THE ULTIMATUM OF THE SILVER MEN.

In the event that the Sherman act is
repealed the silver men will favor and
contend for the following as introduced
by Mr. Bland:

"Be it enacted, &c., That from and
after the passage of this act all holders
of silver bullion to the amount of \$100
or more of standard weight and fineness
shall be entitled to have the same coined
at the mints of the United States into
silver dollars of the weight and fineness
provided for in section 2 of this act.

"Section 2. That the silver dollar pro-
vided for in this act shall consist of
412½ grains of standard silver; said dol-
lar to be a legal tender for all debts,
dues and demands, both public and pri-
vate.

"Section 3. The holder of the silver
dollars herein provided for shall be en-
titled to deposit the same, and receive
silver certificates in the manner pro-
vided by law for the standard silver dol-
lar.

"Section 4. So much of the act of
July 14, 1890, as requires the monthly
purchase of 4,500,000 ounces of silver
bullion be and the same is hereby re-
pealed."

The discussion in Congress over the
financial question has now been under
way over two weeks and a vote re-
garding the repeal of the act may be
taken next week. It is difficult to
determine just when the question will
be settled, and in what manner. There
seems to be a remarkable variety of
opinions on the gold and silver question,
and it may be many weeks before a
settlement is brought about. To thor-
oughly understand finances and how to
apply them to prevent business troubles
and many disasters is something which
our present statesmen of the country do
not seem familiar.

The Evansville Courier says: "There
are still some prophets of evil omen, like
Ex-Secretary Tracy, who pretends to be-
lieve that the fear of radical legislation
against tariff robbery is the cause of the
hard times. Such opinions can hardly
be called profound. If there are any
fears at all on this subject they are on
the other side. Ex-Secretary Tracy is
probably interested in some way in a
continuance of McKinleyism and there-
fore voices his own fears. But it is pa-
radoxical to the degree of the ludicrous
to say that the people are afraid of laws
that will prevent them from being rob-
bed in the way of taxes upon all the
necessaries of life. The idea that bur-
densome taxes are the foundation of all
prosperity is away out of date, and it is
strange that even so mediocre a states-
man as ex-Secretary Tracy should have
the hardihood to bring forward such a
claim as this again. Tariff robbery has
been the cause of the most of the pre-
sent distress among the people, and there
is no sense in saying that the prospect
of relief from the robbery has made
times hard."

CONGRESS.

As yet nothing has been done by Con-
gress to relieve the financial situation.
It looks now like the time was quite
distant before it would. There is a re-
markable diversity of opinion on the
money question. The free coinage ad-
vocates are as determined in their posi-
tion as are the money kings of Wall
street favoring a gold standard. There
has been an almost constant flow of
oratory and speech making almost daily
since Congress convened. What the
final termination of the work of the
extra session will amount to cannot now
be told. While it is probable that the
Sherman act of a few years ago will be
repealed, it will unquestionably be suc-
ceeded by a new law of some kind favor-
able to the advocates of free coinage
and bimetalism.

The advocacy of any cause however
just or unjust, always develops some
cranks and fools. A number of these in
Kansas and Colorado, who want free
silver, are now favoring the holding of a
convention to declare their principles in
which they favor the dissolution of com-
mercial relations on the part of the west
and south from the east. If our recol-
lection is distinct a similar dissolution
of one part of the country from the
other was undertaken some thirty odd
years ago, but was attended with dis-
astrous results and the project finally
abandoned. The cranks should study
American history and remember that
such schemes do none but themselves
any harm. Reason and sound sense ac-
complishes much more than all this
incendiary talk about dissolution will
ever do.

The clerks in Carnegie's iron estab-
lishments at Homestead, Penn., are to
have their wages cut 10 and 20 per cent.
Having beaten down the wages of his
mechanics last year, although at much
cost of lives and money it is now neces-
sary, he thinks, to begin on those a little
higher up in the social scale. Carnegie
is in need of more protective tariff. He
has not got quite enough fortune.

Four or five banks in the west that
suspended business last month resumed
last week and others are preparing to do
so. Gold is coming into this country
now instead of going out of it. Several
factories that closed down last month
and early in the summer will be opened,
and altogether the business outlook is
brightening up. In the meantime calami-
ty howlers and republican seekers for
political capital begin to find their occu-
pation quite difficult to maintain, and
unless something unlooked for appears,
will have to seek some new field for
mischievousness. The situation from a business
point of view is indeed much more en-
couraging than a month ago.

THE COUNTY TEACHERS' INSTITUTE HAS
been in session all this week. There
seems to be much more interest and at-
tention paid to these institutes now
than in former years, and there are per-
haps, generally speaking, a better class
of teachers than those of ten and fifteen
years ago. There are something over
200 teachers employed in the county
outside of Crawfordsville, and Mont-
gomery county teachers rank with those
of the best. Tax payers, however, con-
sider that as they pay high for their
teachers they should have the best to be ob-
tained.

THE principal business of the repub-
lican members of Congress at the pre-
sent session seems to simply draw their
salary and oppose any prospective plan
for straightening out the present knotty
financial situation. Containing all the
wisdom and goodness that that party
claims, yet none of the members of it in
Congress seem to know any measure or
plan by which the present financial
troubles of the country can be averted,
although equally interested. The lead-
ers of the party in Washington seem in-
terested only in aiming to make political
capital, if possible, for the next cam-
paign.

