AUGUST 3, 1893.

DO WE NEED SEWERAGE.

A man who gives this question a
proper amount of thought can hardly
answer except in the affirmative. The
Mayor, all the councilmen, the city en-
gineer, all the health officers answer in
the affirmative. Every man who spends
from ten to twenty-five dollars a year in
attempting to keep his cellar dry an-
swers in the affirmative. Every man who
has a cess pool in his neighborhood con-
taminating his well or cistern answers
in the affirmative. Every man who has
pools of water stagnating in his neigh-
borhood answers in the affirmative. Every
man who would prefer to pay a small
sewer tax than run even the smallest
chance of losing one loved one by
disease caused by defective drainage
answers in the affirmative.—Journal.

To the above interrogatory nine-tenths
of the tax-paying citizens of Crawfords-
ville will emphatically answer, no. There
is no healthier city in Indiana now, nor
ever has been than Crawfordsville, and
all this cheap talk of "cess pool,"
"contaminating wells," "losing one loved
one," etc., is the result of a flighty imagi-
nation or beer, it is difficult to exactly
discover which. Where is any citizen
particularly suffering from a cess pool
in this town, or if so, why go to any
great expense in removing it? Sewers,
street cars and other conveniences are
probably good things to have—if you
are able to pay for them. Why ask the
citizens to shoulder more taxes when
they now have more than they can bear?
We have a higher tax to pay in Craw-
fordsville now than before for ten or fif-
teen years past, yet the Journal, which
is fattening off of the city by the pub-
lication of numerous well padded ad-
vertisements, charging its own price for
them without competition, will have the
citizens to be further squeezed and op-
pressed by additional taxation. There
is no immediate need of sewerage, and
has not been for years. Let the big
debt which the city now owes be paid
first before any new ones are contracted.
The Review affirms, and we do not be-
lieve can be truthfully contradicted, that
there is a job in the whole thing—this
sewerage business—that somebody wants
to get a market for brick, or hopes to
secure the contract for excavation. Hence
the talk of sewerage. The public believe
that a portion of the scheming
crowd that succeeded in fastening an
\$80,000 electric light debt on Craw-
fordsville, is the same who is so
strongly urging the construction of
sewers—there will be money in it to
them if the movement can be carried
through.

WHITNEY ON THE SITUATION.

The most sensible talk we have heard
of from any one on the present financial
and business situation is from ex-Sec-
retary Whitney in a conversation a few
days ago to a correspondent of an east-
ern paper. Here it is:
"But I do not wish to be regarded as
considering the repeal of the Sherman
law a permanent cure for our national
ills. I look upon repeal as a palliative,
not a panacea. The currency question
is not the most vital one with which we
have to deal. The poison lies deeper.
No temporary anodyne of financial leg-
islation will eradicate it. The silver
scare will not be long over before some
other scare will begin, unless we go to
the bottom of the trouble and get the
business and industry of the country off
the artificial basis upon which it is
being conducted and upon solid ground
again. The country's prosperity will
never be permanently established while
an annual tax of three or four hundred
millions is laid upon its industries.

THE PRESENT TARIFF LAW.

"No matter what disguise it may as-
sume, our present tariff system is essen-
tially a tax upon the producing and in-
dustrial classes. The national govern-
ment is supported by a tax, not upon
property, but upon consumption. The
tariff is assessed not upon what men
own, but upon what they eat, and drink,
and wear. It is too largely a per capita
tax. Under it, it is easily possible that
a poor man with a large family may be
compelled to pay more taxes for the
support of the government than an eco-
nomical millionaire with only himself to
keep. An average man in the middle
and lower classes, making income a
basis of classification, spends say 75 per
cent. of his income for food and cloth-
ing. The average rich man can not
spend over 5 per cent. of his income for
the same purpose. National taxes being
levied as they are, the general mass of
the people, the producing and indus-
trial classes and the great body of mer-
chants, tradesmen and professional men,
pay fifteen times as much tax in pro-
portion to their means as the rich man.
There lies the secret of national dis-
tress."

If Cleveland is wise he will carefully
avoid all talk about a substitute for the
Therman law in his forthcoming message.
—Journal.

Just spare a few moments from the
rush of business and write this informa-
tion to him.

NO REASONABLE CAUSE.

