

## Ayer's Pills

Are better known and more generally used than any other cathartic. Sugar-coated, purely vegetable, and free from mercury or any other injurious drug, this is the ideal family medicine. Though prompt and energetic in their action, the use of these pills is attended with only the best results. Their effect is to strengthen and regulate the organic functions, being especially beneficial in the various derangements of the stomach, liver, and bowels.

## Ayer's Pills

are recommended by all the leading physicians and druggists, as the most prompt and effective remedy for biliousness, nausea, costiveness, indigestion, sluggishness of the liver, jaundice, drowsiness, pain in the side, and sick headache; also, to relieve colds, fevers, neuralgia, and rheumatism. They are taken with great benefit in chills and the diseases peculiar to the South. For travelers, whether by land or sea,

## Ayer's Pills

are the best, and should never be omitted in the outfit. To preserve their medicinal integrity in all climates, they are put up in bottles as well as boxes.

"I have used Ayer's Pills in my family for several years, and always found them to be a mild and excellent purgative, having a good effect on the liver. It is the best pill used." —Frank Spillman, Sulphur, Ky.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by Druggists Everywhere.

## Every Dose Effective

## WE WANT YOU

to work for us. We furnish no expensive outfit and all you need is a little time to try the business. We will treat you well and help you to earn ten times ordinary wages. Both sexes of all ages can live at home and work in spare time, or all the time. Any one anywhere can earn a good living. We offer you a chance to earn Two Hundred Dollars a Month. No class of people in the world are making so much money without capital as those at work for us. Business places strictly honorable and pays better than any other offices or agents. We equip you with everything and supply printed directions for beginners which, if obeyed faithfully, will bring more money than will any other business. Incidentally, we expect many men to work day and night and surely at work for us. Reasonable industry only necessary for absolute success. Pamphlet circular giving every particular is sent free to all. Delay not in sending for it.

GEORGE STINSON & CO.,  
Box No. 488, Portland, Me.

sia and cure. Sold by Dr. E. Detchon,  
236 Main St., and all druggists. ly

## Mrs. Ada Robb's Recital.

About twenty people from this city drove down to La Jolla Saturday to attend the benefit recital of Mrs. Ada Robb at La Jolla's beautiful new opera house. A large and appreciative audience was present and each rendering was roundly applauded. Mrs. Robb was very ably assisted in the entertainment by Miss Mollie Harrison, a local elocutionist. Although lacking that ease and grace that is only acquired by birth or long practice upon the stage, Miss Harrison is a wonderful lady in her line. Her rendition of "The Confessional" which is one of the most difficult known to persons of her art, was excellent, while her "Creed of the Bells" was vociferously received. Mrs. Robb possesses a voice that for purity of tone and natural sweetness is unequalled. She is a lady of rare musical ability whose fame is yet in its infancy. Her selections for the evening were beautiful and had been chosen with a desire to please her audience. After the entertainment Mrs. Robb and the people from this city were tendered a reception at the elegant home of Mr. and Mrs. Newt. Foster, and the remainder of the evening was delightfully spent in music dancing and feasting. Mrs. Robb will leave Monday for the Chicago School of music from which she will graduate next June.

## Charley Crowder's Invention.

Charley Crowder, a Montgomery county boy and for many years an employee of THE REVIEW, has an invention which if a success, will make him rich. Speaking of it at the Richmond Item says:

Charley Crowder, of the Dunkirk Observer, formerly of the Item, has been at work for several months on an invention that now, in the last stages of completion and perfection, promises to make him some money.

The invention is a machine that will do away with the labor of a press "feeder" or, to those who are not familiar with printers' phrases, the man who feeds the sheets through the press.

In all large cities where newspapers of immense circulation are printed, presses that are self-feeders are used, the paper being a continuous roll perforated at equal distances and the editions of the newspapers are run off at an enormous speed. But in the smaller towns where these "perfecting" presses come too high for use there has never been a successful machine made that would feed the sheets through from pile, and this Mr. Crowder's invention pretends to do. At a trial the other day a pile of papers were placed upon the press within the machine and sixty papers per minute were printed, showing that the piece of mechanism can do the work faster than a man.

Mr. Crowder expects to be granted a patent soon, and will manufacture the machine so that the price will enable every country office in the land to purchase one. It's the hope of his friends that there's "a million in it."

To the Citizens of Crawfordsville.

CRAWFORDSVILLE, IND., Sept. 5.

The prospects for new students in the college were in the early summer most flattering. Owing, however, to the present financial depression, many young men who expected to attend will be prevented, unless they can in some way, by their own exertions, diminish their expenses.

