THE ELECTRIC LIGHT BUSINESS.

The committee from the city council in its reply to the petitioners asking an investigation of the cost of the electric light plant, is decidedly saucy and independent in its report. It is very evident that the committee needs to be taken down a peg or two, and shown exactly what position it occupies. They should learn that they do not own the city, and when a number of taxpayers petition for a hearing they should be given respectful attention. The gentlemen asking for an investigation, numbering fifty or more, are among the heaviest tax-payers of the city, some of them paying three over more taxes than this council committee, which speaks so officiously. No harm can result from a rigid investigation of the books and accounts relating to the purchase of the electric light plant. If there has been nothing wrong in the purchase of it who can be harmed? Why not desire an investigation? The petitioners if their prayer is not answered should take the matter to the Courts as a test of who has rights in the premises, and the committee may then learn that some people have rights as well as others.

THE SICK VOTER.

The voter who gets "sick" just before the election in many instances will be very strongly suspicious and a physician's certificate that such was actually the case, will have to be produced to save him from the belief that his illness was feigned and that he had been tampered with by some republican party schemer, who are anxious that he should lose his vote. Of course there are some who will be really unwell and unable to attend the election, but they are not generally of the kind who have made merchandise of their votes.

DEMOCRATIC MICHIGAN ELECTORS.

The supreme court of the United States has decided that the congressional districts of Michigan shall choose their own electors instead of the State doing it as heretofore. This will give four electors to the democratic nominee even with the probable addition of two more. Michigan electors have uniformly for thirty years past all been chosen for the republican nominees, and this decision of the court may prove in the electoral court of vast benefit to the national democratic nominees.

The sole advantage that republican schemers can reap at the coming election, the Australian ballot system preventing much of their former system of rascality, is to prevent democratic voters from attending the polls. This they will attempt to do by hiring them to remain away on election day. Democrats everywhere should be on their guard and prevent this trick if possible. Have every democratic voter on hand.

TUESDAY week the political battle of 1892 will be fought and the policy of the government for the next four years determined. At this time it looks that while the result may be close it would be in favor of the democracy. The entire result, we believe, depends on which party secures the electoral vote of New York. The democracy seem much better united than four years ago. Hill and Tammany are for Cleveland, and it would seem that if the democracy can secure a majority of 80,000 south of the Harlem river, as they avow they will do, New York will assuredly be democratic. Indiana, we believe, is for Cleveland and will show a majority of from 5,000 to 8,000. Let every democrat come to the polls and vote, and the result, so far as Indiana is concerned, will be satisfactory—we will win. We have the votes. See that they are placed in the box.

HON. J. G. BLAINE made his first and only speech of the present campaign at the "Ophir" farm, near New York City, last week. His appearance at the eleventh hour indicates the despairing nature of the fight on the part of the party leaders. It is the Macedonian cry for "help," but Blaine cannot save them, and his speech will do little to encourage them or animate them to a harder contest than they have already made. The shadows of death draw around the G. O. P., and it is ready to accept anything that may prolong life.

Democrats must be careful about voting under the new law. Stamp inside the square containing the rooster. That means a straight democratic vote. If you want to vote a scratched ticket, do not stamp inside the square containing the rooster, but stamp the square before the name of each candidate for whom you desire to vote. The safe way for democrats to vote is to stamp inside the square containing the rooster and "let 'er go at that."

LAST Monday cash wheat sold in Chicago at 74 1/2 cents per bushel. On the same day four years ago cash wheat sold for \$1.16 per bushel. And yet farmers will vote for a high tariff under the belief that it creates a home market and insures good prices for their wheat.

A SPEECH of Mr. Brookshire in supplement form is handed the subscribers to THE REVIEW this week, besides much other political matter for their perusal. One more week after which politics to a considerable extent will be dropped for some time to come.

Trouble in Wayne.

