**THE PEOPLES' PARTY**

Now that the election is over the question may be asked what will the Peoples' or third party do? The leaders of it never from the outset expected to win, neither will any party possessed of as much selfishness as it be successful. Its principals are all theories and no practice. Its leaders are composed in most instances of fanatics and office seekers. A man may create any party or religious creed and have some followers. The Peoples' party containing much that was visionary and impracticable, found men yelling its praise. Its total vote in the west and south is a small fraction of the voters of the country, and by another election it would be less. In four years, however, another faction under another name but possessed of the same ideas as the peoples' will doubtless be on deck, and their success will be about the same so far as influencing the voters of the land. Why the Almighty created the mosquito, unless to irritate, has been a puzzle with naturalists and others not naturalists. Why a third party is created and can exist when there is absolutely no use for it is a puzzle to the student of American politics. It rarely does any good or brings about reforms yet it makes as much show and is as loud in its declarations as any of them. The third party, under a different name, but about the same dampools to lead them will appear in 1896, and their accomplishments will be about in the same proportion as they have been this year.

If it requires from \$3,000,000 to \$4,000,000 in this country to bear the illegitimate expenses of a political campaign, the question is how much will it take 25 or 30 years from now? And is this not a severe comment on the beauties of a free government where thousands upon thousands of its voters sell their franchise as they would any species of merchandise. Do the histories of ancient Greece and Rome show a more corrupt state of affairs than that which now exists in this country in the particular by which men barter away the blessings which have been bestowed upon them. This may be a free government to-day, but it cannot long continue such if the un-American, un-christian and disgraceful scheme of selling votes does not soon stop. As it is dollars have the call over every sentiment of decency and honor at our elections with thousands upon thousands of voters. The dollars may be free but the voters are not.

**GRESHAM.**

It is not to be expected that Judge Gresham will ever be popular with republican leaders, but the significant part of this is that he is perfectly regardless of their well wishes politically speaking. He is one of the few that would rather be right than be president. He has certain moral principals, certain fixed ideas of right and wrong, that most republican party leaders never possessed and never will. Gresham has come out of the late political campaign with his honor unsullied, his reputation uninjured, and a man away up above those who sought to malign him, because he feared not to speak and act as should become any citizen regardless of party trammels and party interests.

**WHEAT.**

There is too much wheat in this country—not enough consumers of bread in proportion to the amount of wheat cultivated. The ware houses and elevators in almost every part of the wheat growing regions are full to the brim and prices, 55 and 60 cents, seems entirely too low. Farmers will be compelled to some extent to lessen the amount to be cultivated, if they desire their lands to pay them better. At present prices the cultivation of wheat cannot be made to pay, and higher prices do not seem possible for some time to come.

**THE LAST OF CHOLERA.**

No more cases of cholera are reported in Europe. At Hamburg, Germany, last week the last case of cholera was reported as cured, and no new ones are known. The disease was more virulent in that city than any where else in Europe. The prompt sanitary measures adopted in this country this fall through the scare from cholera has been of vast benefit, for should the cholera appear the people would be more able to meet it than had such measures not been adopted.

The absence of some persons from the polls on Tuesday has created the belief that they were paid to stay away and not vote. A law to permanently disfranchise any man proven to have thus bartered his suffrage would be the correct thing. These cattle would not be subjects of apprehension and anxiety at subsequent elections.

**FOR A DAY OF THANKSGIVING.**

WASHINGTON, Nov. 5.—The following proclamation was issued Friday afternoon:

"The gifts of God to our people during the last year have been so abundant and so special that the spirit of devout thanksgiving awaits not a call, but only the appointment of a day when it may have a common expression. He has staid the pestilence at our doors; He has given us more love for the free civil institutions in the creation of which His directing Providence was so conspicuous; He has awakened a deeper reverence for law; He has widened our philanthropy by a call to succor the distress in other lands; He has blessed our schools and is bringing forward a patriotic and God-fearing generation to execute his great and benevolent designs for our country; He has given us great increase in material wealth and a wide diffusion of contentment and comfort in the homes of our people; He has given His grace to the sorrowing.

"Wherefore, I, Benjamin Harrison, President of the United States, do call upon all our people to observe, as we have been wont, Thursday, the 24th day of this month of November, as a day of thanksgiving to God for His mercies and of supplication for His continued care and grace.

