COD  
LIVER  
OIL,  
MALT,  
Hypophosphites!

That is the splendid combination known to  
physicians in hospital and private prac-  
tice as Magee's Emulsion.  
Life is fire.  
Cod Liver Oil is fuel.  
Emulsion is the mechanical separation  
of the fat that it may be better fed the  
fire.

Magee's Emulsion  
is called by physicians "the finest made,"  
it deserves the high praise.  
Nothing can excel it; doubtful if any  
equal it.  
It will not grow rancid and nauseate you;  
it will remain sweet to the last drop.  
The distinctive combination with Hypo-  
phosphites and Malt gives new life and  
strength to the delicate.  
Supply more fuel than is consumed, and  
the fire is kept burning.  
Magee's Emulsion will do that for you.  
Try it, and tell the story of your recovery  
that others may know its marvelous power  
in restoring vitality and strength.

SHOULD ADJOURN.

After an attempt of near three months  
to secure the repeal of the Sherman act  
Congress is now no nearer, it would ap-  
pear, in accomplishing it than it was the  
first day it assembled. It should ad-  
journ and stop the foolishness. It seems  
to be a case of "bull head" all around  
and there seems little probability of  
there very soon being an agreement.  
The Sherman law will have to remain  
for a time at least. The President from  
his view of the situation demands un-  
conditional repeal or nothing. The  
western Senators with a number from  
the south and east, with some repub-  
licans, demand a substitute for the pre-  
sent law, by which the purchase and  
coinage of silver will be continued. This  
is the present situation. As neither  
side will concede anything why continue  
the farce? It would be better for the  
country under existing circumstances if  
Congress would adjourn. Let the mem-  
bers go home to their constituents and  
they will hear from them such opinions  
and views as they do not now possess.  
We believe that so far as the west is  
concerned the views of the democracy  
are not in accord with the President.  
We favor bimetalism, gold and silver  
both, and do not see, aside from specu-  
lators in money and bonds, how the  
rest of the country can get along with-  
out both. Unconditional repeal would  
be very agreeable to Wall street, but  
not to the mechanic, laboring man, and  
the millions of tillers of the soil in  
various parts of the country. Silver is  
the coin of the people and has been for a  
century or more. Gold is the money of  
the bondholder, the speculator, the  
non-producer. The President, an east-  
ern man, and with eastern influences,  
would seem to have little sympathy for  
silver advocates. Honest money! Why is  
not silver honest money even if it has not  
a yellow color? Why should gold alone  
be the leading coin. It would seem to  
be solely because there is more to be  
made in handling it, and is more desired  
in consequence among those whose  
business is to trade in money, bonds,  
etc. With this class of the people we  
in the west have little sympathy. Their  
interest and ours are not identical. We  
cannot then but encourage those who  
have taken a determined stand for bi-  
metalism. They represent a much larger  
constituency. But why continue the  
discussion? Let the present law remain  
until, at least, there is some prospect of  
this bull-headism giving away before  
reason and sound sense. Congress  
should drop the subject, take up some  
other subject or adjourn.

### RAILROAD DISASTERS.

Accidents by railroads seem never so  
numerous as during the past six months  
in this country. The destruction of life  
and property have been frightful to con-  
template. Most of these have resulted  
on "lightning," "flyer" or "cannon ball"  
trains, as the fast men operating them  
are pleased to term them. These fast  
trains are created for those who desire  
to go quick, and are impatient at the  
ordinary progress of most trains. We  
live in a fast age, entirely too fast for  
the well being of the community. Fifty  
years ago the man completing a journey  
of 50 or 75 miles in a day was well sat-  
isfied. Now he must go 250 or 300 in the  
same length of time or he is out of joint  
and greatly dissatisfied. Slower trains  
should be run, and fewer accidents will  
be chronicled. A speed of 25 miles per  
hour should be the regulation time and  
none speedier permitted. Business  
would go on just as well if that rule  
were adopted and these harrowing ac-  
cidents we now read of almost daily, of  
loss of life, mangled remains, burned  
coaches, etc., would be much less fre-  
quent. For the good of the public and  
themselves it would be much better if  
slower time of train runs were adopted.  
As it is we must continue to read of  
railroad accidents and loss of life and  
property just the same as heretofore.

### A NEW TRIAL, BUT TOO LATE.

As was known, the Supreme Court  
last week granted Rev. Fred Pettit a  
new hearing, sent up on a life sentence  
from this county three years ago for the  
murder of his wife.

