DR. E. HUNTSINGER

A CARD.

It is now about six years since Dr. E. Huntsinger of Frankfort, Ind., began making regular visits to Crawfordsville, during which time he has treated hundreds of cases and performed scores of surgical operations for cataracts, cross eyes, closure of the tear ducts, etc., with a success that commends him to the confidence of this entire community.

SPECTACLES: Special attention to fitting spectacles and eye glasses for which purpose the doctor has one of the most elaborate and complete set of perfecting testing appliances in the west.

EYE STRAIN: Which requires glasses to be correct is one of the most common causes of weak painful vision and of headache. It produces more headache of various kinds, especially sick and nervous headache than all other causes combined. It is also a very common cause of weak, watery, sensitive, painful, smarting, heaviness and aching in, over back or around the eyes. When reading letters blue and run together.

These symptoms usually disappear when reading or close work is laid aside, but return again as often as either is resumed. These cases call for the highest skill in determining the kind and strength of glasses to prescribe.

Hick's May Weather.

Indications are that May will open with cool, fair weather in most parts with frosts in northern directions. A warm wave will pass eastward across the country, giving rise to reactionary storms central on and next to the 3rd. After a few days of cooler, clear weather, about the 7th, it will grow warmer in the west during the 8th to 11th the warmth will increase as it advances eastward over the continent, resulting in many storms about 8th, 9th 10th. There is a marked tendency to frost, as a rule, from about the 10th to 15th of May, especially when storms occur on or just preceding those dates. But the indications for this month are that this frost period will reach its crisis at the close of reactionary storms central about the 15th. The new moon on that day will add the equinox of Mercury on the 16th will increase and prolong storm conditions, and add to the probabilities of frost after the storms in northerly regions.

From the 18th to 22nd falls a marked storm period, the crisis of which will likely be reached about the 22nd. A very warm wave will pass over the entire country during the period, and dangerous storms are liable to result. Easterly to southerly winds, sultry air with low and falling barometor, are certain harbingers of comming disturbances after storms pass, if winds continue from southerly points, or the barometor sullenly refuses to rise, look for a repetition of rain, wind and thunder, in cycles of twelve and twenty-four hours, until winds shift permanently to westerly, and the barometer moves decidedly upward. About the 25th and 26th there will be another rise in temperature, resulting in reactionary storms, beginning, of course, first in the west, and appearing latter at points along their march to the east.

The last day of May is the center of a regular storm period which runs into the opening days of June. Full moon on the 30th will tend to hasten developments, so that a very warm wave will be well defined and on its way from the west attended by increasing storms, by the closing hours of the month. The Venus equinox will be felt in all storms up to the middle of May, hence there will be a marked tendency to very hard hail storms, to excessive and sudden changes from very warm to very cool, increasing the probablities of frost after storms in all northly regions, it will also be prudent to anticipate tornadoes—to watch closely all eminous storm clouds, and to have your arrangments made, and your minds clear as to what would be the best thing for safety in a moment of manifest danger.

The Fayerweather Will.

The New York Press of last Friday contained the following bit of interesting information:

The controversy over the millions left by Daniel B. Fayerweather, the leather merchant, which has been in the Supreme Court for several years, was yesterday disposed of by Judge Lawrence He dismissed the complaints in the two actions which have arisen because of the failure of the counsel for the plaintiffs to appear to prosecute.

While this action practically ends the suit of the executors of Mrs. Fayerweather's estats against the executors of Mr. Fayerweather's estate yet there are still pending other suits brought by certain colleges which were beneficiaries in the original will but were not named in the deed of trust made by the executors disposing of the residue. Wabash was named in the deed of trust to the amount of $50,000 in addition to the $50,000 provided for in the original will and is therefore not one of the parties in the suit. Of the $50,000 provided for in the will Wabash has received $37,000. The balance, $13,000, is tied up by these suits and cannot be paid until they are disposed of. In the end there can be little doubt but that Wabash will receive this balance and the $50,000 of the residue.

HIS AFFIDAVIT.

It Will Make People Believe his Wonderful Story.

Subscribed to by One of New York's Most Prominent Justices.

Here is the Whole Matter Exactly as It Happened.

State of New York, }
County of Washington. }

Lucien Rodd of Whitehall, N. Y., being by me duly sworn, deposes and says that some years ago he suffered very greatly with insomnia, nervous prostration and his body was covered with sores, causing him great pain and annoyance. That his head was so covered with sores, that he was hardly able to comb or even brush his hair, so great was the pain it occasioned.

That he consulted the local physicians without successful result; that he took quantities of medicine with no benefit whatever; that physicians told him his disease was incurable and he had come to the same conclusion himself and had made up his mind to go to a hospital and await death.

That just about this time he learned about Dr. Greene's Nervura blood and nerve remedy, which he began to use. That this remedy entirely relieved and cured him, healed and dried up his sores, enabled him to sleep soundly and comfortably, and restored him to his ordinary vigor and vitality, in short, made a sound and well man of him so that he was fully able to work at his occupation, and has done so since that time.

That he attributes his recovery to Dr. Greene's Nervura blood and nerve remedy, as it restored him when everybody

MR. LUCIEN RODD.

and everything else had failed and he had been given over to go to the hospital and die.

Mr. Rodd makes this statement voluntarily and cheerfully out of sincere gratitude for what the remedy has wrought for him.

LUCIEN RODD.

Subscribed and sworn before me this 15th day of January, A. D., 1893, and I certify the affiant to be a credible and reliable person whose statements may be accepted with confidence and implicitly relied upon, having known him personally for the last twenty-five years, and that I have no interest, direct or indirect, immediate or remote in this matter. As is proven by the wonderful cure of Mr. Rodd, it is the very best spring medicine possible to take for the blood, nerves, liver, kidneys, etc. It is the discovery and prescription of Dr. Greene, of 35 W. 14th St., N. Y., the most successful specialist in curing nervous and chronic diseases. The doctor can be consulted free, personally or by letter.

Mrs. Million's Ride.

When Mrs. Million goes to ride she travels forth in state,
Her horses, full of fire and pride, go prancing from the gate;
But all the beauties of the day she views with languid eye,
Her flesh in weakness wastes away, her voice is but a sigh.

For Mrs. Million is in an advanced stage of catarrh, and all the luxuries that wealth can buy fail to give her comfort. She envies her rosy waiting-maid, and would give all her riches for that young woman's pure breath and blooming health. Now, if some true and disinterested friend would advise Mrs. Million of the wonderful merits of Dr. Sage's Catarrh Remedy, she would learn that her case is not past help. $500 reward is offered by the manufacturers for a case of catarrh in the head which they cannot cure.