Are there not some who will be ready under these circumstances to offer room, or board, or both to some of these, in return for some service which they can render? And are there not others who will endeavor to find something which these young men can do, for which they may receive some financial return? These needy students are in general, our best ones; they are those whom we wish in the college. Can I not confidently appeal to the many friends of Wabash in this community to aid me in endeavoring to provide for these worthy young men? Please address communications directly to me.

Yours Sincerely,  
G. S. BURROUGHS.

## Can This Be True?

Albert Wilson, of Round Hill, is of the opinion that money is very cheap, but does not relish the sudden rise in postage stamps, paying \$5 dollars last week for a two-cent Columbian stamp. He was not compelled to pay the high price but by mistake gave two \$2½ gold pieces mistaking them for pennies, and when he discovered his mistake and called at the Crawfordsville postoffice for a correction, the officials kindly informed him that they made no corrections after sleeping over mistake, that is if the mistake was in favor of the present incumbents.—New Richmond Enterprise.

## \$100 Reward \$100.

The reader of this paper will be pleased to learn that there's at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHEENEY & Co., Toledo, O.

The soldiers in the Norwegian army are the tallest in Europe.

## FEEDING THE STARVING.

Thousands of Hungry People Get Free Bread in Chicago.

CHICAGO, Sept. 2.—The Jewish relief committee is doing noble work feeding the hungry poor, both Jews and Christians. As yet no Christian church has made an organized effort in aid of the unemployed.

Throngs of hungry people again crowded about the temple on Judd and Clinton streets for something to eat. Three thousand or 4,000 were there bright and early ready to receive the first tickets that were handed out. When the day before 11,412 persons were relieved of the pangs of hunger it was thought a large number, but between the hours of 9 a. m. and 4 p. m., tickets were handed out for 15,467 persons. One thousand or more were given out of which no record was kept, the rush being so great at one time as to render this impossible. There were 1,000 persons who had not received tickets when 4 o'clock came. These found their way to the office at 569 Canal street, where Mrs. Ropperl gives out tickets to those who cannot wait. In all, 3,605 families were cared for, consisting of 7,353 adults and 8,109 children. This required 13,827 loaves of bread and 4,921 pounds of meat.

It was doubted whether the relief station would be opened in the morning on account of lack of funds. But City Comptroller Wetherell was instructed to turn over to Mr. Koppel \$1,500 of the \$2,100 subscribed for the general relief committee, and \$175.50 was received during the day.

Alderman Madden has a plan for giving employment to 20,000 men. The city has let contracts for the improvement of streets to the amount of \$5,000,000. The money is collected by special assessment and is not due until next year. Contractors ordinarily take estimates on the work and use them as capital. This year the banks have refused to advance money. Alderman Madden's suggestion is that men who have the money and want to make a safe loan put it out for this purpose, thereby permitting the work to begin at once. M. J. Keane of the board of education says five new school buildings are to be built to cost \$60,000 each, which will give employment to several hundred men. The west park board also intends to push work on improvements.

Peter F. Bryce, president of the Bryce Baking company, with business at 63 and 65 North Lincoln street, has offered to make all the bread required, if some one will only furnish the dough.

BOYCOTT ARMOUR'S MEATS.

Result of a Strike at Kansas City—All Workmen Called Upon.

KANSAS CITY, Mo., Sept. 4.—The industrial council, composed of delegates from all organizations of labor bodies in the two Kansas cities, representing some 150,000, has declared a boycott against all products turned out from the Armour establishments. This is a result of a strike of the forty-five butchers of the Armour packing house who quit work rather than accept a 10 per cent reduction in wages. The situation was aggravated by a remark, said to have been made by Sup't Tourtellotte, to the effect that his company wasn't forced to reduce wages, but simply took advantage of the hard times to reduce pay. Mr. Tourtellotte denies having made any such statement. The industrial council has appealed to other similar bodies throughout the country to declare a boycott against the Armour's.

FOUNDED WITH HIS THROAT CUT.

NASHVILLE, Ill., Sept. 4.—While several boys were out hunting east of this place, they discovered a man lying under a tree apparently dead. Upon investigation they found he was alive, but his throat was cut from ear to ear. They summoned help and he was immediately brought to this city. Medical aid soon revived him. He made a statement saying that he had received his wound at the hands of a strange man and that he had been robbed. He also said he lived in St. Clair county. The authorities there were communicated with. Henry Lehman, a respected German of Belleville, has been missing since Thursday morning and his relatives have been scouring the country for him. His daughter-in-law arrived here and identified the man found here as the missing Lehman.