Through a mass of legal phrases which  
are intelligible to but few outside the  
profession, we are given to understand  
that some rulings of the court below  
were wrong, or that errors of some kind  
crept into the trial of such sufficient im-  
portance as to entitle the defendant to a  
new trial. But the decree of the  
Supreme Court came too late. The un-  
fortunate man died within forty-eight  
hours afterwards and is now called to a  
higher tribunal, there to be examined  
for the deeds done in the body, and  
whether guilty or innocent his troubles  
here are over. A large number of the  
people both here and in Tippecanoe  
county have never been satisfied with  
his conviction on the evidence produced  
at the trial, saying that there was entire-  
ly too much of circumstantial testimony  
and are pleased that a new chance for  
life and liberty was granted Pettit;  
others considered him a double-dyed  
murderer and the sentence that he re-  
ceived was justice and just what he  
deserved. Since the trial, Nov. 1890,  
three of the attorneys engaged in it have  
passed from this life to the world  
beyond, and a number of the witnesses  
have died or moved from the state. The  
tax-payers of Tippecanoe county were  
put to an expense of \$20,000 or more in  
the trial of Pettit, and will congratulate  
themselves, that while not desiring the  
demise of any man, that they are  
through with that burden at last.

Don't it look somewhat cowardly to  
kick down and expose the short-comings  
of an old man in the community, when  
there are so many of the "high tones"  
whose peccadilloes and scandalous con-  
duct is entirely overlooked? It certainly  
does. If one church member should be  
"ripped up the back" for unlawful con-  
duct then all the rest should. Making  
fish of one and fowl of the other is not  
fair, but the wrong doings of the well-to-  
do should be published just as quickly  
as the poorly clothed and lowly in posi-  
tion. It is perfectly proper to fill a half  
column with the drunken antics of "Nig"  
Seering, for instance, but let some man  
high in the councils of the church or  
his political party get on a big drunk or  
engage in questionable conduct with  
the servant girl, and it must be rigidly  
suppressed from the columns of a news-  
paper. That is about the principle  
upon which some publishers act. Now  
the question is, is this fair? Most peo-  
ple, men and women, act on the princi-  
ple, kick a person down the hill that is  
going that way, but it is decidedly un-  
christian, unfair and cowardly in the  
extreme. Human nature is weak, and  
the wrongs of any one man should not  
be singled out for publication and those  
of all the remainder omitted. Publish  
all or none, everything or nothing, rich  
and poor, prominent and obscure. This  
would be the correct plan to pursue.

### A PROPER DOSE.

At Salem, Washington county, five  
White Caps, who had engaged in the  
whipping of a woman, one of them be-  
ing her husband, received sentences for  
various periods of time to the peniten-  
tiary. Three of them were sentenced  
for five years each and the other two  
for shorter terms. It is a wholesome  
sign to read of the punishment of these  
outlaws. It looks from this that this  
system of crime would begin to be quite  
unpopular and in a few years become  
obsolete. It is certainly time. The  
State has been disgraced too long with  
their disgraceful proceedings. Good  
strong allaopathic doses like the Salem  
Judge administered will have a strong  
tendency to blot out the White Cap  
business completely and those who are  
the most frequent violators of the law  
will become the strongest of advocates  
for its observance.

### UNITY IN DEBTEDNESS.

The city has been compelled to bor-  
row another \$10,000 to pay off current  
indebtedness. It has frequently had to  
do this before. It well illustrates the  
miserable financial management of the  
past few years of the city. The present  
city government should purchase  
another electric light plant. It needs it  
badly. It should contract for one for  
\$35,000, and after a few months juggling  
raise the price to \$80,000. That is just  
what was done, and all under the man-  
agement of republican councilmen, and  
for whom the Journal is the organ with  
the city printing thrown in. Some of  
the individuals responsible for the elec-  
tric light plant debt will have the gall  
next year to offer themselves as candi-  
dates for various city offices. Voters of  
all parties should retire them promptly  
into obscurity. For the high taxation  
in the city these men are solely respon-  
sible. For the big debt which the city  
must pay they alone are the cause of it.

THE never-dying thirst of republicans  
for office was never better illustrated  
than at Indianapolis since Denny and  
the republican ticket were victorious.  
There are about sixty small official posi-  
tions to bestow yet for these places there  
are near 1,500 applicants.

THE name of one of the jurors hearing  
the trial at Lebanon of the state against  
Brown for the killing of Wesner, the  
attorney, is Ben Hur. No relation of  
Gen. Wallace's Ben probably.

### EVERYBODY KNOWS HIM

A PROMINENT MEMBER OF THE  
MAINE LEGISLATURE.

WHAT HE SAYS WILL RING OVER  
THE WHOLE LAND.