Wayne township is in a whirl of excitement over the peculiar method of settling a difficulty between certain of its citizens. The origin of the trouble dates back to the Runyan vs. Baldwin suit which was tried in the Montgomery circuit court some time ago. It was one of those peculiar suits in which the grievances of each party was about equal and the evidence the same. Garrett Baldwin, son of Jack, was the principal witness on that side and gave in some pretty heavy testimony. The Runyan side then attempted to score a point by impeaching the testimony of Baldwin and introduced John Hutchinson for that purpose. Hutchinson testified that Elston Sayers had casually dropped the remark to him that once upon a time Garrett Baldwin had gotten his fingers mixed up in a sheep's wool that didn't belong to him and had coveted the animal to his own flock—in fact Baldwin had stolen mutton. Of course this was pretty rough on Baldwin and didn't tend to increase the friendship between the two, in fact the fracture grew and grew until a bloody chasm yawned between them. Soon after the trial, Wm. McComas informed Hutchinson that the Baldwins had asked Mr. Sayers if he had ever made such a remark about Garrett and that Elston Sayers absolutely denied it. McComas further stated that the Baldwins were "red-headed" and intended to send Hutchinson to the penitentiary for perjury and recover damages for slander. These remarks somewhat startled and confused Mr. Hutchinson and he imagined he could see the penitentiary doors yawning for him. When Mr. McComas suggested a compromise Hutchinson seemed relieved and fell right into the scheme. Overtures were at once made to the Baldwins, and after a couple of meetings the matter was settled by Hutchinson paying to Garrett Baldwin, the sum of \$900 to stop proceedings against him. After the transaction had been consummated Hutchinson went home and put on his thinking cap. The longer he considered the matter the more he became convinced that he had been fleeced out of \$900. He laid his case before some attorneys and will now bring suit to recover his lost cash. The case will attract no little attention on account of the prominence of the parties.

Columbian Day at New Richmond.

The schools of Coal Creek township patriotically observed Columbian Day at New Richmond. The residences and store rooms were handsomely decorated with flags and bunting and presented a beautiful appearance. The procession formed at the school and headed by the K. of P. uniformed band marched gaily to the M. E. church where appropriate exercises took place. The address was made by Frank Campbell.

WHAT SHE SAYS.

Her Testimony and Evidence Clear and Strong.

Ringin' Words of Hope and Cheer Which Will Comfort Many Hearts

The Great Information and Good Advice A Talented Woman Can Give.

One of the most skillful nurses in this country is Mrs. Elizabeth D. Berry, of Hampton, N. H. She is a lady of the widest experience among diseases of all kinds, and has cheered many a sick-room by her hopeful and encouraging words.

She has sent a communication to this paper which will be read with great interest by all. Her advice is worthy of the greatest consideration on account of the high reputation she has as a nurse, and her words are especially valuable because of their great encouragement to all classes of sufferers.

Through trouble and overwork, she writes, I grew fearfully nervous, weak, dizzy, faint and exhausted from nervous prostration, until I became entirely helpless. Thanks to Dr. Greene's Nervura blood and nerve remedy, I am now so well and strong that everyone who sees me is very much surprised. I would like to tell the whole world of women what Dr. Greene's Nervura blood and nerve remedy has done for me, and to recommend all women to use this wonderful medicine.

I am a nurse, and when nursing my sister I gave her this wonderful medicine. She says she has never felt better

ter than since using it. I gave it also to a lady suffering from great nervous prostration, who could not get help from three physicians. She is now well strong and fleshy, and says she should have been in her grave if it had not been for Dr. Greene's Nervura blood and nerve remedy.

I have recommended it to many others with the same wonderful success, and I would especially say that if women between the ages of 40 and 60 years would take it there would not be so many deaths when they came to the change that takes place. I hear this wonderful medicine named and blessed everywhere, and I am glad to add my testimony to its great value, and truly call it a savior of us women.

We would say that Mrs. Berry's advice as a nurse is endorsed by physicians generally. Dr. Greene's Nervura blood and nerve remedy is indeed a wonderful discovery and of incalculable and inestimable value to the sick everywhere. It has been proved over and over again, in thousands upon thousands of cases, that it does cure, that it makes the sick well.

Physicians know of its great value, for they have seen it perform wonders in restoring health, and they recommend it freely to the sick because it is the discovery and prescription of the famous specialist in the treatment of nervous and chronic diseases, Dr. Greene of 35 W. 14th street, New York, the well-known physician who gives consultation to sufferers from any disease free of charge, personally or by letter.

The great remedy costs but \$1 of druggists, and we know it will make you well.

Gala Day at Darlington.

That Darlington is never behind in the procession was manifested by the glorious celebration of Columbia Day by the schools of Franklin township at that place last Friday. The whole town was elaborately decorated with flowers, flags, and bunting. The exercises were held in the South Christian church in the morning, the address of the day being delivered by W. D. Whittington. At 1 o'clock the parade was formed on Harrison street and headed by the Clouser band marched through the different streets. It was a grand day for Darlington.