"In testimony whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done at the city of Washington this fourth day of November, one thousand eight hundred and ninety-two, and of the independence of the United States the one hundred and seventeenth.

BENJAMIN HARRISON.

"By the President,"

"JOHN W. FOSTER, Secretary of State."

**SOME OBJECTIONS.**

There are some valid objections to the present Australian ballot system, but which in time may be overcome, or means devised to make the ticket less cumbersome and the expenses of holding elections much less. The ticket of the National and State for instance was 28 inches in length and nearly 10 inches in breadth. This made it very cumbersome and inconvenient. A ticket three-fourths less in length and breadth could certainly be devised, and which could be made a legal ballot as easily as the pocket handkerchief size which was furnished the voters this week. The expense of holding the election in this county, we have heard stated, would reach near \$4,000, the item of advertising alone being about \$1,300. Efforts will probably be made at the next legislature looking to several material changes in the present law. They could probably be devised and under the present law be as effective in preventing fraud and corruption at elections as it is supposed to do, and at the same time greatly reduce the expenses incident to the present system. There is one thing sure that whatever changes may be made, the secret features of the present law will be maintained.

**OLD STYLE CAMPAIGNING.**

The old style of campaigning, judging from the one we have just passed through, is to be hereafter a back number. Drum corps, uniformed men and torch light processions were not at all popular this year and created little enthusiasm—in fact the political parties had little use for them. It is a good indication and a great indication of a more advanced civilization among the people. What sense, may be asked, is there in people going wild over politics any more than over religion? None whatever. For whom is all this expense and noise created? For a very few people—those who are to hold the offices. Nineteen-twentyths of the people care only for good government, and here is only where they are to be benefited by a campaign. The fellows that do the hooping and yelling generally receive the least benefits. What little self gratification there is in the triumph of party is soon forgotten. It looks now that drums and torches as adjuncts to a political fight were permanently laid away, and we can see no loss at all if they are.

**PLAYING OUT.**

Natural gas in north-western Ohio is playing out, and in time may become an unknown luxury. At Finley, Ohio, which was among the first towns to feel the beneficial effects of natural gas, and which in two years rose from a population of 4,000 to 18,000, the gas flow has greatly diminished, and many factories have been compelled to go back to coal and wood to furnish heat and power. At Lima, that State, the gas company has announced its inability to further extend its business, and has advised the people to have coal handy as it may prove quite convenient sooner or later. If such is the case in Ohio, what may it not be in Indiana? If it ceases to flow and gradually gives out in a neighboring State, why not in the "belt" in this State. The same conditions exist in the gas fields of both States. It may be well to reflect that while natural gas both for heating and cooking is a good thing there is nothing certain about its durability or permanency, and that coal and wood with which we look upon now as back numbers, may again soon become popular and objects of especial solicitude especially in cold weather.

The prohibs show a gradual increase in numbers, judged by the elections of this week. If they continue on they may in a hundred years become somewhat formidable in the political field.

The prophets of the late election, at least many of them, who knew just how this State or that precinct was going, should now give way to some others who knew better but said little about it.

**WILLIAM H. MILLER, attorney general,** will retire from the cabinet soon after the election, and will return to the practice of law at Indianapolis. Mr. Miller is tired of politics and his wife is tired of Washington society. He will be accompanied by Mr. Harrison.

The Lotus club, a local organization for the advancement of the interests of Crawfordsville, already is receiving many of the best business men of the city as members and bids fair to be of much benefit.

The election being over now the Indianapolis News will again inaugurate its bold "independent" system in political matters. It is remarkable how independent some newspapers are—after the election.

If elections are to be decided by money, what use hereafter to vote? None at all. Let all offices be put up to the men bidding the highest for them.

**HOW CAN WE DO IT?**

**That Is What Is Agitating The Public Mind.**

**We All Know That Something Must Soon Be Done About It.**

**How To Meet a Great Crisis Among Our People.**

Something must be done about it. There is no doubt about that. And that something must be done quickly, or it may be too late. On behalf of our readers we have made some very important investigations in this vicinity, and we have to report that our apprehensions were correct and are substantiated by the facts. We found that there is a greater proportion of our townspeople who are the victims of some form of nervous or chronic disorders, than ever before in our history. It is a fact beyond doubt, that these diseases are increasing in our midst at an alarming rate. Feeling that something must be done at once in the matter we have been in consultation and communication with several of New York City's most eminent physicians—all specialists in the treatment of nervous and chronic diseases and we give our readers their opinions and advice as to how to effect a cure in these cases.