As the Trumpet Tongued Utterances of  
One of Our Great Men.

The word of Hon. John R. Prescott,  
formerly a prominent member of the  
Maine legislature, is all powerful.

Mr. Prescott lives at Rome, Me.  
Everybody knows him, everybody re-  
spects him and everybody believes what  
he says.

And it is an interesting story which he  
tells and an eloquent tribute which he  
pays.

Thirty-two years ago, he says, "I was  
attacked with neuralgia in my face and  
head, mostly confined to the right side.  
There was not often a day or an hour  
that I was not suffering with that terri-  
ble severe pain, so severe a great many  
times that for several days and nights I  
could not sleep or take any food except-  
ing a little gruel.

My nerves were terribly affected and I  
grew weak and feeble, as my many  
friends in the state of Maine, and more  
particularly in Kennebec County will  
certify to.

About five years ago I was taken with  
what the physicians claim to be a liver  
and kidney trouble, a soreness over the  
right kidney, so much so that I could  
not bear to be rubbed.

My bowels were very much constipat-  
ed, could not urinate freely, and suffer-  
ed severe pain at such times.

My troubles increased very much, and  
for the past six months I could not get  
up from my bed in the morning and  
dress before I would be in pain in  
my back and bowels.

I would often be forced to drop down  
and rest me and many times be in such  
pain that I would cry like a child and  
ask why I could not die.

I have used for the neuralgia all the  
liniments I have ever seen advertised for  
the cure of that disease, and for my  
nerves and kidney and liver trouble I  
have taken so many remedies that they  
are too numerous to mention.

I have been treated by the leading  
physicians of Maine, have also been to  
Massachusetts to be treated by physi-  
cians in Boston, and from all I have re-  
ceived very little benefit. One eminent  
physician said that I could not be cured,  
and many physicians examined me and  
refused to treat me.

I had given up taking medicine.

HON. JOHN R. PRESCOTT, OF MAINE.

About the middle of December, 1892,  
my wife had been reading some of the  
testimonials of Dr. Greene's Nervura  
blood and nerve remedy. She told me  
she wanted me to try one bottle of the  
Nervura.

I said to her I had taken all the medi-  
cine I should. Shesent to A. P. Cram,  
the druggist at Mt. Vernon, and bought  
one bottle of the Nervura, and said she  
wanted me to give it a fair trial.

I commenced taking it about the 25th  
of December. When I had taken it  
about two weeks the pain left me entire-  
ly from my back and bowels, and I can  
urinate freely without pain and the neu-  
ralgia troubles me but very little.

I gained in weight in the month of  
January twelve and one-half pounds. I  
am 67 years old and can work now every  
day, while before taking Dr. Greene's  
Nervura blood and nerve remedy I could  
not do any labor excepting a few chores.  
I hope that anyone who is suffering  
from any trouble with the nerves or liver  
or kidneys will give Dr. Greene's Nervura  
blood and nerve remedy a fair trial.  
I know that they will get relief.

I can truly say that I thank God that  
such a medicine as Dr. Greene's Nervura  
blood and nerve remedy was created, and  
I still thank Him that I was induced to  
take this wonderful medicine.

I write this without any solicitation.

The cure of so prominent and widely  
known a public man as the Hon. John R.  
Prescott has created an immense stir  
throughout the entire State of Maine.  
His friends and acquaintances are sur-  
prised, nay, amazed, at his cure, for they  
had long looked upon his recovery as  
hopeless. People are calling on him  
from New Sharon, Mercer, Belgrade, Mt.  
Vernon and Rome, and people are writ-  
ing him from all over the country, in-  
quiring about the remarkable facts of  
this cure by this truly wonderful health-  
giver, Dr. Greene's Nervura blood and  
nerve remedy.

It is purely vegetable and harmless  
and all druggists sell it for \$1. We  
would also add that it is the discovery  
and prescription of a well-known physi-  
cian, Dr. Greene of 35 W. 14th St., New  
York, who can be consulted free, person-  
ally or by letter.

There was a young wife in  
Good Hope,  
Who always used  
SANTA CLAUS SOAP,  
She once lost her head,  
Put her washing to bed,  
And her Cherub hung out on the  
rope.  
BUT IT WAS WHITE AND CLEAN  
ALL THE SAME.  
FOR LAUNDRY USE  
THERE IS NO EQUAL TO  
SANTA CLAUS  
SOAP.  
It is the best soap made for every household use, and once  
introduced it is always recognized as a friend of the family.  
SOLD EVERYWHERE.  
Made only by N. K. FAIRBANK & CO., Chicago.
