

Why? Why is Strictly Pure White Lead the best paint? Because it will outlast all other paints, give a handsomer finish, better protection to the wood, and the first cost will be less.

If Barytes and other adulterants in white lead are (just as good) as Strictly Pure White Lead, why are all the adulterated white leads always branded Pure, or

"Strictly Pure White Lead?"

This Barytes is a heavy white powder (ground stone), having the appearance of white lead, worthless as a paint, costing only about a cent a pound, and is only used to cheapen the appearance of paint. Barytes is to cloth, Barytes is to paint. Be careful to use only old and standard brands of white lead.

"Armstrong & McKelvy"
"Beymer-Bauman" "Eckstein"
"Fahnestock" "Anchor"
"Kentucky" "Morley"
"Southern" "Shipman"
"Red Seal" "Collier"

"Davis-Chambers"
are strictly pure, "Old Dutch" process brands, established by a lifetime of use. For colors use National Lead Co.'s Pure White Lead Tinting Colors with Strictly Pure White Lead.

For sale by the most reliable dealers in paints everywhere. If you are going to paint, it will pay you to send us for a booklet and information that may save you many a dollar; it will only cost you a postal card to do so.

PHENYO-CAFFEIN!

If you ever have Headache or Neuralgia, take Phenyo-Caffein Pills.

They are effective in relieving Pain, and in curing Headache or Neuralgia. They are not a narcotic, and contain nothing that stupifies. They tone up the nerves, and tend to prevent returns of Headache and Neuralgia. They are guaranteed to do all that is claimed for them.

TESTIMONIALS.
I have never seen anything so promptly as Phenyo-Caffein in sick and nervous Headache. Many cases have been cured, and not any failure reported. H. E. Baker, Baltimore, Md.

For years I have been a terrible sufferer from headache; some six months ago, my physician prescribed Phenyo-Caffein, and since then, by their use, I have not had a severe headache, being able to stop them completely in their incipency. J. H. Stannard, Concord, N. H.

You hit the nail on the head when you put Phenyo-Caffein on the market. They are the best thing out for headache. E. P. Jones, M. D., Orleans, Mass.

One year ago I was one of the greatest sufferers from sick and nervous headache that I ever knew. I no more have trouble with sick headache, and seldom have even a slight headache. I attribute the great change to your Phenyo-Caffein, a remedy I could not do without. If it cost \$5 a box, I have tried a dozen or more medicines (warranted to cure) without their even helping me. I can not say your valuable preparation enough. Frank S. Schmitt, Seymour, Ind.

ARREST OF A BANK CASHIER.

J. J. Bush of Elmira, N. Y., Accused of Dishonest Methods.

ELMIRA, N. Y., July 17.—Cashier J. J. Bush of the defunct Elmira National bank was arrested at his home here yesterday morning upon a warrant issued by United States Commissioner John T. Davidson upon complaint of ex-Congressman H. H. Rockwell, representing Jackson Richardson, president of the bank, and a number of depositors. In his affidavit upon which the warrant was issued, Mr. Rockwell alleges that when the last quarterly report of the bank was made, on May 4, the bank's overdrafts were named as \$18,812.53, when in fact Col. Robinson's overdraft amounted to \$18,000; that on or about May 6, Mr. Bush gave to the head bookkeeper three notes amounting to \$4,000, which Mr. Bush drew on credit to Col. Robinson's account. It is claimed that these notes were made in New York on May 6, and were signed by unknown parties who identity has never yet been established, that these notes were worthless and were thus credited to Col. Robinson's account for the purpose of deceiving and defrauding the stockholders and depositors.

Mr. Bush was arranged before United States Commissioner Davidson, pleaded not guilty to the charge, and bail in the sum of \$10,000 was furnished. The arrest was unexpected and has created the greatest sensation since the closing of the bank.

Archbishop Satoli at Bette.

BUTTE, Mont., July 17.—This city witnessed yesterday the grandest spectacle that the Roman Catholic Church has yet seen in the West. Archbishop Satoli, the papal delegate, said mass in the open air in the presence of nearly 12,000 people. The one little Catholic Church in this city holds only 400. Thousands of miners with their families were present. Dr. O'Gorman preached the sermon on the place and influence of the papacy in the Catholic Church. The ceremony took place in the great courtyard of the Sisters' hospital.

YOUNG BAPTISTS PERPIRE.

Indianapolis Continues to Greet the Convention with Hot Weather.

INDIANAPOLIS, Ind., July 17.—Another sweltering session of the Young Baptists was begun Saturday morning. The early prayer meeting was as usual well attended. If it had been held an hour earlier the crowd would have been just as large, for the intense heat made sleep impossible with many. The immense city hall, in which the convention is being held is well ventilated.