There can be no reasonable cause for
the present depressed feeling in business
circles through the country, the string-
ency prevailing in the money market
and the air of doubt and uncertainty
that at this time prevails. The country
in every respect is as prosperous as it
has been for twenty years or more past.
Crops of all kinds are represented as
indicating favorable returns, the health
taking the country over is very good,
there being no prevailing epidemic of
fatal disease in any portion of the con-
tinent. There is, therefore, no reason-
able foundation on which to build an era
of stagnation and "hard times." The
fanaticism of the people is causing it all.
They fear each other in financial mat-
ters, and there is a prevailing want of
confidence, although no substantial
cause for it now any more than a year
ago. Distrust spreads, money cannot
be negotiated and loans cannot be paid.
There must be an end to this and the
people trust that it is near. We hope
the present flurry will develop some
wise financial heads, who can by their
suggestions, actions and skill relieve
this country of the dark monetary cloud
that seems to be settling upon it. The
President, we believe, is honestly, sin-
cerely and courageously laboring in the
interests of the people—not for a clique
or class—but for the best interests of
the country. Congress convenes soon.
It must recognize at once the necessity
for prompt action, and its time should
not be frittered away in useless con-
tention, and it is hoped will not be. It
can by prompt and wise action very soon
create a better feeling and restore con-
fidence, and on the other hand by use-
less wrangle prolong a return of con-
fidence for years to come.

ELKINS' OPINION.

Stephen B. Elkins, ex-Secretary of
War, and one of the most corrupt scoundrels
that a republican nest, takes occasion
lately to criticize Cleveland and for not call-
ing Congress together earlier than he
has, and says he is responsible that
"values have shrunk in four months a
thousand million dollars." Elkins was
the chief among Star Routers, a gang
that robbed the government of millions
of dollars, were arrested, and after a dis-
graceful trial forced to disgorge much of
their stealings. He is one among a num-
ber of republican leaders that are criti-
cizing this administration. The country
would indeed be under superb man-
agement if guided by the councils of
such men as Elkins. Of course such
men can see nothing good in the work
of political opponents. It is certainly
immaterial whether they should or
should not. The sooner the Elkins'
style of public men disappear from pub-
lic view the better.

A SANITARY SURVEY.

Mr. Charles C. Brown, from some-
where, is trying to get a job off of the city
in the way of sanitary surveying, and
addressed the city council last week on
the subject. We don't know who sent
for Mr. Brown, but there is no more use
for his survey than there is for a fifth
wheel of a wagon. We don't need it at
all. Crawfordsville is as healthy now
as it has ever been, and don't need sur-
veys nor sewers. Mr. B. we understand
only wants \$1,200 for his survey, and al-
though by promising to divide with
somebody a portion of his earnings may
secure the work of some councilman to
get the city to order the work, he can
find few others favoring it. No, Mr.
Brown. Crawfordsville has an \$80,000
electric light debt placed upon it by a
republican city council two years ago,
and should pay off that before contract-
ing any thing new. Move on, Mr.
Brown.

The records show the other banks of
this city to be exceedingly strong—
stronger, indeed, than the banks of any
other city of the country.—Indianapolis
News.
This sounds very much like a man who
whistles in going through a grave yard
to keep his courage up. The records,
we believe, will show that within twen-
ty-five years past there have been as
many as ten or twelve bank failures in
Indianapolis, many of which have been
very damaging and wide spread in ef-
fect, two of which occurred last week.
This for a city of the size of Indianapo-
lis is certainly quite enough, and should
be an incentive to the News to do less
boasting about the "strength and solidi-
ty" of banking institutions at the capi-
tal.

EX-PRESIDENT HARRISON is indulging
in criticism of the present adminis-
tration and "the want of confidence," he
asserts which the people have in it.
The finest display of "want of confi-
dence" was shown last November in him,
when old reliable republican states like
Wisconsin, Illinois and others, voted
against his further retention of power
and relegated him to private life where
he will probably remain during the re-
mainder of his existence.

HOUSTON, of Connersville, an original
Harrison man, but who on the second
race of Benny was not particularly
proud of it, has, to be in the fashion,
been compelled to make an assignment
of all his property to the amount of near
\$500,000, for the benefit of his creditors.
He should have given more heed to Har-
rison's lectures on "finance," since the
close of his administration and he might
have fared better.

The biggest bank failure yet recorded
is that of the Fire and Marine Bank, of
Milwaukee, Wisconsin, last week. Its
liabilities are over \$7,000,000, but its
assets are placed at over \$8,000,000. One
of the strange things to be noticed
about most of the numerous failures
this summer is that very generally the
assets largely exceed the indebtedness,
and is a good indication that creditors,
with a careful assignee to manage, will
lose nothing.

One George T. Saavey, of this state,
has refused to receive a pension granted
him because he has now no disability,
and is able to earn a living. Unless of a
very self-willed disposition it is quite
likely before coming to this conclusion
that the leading republican politicians
of his locality overlooked him.

Every item of the McKinley tariff
law is in full force and effect, and yet
the prosperous times that were to result
from protection of American industries
seem as far off as they were years ago.
Such are the results of republican legis-
lation in favor of classes, but not of the
masses.

Those country editors from Indiana
attending the Fair at Chicago having
seen their names in print in the Chicago
big daily newspapers are now, no doubt,
highly gratified with themselves and
will pronounce the Fair a great success
from now on.

