RUPTURE CURED.

I was ruptured when a boy and for thirty years wore a truss; never had one made that would not give me pain and swelling and soreness. I learned of Dr. W. H. Nott through a druggist, some six or seven years ago, and I made a mistake in not taking Dr. Nott's treatment then. I paid him \$100.00 for his services, but he sent me my first treatment a second on Dec. 16, 1892, and was pronounced cured Dec. 23, 1892.

To the afflicted who read this I will state that I am cured thoroughly and would be glad to answer any letter regarding the cure or the treatment.

OMER RODIBAUGH,  
Jan. 23, 1893. 657 North Tennessee street.

We answer all inquiries promptly, accept no pay until cured, are selected and guaranteed to cure all cases of ruptures, hernia, scrotal, and all other afflictions free. Send your name and address for testimonial circular. Dr. W. H. Nott has had twenty-two years' experience and for nine years has confined his practice to Hernia exclusively.

DR. NOTT RUPTURE CURE CO.,  
204 W. Washington St., Indianapolis, Ind.

This Spring's Stock of  
Bonnets, Hats,  
Flowers, Etc.

For the Ladies is very beautiful, and all tastes can be suited. To do this call at

Mrs. M. W. Wilson,

Joel Block, south Washington street, and inspect the stock of new goods just received. Price low.

A. S. Clements,

Crawfordsville, Indiana, solicitor for HOME INSURANCE CO., of New York. Cash Capital \$3,000,000; cash assets \$6,000,000. Insures farm property against fire and lightning, cyclones and windstorms on cash or single note or installment plan. Most liberal blanketed policy issued. Farm property insurance a specialty. Ad dress as above and I will call and see you.

Dec. 17-18.

Children all like Melol. Dysentery never enters the home where Melol has been provided and given to the children by a cautious mother. For sale by all druggists. Try this wonderful remedy.

### THE EXTRA SESSION.

The coming meeting of congress which convenes August 7th, in special session certainly has important business before it if ever a judicial organization had. The business of the country is languid, money for circulation is scarce, manufacturing and agricultural interests are greatly depressed, and an air of uncertainty and doubt prevails. The business of Congress will be at once to take hold of the question before it in earnest and legislate for the best interests of the country. However prolific this country may have been heretofore in able military men, poets, inventors, writers, skilled mechanics, and in other walks of life, it has seemed always scarce in skilled, shrewd, national financiers. There is a wonderful lack of men in this country who thoroughly understand the money question and how to deal with it. The work of most of those men at the head of the financial department of the government has generally been as it were, a temporary expedient—something to endure for a season and then be abandoned. There are now a score or more of plans, no doubt, revolving in the brains of Congressmen of just what they are sure is correct, yet which on a test will not answer at all. It is questionable if the doing away of the Sherman silver purchasing act is the correct thing unless something equally satisfactory is substituted. Again if bonds are issued for this or that purpose it is doubtful if it would ease up matters to any great extent. Any legislation made in the interest of the silver cranks of the west or the gold hoarding sharks of the east, is to be avoided. This government is not for those who constitute a small part of its population. As stated Congress' plain duty is to bring relief to the people and not to cater to the wants of this or that element which seeks its own personal aggrandizement, and is interested in nothing aside from its individual welfare. Some plan that will open the doors of commerce, place money in circulation and not in vaults, and make permanent a good financial system in the interest of business men, is what is hoped at the next session of Congress.

### SELECTING HIS OWN DEPUTIES.

Since it has been settled that Mr. E. V. Oris is to be the next post master of Crawfordsville, that gentleman, we understand, has been overrun with applications for positions under him, and many persons have made themselves quite officious in seeking to dictate to him who should be favored with these places. Mr. V. for his good luck in securing the position, is not indebted to any party leaders here in particular, nor to the good wishes of any sect or nationality, but more to his own standing as a citizen and a democrat, and should promptly inform those officious individuals just how the land lays. The post master is strictly responsible for the management of his office and the conduct of his deputies, and receives the blessings and curses alike for the manner in which he serves the public. If anything goes wrong in his office he alone must shoulder the responsibility.

Consequently the choosing of assistants should rest solely with him, and if he has the true quality of independence he will allow no dictation in the matter from any source whatever.

### GOVERNOR MATTHEWS AND ROBY.

Gov. Matthews has not yet suppressed prize fighting at Roby, Ind., two or three of these disgraceful affairs having occurred since he first made motion to squelch them. He should arm his "staff" that highly ornamental body of men belonging to the Governor, and order them to move on to Roby. The Governor, we are pained to believe, is entirely too vacillating in his course in this matter. A score of determined men under the control of a man of sufficient will would soon dispose the thugs, prize fighters, and backers who assemble there every time a "mill" is announced to take place. No men dread the rigors of the law more than the patrons of prize fights, and none will flee quicker when they see that business is meant. If the Governor did not intend to do anything himself he should have done less blustering, or if he actually intended to suppress the Roby business, he should have gotten the right kind of men to execute his wishes.

The panic of 1873, and long period of "hard times," it should be remembered was under a republican administration and the vicious financial laws of that period were the creations of republican legislation. It should also be remembered that if the present stringency in money matters and the "hard times" of the present season arise from the monetary system of the government, that system was created by republican legislators. Don't falsely charge it to this administration.

### GEN. WALLACE ON THE SITUATION.

Gen. Wallace was in New York last week and had himself interviewed on the political situation. Of course being a special friend of Harrison he could not find anything good in the Cleveland administration. No one expects particular republicans to command anything when their opponents have the reins of power. Concerning Cleveland he said:

There is a lamentable lack of confidence in the wisdom of the Cleveland regime to cope with the great financial problem. Cleveland is to blame for this, at least so far as his failure to give us a clear statement of his intentions.

The only persons having lack of confidence in Cleveland are money sharks who have used government officials as tools in carrying out their financial schemes, and ultra partizans of the republican party who are seeking to manufacture sentiment against the administration, by which they hope to again ride into power in 1896. Concerning this the State Sentinel says:

"Gen. Wallace is making a deliberate misstatement when he says there is any lack of confidence in the Cleveland administration, as is everyone who repeats it. The financial troubles of the country are due to the juggling with the monetary system of the country by the republican party when it was in power. The present trouble has long been impending. It was imminent in 1890 when a republican president, a republican senate and a republican house were in full command of the country's legislation. Then, instead of meeting the question honestly and firmly, they dodged and quibbled and sought to stave the trouble off till after the presidential election. In this they were partially, but only partially successful, and to-day the country is embarrassed simply because of an unpatriotic effort of the republican party to make votes. Gen. Wallace knows this as well as anybody."

### KEEP THIS IN MIND.

When the democrats went out of power in 1889 there was a surplus in the treasury of \$65,000,000. The gold above the reserve was \$98,000,000. The annual excess of revenue above expenditures was nearly \$1,000,000. The silver purchased was coined, not heaped up like useless iron. The country was prosperous. Trade was good. Gold was coming this way—the net gain in four years having been \$54,000,872,000.

When the democrats were restored to power, after four years of republican rule, the surplus was spent and a deficiency impending. The free gold had been drained out of the treasury. The expenditures of the government exceeded the receipts, though these had been increased. A republican silver law had menaced the national credit and had unsettled business. The country had lost to Europe \$122,000,000 in gold. Tariff-fostered trusts and unmolested lawless conspiracies, failing through grasping greed and revealed rascality, had brought the country to the verge of a great panic, which only the faith of the people in President Cleveland has averted.

With a great flourish of trumpets, the democratic press announces another pensioner who is alleged to be a fraud.—Journal.

The trouble in the pension department under republican commissioners was that they could never discover any fraud—especially if the fraud was voting the republican ticket. So long as he upheld the power and glory of the republican party he was rarely disturbed—they needed his vote. The new democratic commissioner of pensions proposes to root out these fraudulent claimants for pensions, regardless of politics, republican or democrat, and the honest sentiment of the country will encourage him.

TARIFF smashing and wildcat money have brought disaster on the country before, and the threat of these calamities is producing its natural consequences now.—Journal.

The only wildcat money the public has seen or is likely to see, is that issued last year by republican party leaders for campaign purposes. It did not aid the G. O. P. one iota then in securing votes for it and the talk about it now will be equally effective. The republican leaders would gladly flood the country with wildcat currency, if by it they could again attain power, or bring any kind of curse upon the country to attain any political selfish ends.

The treasurer of Tipton county has lately been discovered to be a defaulter and in short in the amount due the county in a sum of about \$40,000. Two sons of the treasurer, who acted as his deputies, seem to be responsible for the theft, having squandered most of the money in fast living. The entire crowd should receive long sentences to the penitentiary. The proper punishment of defaulters of the public money should be long service in the penitentiary. It will greatly tend to discourage the stealing of the public funds if made a general rule.

PARKER and McAfee, the two colored men who killed Eyster, a druggist at Indianapolis in April last, have been sentenced to be executed in the northern penitentiary on the morning of Nov. 3d. Warden French will have control of the affair, and it is suggested that the time is near at hand for the sentimental fools to commence handing in bouquets to the two murderers.

### MANY TINDER BOXES.

After the loss by fire of one of the large buildings in the World's Fair ground and the destruction of a score or more of lives last week, it was pronounced a tinder box, a death trap, etc. What is the reason all the buildings there are not tinder boxes? They are all built of cheap, flimsy material, and would burn just as quickly as the building that was destroyed did. The "Indiana" building for instance is a tinder box, as are also most of the state buildings, but until destroyed nothing in their condemnation need be said.

### SULLIVAN RE-NOMINATED.

Mayer Sullivan, of Indianapolis, was last week re-nominated for the office which he is at present occupying. This is a very good indication of the esteem he is held by the party in that city and a strong approval of his administration. If elected this time it will be the third time he has thus been served. Notwithstanding the fanatical A. P. A. move which is now sweeping over the country there appears no probability that it will engulf Sullivan, even if he has an Irish name.

Ex-Gov. CHASE is announced as one of the speakers to address the Old Settlers' meeting at McHenry's Grove next month. The old settlers about Green-town, Howard county, where the ex-Gov. organized a bank some time ago, but which soon went under, would doubtless be pleased to hear a lecture from Mr. Chase on finance just now, and the mode and manner by which they can secure all the cash they invested at his suggestion.

It is said the wheat crop of Montgomery county will not average over seven bushels to the acre, at least many farmers and machine men so assert as their opinion. This indicates many short pocket books this winter, and of course many of them, especially republicans, with no one else to blame will hold the administration responsible.

One of the little, contemptible, steals from the city treasury was the paying out of money for painting the telegraph and telephone poles around town. It is probable some drug store had a big stock of black paint on hand and was anxious to realize on it soon.

The cost to the city of Chicago of the World's Fair up to May 1st, the day of the opening, was \$19,000,500. Indications plainly show that the receipts from the exhibition to Nov. 1st, will not near equal that sum. Indirectly, however, Chicago will have gained very much more than the above sum.

Beware of Ointments for Catarrh that Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheeney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio by F. J. Cheeney & Co. Testimonials free.

—Sold by Druggists' price 75c. per bottle.

Mature deliberation; Planning to meet a note.—Union County Standard.

The New Great South American Kidney Cure.

The acknowledged superior cure and immediate relief for all derangements, painfulness and decay of the kidneys or bladder, Bright's disease, diabetes or any complaint that hurts or despoils either of these delicate organs. This new remedy has been thoroughly tested by learned physicians and found far superior to any medicine yet discovered for quickly relieving all weaknesses, aches, pains and distresses arising from diseases of any part of the human body. It is a great relief for the old, middle aged and children, male or female. It relieves at once retention and pain in passing water, and it is very effective in relieving prostatic troubles in the old, and for nightly incontinence of water in children, or others caused by weakness of the bladder. It may be worth to many a hundred times its cost. This is a remedy of great value to ladies, because they are very liable to weakness and pains peculiar to their sex.

Sold by Dr. E. Detchon, 213 E. Main St., and all druggists. Crawfordville, Ia.