The religious exercises, conducted by the Rev. J. S. James, D. D., of Hartford, Conn., were followed by the report of the committee on miscellaneous business. The open parliament, "The Conquest Meeting," was led by the Rev. Frank S. Robbins of Philadelphia. The Rev. R. R. McKay of Northampton, Ont., delivered an interesting address on "Fidelity to Our Denominational Literature." Then came the mass-workers' conference. Ten-minute reports were given by the chairman of the Friday afternoon conference. Ten minutes were also given after each report to interrogate the chairman concerning the work covered by his report.

THE LAST SUNDAY.

WORLD'S FAIR NOW OPEN BUT SIX DAYS A WEEK.

The Entire Receipts of Yesterday Devoted to the Relief of the Families of the Firemen Who Lost Their Lives in the Cold Storage Building.

Chicago, July 17.—Yesterday was the last open Sunday at the World's Columbian Exposition.

It was also the day on which the entire gate receipts of the World's Fair were to be devoted to the relief fund of the heroes who lost their lives in the cold storage fire while obeying orders. Even the cause to which all visitors contributed their portion failed to bring out a large crowd.

Forty-nine thousand four hundred and one persons paid to enter the Exposition gates. There were 2,403 children's tickets sold. This gives the firemen's benefit fund \$34,099.75. The tickets reported do not include many which it is supposed were sold by the hotels.

Preparations had been made by the Exposition management to accommodate a larger crowd. The admission department had a special issue of 200,000 tickets printed, but one-fourth that number almost have been sufficient. At 3 o'clock but 28,445 persons had entered the Fair grounds. One thousand five hundred and seventy-one of these were children.

The fact that it was the last open Sunday failed to inspire much enthusiasm in the visitors, who, during the early part of the day, were scattered all about the grounds. Some walked to the ruins of the cold-storage building and looked at them for a while and then found their ways to the lake shore, where the band was playing, or to Midway plaisance.

Exposition officials take the last order regarding the Fair on Sunday as final. Many of them simply say that it has been tried and found unsuccessful, and that they are all working for the good of the Fair. Employees are jubilant. According to the officers over one-half the guards can enjoy a day of rest, while the other half will not have arduous duties to perform. Of the gatesmen, it is estimated that seven-eighths of the entire force will be laid off on that day. It is claimed there will be no necessity for workmen employed by exhibitors at all on Sunday hereafter.

All the flags and bunting on the Exposition buildings were at half mast, while down in the southeastern portion of the grounds the black bank of the ruins served as a reminder of the brave men for whom the Exposition is mourning. Work on the ruins was suspended, and an awful stench came from the decaying provisions which are buried beneath the blackened timbers. The odor was carried away by the wind to the south. It was so sickening that Capt. DeRemer left the six-story street gate closed. He said that it would be impossible for the gatesmen to remain at their posts under such circumstances. Today work on the ruins will be resumed, and the construction department believes that by Wednesday everything offensive will be taken away.

The amount raised for the sufferers of the cold storage fire will be considerably larger than the number of visitors indicates, according to the stories of the gatesmen. Almost all of the ticket sellers said that many persons deposited dollars for admission tickets and refused to take the change. One man at the six-story street gate gave \$30 for two tickets. He would give no name, but said he was from New York and was a worshiper of heroes. Several other persons paid \$5 for a ticket, and Superintendent Horace Tucker received a large number of letters inclosing money for tickets from persons who could not attend the Fair. Mr. Tucker was considerably disappointed in the attendance.

CONCESSIONERS FEEL GLOOMY.

Sunday Closing Threatens to Reduce Their Profits.

CHICAGO, July 17.—Business was bad in the plaisance yesterday. Many of the concessioners were thoroughly disheartened and some consultations were held to try to work out some remedial measures. To-day the Concessioners' club met to take some definite action on Sunday closing. There is a strong feeling among many that the day lost will be a severe blow to them in a financial way. It is probable that a united effort will be made to open the plaisance on Sunday.

Ferdinand Krebs, treasurer of the Hagenbeck company, said: "So far as our personal feelings are concerned we are in strict harmony with the directors of the World's Fair. What they decide to do we will accept without question. At the same time we are under very heavy expense here and we feel that we should not be deprived of every opportunity to give performances. We think that the plaisance should be thrown open free to the public on Sundays. In this way the World's Fair company would make large sums of money on the percentage they get from us and still keep faith, for it was promised us that the Fair should be open seven days in the week."