THERE are to be four subordinate
statues to decorate the Soldiers' Monu-
ment, in Indianapolis. There will be a
statue of George Rogers Clark, the man
who captured Vincennes, and by his act
won the very ground on which the
Soldiers' Monument stands; one of Wil-
liam Henry Harrison, who will repre-
sent the Indian period, as Clark will the
Revolutionary; one of Mahlon D.
Manson, who will stand for the Mexican
war, and one of the Oliver P. Morton,
who will be the representative of the
civil war.

THE rowdies attending the last prize
fight at Roby last week seem about to
accomplish more than Gov. Matthews,
the Sheriff and Judge, combined, have
failed for the last three months to do—
break the infernal disgrace up. Failing
to secure admission they burned the
ticket office and stormed the building
in which the fight was progressing, and
but for an army of Pinkertons would
have torn it to pieces. It is to be re-
gretted that in this instance they were
prevented.

THE present depressed state of busi-
ness results from the legacy left by the
last republican administration. When
Harrison assumed the reins of power he
found a full treasury and everything in
good shape. When he left it the treas-
ury was empty. That is just the condi-
tion Cleveland found it in March last.
It is inborn in the republican leaders to
seize and appropriate everything portable,
and that is what they did under the
Harrison administration.

NO NOMINATIONS for official positions,
it is understood, are to be sent to the
Senate for confirmation, until
the business for which the extra
session has been called has been dis-
posed of. This is correct although it
may work a hardship on the office seek-
ing comorants who rushed to Washing-
ton City as soon as Congress convened.
The last to be accommodated should be
the office seeking paupers who hang on
the coat tails of Congressmen.

THE Conrads, who in defending their
lives and home from the White Caps of
Harrison county, shot down five of the
cowardly mob, have, it is stated, been
compelled to remove from the state to
avoid future trouble. This is to be re-
gretted. They inaugurated a good work
and should have been protected even if
supported by the militia. A few more
master strokes at the hands of the Con-
rads and White Capism would soon be
unknown.

THE democratic party needs a leader
who knows how to keep it in the middle
of the road.—Journal.

IT is evident considering the condi-
tion of the treasury and the general dis-
tressed condition of the finances when
the republican administration stepped
down and out a few months ago, that
the republican party leaders failed con-
tinually to keep in the middle of the
road, but followed crooked roads at all
times.

A GENTLEMAN well posted in financial
matters in town said the other day that
there was probably as much as \$300,000
in this county stuck around in stock-
ings, mattresses, clocks, etc., at this
time. And yet the persons putting
their money in such places by with-
drawing it from circulation are largely
responsible for the scarcity of money for
circulation and the present depressed
state of business.

THE CHOLERA.
A few cases of cholera, mostly among
Italian emigrants, have been reported as
existing in New York last week. By
enforcing strict laws regarding the
treatment of the patients and those near
to them, there has been no spreading of
the contagion and none is feared. At
this late time in the summer and the
near approach of frost it is thought
there will be no dangers this year to
apprehend from cholera.

THE prospect of Mr. Haughey, Presi-
dent of the defunct Indianapolis Nation-
al Bank serving a term in the peniten-
tiary is quite flattering, judging from an
examination of his work by the receiver
appointed to take charge of the estab-
lishment.

THE painting job of the telephone
poles is almost completed and the origi-
nator of this steal from the city treas-
ury is probably cudgling his brains for
some new scheme with which to rob the
tax-payers.

NO HONEST ex-soldier objects to a
thorough inspection of the pension rolls,
and the leaping off of any name of any
pensioner not entitled to a pension, in
fact they approve of it.

The New Great South American Kidney
Cure.

The acknowledged superior cure and
immediate relief for all derangements,
pains and decay of the kidneys or
bladder, Bright's disease, diabetes or
any complaint that hurts or spoils
either of these delicate organs. This
new remedy has been thoroughly test-
ed by learned physicians and found far
superior to any medicine yet discovered
for quickly relieving all weaknesses,
aches, pains and distresses arising from
diseases of any part of the urinary pas-
sages. It is a great relief for the old,
middle aged and children, male or fe-
male. It relieves at once retention and
pain in passing water, and it is very ef-
fective in relieving prostatic troubles in
the old, and for nightly incontinence of
water in children, or others, caused by
weakness of the bladder. It may be
worth to many a hundred times its cost.
This is a remedy of great value to ladies,
because they are very liable to weak-
ness and pains peculiar to their sex.

Sold by Dr. E. Detochon, 213 E. Main
St., and all druggists, Crawfordsville.

remedy in existence for the flux. His
experience is well worth remembering.
He says: "Last summer I had a very
severe attack of flux. I tried almost
every known remedy, none giving re-
lief. Chamberland's Colic, Cholera and
Diarrhoea Remedy was recommended to
me. I purchased a bottle and re-
ceived almost immediate relief. I con-
tinued to use the medicine and was en-
tirely cured. I take pleasure in recom-
mending this remedy to any person
suffering with such a disease, as in my
opinion it is the best medicine in ex-