By the time Gov. Matthews is through
reading the criticisms of himself regard-
ing the Roby prize fighting business he
will probably know how to proceed or
have grave doubts which one of the
boys he is.

The New Great South American Kidney
Cure.

The acknowledged superior cure and
immediate relief for all derangements,
painfulness and decay of the kidneys or
bladder, Bright's disease, diabetes, or
any complaint that hurts or despoils
either of these delicate organs. This
new remedy has been thoroughly test-
ed by learned physicians and found far
superior to any medicine yet discovered
for quickly relieving all weaknesses,
aches, pains and distresses arising from
diseases of any part of the urinary pas-
sages. It is a great relief for the old,
middle aged and children, male or fe-
male. It relieves at once retention and
pain in passing water, and it is very ef-
fective in relieving prostatic troubles in
the old, and for nightly incontinence of
water in children, or others, caused by
weakness of the bladder. It may be
worth to many a hundred times its cost.
This is a remedy of great value to ladies,
because they are very liable to weak-
ness and pains peculiar to their sex.
Sold by Dr. E. DeChon, 213 E. Main
St., and all druggists Crawfordsville.

Michael Peebles, who lives near Ella-
ville, N. C., is reputed to be 108 years old
and claims to have never worn a pair of
spectacles.

Mr. Thomas Batte, editor of the
Graphic, Texarkana, Arkansas, has
found what he believes to be the best
remedy in existence for the flux. His
experience is well worth remembering.
He says: "Last summer I had a very
severe attack of flux. I tried almost
every known remedy, none giving re-
lief. Chamberland's Colic, Cholera and
Diarrhoea Remedy was recommended
to me. I purchased a bottle and re-
ceived almost immediate relief. I con-
tinued to use the medicine and was en-
tirely cured. I take pleasure in recom-
mending this remedy to any person
suffering with such a disease, as in my
opinion it is the best medicine in ex-
istence." 25 and 50 cent bottles for sale
Nye & Booe. Aug. 5-1m

The skeletons of four persons believed
to be soldiers, were recently exhumed in
Spottsylvania county Virginia.

Dr. Wells New Cough Cure.

Why suffer with that dangerous cough
when a few doses of Dr. Wells' New
Cough Cure will relieve you. It is the
most pleasant, prompt and positive
cure made, and if you will only give it
a trial we will soon prove it. Sample
bottles free. Regular size 25 cents at
Nye & Booe. Aug. 5-1m

The Empire State express of the New
York Central made a run of 86 1/2 miles
in an hour on Friday.

Morris' English Stable Powders

Fed to your horses two or three
times a week will put them in good
condition for spring work, will make
them slick, fat and high spirited;
changes the entire system. No black
antimony or oil cake mixture. Price
25 cents. Sold by Nye & Booe.
Aug. 5-1m

Colored people in Virginia are said to
pay taxes on properties valued at \$13-
000,000.

Craft's Distemper Cure.

Warranted a sure cure and preven-
tive of distemper among horses. One
dose will save the horse from taking
the disease and three to six doses will
cure influenza, coughs, pink eye and
other catarrhal affections of the horse.
Price 50 cents. Sold by Nye & Booe.
Aug. 5-1m.

The first water pipes were bored logs
used in New York in 1776.

Word comes from all quarters that
the neatest and most satisfactory dye
for coloring the beard a brown or black
is Buckingham's Dye for the Whiskers

BLUE MONDAY.
It was dubbed blue Monday
By old Mrs. Grundy
A long time ago
No wonder that under
This serious blunder
The working was slow.
But Mondays have brightened;
Work lightened—clothes whitened
Since housekeepers know
Without further telling,
What Fairbank is selling—
See sample below.

CAUTION.—No Tags will be received before January 1st, 1894, nor after February 1st,
1894. Each package containing tags must be marked plainly with Name of Sender, Town,
County, State, and Number of Tags in each package. All charges on packages must be
prepaid.
SPEAR HEAD TAGS possess more qualities of intrinsic value than any other
plug tobacco produced. It is the sweetest, the toughest, the richest. SPEAR HEAD
is absolutely pure and distinctive in flavor from any other plug tobacco.
A trial will convince the most skeptical of this fact. It is the largest seller of any similar
shape and style on earth, which proves that it has caught the popular taste and pleases the
people. Try it, and participate in the contest for prizes. See that a TEN TAG is on every
10 cent piece of SPEAR HEAD you buy. Send in the tags, no matter how small the
quantity.
Very sincerely,
THE P. J. SORG COMPANY, MIDDLETOWN, OHIO.

A list of the people obtaining these prizes in this county will be published in this
paper immediately after February 1st, 1894.
DON'T SEND ANY TAGS BEFORE JANUARY 1, 1894.
