatest difficulty I could keep about my house. I tried many remedies without relief. Having in mind the great benefit my husband received from the use of Dr. Greene's Nervura blood and nerve remedy, I concluded to resort to it. To my great joy it was completely successful and by the use of only three bottles I was entirely cured, and my health has been perfect since."

There is no mistake about it, Dr. Greene's Nervura blood and nerve remedy is a wonderful medicine and effects some most remarkable and surprising cures. Every sufferer from disease should try it, for the chances are that it will just hit the trouble and restore the long sought health. All druggists keep it for \$1 and it is purely vegetable and harmless to use. It is the prescription and discovery of the great specialist in curing nervous and chronic diseases, Dr. Green, of 34 W. 13th St., New York, who can in all cases be consulted free, either if you call or write him a description of your disease.

EXPLANATORY.
Many of the special prescriptions of the Chicago Medical Clinic have become valuable by standing the tests of time and extensive employment. We have often been urged by our patrons to give them to the world that their full value might be felt in a wider field of usefulness. To this end we have placed them in the hands of the well known firm of Foley & Co., who have the sole rights for their manufacture and sale. The reputation of this firm will afford the best guarantee of their standard purity and strength.
CHICAGO MEDICAL CLINIC.
DR. PHILLIP SATTLER, President.

We can therefore confidently offer to the public Two Great Remedies of the Chicago Medical Clinic.

CLINIC SARSAPARILLA.
The Clinic Sarsaparilla is a valuable remedy for all diseases arising from impure blood such as Pimples, Boils, Carbuncles, Pustules, Scald Head, Running Sores and Ulcers, Scrofula and Syphilitic Affection, Cancerous Tumors, Ring Worm, Eczema, Tumors and all hereditary blood taint whatsoever. By its cleansing and tonic properties it imparts new life and vigor. It removes the tired, listless feeling with a loss of interest in usual work. Its restorative qualities impart increased appetite and energy.
A REMARKABLE CURE.
I am pleased to let the public know of the remarkable cure effected in my case. I had scrofulous taint of the blood from childhood. Finally, an ulcer commenced on my nose, having all the appearances of a most malignant cancer. The appearance of the sore was most formidable and I was in great agony and despair as I contemplated the progress of this malignant disease. I was induced to try the Clinic Sarsaparilla and at once noticed a change for the better. It appeared to neutralize the poison in the blood and the growth of the ulcer ceased. From the bottom of the cavity new flesh began to form, the diseased tissues seemed to loosen and the natural flesh to take its place. No part of the disease now remains. My health, which had become much affected, improved, my blood appeared to become renewed and I am better than for many years.

THE CLINIC KIDNEY CURE
has made many cures that are astonishing. We cannot too strongly advise those who are suffering from incipient Bright's Disease and Diabetes, Lumbago, Female Weakness, constant Back Ache, incontinence of urine, usually common with old age, derangement of the kidneys, as indicated by a brick-dust-like deposit in the urine, and Gravel to take the Clinic Kidney Cure.
SUFFERED TWENTY-SEVEN YEARS.
Mr. G. A. Stillson, a merchant of Tampico, Ill., writes, August 10th, 1891: "Massachusetts, Foley & Co. GENTLEMEN—Your Kidney Cure is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I, myself, can testify to its merits. My face to-day is a living picture of health, and your Kidney cure has made it such. I had suffered twenty-seven years with the disease, and to-day I feel ten years younger than I did one year ago. I can obtain some wonderful certificates of its medical qualities."

FOLEY'S FAMILY PILLS
