# Our First Explosion.

Frank Hurley, son of George D. Hurley is the first victim of a natural gas explosion in this city. Monday afternoon the family of Judge Hurley were annoyed by a strong odor of natural gas which had suddenly pervaded the entire house. A hasty investigation developed the fact that the blaze in the furnace had by some means become extinguished and the gas was escaping with wonderful rapidity through the pipes. Frank ran quickly to the furnace room to cut off the gas, but on opening the door the gas ignited in some unexplainable manner and an explosion followed. Frank was hurled back some ten feet against a brick wall and fell unconscious to the floor. The family were quickly on the scene and the victim was carried up stairs and medical aid summoned. His mustache, eye brows and hair were burned almost off, while he sustained other burns which will confine him to the house for some days.

## Arrested For Stealing a Churn.

Last Tuesday afternoon Chas. McCoy was arrested on a grand jury indictment charging him with stealing a churn. Some weeks ago McCoy obtained a churn in some way from the Crawfordsville Creamery Company which he sold to George Simms, residing near Linden, for the sum of \$2.50. In a short time another party put in an appearance and claimed the churn and Simms gave it up, but when he fell back on McCoy for the purchase price, McCoy refused to disgorge, claiming that Simms had been worked. Information was filed with the grand jury and an indictment of petit larceny was returned. McCoy gave bond for his appearance.

## Elder Jacobs Wants His Money.

Rev. J. W. Jacobs, the Whitesville divine, filed another suit in the circuit court Tuesday against J. C. Goodbar et al of the Universalist church. In his complaint Mr. Jacobs avers that Goodbar and others contracted to remunerate his services as sky pilot by giving him a roof, all the cord wood he could burn and \$10 in cash per month. The roof and cord wood were furnished with due punctuality but the \$10 was as slow in arriving as molasses in January. By careful figuring Mr. Jacobs finds that the committee is back on his salary just \$100, and now prays the court for a judgment and all proper relief.

Had he been sober he would have been killed instantly, but as it was he was rendered unconscious for a time and received some injuries which will confine him to his bed for a few days.

## Lost In New York.

This company carries the largest water tank ever put upon any stage, being 56 feet in length, 24 feet wide and 2 1/2 feet deep, on which are run miniature steamers. It is a truly wonderful scene and well worth the price of admission.

A Waynetown friend of Governor-elect Matthews has sent him a turnip which weighs eight pounds. The inscription pasted on it is: "Who knows what will turnip next?" The bulbous vegetable has been given a prominent place on a desk in the Secretary's office.

# The Financing of the Council.

Mr. Editor:—I notice in your issue of the 19th, inst., that the City Council is in the market or soon will be to borrow ten thousand dollars. Now in view of the fact that the election is over and there is no danger of hurting our grand old party any more than it was hurt by the last land slide, we think it would be well for the citizens irrespective of party demand a purchasing committee to explain how they managed to invest \$77,000 in the City's Electric Light plant, that might have been purchased at a price not to exceed \$50,000. It may be beneath the dignity of the Council to in anyway notice or take action on a petition signed by the principal taxpayers of the City asking the privilege of examining the books, but it does not seem to be beneath their dignity however to ask the same taxpayers to dump ten thousands dollars into the City Treasury and ask no questions if they do not want to be publicly branded or liars and scoundrels. The purchasing committee may stave off the investigation for a while but it will come, for taxpayers are beginning to discover that there must be something wrong or there would be no objection on the part of the purchasing committee to a thorough and rigid examination of all the books and papers connected with the purchase and installation of the plant. The city should be enjoined from borrowing another dollar until they are willing to show what became of the \$77,000 already squandered.

## Mr. Vorles' Opinion.

In an interview with Superintendent of Public Instruction Vorles in regard to the action of the school superintendents of the State on the new school book law the Indianapolis News says: "The action of the superintendents was unwise and unwarranted. If they thought the law was a bad one the way for them to have done would have been to go ahead and carry it out and then the people would have seen the errors in it, which the superintendents claim exist. But instead of that several of them said in speeches that they had violated the law. It is hard to understand from their resolutions just what they do want. First they declare their allegiance to the school book law; second, they say the law ought to be amended, and third, they declare in favor of free books. I consider their action wholly uncalled for, but it will have no effect upon the law, as it is a good one and meets with favor."

## A Great Attraction.

The Tremont Theatre opened its dramatic season last evening with the first production in Boston or "If I Were You" and "Diana" by the Manola-Mason company. It was a very friendly gathering and all the principals, who, with the exception of Marion Manola, have made their reputations in Boston, were awarded a most cordial greeting. This was especially true of Annie Clarke, and on her first appearance it was some minutes before she could begin her lines. Mr. Mason was warmly welcomed, also Miss Manola and Mr. Beeth, and there was an evident desire on the part of the spectators to give the people all the encouragement possible in their new venture. Flowers were showered in profusion and recalls were in order at the end of each act—Boston Post.

'Twas this with the Johnsons after Truman A. had been rescued from the grave by the use of Dr. Fenner's Kidney and Backache Cure. He writes: "My father died of kidney disease and I inherited it. Had become so bad that medical treatment ceased to benefit me and I was given over to die. One bottle of Dr. Fenner's Kidney and Backache Cure practically cured me, though I continued it a little longer to be safe. My digestion improved at once, my kidneys healed and I am now a well man."