Dr. S. M. Reynolds, one of New York City's greatest specialists, says unhesitatingly and emphatically:

"Use Dr. Greene's Nervura blood and nerve remedy in all such cases. I have never, in a practice of over twenty five years, recommended a patent medicine. This great remedy, however, cannot be considered under that head, as it is a physician's prescription. I have used it among my patients and in my family, and I unhesitatingly pronounce it the most valuable remedy for the nerves I have ever used.

Dr. Henry Peffer, also one of New York City's great physicians, says:

"Tell your sick people to use Dr. Greene's Nervura blood and nerve remedy. I have used it in my practice with wonderful results. I have found it a perfect and complete cure for patients in my practice who were suffering from all forms of nervous troubles, sleeplessness, headaches, nervous weakness and debility."

The great New York physician, Emil Neumer, M. D., physician-in-chief of the New York Lodge and Association Hospital, writes us:

We are using Dr. Greene's Nervura blood and nerve remedy at the Hospital for our patients with good success.

Other physicians gave us the same advice for our people, and from the unanimity of opinion of the the doctors we are assured that this great and widely-known remedy is just what our sick and suffering citizens require to restore them to health. All the doctors say that it does cure, and all sufferers from nervousness, weakness, poor blood, debility, stomach, kidney or liver troubles should give it an immediate trial. We know that it is a purely vegetable and harmless remedy, and our druggists have it for sale at \$1. Another thing of great consequence is this, that it is the discovery of Dr. Greene, of 35 W. 14th Street New York, who is a renowned specialist in curing nervous and chronic affections, and he can be consulted free of charge concerning any case, personally or by letter.

**Strength And Health.**

If you are not feeling strong and healthy, try Electric Bitters. If "la-grippe" has left weak and weary, use Electric Bitters. This remedy acts directly on liver stomach and kidneys gently aiding those organs to perform their functions. If you are afflicted with sick headache, you will find a speedy and permanent relief in taking Electric Bitters. One trial will convince you that this is the remedy you need. Large bottles only 50c. at Nye & Booe's Drug Store.

**Foley's Honey and Tar...**

**Warranted The Best Cough Medicine**

**For Asthma**

This preparation gives quick and positive relief and frequently effects a cure.

**For Consumption**

In its advanced stages, this remedy will give comfort and relief from paroxysms of coughing. In its early stages it will almost invariably effect a cure. Do not neglect a cold. "Delays are dangerous."

**For Bronchial Affections**

Hoarseness, difficulty in breathing, etc. This remedy acts like magic.

**Why risk your child's life?**

Thousands of infants and children yearly die of membranous croup. We do not exaggerate when we state that every one of these innocents could have been saved had Foley's Honey and Tar been given them in time. Pleasant to take. Can you afford to be without it in your home?

**Prevent Pneumonia and Colds**

By taking a dose of Foley's Honey and Tar after exposure or when you feel the cold coming on. It may save your life.

**FREE** Sample Bottles of FOLEY'S HONEY AND TAR can be had at agencies named below.

**FOLEY'S FAMILY PILLS**

Have gained an enviable reputation for all diseases arising from a disordered Liver, such as Biliousness, Headache, Chronic Constipation, Lassitude, Dizziness, Jaundice, and Sallow Complexion. A splendid dinner pill to relieve the uncomfortable feeling after eating that affects so many; also Sour Stomach and Flatulence. The action of this Pill is mild but effective, without griping or distressing.

A beautiful souvenir album containing the lithographic views of the World's Columbian Exposition will be sent gratis to those mailing two wrappers of Foley's Family Pills to FOLEY & CO., Chicago.

**FOLEY'S CREAM**

Is a delightful toilet article. It removes pimples, blotches, tan and sunburn; it cures chapped hands and lips and makes the skin soft and clear; it is soothing and refreshing to use after shaving, as it does not smart like Bay Rum; it is not sticky like Glycerine, nor is it greasy like Vaseline or Cold Cream; it dries almost instantly; is elegantly perfumed. . . . We have hundreds of testimonials from people who have used it and are delighted with it. NO LADY SHOULD BE WITHOUT IT. Free Samples.

The above remedies are for sale by the following first-class firms:
