WEAVER ON THE SITUATION.
Weaver, the late candidate of the Peoples' Party, is not in the least modest about the importance of his party in the last election. Here is what he has to say in an interview last week:

"It was our vote that defeated Harrison in Illinois, Indiana and Wisconsin and side-tracked McKinley in Ohio. The populists will now commence a vigorous campaign and will push the work of organization and education in every county in the union. The organization is now national, extends into every county in the union, from sea to sea and from the lakes to the gulf. A conference of the leaders will doubtless soon be held at some central point for the purpose of thoroughly marshaling the forces of the new party throughout the country."

No one can foretell what will be the political situation in four years hence, but that the Peoples' Party will play any important part is questionable. A year ago, according to their leaders, they were going to sweep things from the Atlantic to the Pacific in 1892, and would carry most of the southern and all the northern States, but they did not do it—not by 80 per cent. There will be a third party in 1896 of course. There always is. There must always be so many sore-heads, who, having failed politically with the old parties, go off and form a new. Political demagogues of the Weaver hue can always be found attached to some third party. That party in '96 will cut a small figure just as it did this year, and as to deciding the political complexion hereafter it will amount to but little.

THE CONCEITED DISAPPOINTED.
The most conceited fools are those republicans who now realizing that their party is compelled to let go now say that the country will be ruined and that during the coming four years financial troubles and general distress must prevail. It is simply the wail of the disappointed, the superlatively loyal, the egotistical asses who can see no good away from their immediate surroundings. Cleveland had as able and as pure an administration as Arthur, Hays or Harrison has ever had. The country was just as prosperous and contented then as since Harrison's advent into power. So will it be again. History will recount that carpet-bagism, defalcations of government officials, the creation of trusts, the creation of millionaires at the expense of the toiling thousands, all arose and were nurtured under republican administrations—not under democratic. If there were any danger of the "country going to the devil," as they avow it will now it certainly would long since, from the strain it has received under republican management. We trust and believe that under Cleveland's administration nothing that has so scandalized and disgraced the country under past republican administrations will be known. Those highly sensitive republicans who anticipate so many sad things should move out at once before the inauguration of Cleveland takes place and the democracy assumes charge of affairs.

INDIANA'S Congressional delegation remains just as before—eleven democrats and two republicans. The members elect and their pluralities are as follows:

DEMOCRATS.		Pluralities.

Second—Bretz.....	2968

Newly elected members of the legislature are already beginning to have very heavy mails, caused from hundreds of applicants for positions of door-keepers, clerks, etc. It is the old stereotyped way of doing things when a place is wanted in the legislature, and does not seem to have been improved upon, although not always successful.

THE SCRAMBLE FOR OFFICE.
It would seem that there is going to be a great scramble for office for the next few months now that the democracy are to hold the power for the next four years. Many patriots who imagine they saved the party, are springing up all over the country. Men who never voted the democratic ticket before until this year are among the throng clamoring for office. They want position. They want something that has much money with little work. A grand march onto Washington City will soon be under way, and Congressmen, heads of departments and influential men of the democracy will have their lives bored and worn out by the office seekers.

There is little respect for the chronic office-seeker, and much less respect for he who is a democrat or republican, as the case may be, for revenue only. He is not to be trusted and is liable at any time if disappointed in his aspirations to slip over to the other side and play the traitor. And many of the crowd of clamorous office seekers are composed of just such material. What a miserable existence must be the life of he who from adult years until a patriarch of 75 is always dreaming and hoping for official position. How much better, both for himself and friends, had he been as active in business pursuits as he had for official position. And what deceit does he acquire, what lies does he adhere to, and how unnatural must he be, quite often in his raid for an office. And after he has secured the position, filled it for the authorized term and retired how much better off is he morally, financially and socially, than if he had remained in the ranks as a private citizen? Of course there are exceptions to this. In the long list of Clerks, Auditors, Sheriffs and others for thirty years past in Montgomery county, how many of them are better off financially than their neighbors? Very few. Most men are entirely unfitted for business after a prolonged term of office-holding. The rest of their lives are frittered away doing—nothing. Those living in ten years from now will do well to observe the careers of those who are holding offices to-day. Notice if they at the end of the decade have increased their property or are active business men. The truth is office holding is a curse to nine-tenths of those possessing them. The old adage "let the office seek the man" is much the best, and if it don't "seek" you, you are in the long run of years that much better off, and can fight life's battle with that much more reliance and respect.

CAPITAL ON TOP.
In all prolonged contests in the strife between capital and labor it almost invariably results in a victory for the former. The Homestead strike in Pennsylvania is one instance of this. This strike began about July 1st, and has been distinguished by the shedding of much blood, loss of life and waste of money. Yet the proprietors, Carnegie, Frick and others have triumphed and all their mills closed during the past few months have been reopened and workmen other than "union" men now occupy the places of hundreds of the strikers, who are now out for good and know not where to turn for employment. While the proprietors have won it has been at an enormous cost. Yet the workmen are the great losers. The Powderlys can do them little good. They are compelled to accept the wages tendered them or give way to others. The necessity and benefit of arbitration is always apparent in strikes of this kind. Arbitration might have prevented all the troubles at Homestead. Some law aiming to settle these constantly occurring troubles between proprietor and employee should be enacted in every State. The sooner the better.

WHEN Cleveland's administration closed four years ago there was a surplus of money in the government treasury of several hundred millions of dollars—we believe it was over \$100,000,000. When he assumes the head of affairs next March he finds the government treasury empty, and provisions will have to be made for raising money for current government expenses. This is a sample of republican retrenchment and reform during the past four years.

CLEVELAND is very popular just now with many aspirants for office, but my oh! won't they curse him in a year or so from this time when they ascertain that they are not in it?

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

STORY OF TWO WOMEN
What The Trouble Was and How It Resulted.
What Each Has To Say About This Most Interesting Matter.
Something Never Before Equalled In Our Experience.

The story of each is brief, both are eloquent with true feeling and gentleness, given in their own words.
The first, Mrs. E. S. Bogart, of the Baptist Home, 68th Street, New York City, is as follows:

For eight years I have been constantly under the care of doctors, but found no relief, nor from what the doctors told me, did I expect to get any better. I was convinced that they did not understand my case, so I thought I would try Dr. Greene's Nervura blood and nerve remedy, and the result has been truly wonderful. I now feel in better health than for the last 20 years.

MRS. E. S. BOGART.

During all this time I had been suffering with malaria, heart disease, kidney and liver complaints, nervous prostration and sleeplessness. For the three months before taking this wonderful remedy, I had been confined to my room, and most of the time to the bed. I feel, with the blessing of God, Dr. Greene's Nervura blood and nerve remedy has given me a new lease on life and health, and that I am cured of all my troubles. I have a great desire that others may be benefited as I have been, and take every opportunity to recommend it to the sick.

Mrs. Oliver Wilson, Northboro, Mass., tells the second of these two interesting stories:

I was suffering from nervousness, she says, caused by female weakness and nervous prostration. I was so nervous

MRS. OLIVER WILSON.

and weak I could not go up a common pair of stairs without stopping to rest, and was troubled to sleep at night. I took Dr. Greene's Nervura blood and nerve remedy, and have obtained my old elastic step around the house, to the surprise of my friends. After creeping round for two years, hardly able to do anything, it has proved a boon to me truly. I know of many others whom it has cured and who speak most highly in praise of it.

How anybody who suffers from disease can read these two marvelous cures and not be influenced to use this truly great remedy immediately, is beyond our understanding. Druggists keep it for \$1, and it is vegetable medicine and perfectly harmless. It must not be confounded with what are known as patent medicines, for it is a physician's prescription, the discovery of the great specialist in nervous chronic diseases, Dr. Greene of 35 W. 14th Street, New York, who can be consulted by all free of charge, personally, or by letter.

His wonderful remedy will cure you if you will use it.

The next Indiana legislature will be composed as follows:

Senate—Democrats, 35; Republicans, 15.
House—Democrats, 63; Republicans, 37.
Total—Democrats, 98; Republicans, 52.

SUBSCRIBERS renewing their subscriptions for 1893 to THE REVIEW can have it and the Weekly Enquirer or Sentinel for \$2.00 per year or all three of these publications for \$2.75. Hand your money to the nearest agent.