James Blair of the Moorish palace said: "Personally I would like to have the Fair kept closed. We all need a rest. On the other hand, we always take in enough Sunday to pay our expenses for the week. If it is kept closed we will lose just so much money."

"I am perfectly content that the Fair should remain closed," said George Pangelio, "if the World's Fair people declare it best. It will be a loss to us. Our people are all paid by the month and it costs us just the same."

Where beer is sold there is a strong feeling in favor of opening the plaisance. A movement is on foot among the concessioners to have the Exposition authorities open Midway plaisance on Sunday without an admission fee. The concessioners say that the fair would make \$25,000 each Sunday from its percentages.

An official of the Exposition said that it would be hardly probable that the plaisance would be opened without an admission fee. He said a number of directors were in favor of keeping the plaisance open. It is the intention, if this is done, to shut off all pass-holders from free admission, unless they are actually engaged in some of the plaisance show houses.

BRYAN TO BE LEADER

WILL MARSHAL THE FREE SILVER FORCES.

The Fiery Young Democrat from Nebraska Chosen by Mr. Bland for the Active Leadership in the House—Will Try to Unite All Silver Men.

WASHINGTON, July 15.—Congressman Bland of Missouri, in a letter sent to a colleague now in Washington, announces that he has selected for his chief lieutenant in the campaign for free silver Congressman Bryan of Nebraska, who made his mark in the last congress. Mr. Bryan will be remembered as a brilliant young man whose free trade views threw even the Mills wing of the democratic party into the shade. Mr. Bryan is alert and a good talker. He is also popular and of pleasing personal qualities, in which Congressman Bland is notoriously deficient. It is an open secret that Mr. Bland is unpopular even with the men who follow the cause he so conspicuously represents. He is not a good leader and does not even possess that quickness at parliamentary practice which his long service in the house should have taught him. He expects that Mr. Bryan will be of service to him in all these matters.

Mr. Bryan's friends hope that the dangerous prominence of being Mr. Bland's first lieutenant will not prove as fatal as it did to Mr. Pierce of Tennessee, who was in the last silver fight what Mr. Bryan is to be in next. Of the entire Tennessee delegation in congress every man was renominated and re-elected without a struggle, except Mr. Pierce, who failed of renomination.

In the letter received yesterday from Mr. Bland the free-coinage leader practically admits that he does not expect to be chairman of the coinage, weights and measures committee, a place he has held in democratic houses time out of mind. He claims that the new situation will be more satisfactory to him than to be chairman of the committee, a majority of which would hold views radically opposed to his. It is plain that Mr. Bland counts upon the general opposition to solidify all the free-silver men of whatever political affiliations into one compact body.

MISSIONARIES IN DANGER.

Threatened by the Promised War Between French and Siam.

WASHINGTON, July 15.—There are about twenty missionaries in Siam, mostly Presbyterians, and their friends in this country have become concerned about their welfare, now that actual hostilities have broken out between the French and the Siamese. The Rev. Dr. Gillespie of New York, representing the Presbyterian mission board, yesterday telegraphed Secretary Gresham to inquire what provision would be made for the safety of these missionaries and the numerous children in their charge in view of the present war outlook. Secretary Gresham replied as follows: "DEPARTMENT OF STATE, WASHINGTON, July 14, 1893.—John Gillespie, 53 Fifth avenue, New York: I am informed by the secretary of the navy, that there is not at present on Asiatic station any vessel capable of entering what provision would be made for the safety of these missionaries and the numerous children in their charge in view of the present war outlook. Communicate with the legation at Bangkok for usual diplomatic protection."

The only official news of the trouble between the French and the Siamese received at the state department was contained in a brief cablegram from Acting Consul-General Boyd at Bangkok, stating that after an hour's engagement the French vessels had passed the forts below Bangkok.

Depletion in Kansas.

TOPEKA, Kan., July 15.—The situation in Western Kansas owing to the long continued drought has grown so grave that a convention has been called to meet at Leoti, Wichita county, July 20 to devise ways and means to prevent the depopulation of the country. In many quarters no crop of any character will be harvested and destitution is staring the people in the face. The object of the convention is to devise a plan by which the settlers may be provided with seed grain for another crop. Forage crops alone are expected, and in the majority of the counties even these will be failures. Cattle on the ranges are being shipped out of the country to prevent them from perishing.

Work on the Nicaragua Canal.

NEW YORK, July 15.—The report that the Nicaragua Canal Construction company had stopped all work on the canal on account of lack of funds was officially denied yesterday by ex-Secretary Warner Miller, president of the company. "We have not stopped work entirely," said Mr. Miller, "although, of course, we have had to lessen the amount of work. In times of financial stringency every one has to cut his coat according to his cloth. Work is now going on on the breakwater at the entrance to Greytown harbor, and also on the harbor. Besides that we have a large number of men looking after our valuable machinery."

No News from Rio Grande do Sul.

WASHINGTON, July 15.—The department of state is without information further than that contained in the newspaper dispatches regarding the revolt in Rio Grande do Sul, but this causes no surprise as it is known to be the practice in South American countries in cases of revolt to destroy, or at least assume control of the telegraph lines. It is not believed to be necessary to issue orders detaining the United States ship Philadelphia at Rio de Janeiro, as Capt. Barker has discretionary power to remain for a time if the emergency appears to justify it.

Damage from Wind and Hail.

ELSDORA, Iowa, July 15.—A severe storm passed ten miles northwest of Eldora yesterday afternoon, doing great damage to crops, windmills and buildings. A section of country several miles in extent was visited by a hailstorm, destroying all the crops in its track. One farmer lost his entire crop and many others lost heavily. The damage will reach \$25,000 in this county alone.

Six Deaths in Chicago.

CHICAGO, July 15.—Six deaths from sunstroke and a large number of serious cases of prostration were reported in Chicago yesterday.

HAD A LONG TAIL.

SUPPOSED BOREALIS WAS PART OF THE COMET.

Prof. Frisby of the Naval Observatory. Says He Saw the Long Streak Greenish-white Light Shoot Out From the Comet—No Explanation of It.

WASHINGTON, July 17.—Saturday night the comet, which is now the object of so much search and speculation, suddenly developed an enormous tail which, to the unpracticed eye, was taken to be a display of the aurora borealis. At that hour Prof. Frisby of the naval observatory was studying the comet through the nine-inch glass. He noticed a long streak of greenish-white light shoot out from the comet and extend itself almost to the zenith. At first, the nucleus of the comet being at that moment hidden by the fleecy cloud, it was thought that the aurora borealis had sent out an advance notice of a brilliant engagement, but as there was no flickering and the light came steadily from where the comet had last been seen the professor concluded that he was seeing a comet in process of development.

The tail of the comet was thirty degrees in length, a distance about sixty times as long as the moon is wide, and extended from ten degrees above the horizon almost to the zenith. It was plainly visible to the naked eye, and was watched for some time by the corps of observers at the institution. Prof. Frisby said: "There is no way to explain the sudden freak of the comet. They are erratic bodies at best, and the only thing to say is that this one had reached a stage where it was ready to throw out the long streak of luminous gas which we call a tail. It was not a bushy tail, but was a long ribbon of light about three times as wide as the moon."

Brooks yesterday reported the observation of a display of the aurora here Saturday night, the most magnificent feature of which was a beam of light of great brilliancy reacting from the western horizon up past the zenith toward the eastern sky. It resembled in form and brightness a great comet, for which it was mistaken by many persons. The real comet, he said, was considerably to the north of this, and is becoming fainter. It was just visible Saturday night in the auroral glow.

SILVER MEN PROTEST.

Mint Director Denounced for Fixing His Own Price for the White Metal.

WASHINGTON, July 17.—Mint Director Preston is being flooded with protests and denunciations from silver men because he refused to purchase the white metal except on figures which the silverites claim are based on the London price. Their protests will be of no avail. He can base his price on what he pleases, and as he or the government he represents is practically the only market—the London market being for private account, to cover short sales—he can justly claim the privilege of setting his own figures. If the silverites don't like them they can keep their stuff. He bought 100,000 ounces yesterday at 72 1/2. The other holders refused to sell at that figure and he declined to give more. They declared they could get more for it in Europe. He didn't tell them to go to Europe, and it is noticed they have it on their hands to-day.

Distribution of the Borden Property.

FALL RIVER, Mass., July 17.—It is learned that the daughters of the late Andrew J. Borden have transferred to Mrs. George Whitehead of this city and Mrs. Fish of Hartford, Conn., \$4,000 worth of ornaments which belonged to the late Mrs. Borden. The beneficiaries under the transfer were half-sisters of the murdered woman. The trial determined the fact that Mrs. Borden died first, but it is understood that the transfer was voluntarily made.

Municipalities Not Liable for Libel.

BOSTON, Mass., July 17.—The supreme court has handed down a decision in the case of A. H. Howland, a civil engineer, who sued the town of Maynard for libel for publishing in its annual report statements reflecting unfavorably upon some work which the town had employed Howland to do. The court practically holds that libel suits against towns and cities cannot be maintained.

Will Resist Dispensary Law.

CHARLESTON, S. C., July 17.—Gov. Tillman made a move yesterday against the blind tigers in Charleston. These have been running now just two weeks since the dispensary law went into effect, and it is no secret that the enforcement will be resisted by force if necessary. In fact, many of the inhabitants have armed themselves and are prepared to defend the sanctity of their premises.

California Silver Men Meet.

SAN FRANCISCO, Cal., July 17.—A meeting of the prominent silver men of the state was held here last night and resolutions adopted favoring the restoration of silver to the position it occupied as a money metal previous to the demonetization of 1873. Another meeting will be held next week for the purpose of electing delegates to the silver convention at Chicago.

Henry Gladstone at Baltimore.

BALTIMORE, July 17.—Mr. Henry Gladstone, nephew of the grand old man, was in Baltimore Friday. In response to a query as to the outlook for the passage of the home-rule bill for Ireland he said he was convinced that the main opposition will be exhausted and the bill passed within the next six months. Mr. Gladstone said his tour in America had been a pleasant one.

Peruvian Officials Suspended.

LIMA, Peru, July 17.—Irigoyen, director general of the Peruvian finances, and Mendizábal, chief of the treasury, have been suspended for six months on account of their connection with the recent scandals concerning the collection of taxes.

Prominent Geologist Drowned.

RALEIGH, N. C., July 17.—Hunter L. Harris, assistant state geologist, was drowned while bathing Thursday evening near Little River academy, Cumberland county.

CASTORIA

for Infants and Children.

THIRTY years' observation of Castoria with the patronage of millions of persons, permit us to speak of it without guessing. It is unquestionably the best remedy for Infants and Children the world has ever known. It is harmless. Children like it. It gives them health. It will save their lives. In it Mothers have something which is absolutely safe and practically perfect as a child's medicine.

- Castoria destroys Worms.
- Castoria allays Feverishness.
- Castoria prevents vomiting Sour Curd.
- Castoria cures Diarrhoea and Wind Colic.
- Castoria relieves Teething Troubles.
- Castoria cures Constipation and Flatulency.

Castoria neutralizes the effects of carbonic acid gas or poisonous air. Castoria does not contain morphine, opium, or other narcotic property. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep.

Castoria is put up in one-size bottles only. It is not sold in bulk. Don't allow any one to sell you anything else on the plea or promise that it is "just as good" and "will answer every purpose."

See that you get C-A-S-T-O-R-I-A.

The fac-simile signature of *Wm. D. Mitchell* is on every wrapper.

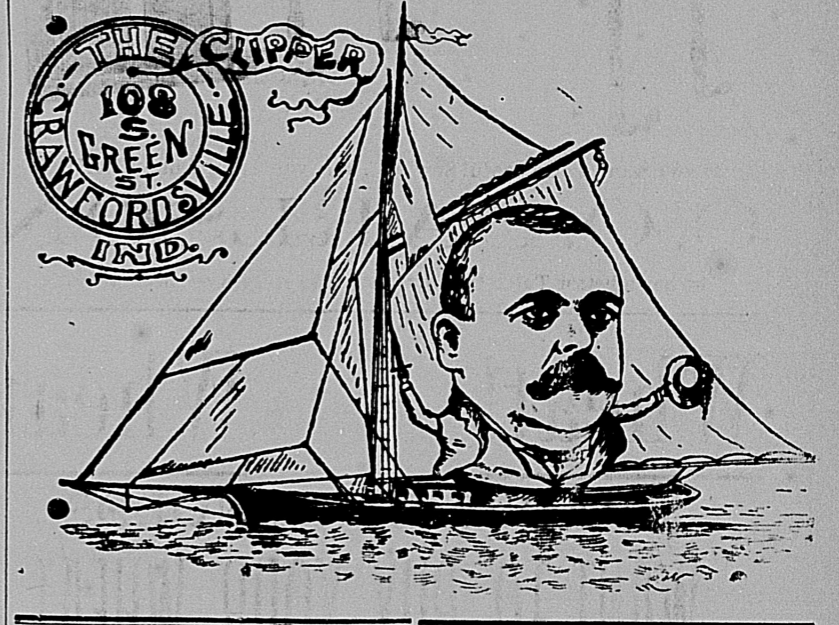

Children Cry for Pitcher's Castoria.

DO YOU KEEP IT IN THE HOUSE?

PERRY DAVIS' PAIN-KILLER

Will Cure Cramps, Colic, Cholera-Morbus and all Bowel Complaints.

PRICE, 25c., 50c., and \$1.00 A BOTTLE.
